Table of Contents

2027 GENERAL RATE APPLICATION 20
- June 25 - MPI to PUB 2027 GRA EFA notice 21
- June 24 - MPI 2027 GRA Filing Letter 22
- Table of Contents
- PART I - Introduction 24
  - INT Introduction 25
- PART II - Application 35
  - LA Legal Application 36
    - LA Appendix 1: Certification 44
  - COM Compliance with PUB Orders 45
    - COM Appendix 1: Compliance Filing Letter 56
    - COM Appendix 2: Claims Cost Control 2027 GRA 222
    - COM Appendix 3: Directive 14.11 KPI Update Multi-Year Strategic KPIs - Redacted 231
    - COM Appendix 4: Directive 14.12 Measurement against Multi-Year Strategic Plan 250
    - COM Appendix 5: Directive 14.13 Strategic Plan post closure NOVA 268
    - COM Appendix 6: ALM Technical Conference Responses 274
    - COM Appendix 7: Directive 14.31 Road Safety Technical Conference Materials 287
    - COM Appendix 8a: WTW Agreement Oct 1 2025 - Redacted 440
    - COM Appendix 8b: WTW Amendment Apr 1 2026 - Redacted 482
    - COM Attachment A: MPI ALM Technical Conference Presentation WTW 484
  - MFR Minimum Filings Requirements 496
    - MFR Appendix 1: MFR A2 Benefits flowing to Manitobans through Strategic Plan 525
    - MFR Appendix 2: Historical and Forecast RSR Capital 531
    - MFR Appendix 3: Actual and Forecast Minimum Capital Test 532
    - MFR Appendix 3a: Basic MCT Actual Forecast 3905
    - MFR Appendix 4: PIPP Counts as of March 2026 MFR E3 534
    - MFR Appendix 5: MFR E8 535
    - MFR Appendix 6: MFR E9 536
    - MFR Appendix 7: Corporate Structure March 29 2026 537
    - MFR Appendix 8: MFR G4 Hot Maps 547
    - MFR Appendix 9: Actual vs Actuarially Indicated discounts 562
    - MFR Appendix 10: Extension Transfers to DVA and Basic 564
  - OV Overview 565
  - GLO Glossary 580
- PART III - Basic Autopac Coverage including Comparison to Other Jurisdictions 611

BAC Basic Autopac Coverage and Benefits 612
BAC Appendix 1: Summary of Basic Autopac Coverage and Benefits 634
BAC Appendix 2: PIPP Legislated Enhancements and Amendments 643
BAC Appendix 3: Corporate Customer Survey 650
CBP Comparison of Basic Policies to Other Jurisdictions 661
PART IV- Benchmarking 718
BMK Benchmarking 719
BMK Appendix 1: Vehicles Rates Comparison 732
BMK Appendix 1a: Customer Profiles 737
BMK Appendix 1b: Cross Jurisdictional Rates 738
BMK Appendix 1c: Rate Comparison by City 739
PART V - Information Technology and Governance 769
IT Information Technology and Governance 770
IT Appendix 1: IT Summit Presentation - Redacted 814
IT Appendix 2: IT Summit Report - Redacted 843
IT Appendix 3: IT Risk Register - Redacted 868
IT Appendix 4: External Labour Status Update 871
IT Appendix 5: Major Programs Independent Governance and Risk Advisory Annual Summary 879
IT Appendix 6: NOVA Lessons Learned 3905
IT Appendix 7: NOVA Contracts 897
IT Appendix 8: Benefit Realization Management 898
IT Appendix 9: Corpporate Project Listing - Redacted 3905
IT Attachment A: Annual IT Benchmarking Report 914
PART VI - Claims Forecasting and Loss Trend Analysis 1010
CF Claims Forecasting 1011
CF Appendix 1: Development Appendices 3905
CF Appendix 2: Historical Earned Exposures and Claims Statistics 3905
CF Appendix 3: Loss Trend Analysis Appendices 3905
CF Appendix 4: Loss Cost Projections Appendices 3905
CF Appendix 5: Claims Severity by Major Class 3905
CF Appendix 6: Extension Loss Cost Projections Appendices 3905
CF Appendix 7: Prior GRA Projections 3905
CF Appendix 8: Adjustments from Product Changes 3905
CF Appendix 9: Monthly Collision Data 3905
CF Attachment A: Mobility Data Report 1106
PART VII - Ratemaking 1131
RMO Ratemaking Overview 1132
RI Rate Indication 1140

RI Appendix 1: Table 1 to 5 3905
RC Risk Classification 1176
RC Appendix 1: Offsets 1216
RC Appendix 2: Rate Line Relativities 1227
RC Appendix 2a: GLM Major Class Relativities 1236
RC Appendix 2b: GLM Rate Line Relativities 1247
RC Appendix 2c: GLM Relativity Model Results 3905

Attention: Jennifer Dubois, Associate Secretary

Dear Ms. Dubois:

RE: Manitoba Public Insurance Corporation (MPI) 2027 General Rate Application (GRA) – Notice Regarding *Election Financing Act* Clearance

MPI writes further to its June 24, 2026 correspondence regarding the filing of its 2027 General Rate Application and the request that the application be held confidentially pending confirmation of an exemption under section 92 of *The Election Financing Act*.

MPI confirms that the requested exemption has now been granted. Accordingly, the confidentiality notice included in MPI's June 24, 2026 filing letter may be disregarded, and MPI no longer requests that the GRA be held confidential on that basis.

MPI understands that the GRA may now be treated in accordance with the usual public filing process before the Public Utilities Board. For clarity, this confirmation relates only to the confidentiality request made pursuant to *The Election Financing Act* and does not affect any separate redactions or confidentiality claims identified in the GRA materials.

Yours truly,

Steve Scarfone
Senior Regulatory Counsel

June 24, 2026 ***Via E-Mail***

The Public Utilities Board
400 – 330 Portage Avenue
Winnipeg, MB R3C 0C4

Attention: Jennifer Dubois, Associate Secretary

Dear Ms. Dubois:

RE: Manitoba Public Insurance Corporation (MPI) 2027 General Rate Application (GRA)

In accordance with section 25(1) of *The Crown Corporations Governance and Accountability Act*, MPI applies to the Public Utilities Board (PUB) for approval of vehicle rates and premiums for compulsory driver and vehicle insurance for the 12-month period from April 1, 2027 to March 31, 2028.

As per *the Election Financing Act*, MPI is seeking an exemption to make its 2027/28 General Rate Application public. At this time, we are requesting that the application be held confidentially until such time as the Corporation can confirm the exemption has been granted.

MPI will provide an unsecured version of the GRA on its secure File Transfer Protocol (FTP) site, accessible via a link shared by email with the PUB and prospective interveners (and their counsel). No username or password will be required. This version will also include Excel workbooks replicating the GRA tables.

MPI wants to ensure its GRA is accessible to everyone. Therefore, it is prepared to provide documents in alternative formats upon request. Accommodation needs, communications support, or alternate format requests shall be formalized to MPI's Accessibility Coordinator via:

Phone 204-985-8770, ext. 7477 Toll-free 1-800-665-2410
Video Relay Services (VRS): 204-985-8832 Email: accessibility@mpi.mb.ca

MPI has identified the supplemental filings in Overview section OV.7, including their

Executive Offices
900-234 Donald Street
Box 6300
Winnipeg, MB R3C 4A4
Ph: 204-985-8770 ext. 7525
Fax: 204-942-1133

expected timing and placement within the GRA.

MPI has redacted all confidential information within the GRA materials. Documents with partial redactions are identified in their headers, while fully redacted documents are replaced with placeholders. Upon receipt of signed confidentiality agreements and undertakings, the confidential materials will be provided to signatories via FTP, with password-protected access. Passwords will be sent separately by email.

Yours truly,

Eric Wishnowski
Legal Counsel

Introduction

INT.1 Continued Commitment to Accessible Regulatory Filings

Manitoba Public Insurance (MPI) supports and continues its efforts to simplify the language used throughout this application and remains committed to ensuring accessibility and transparency in its regulatory filings. MPI recognizes the importance of improving access and removing barriers for those who seek to understand how MPI carries on business and the basis for its requested rates and other relief.

While MPI strives to use clear, direct, and accessible language throughout the General Rate Application (GRA), some sections are necessarily technical and intended for insurance and financial professionals. MPI acknowledges that certain chapters and supporting documents may require academic knowledge or professional expertise. To support broader understanding, the 2027 GRA includes an updated *Glossary* to assist with the interpretation of key terms.

As part of its ongoing commitment to reduce barriers in its communications, MPI has continued the accessible formatting practices introduced in the 2025 GRA. These include the use of high-contrast-compatible fonts and styles, the removal of line numbers, and the addition of descriptive text for key figures to ensure compatibility with screen readers such as Adobe Acrobat Reader.

MPI is also prepared to provide documents in alternative accessible formats upon request, ensuring that individuals with specific accessibility needs can fully engage with the content.

MPI is committed to a transparent and proactive approach to providing information in its regulatory filings. However, MPI also identifies that certain information must be protected to maintain fairness and safeguard sensitive interests. In specific cases, documents may be treated as confidential to prevent the risk of undue financial loss or gain to individuals or entities directly or indirectly affected by the proceeding. Additionally, confidentiality may be necessary to avoid significantly harming the competitive position of MPI or third parties.

MPI adheres to the PUB's established procedures for requesting and justifying confidentiality where appropriate. For documents submitted under a claim of confidentiality, MPI ensures that either a redacted version is made available on the public record, or a placeholder is provided. This placeholder indicates that MPI is seeking special treatment for the document in accordance with PUB procedures, maintaining transparency while protecting sensitive content.

The 2027 GRA consists of 29 chapters, organized into 11 sections or parts. A *master table of contents* with hyperlinks is included in this Introduction chapter, along with a summary of each section's content to help guide readers through the GRA.

INT.2 Application

This Part includes the following chapters: Legal Application, Compliance, Minimum Filing Requirements, Overview, and Glossary.

Legal Application

The *Legal Application* contains the relief sought by MPI in each GRA. It provides a clear and concise explanation of what MPI wants the PUB to decide upon regarding its application. Further to rate changes, MPI's *Legal Application* may include other requests such as approval of new or changes to existing fees charged for insurance products or services.

Compliance Chapter

When presented with a request for relief in a regulatory filing, the PUB has the authority to consider and respond to the proposals submitted by MPI. At the conclusion of the process, the PUB issues an Order that may approve, vary, or dismiss the relief sought. These Orders often include related directives with which MPI must comply (and report on).

The Compliance chapter of the GRA includes a list of active directives, along with references to relevant sections of the application or specific appendices that detail MPI's responses to each directive.

Minimum Filing Requirements Chapter

The PUB expects MPI to file a comprehensive and meaningful GRA. To achieve this, it prescribes Minimum Filing Requirements (MFR). This is a set of requests defined

by the PUB, consistent from one GRA to the next. As the name suggests, this is the minimum required for the PUB to receive and process MPI's application. The *Minimum Filing Requirement* chapter lists the requirements defined by the PUB for a given application,[1] and it cross-references all the information filed pursuant to these MFRs within a distinct section of the GRA.

Overview and Glossary

The *Overview* provides the gist of an application. It summarizes the message and sets forth the reasons for the application.

The last chapter within this section is the *Glossary*. A glossary is required in various contexts to facilitate communication, enhance comprehension, eliminate ambiguity, and promote consistency. For MPI, this chapter provides definitions and explanations for specialized or technical terms that may be unfamiliar to readers. It helps ensure that everyone understands the specific meanings of acronyms used in this application.

INT.3 Basic Autopac Coverage Including Comparison to Other Jurisdictions

This section is comprised of two chapters: Basic Autopac Coverage; and, Comparison to Basic Policies to Other Jurisdictions.

The *Basic Autopac Coverage* chapter provides an overview of MPI and its role in providing compulsory automobile insurance coverage to Manitobans. It highlights the advantages of a public auto insurance system, including guaranteed access, exceptional coverage, affordability, fiscal responsibility, and accountability. This chapter explains the evolution of PIPP coverage, which is a pure no-fault injury compensation plan introduced in 1994. Lastly, it outlines the dispute resolution process available to claimants and provides an overview of the coverage categories under PIPP.

In this chapter, also provides updates on the Traumatic Brain Injury working group established in attention to section 13 of PUB Order 2/25 and recommendation number 15.6.

[1] Please see PUB Order 75/26 for 2027 GRA Minimum Filing Requirements.

The second chapter of this part is *Comparison to Basic Policies to Other Jurisdictions*. The comparison provides a detailed analysis of the basic insurance coverage in Manitoba compared to other Canadian provinces, highlighting the strengths and benefits of Manitoba's public insurance system and PIPP. This chapter also points out modifications and enhancements to coverage in other provinces. It concludes with a comparison of basic compulsory insurance benefits of five Canadian jurisdictions.

INT.4 Benchmarking

A single chapter is included in this section and labeled with the same name: *Benchmarking*.

This chapter shares benchmarking studies and industry standards allowing MPI to compare itself with its peers. The benchmarking chapter is organized under two main sections: *Canadian Vehicle Insurance Rates Comparisons and Average Premium Growth*; and, *Serving Manitobans*.

In 2027 GRA, MPI is following the revised approach introduced in 2026 GRA to vehicle insurance benchmarking. The first section, *Canadian Vehicle Rates Comparisons and Average Premium Growth.* now focuses on three Crown insurers: MPI, Saskatchewan Government Insurance (SGI), and Insurance Corporation of British Columbia (ICBC), using updated rates effective April 1, 2026.

The Second section, *Serving Manitobans,* assesses and benchmarks overall customer experience and satisfaction. MPI receives feedback directly from customers to gauge its performance in achieving excellence in service. MPI aims to position itself as a strong corporate citizen by offering quality products and services.

INT.5 Information Technology and Governance

The *Information Technology and Governance* is the singular chapter of this Part in which MPI presents a comprehensive vision for its Information Technology (IT) division, outlining a strategic transformation aimed at modernizing infrastructure, improving service delivery, and managing IT risk. The chapter is structured around key themes that reflect MPI's evolving digital priorities.

This chapter includes sections on *Enterprise Project Management Office* and *Major Programs*. It is intended to provide a clear and transparent update to the PUB on MPI's project governance, delivery approach, and portfolio performance. The narrative also underscores MPI's hybrid approach to project delivery alongside an explanation of how projects are funded and prioritized. As appendices to this chapter, MPI provides detailed information on its Value Management framework and governance; a comprehensive view of all IT initiatives and their associated value and costs; and, compares current capital spending on major projects to the prior GRA, highlighting key variances.

INT.6 Claims Forecasting & Loss Trend Analysis

This part has one chapter, *Claims Forecasting*. This chapter provides a detailed and data-driven analysis of projected claims costs for the subject rating year. It outlines the methodologies, assumptions, and economic factors influencing MPI's forecasts, which are critical for setting insurance rates and ensuring financial sustainability.

INT.7 Ratemaking

In this part of the filing, MPI provides details of its rate setting framework, which is based on Accepted Actuarial Practice (AAP). There are five chapters in this part of the GRA, all dedicated to pricing.

The *Ratemaking Overview* chapter contains a signed certificate from the Chief Actuary, confirming that the indicated rates MPI includes in its application were derived in accordance with AAP and based on reliable and sufficient data.

The *Rate Indication* chapter provides details on the process of calculating the actuarily indicated rate. The rate indication approach involves setting rates to cover forecasted claims and expenses for the rating year. The rate indication is allocated to major classes such as private passenger vehicles, commercial, public, motorcycles, trailers, and off-road vehicles.

