--	-----------------	----------------	-----------------	-----------------

Three patient categories are set out below. The maximum total limit of fees payable by Manitoba Public Insurance to you for patients in each of the categories are as follows:

	Jan 1, 2022 – Dec 31, 2022	Jan 1, 2023– Dec 31, 2023	Jan 1, 2024– Dec 31, 2024	Jan 1, 2025 – Dec 31, 2025
Category 1 Limit	\$1200	\$1200	\$1225	\$1250
Category 2 Limit*	\$600	\$600	\$625	\$625
Combined Category 1 and 2 Limit*	\$1800	\$1800	\$1850	\$1875
Category 3 Limit	The maximum fee limit must be approved by Manitoba Public Insurance			

*Note: the maximum fee limit per Category 2 patient must be approved by Manitoba Public Insurance

The above Category limits will apply whether or not you have a direct-billing arrangement with Manitoba Public Insurance.

Notwithstanding the foregoing, all treatments must be medically required. Manitoba Public Insurance has sole and unfettered discretion to adjust the category fee limits (higher or lower) on a case-by-case basis as it determines necessary.

All fees, except for those fees specifically excluded in this Schedule, are included within the above category fee limits. The fee limits for Categories 1 and 2 apply to all treatment types and all patient office visits.

You may charge up to the maximum fee as set out in above, per patient office visit, in order to be eligible for direct-billing with Manitoba Public Insurance. If you charge more than the allotted maximum fee for an office visit, the patient will be responsible for paying the entire charge directly to you, and you will not be entitled to direct-bill Manitoba Public Insurance for that charge. If this visit “over-charge” occurs, Manitoba Public Insurance may choose to review the fee(s) you charge and may, in its sole and unfettered discretion, refuse direct-billing privileges to you on a go-forward basis.

Reimbursement for acute care supplies will only be approved by Manitoba Public Insurance where the supplies are provided within ninety (90) days of the patient’s

loss, and where their provision is based on actual patient need. Where the combined cost of these supplies is under \$95.00, this charge will be deemed automatically approved. If the combined cost of these supplies exceeds \$95.00, pre-approval for all the supplies must be obtained from Manitoba Public Insurance.

Further explanation of these rates is provided in the sections below.

2. Coverage:

All claims for coverage of a compensable loss require Manitoba Public Insurance's approval. Manitoba Public Insurance will provide a decision on approval for each coverage claim within three (3) business days of receipt of the request, failing which, approval is presumed thereafter. Manitoba Public Insurance will not unreasonably withhold coverage approval for a claim. Any lapse in treatment of ninety (90) days or longer will require Manitoba Public Insurance's approval to continue with coverage. If treatment following a lapse greater than ninety (90) days is approved by Manitoba Public Insurance, a re-exam fee may be billed.

3. Consultation Fee

The consultation fee applies to an in-person meeting or telephone consultation between you and a Manitoba Public Insurance case manager, Manitoba Public Insurance medical consultant, or external rehabilitation consultant for the purpose of discussing pertinent claimant information related treatment. The fee is an hourly fee billed to one (1) minute increments. The fee excludes time you spend on billing inquiries and time spent on seeking initial approvals.

4. Initial Assessment and Subsequent Visit Fee:

Only one such session shall be permitted per day.

5. Clinical Notes:

Clinical notes requested by Manitoba Public Insurance shall be paid for at the flat rate regardless of the number of pages.

6. Form Reports

Manitoba Public Insurance does not require a form report for any "at work category 1 claimants" and shall not pay for one, unless specifically requested by Manitoba Public Insurance.

In cases where the claimant is seeking more than one treatment modality (for example chiropractic or physiotherapy in addition to chiropractic) either consecutively or concurrently, an initial form report shall be submitted if chiropractic is the second modality of treatment being sought by the claimant.

In the event that the form report is not provided to Manitoba Public Insurance within twenty-one (21) days of the date of examination of the claimant the report

is no longer required and no payment shall be made unless it is specifically requested by Manitoba Public Insurance.

7. Narrative Reports

Where a written communication is requested by Manitoba Public Insurance, it will be billed per page, to a maximum of five (5) pages per report. Half pages will be charged at a rate of one half of the full page fee. You shall use 1" margins, single spaced and 12 font in order to be eligible for payment.

8. Ancillary Services:

Where a particular service is not addressed by this rate schedule Manitoba Public Insurance may either (i) negotiate the fees to be charged for such specialized services on a case-by-case basis with the service provider, or (ii) set the fees that will be charged for such specialized services on a case-by-case basis.