Risk classification is the third chapter of this part. This is crucial in ratemaking to ensure that premiums cover claims and expenses not only on an aggregate basis but also at a risk classification level. MPI uses four risk classification groupings based on location, use of the vehicle, type of vehicle, and driving record, balancing simplicity and equity of rates.

In the *Dislocation Reports chapters*, MPI provides an overview of the rate modeling process used by MPI to analyze and simulate the impact of adjustments to vehicle premiums. MPI also outlines in this chapter specific rules and exceptions for different vehicle classifications, as well as the final impact of rate changes. It concludes with summary reports indicating proposed overall rate changes and their distribution among vehicles.

In *Application Rate Tables*, MPI provides a compendium of relevant rate tables, including a list of MPI fees, percentage of rebate discounts and surcharges, in addition to the electronic version of Basic rates by rate groups and insurance description.

INT.8 Financial Forecasting

This part is comprised of the following chapters: *Pro Formas*, *Financial Forecasting Model*, *Net Claims Incurred*, *Revenues*, *Expenses*, *External Actuary Review*, and *Financial Condition Testing report*.

The *Pro Formas Chapter* presents a detailed set of forecasted financial statements that support MPI's rate application and demonstrate compliance with regulatory requirements. These pro forma statements are filed in accordance with the MFRs and are designed to provide the PUB with a view of MPI's financial outlook under various scenarios.

The chapter includes projected financials for the Basic line of business, reflecting the proposed rate change for the subject rating year (*i.e.*, the overall rate indication calculated in accordance with Accepted Actuarial Practice), as well as the impact of other changes. In addition to the base forecast, MPI provides comparative statements showing actual, budgeted, and forecasted results from the past and current GRAs, with variance explanations; no-rate-change scenarios to isolate the impact of rate adjustments; Extension line forecasts, acknowledging their influence on Basic through capital transfers; and Autopac (encompassing Basic and Extension) financials prepared under IFRS 17 - Insurance Contracts accounting standard.

MPI generated these financial statements through a forecast model, which updates are listed in a chapter named *Financial Forecasting Model*. MPI lists therein changes in forecasting assumptions or independent calculations within the model since the last application.

An input of the financial forecasting exercise is the calculation of net claims incurred. The *Net Incurred Claims* chapter covers the methodology used to produce the forecast. An essential component of the financial forecasting process is the calculation of net claims incurred. This chapter focuses on the methodology used to translate ultimate loss estimates, which are initially forecasted by accident year, into fiscal year amounts that align with financial reporting requirements. The emphasis is on how these conversions—guided by specific assumptions and methodologies—impact the fiscal year statement of operations.

The *Revenues* chapter summarizes the methodologies MPI uses to forecast motor vehicle and driver premiums, reinsurance premiums, service fees, and other forms of revenue applicable to Basic Universal Compulsory Automobile Insurance. In the present GRA, MPI submits tables and schedules based on the requested overall indicated premium rate for Basic for the subject rating year.

The *Expenses* chapter provides MPI's operating expense forecast for a five-year period beginning with the current fiscal year, with a focus on the management of operating expenses for Basic.

External Actuary Review – MPI provides reports prepared by its External Appointed Actuary. Two reports will be provided (*EAR Attachment A* and *Attachment B*) prepared for the Basic policy liabilities.

The last chapter of this part is the *Financial Condition Testing report (FCT)*. This test is a crucial process used by organizations to understand implications of the business plan on capital and provides awareness of the risks to which capital is exposed. This testing provides valuable insights into the financial risks faced by MPI. MPI will be completing the Basic FCT report, which will be submitted when the GRA is updated before the start of the oral hearing.

INT.9 Investments Management

This Part has three Chapters: *Investment Management*, *Asset Liability Management Study*, and *Financial Forecasting: Investments*. In the *Investment Management* chapter, MPI addresses regulatory directives and Minimum Filing Requirements, including an Investment Performance Analysis with attribution.

The *Asset Liability Management Study* Chapter is dedicated to the study currently underway, providing details on MPI's risk appetite and risk tolerance. In this chapter, MPI – through its non-discretionary Outsourced Chief Investment Officer (OCIO) – shares interim results of the study and an expected timeline with its key milestones.

The *Financial Forecasting: Investments* chapter provides an update of MPI's investment forecast, bridging and explaining differences from previous forecasts filed with the PUB, in 2026 GRA.

Even though the outline differs from previous filings, the content included in this section remains consistent with previous filings.

INT.10 Risk Management Framework

MPI dedicated this part to one chapter, *Risk Management Framework*. Therein, MPI shares updates on the adoption of Enterprise Risk Management (ERM) into its business practices. This chapter also discusses MPI's Risk Appetite Statement, ERM Policy, and top corporate risks.

INT.11 Reporting and Publications

This last part of the application stores Annual reports and Business Plans of MPI. Also included as an appendix are copies of the Notice of Public Hearings and the Public Invitation prepared for this application.

Legal Application

LA.1 Relief Requested

Manitoba Public Insurance (MPI) hereby applies to the Manitoba Public Utilities Board (PUB) for approval of rates for services, pursuant to Section 25(1) of *The Crown Corporations Governance and Accountability Act*, C.C.S.M. c. C336.

LA.1.1 Rates for Service, Fees, Fleet Rebates/Surcharges

In this General Rate Application (GRA), MPI requests the following relief:

1. in accordance with Accepted Actuarial Practice (AAP) in Canada, approval of an overall rate increase of 2.38% for compulsory automobile insurance provided through the Basic line of business for the 12-month period April 1, 2027 through March 31, 2028;

2. approval to move all Driver Safety Rating (DSR) discounts one-half of the way toward their actuarially indicated percentages for each positive DSR level and then rounded down to the nearest whole number, with base rates adjusted to off-balance these changes;

3. notwithstanding PUB Order 156/25 (Directive 7) and the Regulatory Deferral Account (RDA), consideration for recovery from Basic ratepayers the initiative expenses forecasted to be incurred in the 2027/28 rating year (approximately $10.1M);

4. a declaration that the balance in the RDA as of March 31, 2027, is no longer of any value for rate setting purposes and therefore not recoverable from Basic ratepayers;

5. as supported by the financial forecast, no capital build or rebate provision because, on March 31, 2026, the Rate Stabilization Reserve (RSR) was at a Minimum Capital Test (MCT) ratio of 108% and is projected to remain at or over 100% MCT throughout the forecast period;

6. approval to expand the number and range of vehicle rate groups under the Canadian Loss Experience Automobile Rating (CLEAR) system used to establish premiums for specific passenger vehicles and light truck vehicles by adding rate groups 46, 47, 48, 49 and 50, subject to a maximum capping increase of +2 rate groups for any vehicle; and,

7. no changes to:

    a) Miscellaneous Permits and Certificates;
    b) Driver Premiums; and
    c) Basic Service and Transaction Fees.

LA.1.2 Final AAP Rate

MPI calculated the applied-for rates in accordance with AAP in Canada for the 2026/27 rating year (*i.e.*, effective April 1, 2027 through to March 31, 2028). *Part VII Application Rate Tables Chapter* presents tables detailing the service rates and fees for the 2027/28 rating year, for new and renewal business.

MPI will not be updating the rate indication or its financial forecast but will provide an update to the New Money Yield based on August 31 data.

LA.1.3 New Money Yield

The 2027 GRA forecast is based on a Naïve interest rate forecast as at March 31, 2026, using a weighted average of all the asset classes in the Basic Claims portfolio.

MPI used the actual yield and duration of the marketable bonds, which includes provincial bonds, corporate bonds, and real return bonds. The actual duration and yield of the Municipal Universities Schools and Hospitals (MUSH) bond portfolio and the TD Asset Management commercial mortgage fund is used. The MSCI Quarterly Property Fund is used for the Real Estate yield. The new money yield is reduced for investment expenses.

The initial new money yield assumption was 4.64% before investment management expenses, and 4.48% after expenses.

LA.1.4 RDA balance no longer has value for rate setting

The RDA was instituted with Order 4/23, wherein the PUB directed MPI to exclude initiative expenses from rate calculations until Project Nova was fully in service. Project Nova was closed out by MPI last year.

International Financial Reporting Standard (IFRS) 14 (Regulatory Deferral Accounts) was recently replaced by IFRS 20 (Regulatory Assets and Regulatory Liabilities), published May 27, 2026. MPI will not be adopting the new standard because assets and liabilities arising from insurance contracts are not in scope under IFRS 20.

In its 2027 GRA, MPI is seeking to recover forecasted initiative expenses of approximately $10.1 million. Concerning the RDA balance (as at March 31, 2027), MPI is seeking from the PUB a declaration that the assets in the RDA are no longer of any value for rate setting purposes because the Basic rate deficiency created by the deferral of initiative expenses following the 2023 GRA was remedied through capital transfers from the Extension line of business.

MPI says that once the balance is written off, the PUB should close the RDA, given the advice under IFRS 20.

Going forward, MPI proposes to include initiative expenses in the rate setting process as contemplated in Order 30/26 (Review of Directive 7 – Continued Deferral of Integration Costs) for services prudently acquired and that benefit Basic customers. Should the PUB decide that a given cost is not just and reasonable, MPI would expect recovery to be disallowed (not deferred or tracked as a regulatory asset).

LA.1.5 Rate Stabilization Reserve – Capital Build/Rebate

On March 31, 2027, the MCT ratio of the RSR was at 108%, above the statutory target of 100% as prescribed under section 18(3)(a) of *The Manitoba Public Insurance Corporation Act*, C.C.S.M. P215 (MPIC Act) and is projected to be at or above its target ratio within the five-year forecast period.

Section 18(4) of the MPIC Act prohibits the payment of a rebate from the RSR unless, in addition to other requirements, its MCT ratio exceeds 120% at the beginning of the fiscal year. As the MCT ratio of the RSR did not exceed 120% on April 1, 2026, a rebate cannot be paid. Accordingly, MPI does not apply for a rebate in this GRA. Conversely, because the MCT is not currently below 100% MCT and is projected to achieve or exceed its target MCT ratio within the next five years, MPI does not apply for a capital rebuild in this GRA.

The financial forecast provided in this GRA again forecasts anticipated required rate changes for Basic beyond the 2027/28 rating year (2028/29 through to 2030/31).

LA.1.6 Vehicle Rating Factors

MPI uses the CLEAR system to assign rate groups to specific passenger vehicles (cars, passenger vans and sport utility vehicles) and light trucks and to establish their premiums. The CLEAR system, produced by the Insurance Bureau of Canada (IBC), uses actual loss experience data from across Canada to determine relative loss cost

indices for specific vehicle descriptions (make, model and model year). These indices consider the varying costs of collision, comprehensive and injury claims associated with these vehicle descriptions. IBC uses the expected claims costs for each vehicle description to establish CLEAR rate groups. IBC annually updates CLEAR rate groups to account for changes in claims costs for vehicles. For collision and comprehensive coverages, CLEAR recommendations range from rate groups 1 to 99.

MPI currently uses rate groups 0 to 45 and assigns new vehicle descriptions to specific rate groups as they enter the local market (based on CLEAR recommendations as they become available). In the 2027 GRA, MPI applies for approval to again expand the range of rate groups by adding rate groups 46 to 50 (rate groups 42 – 45 were added last year).

The *Risk Classification Chapter* (Part VII) outlines the rationale for adding rate groups 46 – 50 for the 2027/28 policy year. MPI is proposing that the maximum number of rate groups a vehicle can move upward remains at two as per the PUB directive 25 1e.

Last year, the expansion of the Rate Groups lowered the overall rate indication by 3.16%. This year, due to +2 capping (no vehicle can move up more than two rate groups), there is no estimated impact on rates as no vehicles will migrate upwards in 2027/28. New vehicles sales could have vehicles in the higher rate groups but that information is not known at this time.

LA.2 Key Areas of the GRA

The reader is directed to the following areas of the GRA for more information:

a) *Part VII Risk Classification Chapter* provides further information on CLEAR vehicle rate groups for private passenger and light truck vehicles and maximum capping increases;

b) *Part VII Rate Indication Appendix 1* contains experience-based rate adjustments, based on the adjustment rules outlined in *Part VII Rate Indication Chapter; and,*

c) *Part VII Risk Classification Chapter and Part VII RC Appendix 6, Figure RC App 6- 3* illustrates the current, proposed, and actuarially indicated rates at each DSR level, up to DSR level +20.

Certification

Pursuant to Section 10(3)(g) of the Public Utilities Board Rules of Practice and Procedure

I, Satvir Jatana, President and Chief Executive Officer of Manitoba Public Insurance, certify that the information set out in the 2027 General Rate Application filed on June 24, 2026, is truthful and correct.

Dated this 24 day of June, 2026.

Compliance with PUB Orders

COM.1 Compliance with PUB Orders

The following table of concordance identifies MPI's compliance with directives from Order 156/25 approving the 2026 General Rate Application (GRA) varied by Order 30/26. Links to the response to each directive are provided below.

PUB Order 156/25 - 2026 General Rate Application

Directive Number	Directive	Reference in 2027 GRA
14.1	There shall be an overall rate increase of 1.77% for the 2026/27 insurance year, effective April 1, 2026, for all major classes combined. This rate increase is, as derived in accordance with Accepted Actuarial Practice (AAP) in Canada, based on a Naïve interest rate forecast taking into account interest rates as at August 31, 2025, and is a combination of the 2.07% rate indication as filed by MPI, along with the additional impact on the AAP rate indication of the following items: a) the Naïve interest rate forecast at August 31, 2025 is to be used. This is a New Money Yield of 4.56%. The New Money Yield of 4.56% is to be reduced by 18 basis points for investment management expense, resulting in a final New Money Yield of 4.38%, an increase of 29 basis points from the 4.09% New Money Yield based on March 31, 2025; b) the claims forecast for 2026/27 and 2027/28 is to be adjusted, moving halfway to the claims forecast based on the 2025 GRA work from home approach; c) the claims forecast for 2026/27 and 2027/28 is to be adjusted, using the March 2025 valuation estimates for Collision in the trend analysis; d) the claims forecast for 2026/27 and 2027/28 is to be adjusted, using the alternative approach for estimating the impact of the change in the Basic deductible; and e) the maximum annual increase in rate groups is two instead of five.	*Part II COM Appendix 1*
14.2	MPI shall expand the number of vehicle rate groups for private passenger and light truck vehicles by adding rate groups 42, 43, 44 and 45.	*Part II COM Appendix 1*

Directive Number	Directive	Reference in 2027 GRA
14.3	MPI shall make information publicly available to allow ratepayers to determine the rate group of each registered vehicle.	*Part III Basic Autopac Coverage Chapter, section BAC.3*
14.4	MPI will determine a more evidence-based work from home forecasting approach in the 2027 GRA.	*Part VI Claims Forecasting Attachment A*
14.5	MPI shall determine a solution for the 2027 GRA that enables it to complete the trend analysis using valuation data as of December 31, 2025, without materially delaying the filing schedule	*Part VI Claims Forecasting Chapter (section CF.4.4)*
14.6	MPI shall clearly advise consumers who currently have a deductible at the $750 level, that there will be an increase in cost to maintain the same level of deductible coverage which will occur automatically unless they take steps to opt for a $1,000 deductible under the Basic line of business. MPI will advise ratepayers that they are being directed automatically to MPI's Extension line of business to maintain their current deductible rate and that if they wish to opt for the Basic coverage, the steps required to do so.	*Part III Basic Autopac Coverage Chapter (section BAC.3)*
14.7	MPI shall continue to accumulate deferred integration costs and to provide a regulatory balance sheet reflecting such deferrals in future GRAs.	*Part VIII EXP Appendix 23*
14.8	MPI shall provide a sensitivity analysis of the AAP rate indication to be provided in the 2027 GRA based on an increase and decrease of the New Money Yield by 50 basis points.	*Rate Indication Chapter (section RI.6)*

Directive Number	Directive	Reference in 2027 GRA
14.9	MPI shall: a) expand the DSR scale from DSR +19 to DSR +20 in the 2026/27 policy year. Drivers will still require an incident-free year before moving to the new top merit level; b) DSR discount levels shall be moved one third of the way towards the actuarially indicated discount, and then rounded down to the nearest whole number, with base rates adjusted to off-balance these changes; and c) implement the following increases to the vehicle insurance premium discounts	*Part II COM Appendix 1*

DSR Level	Current Discount	Increase	2025/26 Discount
20			53%
19	48%	5%	53%
18	48%	4%	52%
17	47%	3%	50%
16	46%	3%	49%
15	44%	3%	47%
14	40%	3%	43%
13	38%	3%	41%
12	37%	3%	40%
11	34%	3%	37%
10	32%	3%	35%
9	30%	3%	33%
8	27%	3%	30%
7	27%	2%	29%
6	23%	3%	26%
5	18%	4%	22%
4	17%	3%	20%
3	12%	3%	15%
2	10%	1%	11%
1	5%	0%	5%

14.10	For the 2027 GRA, MPI will move one-half of the way to actuarially indicated discounts for each DSR level and then rounded down to the nearest whole number, with base rates adjusted to off-balance these changes.	*Part VII RC Appendix 6*
14.11	MPI shall file a comprehensive update to its KPIs at the 2027 GRA.	*Part II COM Appendix 2*; *Part II COM Appendix 3; and,* *Part VIII EXP Appendix 24*

Directive Number	Directive	Reference in 2027 GRA
14.12	In the 2027 GRA, MPI shall provide analysis and measurements against the MultiYear Strategic Plan, and report on the development of KPI targets. This will include details as to how MPI's KPI system is integrated into the Corporation's Strategic Plan with KPIs mapped to Strategic Pillars.	*Part II COM Appendix 4.*
14.13	In the 2027 GRA MPI shall include updates to elements of the Strategic Plan based on evolving strategy, including the revised IT Strategy reflecting planning for post-closure of Project NOVA.	*Part II COM Appendix 5*
14.14	MPI shall file financial information on its top-down operating expense targets, bottom-up budgets, and alignment process as part of its minimum filing requirements in future GRAs.	*Part VIII EXP Appendix 22; and, EXP Appendix 22a*
14.15	In the 2027 GRA, MPI is directed to report back to the PUB as to the status of its Value Assurance and BRM Framework in detail in terms of whether it has been fully established and is operational across all qualifying initiatives for the next fiscal year.	*Part V IT Appendix 8*
14.16	In the 2027 GRA, MPI is directed to outline how it evaluates initiatives post implementation with a specific focus on benefits realization.	*Part V IT Appendix 8*
14.17	In the 2027 GRA, MPI is directed to file the Corporate Project Funding Summary (CPFS) for all IT expenditures of $100,000 or greater ensuring that each project is fully articulated and delineated.	*Part V IT Appendix 9*

Directive Number	Directive	Reference in 2027 GRA
14.18	MPI shall hold an IT summit to take place no later than May 2026 to review progress on IT projects and on the development and implementation of the Rolling IT Roadmap. The IT summit shall provide the following information and/or reporting: a) IT Benchmarking status, Value Assurance initiatives, Major Programs, and IT Strategy and inclusive of all IT Projects and Epics that are underway and planned within current fiscal year and the Rolling IT Roadmap; b) a status update on the recommendations and actions contained in the IT reports at that point in time, including but not limited to the MNP governance report; c) an updated modernization review that provides improved visibility into MPI's plans to modernize its approximately 160 application systems, including a clear outline of modernization priorities, sequencing, interdependencies, and the strategy for funding and resourcing (both internal and external) and mapping to corresponding CPFS reported projects; d) an update on the status of key vendor engagements originating from Project Nova, outlining their continued involvement, contractual position, and anticipated contribution to future IT initiatives and modernization work; e) a review of MPI's framework for defining and governing Major Programs, including how smaller, interdependent initiatives that do not meet the $3 million threshold will be managed, reported, and integrated into broader modernization programs; f) a plan to address the apparent uncertainty in MPI's staffing mix and consultant forecasting providing greater clarity and consistency in how internal and external resources are planned and reported aligned to the updated IT Strategy.	*Part V IT Appendix 1* *Part V IT Appendix 2*

Directive Number	Directive	Reference in 2027 GRA
14.19	MPI shall provide a single consolidated report for all IT initiatives over $100,000 within the CPFS in the 2027 GRA. Each initiative must include, at a minimum: work category, focus area, NPV, discount rate, risk rating, Major Program status, BRM use, timelines, status, historical and forecasted spend, current-to-date spends, contingency details, and modernization relevance in addition to traditional CPFS reporting elements.	*Part V IT Appendix 9*
14.20	MPI must create a simple, consolidated modernization report that tracks progress, plans and spending across all IT modernization initiatives and provide same in the 2027 GRA.	*Part V IT Appendix 9*
14.21	MPI shall investigate alternative evaluation methods to provide a more balanced assessment of modernization investments and long-term value realization and provide a consolidated report reflecting the review and recommendations.	*Part V Information Technology Chapter (section IT.6)*
14.22	MPI shall provide a clear update on each IT benchmarking recommendation, identifying which have been accepted, implemented, or rejected with rationales explaining each. MPI is also directed to include how these actions are reflected within its IT Strategy and Rolling IT Roadmap.	*Part V Information Technology (section IT.2)* *Part V Information Technology Attachment A*
14.23	MPI will file the most recent iteration available of its Five-Year IT Strategy along with its Rolling IT Roadmap in the 2027 GRA.	*Part V Information Technology (section IT.5)* *Part V IT App 2 Figure 11*
14.24	MPI shall hold an ALM technical conference by not later than May 1, 2026.	*Part II COM Appendix 7* *Part II COM Attachment A*

Directive Number	Directive	Reference in 2027 GRA
14.25	MPI shall provide its Investment Performance Analysis incorporating attribution reporting as recommended by CC's expert witness in the 2027 GRA.	*Part IX Investment Management Chapter (section C.6)* *Part IX INV App 9*
14.26	MPI shall ensure that the OCIO will provide the Board with no less information than has been provided in past applications and that the OCIO will provide all such information without claiming confidentiality. In circumstances where MPI is of the view that certain deliverables under its contract with the OCIO contain proprietary or other information considered confidential by MPI, MPI may request of the PUB that such information be treated as confidential.	*Part IX Investment Management Chapter;* *Part IX Asset Liability Management Chapter; and,* *Part IX Financial Forecasting: Investments Chapter*
14.27	MPI shall file the agreement reached to engage the OCIO in the 2027 GRA.	*Part II COM Appendix 8*
14.28	MPI shall continue to make use of and report on Shadow Portfolios as has been done in prior GRAs.	*Part IX INV Appendix 5*
~~14.29~~	~~In the 2027 GRA, MPI will provide analysis and measurements against the Multi Year Strategic Plan, and report on the development of KPI targets. In doing so, MPI will demonstrate how its KPI system is integrated into the Corporation's Strategic Plan with KPIs mapped to Strategic Pillars.~~	Directive rescinded by *PUB Order 30/26*
~~14.30~~	~~MPI will file, in the 2027 GRA, updates to elements of the Strategic Plan based on evolving strategy, including the revised IT Strategy reflecting planning for post-closure of Project NOVA. The Board therefore directs MPI to file a comprehensive update to its KPIs at the 2027 GRA.~~	Directive rescinded by *PUB Order 30/26*

Directive Number	Directive	Reference in 2027 GRA
14.31	A Road Safety Technical Conference (RSTC) shall take place by June 2026. MPI's new road safety strategy shall be filed with the Board at least three months prior to the RTSC. As part of the RTSC, MPI will share data and feedback with respect to road safety interventions in other jurisdictions in Canada. Further, MPI will also report back in the RTSC its progress against the commitments made in the Technical Conference held in 2024, which are found in Dr. Hall's report.	*Part II COM Appendix 7 (slides 120 onwards)*
14.32	MPI shall prepare a public and accessible database of statistical collision data, to be presented to the Board as part of the 2027 GRA.	*Part II COM Appendix 7, (slides 132 to 147)*
14.33	MPI shall, in the 2027 GRA provide an update on the progress of the report to be prepared by the TBI experts setting out current scientific knowledge and proven medical best practices and best practicable technology to diagnose, assess and manage brain injuries and compare them to the current practices and procedures of MPI in the 2027 GRA.	*Part III Basic Autopac Coverage Chapter (section BAC.3)*

MANITOBA PUBLIC INSURANCE SOCIÉTÉ D'ASSURANCE PUBLIQUE DU MANITOBA

February 5, 2026 ***HAND DELIVERED and VIA E-MAIL***

The Public Utilities Board
400 – 330 Portage Avenue
Winnipeg, MB R3C 0C4

Attention: Jennifer Dubois, CPA, CMA, CTAJ, Associate Secretary

Dear Ms. Dubois:

RE: Manitoba Public Insurance (MPI) 2026 General Rate Application (GRA) Compliance Filing

This letter can be referenced to the one sent January 27, 2026 that enclosed the documents MPI circulates for its annual compliance filing. Reproduced here is the content of the earlier letter (with the exception of this paragraph). The PUB and its advisors asked MPI some clarifying questions, which questions were answered in the Addendum now attached to this compliance filing.

Please find enclosed the following updated schedules in compliance with Directives 14.1, 14.2, and 14.9. of Public Utilities Board (PUB) Order 156/25, reflecting the approved 1.77% rate increase in compulsory Motor Vehicle Premiums, rate groups, and DSR discounts.

The overall indicated rate change presented in Figure 11 (Projected 2026/27 Average Premium) is 3.28%. This reflects changes from the rate application filed by MPI of 2.07% with updates to the New Money Yield (NMY), as well as the application of the maximum annual rate group increase in accordance with the PUB Order.

To comply with the PUB Order, MPI selected a rate change of 1.77%. MPI did not revise its claims forecast for the purpose of deriving this selected rate, as the cumulative impact of changes to claims assumptions does not result in an overall required rate indication of 1.77%.

PUB Questions

1. MPI appears to have updated its loss estimates in the financial projections (PF-1, etc). however, MPI does not explain what changes have been applied to the estimates. As such we are not able to determine if the financial projections are in compliance with the Order.
2. Normally, the indicated rate change would reflect the changes ordered by the PUB. That does not appear to be the case here which means that the overall indicated rate change is not in compliance with the Order.
3. It is unclear how MPI determined the rate changes by Major Class, given that it did not reflect the changes ordered by the Board to the indicated rate change. As such we cannot determine if the selected rate changes by major class are in compliance with the Order.

MPI Answers

1. Please find below a summary explaining the differences in the claims forecasts for accident years 2026 and 2027, as referenced in the accompanying chart.

Comparison of Ultimates (Average of 2026 AY & 2027 AY)

	(1)	(2)	(3)	(4)	(5)
	2026 GRA Submission	**Updated Collision Trend (PUB 1-057)**	**Revised LER (PUB 1-053)**	**2025 GRA WFH (PUB 1-055)**	**2026 Compliance Filing**
PIPP	$228,034,957	$228,034,957	$228,034,957	$226,187,480	$227,372,498

The chart illustrates how the claims forecast changes under several scenarios:

- Columns (2) through (4) list the PUB Information Requests that introduced specific changes to the forecast.
- Columns (6) through (8) quantify the impact of each corresponding PUB IR on the forecast results.
- Column (9) presents the “straight average” impact of PUB IR 1-055. This average aligns closely with the estimated impacts referenced in the PUB Order.
- Column (10) displays the additive impact of all listed changes, assuming each adjustment operates independently and can therefore be summed directly.

In the compliance filing, all ordered changes from the PUB were applied simultaneously within a single forecast as shown in Column (5). Because the adjustments interact with one another within the model:

- The combined effect shown in Column (11) is not identical to the sum of the individual impacts shown in Column (10).
- This is due to compounding effects, where changes may amplify or offset one another when implemented together.
- Additionally, applying a “straight average” adjustment to the WFH model does not translate to precisely half the full impact, as the relationship between WFH assumptions and resulting claims costs is non-linear.

2. In prior years, MPI adjusted its claims forecast to reflect the indicated rate change directed by the PUB, ensuring MPI aligned its calculations to fully match the PUB-ordered adjustments. This year, rather than forcing all incremental changes to align with the PUB-ordered impacts, MPI adjusted the premium related incremental adjustments ordered by the PUB, which matched MPI's internal calculations, i.e., New Money Yield and the Rate Group cap.

   For adjustment of the claims forecast to reflect the PUB-ordered changes, the resulting impacts differed from those presented by the PUB due to compounding effects when all changes were applied simultaneously. As a result, MPI selected the PUB-ordered rate change and did not rerun the revised claims forecast when determining its overall rate change.

   MPI confirms that the selected overall rate change complies with the PUB ordered rate change of 1.77%. This selected rate change, adjusted for the change in the Driver Safety Rating, was used in MPI's experience adjustment and applied to the 2026 rate table.

3. MPI used the same allocation methodology discussed in RI.5 Allocation of Rate Change to Major Class. Please see the calculations below on how MPI allocated the overall rate change of 1.77% to the different Major Classes. Please note that the applied for rate change shown below is before applying credibility. The balanced credibility amounts are shown in Compliance Figure 10.

Appendix 4:

This material is provided electronic only.

Appendix 2: Key Performance Indicators to Support Cost Control

1. Introduction

Following the introduction of claims cost control Key Performance Indicators (KPIs) in response to Public Utilities Board (PUB) Order 2/25, Directive 9, Manitoba Public Insurance (MPI) has now completed its first full year of monitoring performance across these indicators.

This submission summarizes KPI performance in support of cost control since their introduction in June 2025. It also outlines refinements to the KPIs and their associated targets and explains how MPI has improved its performance measurement approach to provide greater visibility into claims cost controls.

MPI intends to maintain the current selection of KPIs as they continue to provide meaningful insight into key claims cost drivers and support performance assessment across the relevant claim dimensions. Over the past year, MPI also refined its target-setting approach by applying a framework to reassess existing targets where appropriate. These changes ensure targets remain relevant and aligned with operating conditions.

2. Performance Against Existing KPIs

With a full year of results now available, MPI has developed a better understanding of how these KPIs perform in practice across the four key physical damage claims dimensions. The first year of monitoring has provided insight into both stable performance and areas of variability, helping MPI assess the effectiveness of existing controls and identify opportunities for improvement.

MPI currently exercises some degree of control across the following dimensions for physical damage claims:

1. Repair;
2. Total Loss;
3. Salvage; and
4. Subrogation.

These are core claims dimensions. This framework allows MPI to assess performance across these dimensions and identify where additional focus is needed.

2.1 Repair

The Repair dimension demonstrated stability and consistent performance across both selected KPIs:

i) Ask Approve Variance (AAV); and

ii) Realized Parts Savings (RPS).

AAV compares the dollar amount requested by a repair shop, whether on an initial estimate or a supplement, to the dollar amount ultimately approved by MPI. The initial target for this indicator was 2.63%, which reflects the acceptable level of variance between requested and approved amounts. The AAV percentage was below the established target for this KPI in all four quarters of the reporting period, meaning the target was met.

Fiscal Quarter	AAV %
Q1	0.95%
Q2	1.02%
Q3	0.97%
Q4	0.90%

RPS measures the savings generated using alternate parts in the repair process, such as recycled or aftermarket parts in place of more expensive original manufacturer parts. The target initially set for this KPI is based on the expected levels of parts savings, which reflects the anticipated use of cost-effective parts in the repair process. MPI exceeded the established target for this KPI in all four quarters.

Fiscal Quarter	RPS Target	RPS %
Q1	19.1%	20.3%
Q2	19.2%	20.4%
Q3	19.2%	20.2%
Q4	18.7%	19.9%

MPI maintained strong performance across both KPIs throughout the year. This reflects adherence to MPIs Estimating Standards across its network of Repair Shops. and demonstrates the continued use of cost-effective parts. These results indicate that existing controls within the repair dimension are functioning as intended and continue to support cost containment efforts.

2.2 Total Loss

The Total Loss dimension showed variability in performance across its selected KPI:

- Audatex to Settlement Variance

This KPI measures the difference between the valuation provided by Audatex, MPI's third-party vehicle valuation tool, and the final settlement amount. For this metric, MPI defined the target at 2.26%, which reflects the acceptable variance between the valuation report and the final settled amount. MPI did not meet the established target in any quarter during the reporting period.

Fiscal Quarter	Audatex to Settlement Variance %
Q1	2.76%
Q2	3.04%
Q3	3.86%
Q4	3.76%

These results indicate the final settlement amounts for total losses were higher than the values established by the Audatex Reports. This variance reflects the increasing availability of external valuation information to claimants, some of which may not align with the local market conditions considered in the Audatex analysis. This can influence customer expectations for settlement amounts, and in turn, impact negotiation outcomes. MPI will continue to monitor this indicator to better understand factors influencing results.

2.3 Salvage

The Salvage dimension demonstrated variable performance across its selected KPI:

i) Salvage Return

Salvage Return measures amounts recovered, expressed as a percentage of the vehicle's actual cash value (ACV). The initial target for this indicator was 17.30%,

which reflects the level of recovery sought relative to a vehicle's ACV. MPI exceeded the established target in the first 2 quarters but did not meet the target in the final 2 quarters of the reporting period.

Fiscal Quarter	Salvage Return %
Q1	17.6%
Q2	18.5%
Q3	14.3%
Q4	14.10%

This performance highlights variability in outcomes across the Salvage dimension. The deviation in the final two quarters is largely driven by seasonality. MPI will continue to monitor this indicator to better understand the factors influencing performance over time.

2.4 Subrogation Claims

The Subrogation dimension produced stable performance across its selected KPI:

i) Subrogation Claims Recovery Ratio

This KPI measures the total amount recovered as a percentage of total amount incurred for physical damage claims with subrogation opportunities. The initial target for this KPI was 85.0%, which reflects how effectively claims costs are recovered through subrogation efforts. MPI met the established target in the first three quarters and fell slightly below the target in the final quarter of the reporting period.

Fiscal Quarter	Recovery Ratio %
Q1	86.2%
Q2	87.7%
Q3	86.3%
Q4	84.8%

MPI maintained relatively strong performance throughout the reporting period, demonstrating effectiveness in identifying and pursuing recovery opportunities. The slight variance in the final quarter reflects a minor fluctuation. Overall, the KPI continued to support cost reduction through recovery efforts.

3. Updates to Operational KPI Framework

3.1 Updates to KPI Targets

The selected operational KPIs provide MPI with measurable insights into critical cost drivers within the claims process. MPI evaluates performance against the established targets, which it reviews periodically to ensure relevance and effectiveness.

Over the past year, MPI has enhanced its target setting approach by implementing a structured input-based framework that incorporates operational guardrails, customer experience expectations, peer benchmarking, historical baselines, and feasibility. MPI applied the inputs where relevant along with an additional year of performance data to reassess and update targets. This approach supports continuous improvement while ensuring targets remain both meaningful and achievable.

MPI will retain the Repair dimension KPIs and targets. These measures continue to align with operational practices and support cost containment efforts. The targets for the Repair KPIs remain as follows:

i) Ask Approve Variance: 2.63%

ii) Realized Parts Savings: Aligned with expected RPS which is variable each month.

MPI will retain the Total Loss KPI but revise its target to reflect additional data and improved feasibility:

i) Audatex to Settlement Variance: 4.00%

MPI will retain the salvage KPI but revise the target on account of a change in data source. MPI will now source the data from VISion, MPI's third-party towing, vehicle inventory and salvage operations tool, rather than the Claims Administration and Reporting System (CARS).

MPI made this change for two primary reasons. First, VISion aligns the date parameter with the salvage sale date. Second, operational reports used within Salvage are integrated with VISion data as the primary source, which improves alignment between KPI measurement and how performance is assessed within the business.

The revised Salvage KPI target is:

i) Salvage Return: 17.0%

MPI will retain the Subrogation KPI and its target. Application of the revised target setting framework confirmed that the current target remains appropriate.

ii) Recovery Ratio: 85.0%

4. Actions to Strengthen Claims Cost Control

Based on the first year of KPI monitoring, MPI has gained a clear understanding of performance across all selected claims dimensions. The results clarified where existing processes operate effectively and where further refinement may be required.

MPI used these insights to refine targets, improve alignment between KPI reporting and operational data, and better understand the factors influencing results. These actions improve consistency and reliability of performance measurement and support claims cost control.

MPI can take the following actions to strengthen claims cost control:

- Strengthen performance oversight: MPI will continue to monitor KPI results on a quarterly basis to identify trends and support informed decision making.

- Refine target: MPI will reassess KPI targets using additional performance data to ensure targets continue to remain relevant.

- Improve measurement accuracy and clarity: MPI will refine data input definitions and reporting approaches to ensure KPIs remain relevant and reliable as a representation of performance.

- Increase understanding of performance drivers: MPI will work with operational areas to identify and understand the key factors influencing results.

- Support targeted operational improvements: MPI will use KPI results to identify areas requiring additional focus and support efforts to improve outcomes.

5. Conclusion

MPI has completed the first full year of monitoring claims cost control KPIs introduced in response to PUB Order 2/25, Directive 9. This work has provided a clear understanding of performance across four claims dimensions and has identified areas of strong performance and areas where refinements may be required.

MPI used these results to refine targets, improve data alignment, and strengthen how performance information is interpreted and used. These actions have improved consistency and reliability of performance measurement and MPIs ability to assess claims costs drivers.

The selected KPIs provide meaningful insights and support informed decision making. MPI will continue to monitor these indicators and further apply refinement as appropriate.

May 27, 2026

Multi Year Strategy Strategic KPIs

Measuring Impact of our Strategic Plan

MANITOBA PUBLIC INSURANCE

How to Read these KPIs

Measuring the Impact of our Strategic Plan

Affordability	1. Average Insurance Premium as a % of Average Income
Financial Stability	2. MCT by LOB Within Target • Basic • Extension • SRE
Organizational Effectiveness	3. Employee Engagement Score 4. % Planned Work Complete within Schedule 5. Expense Ratio
Customer Value	6. CSAT – Customer Satisfaction • Claims (Physical Damage) • Claims (Bodily Injury) • Insurance & Registration • Driver Testing
Corporate Responsibility	7. Customer Confidence in MPI Mission Delivery

Key Strategic KPIs were set across five **corporate focus areas** to measure intended impact of our Multi-Year Strategy

What they are	What they are not
• **Act as a long-term guide** and should be interpreted with context • Show **progress** compared to aspirations • Highlight where **course-correction** is needed • **Inform** prioritization during annual planning	• Operational measures to **manage the business day-to-day** • Leading indicators that **explain how** to change course

2

Affordability: Strategic Goal Summary

Goal 1: Average Insurance Premium as a % of Average Income

Executive SME	[REDACTED]
Reporting Owner	[REDACTED]
Reporting Frequency	Annual
Data Sources / Availability	Statistics Canada / Internal Pricing Data

Baseline	Milestones				
FY15/16 - FY24/25	FY25/26 (Actual)	FY26/27	FY27/28	FY28/29	FY29/30
2.24%	2.01%	< 2.25%	< 2.25%	TBD	TBD

Strategic Intent

The average insurance premium as a percentage of average income is a vital metric for corporate strategy because it reflects the economic and affordability impact on consumers, indicating how accessible necessary coverages are to the average person. Additionally, it highlights our competitiveness in the market by showing how our pricing aligns with consumer income levels.

***This metric has not been captured previously.**

How it's calculated

The ratio of average premium to the average income

Premium Data:
- Vehicle Type: Passenger Vehicle and Trucks
- Insurance Use Code: All Purpose and Pleasure
- Product: Basic Autopac Insurance

Interpretation: Higher ratio indicates insurance is becoming less affordable to Manitobans, lower ratio indicates increased affordability

Considerations / Limitations

Statistics Canada has various sources for income data

- Survey of Employment, Payrolls, and Hours – average weekly earnings
- available, gross earnings only, multiply by 52 to annualize income (least accurate but most recent).

<u>Other sources NOT used for calculation:</u>
- Canadian Income Survey – average income available pre and post tax, however, 1 year lag (more accurate and applicable)
- Census – average/median income available pre and post tax, however, only available every 5 years (most accurate but least current)

3

Financial Stability: Strategic Goal Summary

Goal 2: MCT by LOB Within Target

Executive SME	[REDACTED]
Reporting Owner	[REDACTED]
Reporting Frequency	Quarterly
Data Sources / Availability	Lawson / Excel

Baseline	Milestones				
Legislated Target	FY25/26	FY26/27	FY27/28	FY28/29	FY29/30
Basic: 100%	100%	100%	100%	100%	100%
Extension: 200%	200%	200%	200%	200%	200%
SRE: 300%	300%	300%	300%	300%	300%

Strategic Intent

The Minimum Capital Test (MCT) reflects the industry standard for assessing capital adequacy in a P&C insurer: it defines the minimum capital needed to absorb unexpected events and protect policyholders. MPI's use of the MCT is defined in legislation as per the Manitoba Public Insurance Corporations Act. The MCT seeks to ensure:

- Capital reserves aligned with legislation;
- Ongoing capital monitoring with mechanisms to address surpluses or deficiencies; and,
- A balanced strategy aimed at financial stability while protecting ratepayers.

The overall objective of the MCT is to follow a risk-based capital adequacy standard derived from a prescribed formula to ensure insurers maintain sufficient capital to cover a 99% confidence-level loss over one year.

How it's calculated

MCT Ratio: Capital available / Minimum required capital

Considerations

- Any changes to OSFI MCT standards used
- Any changes to the Manitoba Public Insurance Corporations Act
- Any changes to the Corporations Capital Management Plan

4

Organizational Effectiveness: Strategic Goal Summary

Goal 3: Employee Engagement Score

Executive SME	[REDACTED]
Reporting Owner	[REDACTED]
Reporting Frequency	Bi-Annually
Data Sources / Availability	Be Heard Survey

Baseline	Milestones				
FY24/25	FY24/25	FY25/26	FY27/28	FY29/30	FY31/32
71%	71%	73%	75%	TBD	TBD

Background

- The employee engagement score identifies strengths and weaknesses, crucial for talent retention and attraction.
- It aids in reputation management and fosters a culture of feedback and improvement.
- This score impacts productivity and goal achievement, supporting our overall corporate strategy.
- This score has been previously captured allowing for benchmarking against past scores.

How it's calculated

- The employee engagement score is derived from four main questions: intent to stay, referral behavior, pride in organization, and intrinsic motivations.
- Five-point scale used to interpret favorability, scores from the four indicators are averaged to provide a single metric.
- Data collection and scoring are handled by the third-party company Perceptyx, with financial institutions as the main comparable.

Considerations

Limitations:

- Data comparison from 2021 was not recommended due to number of changes, re-org, and 3-year lapse, this can be utilized in future surveys.
- The frequency of data collection and reporting is limited, as time is needed to implement changes and see improvements in the score.

Leading Indicators:

- Implementation of Onboarding and Exit Surveys in April 2024 which include same indicator questions to measure engagement. Opportunity to measure engagement more regularly through employee lifecycle surveys.

5

Organizational Effectiveness: Strategic Goal Summary

Goal 4: % of Planned Work Completed Within Schedule

Executive SME	[REDACTED]
Reporting Owner	[REDACTED]
Reporting Frequency	Annually
Data Sources / Availability	ADO

Baseline	Milestones				
FY24/25	FY25/26	FY26/27	FY27/28	FY28/29	FY29/30
57%	63%	80%	80%	TBD	TBD

Background

- The % planned work completed is critical for corporate strategy as it enables progress tracking, ensuring projects stay on schedule.
- It monitors delivery evaluation by assessing if project deliverables will meet deadlines, as well as influencing resource allocation.
- Additionally, it supports performance management by providing objective data on team effectiveness and identifying areas needing support.

How is this calculated

- % of Corporate Initiatives endorsed during annual business planning.
- Initiatives with a target completion date within a given fiscal year are considered completed on time if they are finished within a threshold of that fiscal year.

Dependencies / Limitations:

- Project managers must manually enter data into ADO to update project timelines and ensure accuracy.

Considerations:

- Only incorporating corporate initiatives in the ICP at start of fiscal year into metric calculation, initiatives added in late or throughout the year will not be considered into calculations.

6

Organizational Effectiveness: Strategic Goal Summary

Goal 5: Expense Ratio: Operating Expenses / Earned Premium

Executive SME	[REDACTED]
Reporting Owner	[REDACTED]
Reporting Frequency	Annual
Data Sources / Availability	Lawson

Baseline	Baseline	Milestones (2026 GRA 5-year Forecast)				
FY24/25 Actual	FY 24/25 Normalized*	FY25/26 Budget Forecast	FY26/27 Budget	FY27/28 Forecast	FY28/29 Forecast	FY29/30 Forecast
22.2%	21.5%	19.7%	19.6%	18.9%	TBD	TBD

*Basic operating expenses normalized for impairment of $8.9M

Strategic Intent

Illustrates how efficiently operating costs are managed relative to the approved scale of operations. In a non-profit, break-even model, it is not intended to signal profitability, but rather to support accountability, monitor cost growth over time, and inform decisions about affordability, service levels, and resource allocation within externally set revenue constraints. It is the trend (increase/decrease) over-time that would be informative for decision making and tolerance level.

Interpretation:

- The five-year forecast shows a favourable trend in the ratio.
- Basic is designed to break even, covering operating and claims costs only. A highly favourable operating expense ratio is neither expected nor meaningful.

How this is calculated

- Calculated by dividing Basic Corporate Operating Expenses by Basic earned premium.
- Corporate Expenses consist of Maintenance Expense, Other Acquisition Expense, and Operating Expenses allocated to the Basic line of business.
- Expenses are expenses reported for the Basic line of business only.
- Milestones are from the 2026 GRA 5-year forecast.

Dependencies / Limitations

- Derived directly from the operating expense and earned premium forecasts filed within approved regulatory submissions (GRA and TBS). As both the numerator/denominator are established through those formal filings, these metrics inherently reflect the approved budget and forecast.
- Rates are set by PUB, realized revenue depends on policyholder behaviour, not management control.
- Initiative expenses are currently disallowed for rate recovery under PUB order, worsening the ratio as there is no revenue recovery.
- As claims grow faster than operating expenses in a break-even model, operating costs naturally represent a smaller share of revenue, even without efficiency gains.
- Inflation and variances to budgeted expenses will impact expenses (the numerator).
- The expense allocations by line of business can impact the numerator. Changes in other lines of business could impact the percentage of expenses allocated to Basic.

7

Customer Value: Strategic Goal Summary

Goal 6: Customer Satisfaction Key Areas

Executive SME	[REDACTED]
Reporting Owner	[REDACTED]
Reporting Frequency	Annual
Data Sources / Availability	Survey data collection by MPI, data scoring by CX Insights Team

Baseline		Milestones				
FY23/24 -FY24/25		FY25/26	FY26/27	FY27/28	FY28/29	FY29/30
Insurance & Registration	85%	85%	85%	85%	TBD	TBD
Driver Testing	67%	67%	67%	70%	TBD	TBD
PD Claims	63%	70%	71%	71%	TBD	TBD
BI Claims	64%	70%	70%	70%	TBD	TBD

Background

- Customer Satisfaction Key Areas are the core journeys that define most interactions between MPI and our customers.
- They are crucial to help identify pain points and improve customer satisfaction.
- It enables data-driven decisions centered around customer needs and has been a key component of our survey engagement for many years, with a concise standard methodology since 2023 for all Areas.

How this is Calculated

- This figures are defined by Overall Customer Satisfaction on their respective survey journeys.
- Customer surveys consist of all customers who interacted with MPI over the past 12 months using monthly data across the fiscal year. This data is then aggregated to the fiscal year.

Considerations / Limitations

- This measure is a result of aggregating monthly results into an annual figure using core surveying touchpoints.
- This is a new Strategic Metric. CX team has work underway to adapt the CX vision and to introduce improved methodology which could adjust these baseline figures in the pursuit of more accurate signal indicators.

8

Corporate Responsibility: Strategic Goal Summary

Goal 7: Customer Confidence in MPI Mission Delivery

Executive SME	[REDACTED]
Reporting Owner	[REDACTED]
Reporting Frequency	Annual
Data Sources / Availability	Annual CX Index Survey, Annual Vision Study

Baseline	Milestones				
FY2022/23 - FY2024/25	FY25/26	FY26/27	FY27/28	FY28/29	FY29/30
66%	68%	70%	70%	TBD	TBD

Background

- Capturing Customer Sentiment Regarding Mission Confidence in MPI ensures alignment with customer expectations, fosters brand loyalty, and supports informed decision-making.
- This metric also assists in determining if MPI is fulfilling its mandate to Manitobans. This metric has been captured consistently in years past.

How this is calculated

- Customer feedback is collected annually through CX surveying, providing benchmarks and trending of the mission statement and corporate values.
- The survey asks customers to rate each aspect of the mission statement,
- which is divided into four distinct statements. Ratings are captured using a 7-point scale, with the top box (5-7 combined) indicating agreement.
- Annual CX surveying typically receives responses from approximately 2,500 customers, allowing for customer response to be analyzed across lines of business and customer journeys.

Average Insurance Premium as a % of Average Income

How we arrived at annual milestones

Historical Context
(Understanding our Baseline / Prior Performance)

Measuring Average Insurance Premium as a % of Average Income was identified as a key indicator of affordability, reflecting the accessibility of necessary coverage to Manitoban's.

This is calculated as a measure of the ratio of average premium (Basic coverage, all purpose/pleasure) to average income (using Stats Can Survey of Employment, Payrolls, and Hours).

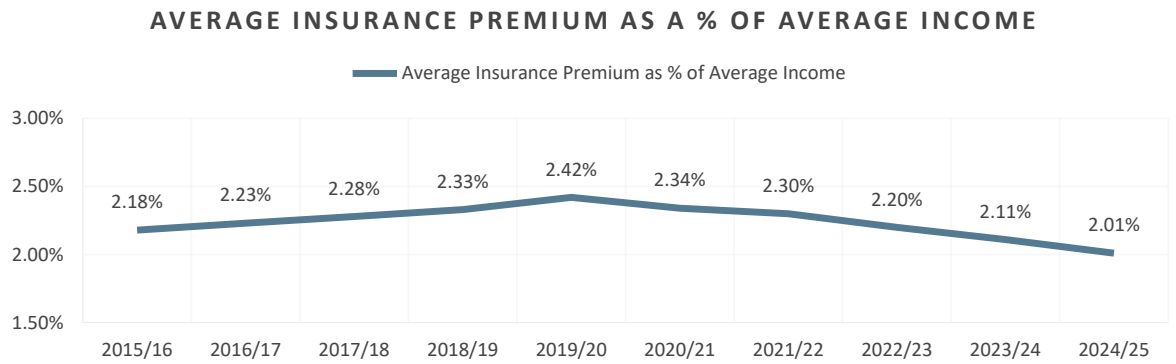
The decision to establish a target of <2.25% is based on our historical results consistently remaining within that target and customer satisfaction results signaling that 70% of customers have noted that Basic Insurance is affordable, indicating a 2.25% target is appropriate.

Headwinds & Tailwinds
(Internal/External factors)

The impact of economic and political factors on both our cost environment and average income will consistently play a part in this metric.

Examples include uncertainties around tariffs and macro economic impacts on affordability, changes in rates of unemployment and variability of inflation.

Historically, MPI has maintained a high level of consistency in the level of affordability available for Manitobans in navigating these challenges, with a 20 year range of 2.01% to 2.42%, including YoY decreases from 2019/20 to 2024/25.



Roadmap Impacts
(Impact from Corporate & Operational Priorities)

Corporate Initiatives and Operational Priorities associated with Average Insurance Premium as a % of Average Income reflect specific efforts to favourably impact the premiums customers pay through process and product improvements, as well as a consistent commitment to be cost effective in our daily operations.

For 2026/27, related Corporate Initiatives include:

- Data Foundations and Roadmap Development
- Product Migration/Retirement

Average Insurance Premium as a % of Average Income Historical Performance

Fiscal Year	Average of Annual Income	Growth Rate
2015/16	$46,040	
2016/17	$46,646	1.32%
2017/18	$47,841	2.56%
2018/19	$49,301	3.05%
2019/20	$49,745	0.90%
2020/21	$52,583	5.71%
2021/22	$53,505	1.75%
2022/23	$55,557	3.84%
2023/24	$57,919	4.25%
2024/25	$59,824	3.29%
Average Annual Growth Rate (2015-2024)		2.96%

Premium Considerations:

- Vehicle Type: Passenger Vehicle and Truck
- Use Code: Pleasure and All Purpose
- Product: Basic Autopac Insurance

Income Considerations:

- Derived from Statistics Canada Survey of Employment, Payroll, and Hours (SEPH)
- Average weekly individual earnings which are annualized for reporting purposes
- Excludes unclassified businesses

13

MCT by LOB Within Target

How we arrived at annual milestones

Historical Context
(Understanding our Baseline / Prior Performance)

The MCT Line of Business (LOB) baselines reflect our legislated targets. Our annual targets are established through the Corporation's budgeting process, reflecting the budget as approved by the Treasury Board. Forecasts extending beyond the approved fiscal budget are based on the continuation of assumptions in effect at the time of preparation. This target may be different than those found in the Corporations General Rate Application.

This is the only baseline that adopts the target as a baseline in lieu of prior performance.

The Corporation calculates and reports MCT by LOB as part of its quarterly financial statements using actual results. While interim results are monitored and disclosed, the applicable MCT target continues to be the approved annual fiscal target.

Headwinds & Tailwinds
(Internal/External factors)

The Corporation may transfer capital between LOBs, however transfers from the Basic LOB to other LOBs is not permitted. Typically, excess capital within the Extension LOB is transferred to the Basic LOB at the Corporations fiscal year end being March 31, resulting in the Extension LOB maintaining an MCT of approximately 200% following the transfer. Anticipated capital transfers are incorporated into the Annual MCT Target and forecasted by LOB.

Roadmap Impacts
(Impact from Corporate & Operational Priorities)

MCT by line of business is not directly impacted by Corporate Initiatives or Operational Priorities. Rather, it is a reflection on the overall financial health of the business, and on the business making prudent strategic decisions that prioritize financial health and improved efficiency.

Indirectly, initiatives that de-risk MPIs technological needs, enable operational efficiency and prepare for the future impact the measure by supporting financial stability and sustainability.

Operating Expense Ratio

How we arrived at annual milestones

Historical Context
(Understanding our Baseline / Prior Performance)

The expense ratio measure provides insight into the cost of operating the basic line of business compared to earned premium.

Basic is designed to break even, covering operating and claims costs only. A highly favourable operating expense ratio is neither expected nor meaningful.

Calculation
Total Expenses (Acquisition, Maintenance, and Operating) ÷ Earned Premium
Expenses reflect the Basic line of business.

Headwinds & Tailwinds
(Internal/External factors)

While operating expenses are expected to increase over time due to normal inflationary pressures, the expectation is that year on year growth should broadly track inflation and collective bargaining increases unless there are defined changes in scope or service levels.

Given operating costs of the corporation are largely fixed by design, if earned premium decreases significantly, reducing associated costs within a short time horizon may be challenging or not available, however the five-year forecast shows a favourable trend in the ratio.

The Internal Cost Allocation Methodology (ICAM) is dynamic and may/will influence expense allocations between lines of business over time.

Roadmap Impacts
(Impact from Corporate & Operational Priorities)

Tracking this metric over time enables trend analysis, which supports more effective budgeting and resource management. It also facilitates benchmarking against industry peers, offering opportunities to build in continuous improvement through operational priorities.

Employee Engagement Score

How we arrived at annual milestones

Historical Context
(Understanding our Baseline / Prior Performance)

Employee Engagement Scores provide insight into how MPI employees experience the workplace and how they reference their experiences externally.

This metric represents how employees respond to 4 specific questions:

- I intend to stay for next 12 months.
- I would recommend MPI as a great place to work.
- My work gives me a feeling of personal accomplishment.

A baseline was established in 2024 at 71% with a targeted 1-2% increase YoY. Starting in 2025 MPI will run full Engagement surveys ever 2 years (2025, 2027, 2029, etc.) with pulse surveys as leading indicators on the in between years.

Headwinds & Tailwinds
(Internal/External factors)

Headwinds: Engagement can be strained by factors that reduce organizational flexibility and create pressure on resources. Government insertions, labour market conditions/ disruptions, and economic uncertainty all influence how employees perceive stability and support. Additionally, rapid industry shifts driven by business or technology transformations can influence employee confidence and sentiment.

Tailwinds: Several internal levers within MPI's control can positively influence engagement and employee experience. Strong leadership behaviours, clearer communication around decision making, and more intentional prioritization during periods of organizational change. Enhancing career development opportunities, improving workforce management and recognition practices further support positive culture.

Roadmap Impacts
(Impact from Corporate & Operational Priorities)

Direct and indirect impacts to employee engagement identified on MPI's corporate and operational roadmap initiatives are expected to impact MPI's 1-2% YoY target. Initiatives such as establishing a Leadership Focus program, Workforce Planning & Role Clarity efforts and continuous efforts in the Truth and Reconciliation and IDEA spaces directly influence the conditions under which employees experience their work, the clarity they have about organizational direction, and their confidence in leadership follow-through.

% of Work Completed Within Schedule

How we arrived at annual milestones

Historical Context
(Understanding our Baseline / Prior Performance)

Measuring the % of work completed within schedule was selected as a measure of our ability to prioritize the execution of Corporate Initiatives, taking into consideration the importance of preserving capacity for core service delivery as well as ensuring flexibility in our capacity to accommodate Legislative and Regulatory Commitments.

The reporting MPI has used to monitor portfolio execution against plans has varied historically. With that in mind, 2025/26 provides the opportunity for a baseline, where we can establish consistency in our relevant data.

Measurement structure aligns with changes made in our annual planning for 2026/27, placing increased rigor around the prioritization of Corporate Initiatives that are aligned with our strategic goals.

Headwinds & Tailwinds
(Internal/External factors)

A maturing collaboration between the strategy, product and project management teams ensures accuracy/consistent application of formalization of Corporate Initiatives and key dates to measure against.

While historical data outlines the benefit of flexibility to incorporate unexpected work, the mechanisms to validate trade-off decisions based on organizational capacity and resource management practices continues to mature.

MPI's annual business planning and internal governance processes are also evolving through continuous improvement.

Roadmap Impacts
(Impact from Corporate & Operational Priorities)

Dedicated efforts to clarify roles and responsibilities and streamline internal planning processes act as enablers to achieving the annual target, providing guidance and guardrails on our ability to prioritize and execute successfully including "Integrate Planning Frameworks for Strategic Alignment" and "Workforce Planning & Job Architecture."

Continuous improvement and maturity as part of day-to-day operations in functional areas that support internal governance, resource management, capacity planning, prioritization and project execution are anticipated in 2026/27 and beyond.

17

Customer Satisfaction Key Areas

How we arrived at annual milestones

Historical Context
(Understanding our Baseline / Prior Performance)

Customer Satisfaction is one of the key metrics employed to keep track of customer experience at MPI.

In determining customer experience scores and metrics, MPI completes driver analysis and root cause analysis at the journey level.

These journeys include Physical Damage, Insurance and Registration, Bodily Injury and Driver Testing.

MPI tracks and monitors performance in these focus areas on an ongoing basis using customer feedback and operational performance indicators. This helps MPI understand where customers are having successes and where they are experiencing difficulties. This also helps to guide and measure the success of MPI's efforts to improve the experience.

Headwinds & Tailwinds
(Internal/External factors)

MPI's driver and root cause analysis has identified the primary key drivers of customer experience. While an individual customer on their specific journey may experience these in different ways, they are consistently related to:

- **Timeliness of the interaction**, including wait times,
- **Appointment availability**, and cycle time;
- **Preparedness**, or the effectiveness of information leading to and resulting from the interaction;
- **Ease of the interaction**; and, accessibility, including feeling valued and being treated with dignity and respect.

Roadmap Impacts
(Impact from Corporate & Operational Priorities)

Several Corporate Initiatives and Operational priorities will have an impact on Customer Satisfaction, either directly through addressing known opportunities for improved customer experience, or indirectly through enabling customers successfully and more efficiently access MPI's services or enhancing MPI's capabilities to deliver those services through technological, process or procedural improvements.

For 2026/27 committed corporate initiatives include:

- CCaaS - Agent Assist AI Call Summary/Transcript & Low Touch Enhancements (Five9)
- Digital FNOL Enhancements
- Defining Core Portal Capabilities

18

Customer Confidence in MPI Mission Delivery

How we arrived at annual milestones

Historical Context
(Understanding our Baseline / Prior Performance)

Measuring Customer Confidence in MPI Mission delivery develops alignment with customer sentiment on their expectations and brand loyalty, while ensuring MPI is fulfilling its mandate to Manitobans.

This is measured through combining scores for the four areas of MPI's mission statement and rolling them into an aggregate.

Those four areas are:
- Affordable Rates
- Exceptional Coverage
- Exceptional Service
- Safer Roads

Annual CX surveying typically receives responses from approximately 2,500 customers, allowing for customer response to be analyzed across lines of business and customer journeys.

Headwinds & Tailwinds
(Internal/External factors)

Economic conditions and political priorities as well as operational performance against affordability and customer satisfaction targets influence this measure as well.

While legislative efforts and strategic partnerships to address road safety may have a positive impact on public sentiment, changes to service centre operating hours and broader economic conditions that impact Manitoban's economic positions may have a negative impact on the perception of service and coverage.

Proactive media outreach about product and service channel options and emphasis on the Road Safety Dashboard all favourable impact this measure.

Roadmap Impacts
(Impact from Corporate & Operational Priorities)

Teams across MPI plan for operational priorities as part of their ongoing business as usual efforts to demonstrate our commitment to Manitobans.

Corporate Initiatives for 2026/27 that will also positively impact this measure include:
- Digital FNOL Enhancements
- SRE Remediation- SRE Data Quality
- New Impaired Driving Countermeasures
- New Policy Wording

Appendix 4

1. Introduction

Directive 14.12 of the Public Utilities Board (PUB) Order 156/25 to read as follows:

> *" In the 2027 GRA, MPI shall provide analysis and measurements against the Multi-Year Strategic Plan, and report on the development of KPI targets. This will include details as to how MPI's KPI system is integrated into the Corporation's Strategic Plan with KPIs mapped to Strategic Pillars."*

MPI is fulfilling this request by providing a copy of the Strategic KPIs approved by the Board of Directors in *Part II COM Appendix 3 - Multi-Year Strategic KPIs* and outlining additional context regarding target setting and maturing practices to tether decision making to performance outcomes.

2. Setting Meaningful Milestones

MPI has taken a structured and collaborative approach to establishing strategic KPI targets (annual milestones) across the first three years of the Strategic Plan. The focus has been on selecting measures that are meaningful, stable over time, and directly connected to the outcomes set out in the five strategic pillars and corporate focus areas.

2.1. Approach to KPIs and Milestones

The starting point for KPI development in 2025/26 was to focus on defining the right measures, before setting firm milestones. The initial emphasis was on identifying the intended outcomes of the strategy and confirming how those outcomes should be measured. Quantitative milestones were intentionally phased in later, once there was confidence in the measures and the supporting data.

For 2025/26, the primary objectives were to:

- Establish a core set of strategic KPIs aligned to each corporate focus area
- Validate data sources, definitions, and calculation methods
- Begin building reliable baselines using historical and current performance
- Leverage informal 2026/27 and 2027/28 milestones to inform annual business planning and initiative prioritization

During this period, measures were introduced into quarterly performance discussions to test their relevance and usefulness in supporting decision-making. This allowed MPI to refine definitions and ensure consistency in how performance is interpreted.

For 2026/27, the focus shifts from defining measures to strengthening them through:

- Publication and formalization of initial annual milestones tied to realistic delivery expectations
- Clear mapping of each KPI to corporate focus areas
- Stronger integration into annual business planning, budgeting, and reporting processes

By 2027/28, MPI expects increased maturity in its KPI framework, supported by:

- Established practice of setting multi-year milestones across all strategic KPIs
- Greater stability in annual milestones informed by trend data
- More consistent use of KPIs to inform prioritization and trade-off decisions

This phased approach reflects MPI's broader principle of pacing and discipline. Milestones are set deliberately, based on evidence and experience, rather than being introduced too early without sufficient context.

2.2. Approach to Annual Milestone Setting

Annual milestones are set using a consistent framework that considers three key inputs: historical performance, external and internal factors, and the impact of planned corporate initiatives.

Across all strategic KPIs, MPI uses a common approach to milestone setting that includes:

- **Historical context**, to understand baseline performance and long-term trends
- **Headwinds and tailwinds**, including economic conditions, regulatory requirements, and operational pressures
- **Roadmap impacts**, reflecting how existing planned corporate initiatives and operational priorities are expected to influence performance

This approach ensures that annual milestones are not set in isolation. Instead, they reflect both past performance and the expected impact of committed actions and inspire the prioritization of net efforts.

2.3. Collaborative Development and Approval

The development of KPIs and associated milestones was intentionally collaborative, with input from the Board of Directors, Executive Team, and internal subject matter experts.

Board members were engaged through strategy and performance discussions, providing input on whether measures appropriately reflect MPI's mandate and long-

term outcomes. This helped ensure the KPI framework supports governance, transparency, and accountability expectations.

The Executive Team played a central role in refining both measures and milestones. Through structured discussions, executives challenged assumptions, assessed feasibility, and ensured alignment with operational and financial realities. This included reviewing how milestones would respond to both internal constraints and external pressures.

Internal subject matter experts were engaged to validate methodology, data availability, and interpretation. Each KPI has a defined reporting owner and executive SME, with clear accountability for maintaining the measure and supporting its use in decision-making.

Final KPI sets, along with initial milestones, were reviewed and endorsed through MPI's Board of Directors governance processes to ensure alignment with the Strategic Plan and consistency with budgeting and performance reporting.

2.4. Focus on Affordability

Affordability is a central measure within MPI's strategic KPI framework and is tracked using the average insurance premium as a percentage of average income. This measure was selected early in strategy development to reflect how customers actually experience affordability, rather than assessing the isolated cost of premiums.

This approach aligns with the perspective that affordability reflects the value received by customers as well as their ability to maintain predictable, sustainable rates that remain reasonable relative to income over time. By linking premiums to

income, the measure provides a clear line of sight between rate decisions, economic conditions, and the impact on Manitobans.

From a customer perspective, the measure is also intuitive. It answers a simple question: what share of income is required to participate in mandatory auto insurance. This framing supports clearer communication with stakeholders and reinforces transparency in how affordability is assessed.

The measure also allows for comparison across jurisdictions. Because it is expressed as a ratio, it enables comparison even when coverage models, rate structures, and income levels differ. Discussions with other Crown insurers confirmed this is a practical approach. After reviewing MPI's methodology, SGI is exploring adopting a similar measure as part of its own strategy. Adoption by peers strengthens confidence in the approach and supports ongoing benchmarking, learning, and accountability over time.

At MPI, the affordability metric is supported by strong historical context. Over a 20-year period, the ratio of premiums to income has remained within a relatively narrow range, demonstrating consistency and stability even through changing economic conditions. This long-term view avoids overreacting to short-term fluctuations and instead focuses on sustained affordability over time.

This historical performance also informed the establishment of milestones. MPI set a threshold of less than 2.25 percent based on historical experience and customer feedback indicating that insurance has remained affordable within this range. In practice, this functions as a clear boundary. When performance remains below this level, affordability is considered stable. If the measure begins to trend upwards, approaching the threshold, it signals the need for closer review and action.

The value of this metric is particularly relevant in today's economic environment. Manitobans are facing variability in essential costs such as groceries and fuel. In this context, predictability and consistency become important components of affordability. Measuring premiums as a share of income allows MPI to assess whether insurance costs are staying proportionate as these broader pressures evolve, even when absolute prices change.

This measure also strengthens internal decision-making. It creates a direct link between strategic priorities, financial outcomes, and customer impact. It allows MPI to assess trade-offs more clearly, such as balancing cost pressures, service levels, and financial sustainability, while maintaining alignment with its public mandate.

While MPI maintains openness to evolving all strategic KPIs as it matures and learns, the current affordability metric serves not only as a performance measure, but as a practical anchor for decision-making, communication, and long-term planning within MPI's Strategic Plan.

3. Measuring Outcomes of Year 1

The 2025/26 fiscal year represents the first full year of execution of MPI's Multi-Year Strategic Plan. As outlined in the Strategic Plan, Year 1 was intentionally focused on continuing to stabilize the organization, addressing foundational gaps in customer experience and operations, and establishing disciplined approaches to prioritization and delivery.

Performance against MPI's strategic KPIs provides a clear view of the outcomes achieved through these efforts. These results reflect not only what was delivered, but also how decisions related to prioritization, pacing, and resource allocation contributed to improved performance.

3.1. Year 1 Outcomes by Corporate Focus Areas

Affordability

Affordability remained stable and within expected ranges, with the affordability ratio measured at 2.05%, compared to a 10-year historical baseline of 2.24%.

This outcome reflects a continued emphasis on disciplined financial management, cost control, and prioritization of initiatives that support long-term sustainability. Despite ongoing external pressures, including inflation in claims costs and broader economic volatility, MPI maintained affordability within a range that has historically been considered acceptable and predictable for Manitobans.

From a customer perspective, this means that the cost of mandatory auto insurance has remained proportionate to income levels, supporting accessibility and financial predictability.

Organizational Effectiveness

Organizational effectiveness improved across key measures. Employee engagement increased from a baseline of 71% in 2024/25 to 75% in 2025/26, reflecting stronger alignment with MPI's purpose. A commitment to constructive and meaningful two-way communication, increased focus on elements that foster a working environment reflective of the communities MPI serves (including inclusivity, diversity, equity and accessibility as well as dedicated resources to truth and reconciliation), and improved employee confidence in the organization's overall direction.

The percentage of planned work completed within schedule increased from 57% to 65%. This improvement reflects a more disciplined approach to portfolio management. In advance of the 2025/26 fiscal year, MPI deliberately reduced the

volume of work to align with available capacity. Lower-priority initiatives were deferred, and the remaining portfolio was prioritized based on impact and readiness.

This approach improved delivery confidence and reduced overextension. The increase in on-time completion is not only a result of improved execution practices, but also a result of choosing the right work to pursue.

For Manitobans, this translates to more reliable delivery of key initiatives and improved organizational consistency.

Customer Value

Customer satisfaction improved across most journeys, reflecting targeted efforts to address known pain points and improve service delivery.

- Insurance and Registration remained stable at **85%**, maintaining strong performance in high-volume, core service areas

- Driver Testing decreased slightly from **67% to 66%**, reflecting a new plateau for customer expectations after wait times improved significantly since the implementation of the Training Support Requirement in early 2024

- Physical Damage claims improved from **63% to 71%**, demonstrating the positive impact from focused efforts to improve claims handling and timeliness

- Bodily Injury claims improved from **64% to 70%**, reflecting progress in addressing complexity and responsiveness in these cases

These improvements are directly linked to initiatives prioritized under the Strategic Plan, including work to standardize the way Customer Experience and Operations performance targets are set and shared internally, elevating customer-facing employee onboarding and call centre scripts to reduce customer friction across key journeys, and reducing customer wait times by introducing the ability to book service centre appointments online.

For customers, these changes mean faster service, clearer processes, and more consistent interactions across service channels.

Corporate Responsibility

Customer confidence in MPI's ability to deliver on its mission remained stable at **66% year over year**.

Maintaining this result reflects stability in how customers perceive MPI's ability to balance affordability, service, and road safety outcomes. This measure is influenced by both operational performance and broader external factors, including economic conditions and public expectations.

MPI's continued investment in road safety initiatives, public engagement, and transparency contributes to maintaining this level of confidence.

Financial Stability

At the time of filing, Basic MCT based on March 31, 2026 year-end actuals is 108%, above the legislated threshold of 100% and the Basic operating expense ratio based on 2025/26 actual results is 22.9%, comparable to the 2024/25 actual of 22.2%.

3.2 Linking Outcomes to Strategic Choices

The results observed in 2025/26 are not independent of how the work was selected and delivered. They reflect a deliberate shift in how MPI manages its portfolio and prioritizes initiatives.

Key factors contributing to these outcomes include:

- Disciplined prioritization of initiatives aligned to strategic KPIs, ensuring that limited resources were focused on work with the greatest impact
- Deferral or re-sequencing of lower-priority work, reducing delivery risk and allowing focus on critical areas such as claims, customer experience, and foundational systems
- Improved visibility through the Integrated Corporate Portfolio, enabling better understanding of capacity constraints and interdependencies
- Greater alignment between planning, budgeting, and execution, ensuring that initiatives were supported by appropriate resources

The improvement in delivery performance and customer outcomes demonstrates that these choices had a measurable impact.

3.3 Examples of how KPI Development Informed Decisions

The 'affordability' KPI established a clear ceiling-style measure that can be monitored over time and used to test whether product decisions remain consistent with MPI's affordability objective.

The 'Percentage of planned work completed within schedule' KPI reinforced the need to narrow the portfolio to work that could realistically be delivered, contributing to stronger year-end performance and more disciplined sequencing into 2026/27.

'Customer satisfaction by journey' KPI's made it easier to prioritize work in physical damage, bodily injury, and general customer wait times based on where customer friction was most visible and improvements could be made without significant technology requirements.

3.4 Impact for Manitobans

The Strategic Plan is designed to deliver value to Manitobans, and the 2025/26 results show early evidence of this impact.

- Insurance remains affordable and predictable relative to income, despite broader economic volatility
- Service quality and consistency is improving in key customer journeys, particularly in claims handling
- The organization is delivering on its commitments more reliably, with stronger discipline in planning and execution
- Confidence in MPI's ability to deliver its mandate remains stable, supported by continued focus on core services and public outcomes

These results reflect a shift toward a more focused and disciplined organization, where decisions about what work to pursue are increasingly aligned with customer needs, operational realities, and long-term sustainability.

4. From Year 1 Outcomes to Consistent Execution

The results observed in 2025/26 reflect more than the completion of individual initiatives. They are the early outcome of a broader shift in how MPI plans, prioritizes, and delivers work.

Since Board approval in October 2024, the direction of the Multi-Year Strategic Plan has remained unchanged with only minor updates to wording where required. The

five strategic pillars and five corporate focus areas continue to guide both what MPI is working toward and how that work is organized. The strategy was designed to grow and evolve within MPI's operating environment with a direction that is applied consistently over time, not redefined each year.

A maturing practice of embedding the Strategic Plan across planning, budgeting, and delivery was evident leading up to 2025/26 execution and in advance of the 2026/27 fiscal year. During planning activities, structured conversations ensured MPI made deliberate decisions to narrow the scope of work to align with available capacity and elevate the priority of efforts that enable or directly impact corporate focus areas. This resulted in a more balanced, strategically sound and achievable portfolio.

At the same time, improvements in portfolio visibility and prioritization allowed for clearer trade-off decisions throughout the year. When new pressures or constraints emerged, the organization was better positioned to adjust without compromising key outcomes.

This more disciplined approach to planning and execution contributed directly to the outcomes observed in Year 1. Improvements in delivery performance, customer satisfaction, and employee engagement reflect both the work that was completed and the decisions about which work to pursue.

The emphasis in Year 1 was on establishing common frameworks, improving visibility into work and capacity, and creating alignment between strategic priorities and resource allocation. And while these changes represent improvements in disciplined execution, building consistency in how the organization plans and delivers work takes time and will continue to mature each fiscal planning cycle.

As these practices continue to mature, MPI is strengthening its ability to deliver consistent outcomes while maintaining the flexibility required to respond to changing conditions.

This foundation also supports more effective performance measurement. With a stable approach to organizing and delivering work through the strategic pillars, MPI is better positioned to assess the impact of that work across the corporate focus areas using a defined set of strategic KPIs.

4.1 Forward View: 2027/28 Strategic KPI Trajectory

MPI's approach to KPI development includes establishing a forward view of expected performance to support multi-year planning and prioritization decisions.

For 2027/28, MPI has developed early directional milestones for key strategic KPIs. These milestones are informed by:

- performance trends observed in 2025/26
- initial milestones established for 2026/27
- known impacts of planned initiatives across the multi-year portfolio

These milestones are not intended as fixed or final targets. They represent a planning anchor that allows MPI to choose a portfolio of work to achieve its intended outcomes over time.

How 2027/28 Milestones are Used

The primary role of these forward-looking milestones is to inform planning decisions.

They are used to:

- assess to what degree current initiatives and operating models are likely to deliver sustained improvements
- identify where additional effort may be required to meet expected outcomes
- support sequencing decisions across fiscal years
- reinforce trade-offs when capacity constraints require work to be deferred

For example:

- improvements targeted in customer satisfaction for physical damage claims are guiding prioritization toward changes to adjusting and total loss settlement, rather than intake and estimating, focusing where the largest gaps exist
- expectations for maintaining affordability within established thresholds reinforce MPI's continued focus on cost discipline and if affordability measures begin to trend unfavourably, prioritization of efficiency-focused initiatives
- delivery performance targets inform decisions to maintain a constrained and achievable portfolio, reinforce proactive, transparent and cross-divisional planning practices, and help mature resource and timeline estimating practices

Relationship to annual business planning

The establishment of annual milestones strengthens the connection between the Strategic Plan and annual business planning. Confirming KPI milestones with a two-year horizon ensures MPI uses a forward view to:

- assess to what extent current initiatives will contribute to sustained outcomes beyond a single year
- avoid short-term decisions that could negatively impact long-term performance
- maintain alignment between strategic priorities, resource allocation, and expected outcomes
- maintain flexibility to set aspirational yet achievable milestones that reflect the environment and trajectory

This approach supports a more consistent and disciplined planning process, while maintaining flexibility to adjust based on actual performance and emerging conditions.

5. Alignment of Strategic KPIs to Corporate Focus Areas

MPI's strategic KPIs are aligned to the corporate focus areas rather than directly to the strategic pillars. This is an intentional design choice grounded in how the Strategic Plan is structured and how impact is measured.

The corporate focus areas represent the outcomes the strategy is intended to influence. These include affordability, financial stability, organizational effectiveness, customer value, and corporate responsibility. Each focus area reflects

a critical dimension of MPI's public mandate and defines where the Strategic Plan is expected to create measurable impact.

By contrast, the five strategic pillars represent how the work is organized and delivered. The pillars group related programs and initiatives into manageable areas of accountability. They provide structure for execution, ownership, and planning across the organization.

In practical terms:

- Strategic pillars organize the work
- Corporate focus areas define the impact of that work
- Strategic KPIs measure that impact

5.1. Separation of Measurement and Execution

MPI deliberately separates measurement from execution to ensure clarity and avoid fragmented reporting.

The strategic KPIs are designed as a small set of enterprise-level measures that capture the overall impact of the Strategic Plan. As outlined in *Part II COM Appendix 3 – Multi-Year Strategic KPIs*, these KPIs are intended to act as long-term indicators of progress, helping to show whether the organization is moving toward its stated goals and where course correction may be required.

These measures are not intended to track individual initiatives or programs. Instead, they provide a consolidated view of outcomes across all work contributing to each focus area. For example:

- Customer satisfaction reflects the combined effect of multiple initiatives across claims, service delivery, and digital channels
- Organizational effectiveness reflects both delivery performance and internal alignment
- Affordability reflects financial decisions, operational efficiency, and broader economic conditions

If KPIs were aligned directly to pillars, performance would be fragmented across delivery structures and would not provide a clear line of sight to the outcomes that matter most to Manitobans.

5.2. Value of Overarching Strategic KPIs

Using a focused set of overarching KPIs provides several benefits.

First, it ensures that performance is assessed at the level of strategic impact, not activity. This reinforces accountability for outcomes rather than outputs.

Second, it avoids duplication or conflicting measures across pillars. Multiple pillars often contribute to the same outcome. For example, improving customer value may involve initiatives under customer-focused programs, technology programs, and workforce-related programs. A single KPI allows MPI to assess the collective effect of this work.

Third, it supports clearer governance and decision-making. Executive discussions can focus on whether outcomes are improving, stable, or at risk, rather than reviewing disconnected program-level metrics.

Finally, it aligns with the role of the Strategic Plan as a long-term framework. As noted in the KPI materials, these measures are intended to be interpreted over time and used to inform prioritization, rather than to manage day-to-day operations.

5.3. Complementary Roles of Pillars and KPIs

While distinct, the pillar structure and KPI framework are complementary.

The pillar and program structure provides:

- Clear ownership and accountability for delivery
- A way to organize initiatives and manage interdependencies
- A framework for annual business planning and progress reporting

The KPI framework provides:

- A consistent view of whether the strategy is delivering the intended results
- A way to assess trade-offs and adjust priorities over time
- Transparency into performance for internal and external stakeholders

Together, these two structures create a balanced approach:

- The pillar structure ensures disciplined execution
- The KPI framework ensures accountability for results

This separation also allows MPI to evolve its delivery approach over time without losing consistency in how performance is measured. As initiatives are added, deferred, or re-sequenced based on capacity, the KPIs remain stable and continue to provide a clear view of progress.

Appendix 5: Strategic Plan Post Closure NOVA

1. Introduction

Directive 14.13 of the Public Utilities Board (PUB) Order 156/25 to read as follows:

> *In the 2027 GRA MPI shall include updates to elements of the Strategic Plan based on evolving strategy, including the revised IT Strategy reflecting planning for post-closure of Project NOVA.*

MPI is fulfilling this request by outlining how MPI's Multi-Year Strategic Plan continues to guide the organization's direction, with only targeted refinements introduced since Board approval in October 2024. The core structure, including the five strategic pillars and five corporate focus areas, remains unchanged. The Strategic Plan continues to emphasize long-term stability, disciplined execution, and capacity-aware pacing.

The updates described in this section reflect the natural evolution of the strategy as it moves from foundation setting in Year 1 (2025/26) to more focused execution in Year 2 (2026/27), as reflected in the 2026-27 Final Annual Business Plan.

2. Continuity of Strategic Direction

The strategic direction established in 2024 remains intact. The five corporate focus areas continue to act as the guiding framework for decision-making and resource allocation:

- Affordability
- Financial Stability
- Organizational Effectiveness

- Customer Value
- Corporate Responsibility

These focus areas define the outcomes MPI is working toward, while the strategic pillars continue to organize how that work is delivered.

The emphasis on pacing work according to organizational capacity also remains unchanged. MPI continues to match ambition with available resources to ensure that modernization efforts are sustainable and do not compromise core service delivery or affordability.

2.1. Targeted Refinements to Strategic Plan Elements

While the overall direction remains stable, several refinements have been made to strengthen clarity, accountability, and measurement.

Strategic KPI Refinement

MPI has refined its KPI framework to improve clarity and alignment with intended outcomes:

- The Organizational Effectiveness financial metric has shifted from a "dollar per registered vehicle" measure to an expense ratio, providing a clearer view of cost management relative to operations and aligning more directly with financial tracking and reporting practices.

- Customer Value KPIs have been expanded from a single, aggregate measure to include customer satisfaction across four key journeys: Insurance & Registration, Driver Testing, Physical Damage Claims, and Bodily Injury Claims.

These refinements strengthen the measurement framework without changing the underlying strategic intent. They provide more specific insight into performance while maintaining consistency with the corporate focus areas.

2.2. 2026/27 Priorities: From Stability to Execution

The 2026/27 fiscal year marks a clear transition from establishing foundations to delivering on commitments. As described in the Annual Business Plan, the focus is on execution with strong continuity from Year 1. The priorities for 2026/27 reflect this shift. They build directly on work initiated in 2025/26 and are aligned to the Strategic Plan.

Across all five pillars, the focus remains consistent:

- Improving customer experience and reducing friction in key journeys
- Strengthening organizational discipline and clarity
- Enhancing financial sustainability and transparency
- Continuing modernization efforts in a paced and structured manner

The work selected for 2026/27 reflects a deliberate balance between advancing improvements and maintaining organizational capacity.

2.3 High-Level Themes by Strategic Pillar

Pillar 1: Focus on Our Customers

Priorities center on improving convenience, accessibility, and claims experience. Key initiatives include expanded digital services, enhanced claims intake and processing, and reduced transaction friction.

The emphasis is on improving how customers interact with MPI in practical ways, including faster claims, reduced wait times, and more accessible digital options.

Pillar 2: Build Engagement and Pride

Work under this pillar focuses on workforce planning, leadership alignment, and embedding values into day-to-day operations. Priorities include acting on employee feedback, strengthening workforce planning, and advancing inclusion and reconciliation efforts.

The goal is to improve employee alignment and engagement, which supports more consistent service delivery.

Pillar 3: Deliver on Our Promises

This pillar emphasizes reliability, accountability, and consistent delivery. Priorities include strengthening performance governance, improving key systems, and advancing claims platform upgrades.

The focus is on ensuring that commitments made to Manitobans are delivered consistently and accurately.

Pillar 4: Strengthen Our Financials

Initiatives under this pillar focus on improving financial sustainability, strengthening underwriting practices, and enhancing financial reporting.

The intent is to ensure that financial discipline supports long-term affordability and stability.

Pillar 5: Be Ready for What's Ahead

This pillar continues to focus on modernization and future readiness, including technology renewal, cybersecurity, and exploration of responsible automation.

The emphasis remains on building a stable and sustainable foundation for future service delivery.

2.4 IT Strategy and Alignment to Corporate Outcomes

MPI recognizes that following the closure of Project Nova, continuity of strategic direction must be matched with clearer execution discipline. For that reason, MPI's revised IT approach is not a continuation of prior delivery patterns. It is a roadmap-driven model with greater emphasis on sequencing, visibility, resourcing, and alignment to business outcomes. This appendix provides the strategic update, while the Information Technology chapter provides the detailed reporting requested by the PUB.

Overall, MPI's IT strategy continues to evolve as part of the broader Strategic Plan and reflects planning for the post-closure of Project NOVA. The approach has shifted from large-scale transformation to a rolling, roadmap-driven model that prioritizes renewal, maintenance, and risk reduction.

Key themes for 2026/27 include:

- Improving service reliability and system performance
- Strengthening cybersecurity and data protection
- Addressing technical debt through planned upgrades
- Enhancing digital service accessibility
- Providing better tools for employees

This approach reflects a deliberate alignment between technology investments and business outcomes. IT initiatives are prioritized based on their ability to enable improvements in:

- Customer value, through more reliable and accessible services
- Corporate responsibility, through improved transparency, security, and accessibility
- Affordability, through cost-effective modernization and reduced long-term system risk

2026 ALM Technical Conference

Preliminary Questions:

OCIO Agreement

1. Please provide a copy of the OCIO agreement.

Response: The Services Agreement was executed by the parties on October 31, 2025 (Towers Watson) and November 3, 2025 (MPI). An Amendment to the Services Agreement has been drafted but has not yet been finalized for execution.

MPI was directed by the PUB to file the OCIO agreement in the 2027 GRA under Order 156/25 (Directive 27).

OCIO Representatives

2. What are the names, titles, and responsibilities of the OCIO's representatives who are responsible for the items below?
   - ALM Study
   - ALM Technical Conference
   - Providing evidence and being available for examination in GRA hearings related to the ALM Study
   - Other (describe)

Response: Towers Watson (WTW) has designated the following representatives as responsible for services provided under the non-discretionary OCIO advisory arrangement with MPI:

Marcus Turner, Managing Director, Investments
Mr. Turner serves as the overall engagement lead and is accountable for the delivery and quality of all OCIO advisory services provided to MPI. His responsibilities include senior oversight of the ALM Study, strategic investment advice, engagement with MPI senior management and the Investment Committee, and participation in regulatory proceedings, including providing evidence and responding to questions at PUB hearings and technical conferences, as required.

MP Aubuchon, Senior Director, Investments, CIM, ASA
Mr. Aubuchon serves as the lead strategist for the Asset Liability Management (ALM) study and is responsible for the design, execution, and technical integrity of the analysis undertaken for MPI. He leads the development of strategic asset allocation recommendations, including modelling, capital market assumptions, and risk analysis, ensuring outputs are robust and aligned with MPI's objectives and constraints, while working closely with the broader WTW team to translate complex analytical findings into clear, decision-relevant insights for MPI senior management and the

Submitted on behalf of CC and CMMG

Investment Committee, and supporting the articulation of methodology and results in regulatory settings, including PUB proceedings, as required.

James Sturgess, Director, Investments
Mr. Sturgess serves as the day-to-day project manager for the engagement and is responsible for coordinating the execution of the ALM Study and related analytical work. His responsibilities include managing project timelines and deliverables, coordinating technical analysis and reporting, supporting preparation of materials for the ALM Technical Conference, and assisting with responses to information requests and examination in regulatory proceedings.

Additional WTW subject-matter specialists may support specific analytical components of the ALM Study or reporting as required. All work is performed in an advisory capacity. MPI retains full responsibility for all strategic decisions, approvals, and implementation.

OCIO's Reporting and Risk Management

3. Please provide a description of the risk management and reporting responsibilities of the OCIO related to the ALM Study.

Response: Under the Services Agreement, the OCIO operates in a non-discretionary advisory capacity. Its role in relation to the ALM Study is limited to analysis, advice, and reporting. MPI retains full responsibility for all strategic decisions, approvals, and implementation.

In connection with the ALM Study, the OCIO's reporting and risk management responsibilities include:

- conducting asset-liability modelling to assess the impact of alternative asset mixes on liabilities, capital adequacy, and key financial risk measures;
- developing efficient frontiers and related analytical outputs to support MPI's evaluation of risk-return trade-offs;
- assessing and quantifying key risks relevant to MPI, including interest rate risk, capital strain, downside risk, and recovery characteristics, using scenario and sensitivity analysis;
- supporting MPI's review of investment risk appetite by providing analysis of how alternative portfolio structures affect asset-liability outcomes and regulatory metrics; and
- preparing ALM-related reporting and analysis used in governance and regulatory processes, including materials presented to the Investment Committee and information incorporated into the General Rate Application.

The OCIO does not make investment decisions, set policy, or implement changes. All conclusions drawn from the ALM Study are advisory in nature and are subject to review, approval, and decision-making by MPI.

Submitted on behalf of CC and CMMG

a) How will reporting or risk management be different from the prior two ALM Studies?

Response: The 2026 ALM Study will be conducted using the OCIO's established asset-liability modeling framework, capital market assumptions, and analytical approach. The study will be designed to address MPI's current objectives, constraints, regulatory requirements, and market conditions, and to support MPI's governance and decision-making needs at this time.

Any differences in reporting or risk analysis relative to prior studies reflect the OCIO's independent methodology and the specific scope of the 2026 ALM Study, rather than an assessment of, or commentary on, prior ALM work.

b) Is it the position of MPI and the OCIO that reporting will be more robust and risk management stronger than under the prior non-OCIO model? If so, please explain how.

Response: We cannot make commitments or representations regarding the relative robustness of reporting or strength of risk management compared to the prior non-OCIO model. Looking forward, under the OCIO framework, the OCIO will endeavour to provide high-quality, timely, and decision-useful reporting that supports MPI's governance, risk oversight, and investment decision-making needs.

Reporting and risk management processes will be designed to align with MPI's stated objectives, regulatory requirements, and risk appetite, and will evolve over time in response to MPI's feedback and changing circumstances.

ALM Study Process and Timeline

4. How will the OCIO's ALM Study process differ from the one used by Mercer in the past two studies?

Response: WTW will apply its established ALM methodology, using their own internal processes, capital market assumptions, and experience. While the overall objectives of the study remain consistent, the approach and execution may differ based on the consultant's framework. MPI is not making comparisons to prior ALM Studies or the approaches used by previous consultants.

5. Please provide a timeline for the "2026 ALM study period", including such items as:
   - phases and milestones;
   - tasks/activities and responsibilities;
   - start and end dates;
   - constraints and assumptions; and
   - dependencies on external parties.

Response: Below is the current timeline for the ALM Study:

- **March 17th** – Risk Appetite presented to the Investment Committee (IC).

Submitted on behalf of CC and CMMG

- **April 28th** – PUB Technical Conference: WTW to present the Risk Appetite and respond to stakeholders' questions.
- **June 17th** – Risk Appetite to be presented to the Risk Committee for approval.
- **August 12th** – Preliminary efficient frontiers to be presented to the IC.
- **Pre October Hearing** - Efficient Frontiers to be shared with PUB through Information Requests.
- **October PUB hearing** – WTW to present the new ALM study to PUB, respond to stakeholders' questions and receive feedback.
- **November 12th** – ALM study to be presented to the IC for approval.

ALM Conference & Agenda

6. Please clarify the purpose of the Conference, from MPI's perspective, given the PUB's Order "to review preliminary findings in the 2026 ALM study period" and "seek stakeholder feedback before it is finalized".

Response: From MPI's perspective, the purpose of the Conference is to present the proposed Risk Appetite to the PUB and seek feedback during the early stages of the ALM process. This approach allows MPI to consider the stakeholder input prior to proceeding with the ALM study.

7. Please explain how MPI intends to respond to stakeholder feedback from the technical conference.

Response: MPI will respond viva voce at the technical conference itself but also expects to respond in materials filed in the 2027 GRA, including within the Investments Chapter and throughout the Information Request process.

8. In MPI's view, what process will the "preliminary" findings be subject to before the findings are "final"?

Response: The findings will not be considered final until approved by the Investment Committee (IC). As noted in our response to Question 5, the preliminary efficient frontiers will be presented to the IC and to stakeholders on separate dates to take questions and gather feedback. Formal approval will be requested at the IC meeting on November 12.

Stakeholder Feedback

9. Which recommendations made by stakeholders from prior years require more information (clarification)?

Response: MPI does not require additional clarification on stakeholder recommendations from prior years. The 2026 ALM study will be conducted by WTW using current market conditions and updated capital market assumptions. As a result, the study is not intended to revisit or re-litigate recommendations made in prior proceedings. MPI and WTW welcome feedback from stakeholders on WTW's presentation at the Technical Conference.

Submitted on behalf of CC and CMMG

10. What specific questions do you intend having for Mr. Viola?

Response: MPI did not anticipate having specific questions for Mr. Viola. MPI and its OCIO will be there primarily to answer questions from Mr. Viola and PUB advisors. However, it may be that MPI has questions for Mr. Viola based on feedback received at the Technical Conference.

11. Does the OCIO agree with Mercer's assessments (in the 2019 GRA (Appendix 15), ASSET LIABILITY MANAGEMENT STUDY: PHASE THREE CAC RECOMMENDATIONS (18 JANUARY 2018)) regarding the 18 Recommendations made by Mr. Viola and CAC Manitoba in the 2017 GRA?

a) Are these assessments still relevant today? If not, please explain.

Response: MPI did not share with the new OCIO the recommendations made by Mr. Viola in 2016. The recommendations made by Mr. Viola (in the 2017 GRA) were responded to by Mercer in the 2018 ALM Study it prepared for MPI (Phase 3).

MPI does not believe recommendations made in 2016 are relevant to an ALM Study underway in 2026, being prepared by a different consultant.

12. Describe the **nature** of stakeholders' feedback that is reasonable to expect at the Conference (e.g., asset classes to consider, etc.), along with any limitations (i.e., feedback that MPI/OCIO would not consider).

Response: MPI welcomes stakeholder feedback on the proposed Risk Appetite, asset class considerations, and overall ALM Framework. Stakeholder feedback will be considered in the context of MPI's objectives, regulatory requirements, governance framework, and implementation constraints.

Final recommendations arising from the ALM Study will reflect MPI's assessment of all relevant inputs and will be subject to internal review and approval by MPI's Investment Committee.

Reward/Risk Metrics

13. How will reward/risk metrics differ from those used by Mercer?

Response: The metrics for assessing reward and risk have not yet been determined given the ALM study is still in its early stages.

The OCIO will apply its established asset-liability modeling framework and will use a set of reward and risk measures appropriate to MPI's objectives, regulatory requirements, and risk appetite. These measures are expected to assess trade-offs between expected return, downside risk, capital strain, recovery characteristics, and asset-liability sensitivity.

MPI and the OCIO are not making comparisons to the reward or risk metrics used in prior ALM Studies. Any differences in metrics will reflect the OCIO's independent methodology and the specific scope of the 2026 ALM Study, rather than an evaluation of prior approaches.
Submitted on behalf of CC and CMMG

Asset Class Universe and Constraints

14. How will MPI/OCIO address the PUB's finding, which is that "MPI's investment portfolio is still not on the efficient frontier", noting that the Board "expects that this issue will be addressed in the future portfolio composition informed by a new ALM study" (PUB Order 156/25, pages 122-123)?

Response: WTW will develop updated efficient frontiers as part of the ALM study, based on current capital market assumptions.

Portfolio options evaluated in the ALM Study will utilize efficient frontiers as one of the analytical tools subject to MPI's objectives, constraints, regulatory requirements, and implementation considerations. The analysis will allow MPI to assess the trade-offs between expected return, risk, capital outcomes, and asset-liability characteristics for alternative portfolio structures.

Any changes to MPI's portfolio composition arising from the ALM Study will be informed by this analysis and will be subject to MPI's governance processes, including review and approval by the Investment Committee.

15. What specific constraints will be imposed (e.g., min/max allocations by asset class), and why?

Response: The ALM Study will reflect constraints that are policy-driven, governance-driven, or implementation-driven, rather than arbitrary modeling assumptions. These may include:

- Minimum and maximum allocations by broad asset class, particularly for fixed income, return-seeking assets, and real assets, to remain consistent with MPI's investment policy, risk appetite and governance framework.
- Credit quality constraints (e.g., limits on below-investment-grade exposure), reflecting MPI's emphasis on capital preservation and balance-sheet resilience.
- Liquidity constraints, ensuring that portfolios remain able to meet claims and regulatory capital requirements under stressed conditions.
- Duration and interest-rate exposure constraints, consistent with MPI's existing liability-matching framework and interest rate risk management policies.

These constraints are imposed to ensure that modeled portfolios are implementable, policy-consistent, and aligned with MPI's stated objective of financial stability and predictable outcomes.

16. Confirm that the cost of any constraints will be able to be quantified in the ALM Study, as it has been in the prior two ALM Studies (e.g., by quantifying the return difference with and without the constraint at different levels of risk).

Submitted on behalf of CC and CMMG

Response: Yes. As part of the 2026 ALM Study, the OCIO will quantify the economic impact of constraints on portfolio outcomes. This analysis will be undertaken by comparing constrained portfolios to unconstrained, or less-constrained, alternatives at comparable levels of risk, and by assessing the impact of constraints across key financial metrics.

The analysis will consider the effects of constraints not only on expected return, but also on relevant risk and capital measures, such as downside risk and capital strain, to support MPI's assessment of the trade-offs between risk and foregone return.

This approach is intended to inform MPI's evaluation of whether constraints remain appropriate given its objectives, risk appetite, and regulatory requirements.

Other Constraints

17. Does the OCIO agree that the Interest Rate Risk Hedge Ratio policy represents a constraint?

Response: Yes. The OCIO agrees that the Interest Rate Risk Hedge Ratio policy is a material constraint within the ALM framework.

The policy is designed to manage interest rate risk relative to MPI's liabilities and, in doing so, influences the range of asset-liability outcomes evaluated in the ALM analysis. Alongside other policy, governance, and implementation considerations, it helps shape the set of portfolio structures assessed in the ALM Study.

The Interest Rate Risk Hedge Ratio will therefore be reflected in the ALM analysis as part of the broader risk management context, rather than as a standalone or isolated modeling assumption, when evaluating alternative asset mixes and risk-return trade-offs.

18. Does the current Interest Rate Risk Hedge Ratio policy increase inflation risk at higher levels of risk (e.g., more real estate in Basic) if (nominal) bonds are used to implement the policy (rather than real return bonds, also called inflation-linked bonds)?

Response: The interaction between interest rate hedging, asset mix, and inflation risk is complex and depends on both the composition of the portfolio and the instruments used to implement the hedge.

Where interest rate hedging is implemented using nominal bonds, changes in asset mix can influence how inflation and real interest rate risks interact and future expectations. The interaction between different asset classes (e.g., nominal bonds, real assets, other diversifiers), and their combined effects on real returns and relevant risk metrics are best assessed at the total portfolio and asset-liability level.

Submitted on behalf of CC and CMMG

In addition, practical implementation considerations are relevant. The availability, liquidity, and market depth of hedging instruments, such as real return bonds, may affect how interest rate and inflation risks are managed in practice.

As part of the 2026 ALM Study, interest rate and inflation risks will be examined in an integrated manner, considering asset mix, hedging instruments, and implementation considerations, to support MPI's assessment of risk-return trade-offs under alternative portfolio structures.

Leverage Constraint

19. What are the OCIO's views on the use of financial leverage in ALM Studies?

Response: Financial leverage, at the portfolio level, can be analyzed within an ALM framework as part of scenario or sensitivity analysis to illustrate how different portfolio structures affect risk and return outcomes.

In the context of an ALM Study, leverage may be used analytically to examine theoretical risk-return trade-offs, capital efficiency, and sensitivity to assumptions, rather than as an assumed or embedded feature of base-case, implementable portfolios.

Any consideration of leverage within the 2026 ALM Study would be undertaken for analytical purposes and assessed considering MPI's objectives, regulatory requirements, governance framework, and emphasis on capital adequacy, downside risk, and resilience.

20. When would the use of financial leverage be considered prudent, generally speaking, and also specifically related to MPI?

Response: The appropriateness of financial leverage depends on the specific objectives, constraints, governance framework, and regulatory context of the organization being analyzed.

In an ALM context, any assessment of leverage must be informed by considerations such as capital adequacy, downside risk tolerance, liquidity requirements, recoverability under stress, and the robustness of governance and risk controls.

As a result, it is not practical to opine in the abstract on when leverage is prudent, nor make any determination regarding its suitability for MPI outside the context of a comprehensive ALM analysis. Any consideration of leverage related to MPI would need to be evaluated within MPI's specific mandate, regulatory environment, risk appetite, and implementation constraints, and would be subject to MPI's governance and decision-making processes.

21. What constraints, if any, should be considered when it comes to the use of financial leverage (and why)?

Submitted on behalf of CC and CMMG

Response: Any consideration of financial leverage within an ALM framework would need to consider MPI-specific policy, governance, regulatory, and implementation considerations.

Relevant factors may include capital adequacy and downside risk, liquidity and cash-flow requirements, asset class characteristics, governance and risk controls, and regulatory and stakeholder expectations.

The relevance of any such considerations would depend on MPI's mandate, risk appetite, and regulatory environment, and would be evaluated within the context of a comprehensive ALM analysis and MPI's governance processes.

Exclusion of Real Return Bonds

22. What are the expectations related to inflation in the ALM Study (e.g., average annual growth and volatility)?

Response: Inflation is an important consideration within MPI's asset-liability management framework and will be considered in the 2026 ALM Study through forward-looking assumptions and stochastic modeling.

Inflation will be assessed alongside other key risk factors, including interest rate risk, capital adequacy, downside risk, and recovery characteristics. Accordingly, inflation is considered as part of an integrated assessment of asset-liability outcomes rather than as a standalone or dominant driver of decision-making.

The ALM Study will incorporate inflation assumptions consistent with the OCIO's capital market framework, including expected, and downside results, of the levels and variability, and will reflect how inflation interacts with asset returns and liability behavior over time. Specific assumptions will be documented in the ALM materials and evaluated in the context of MPI's objectives, constraints, and regulatory environment.

23. Can the OCIO confirm that the liabilities' volatility will be modeled using stochastic (not deterministic) assumptions?

Response: Yes. The liabilities' volatility will be modeled using stochastic assumptions as part of the 2026 ALM Study. This approach allows uncertainty in key drivers, including interest rates and inflation, to be reflected in asset-liability outcomes and risk measures over time.

US Treasury Inflation Linked Bonds (ILBs)

24. What are the capital market assumptions for ILBs, including those below, along with those for Canadian RRBs?
    - Expected return and potential breakdown (e.g., USD real and USD nominal)

Submitted on behalf of CC and CMMG

- Volatility
- Key correlations (e.g., US TIPS, Canadian RRBs, etc.)

Response: Capital market assumptions used in the 2026 ALM Study are developed and refreshed regularly by the OCIO using forward-looking methodologies and the most recent available information on expected returns, volatility, and correlations.

The specific asset classes included in the ALM modeling, and the level of detail applied to individual instruments, will be determined as part of the study design and considering MPI's objectives, constraints, and implementation considerations. The OCIO does not propose to provide detailed capital market assumptions for individual asset classes outside the context of the ALM Study itself.

To the extent that inflation-linked instruments are considered within the ALM analysis, any assumptions applied would be internally consistent with the OCIO's broader capital market framework and documented in the ALM materials presented through MPI's governance and regulatory processes.

25. How reliable are the ILB capital market assumptions (compared to those for real estate and nominal bonds)?

Response: The reliability of capital market assumptions depends on the specific asset classes included in the ALM Study, the data available for those asset classes, and the role they play within the overall modeling framework.

The OCIO does not assess or rank the relative reliability of capital market assumptions for individual asset classes outside the context of a completed ALM Study. Assumptions are developed using consistent, forward-looking methodologies and are evaluated based on their appropriateness for MPI's objectives, constraints, and regulatory environment.

To the extent that any asset class is included in the ALM analysis, the associated assumptions would be internally consistent with the OCIO's broader capital market framework and applied in a manner appropriate to the nature of the asset and the intended use of the analysis. No inference should be drawn regarding the inclusion or exclusion of any particular asset class based on this response.

Effectiveness of Duration Policy

26. Does the OCIO agree with Mr. Viola's recommendation in the 2017 GRA (below)?

"The effectiveness of the duration policy should be reviewed, given the inherent risks of changing real interest rates and unexpected inflation arising from MPI's liabilities, and exposure to changes in nominal interest rates in the MPI portfolio (i.e., nominal bonds without inflation protection). More

Submitted on behalf of CC and CMMG

specifically, MPI should re-assess the effectiveness of its duration-matching strategy since inflation (actual and/or expected) may differ from current expectations."

Note: In Mr. Viola's opinion, Mercer's response did not address his recommendation about the effectiveness of the duration policy because Mercer's response did not distinguish between real and nominal interest rate risks (i.e., inflation risk).

Response: The OCIO does not propose to agree or disagree with recommendations advanced in prior regulatory proceedings or by third-party experts retained for those proceedings.

The 2026 ALM Study is being conducted independently using the OCIO's established asset-liability modeling framework and current market conditions, and is focused on assessing MPI's objectives, risks, and constraints as they exist today.

As part of this work, interest rate risk, inflation risk, and related asset-liability dynamics will be examined in an integrated manner within the ALM framework. The study is forward-looking in nature and does not seek to revisit or validate recommendations made in earlier proceedings.

Duration Policy "Basis" Risk

27. Does the OCIO agree with Mr. Viola's recommendation in the 2019 GRA (below)?

*"Re-examine the effectiveness of the **duration policy**, which uses (nominal) bonds as the basis for matching the inflation and real interest rate sensitivity of Basic and Pension Liabilities, since inflation **volatility** is not zero."*

Response: As part of the 2026 ALM Study, MPI and its OCIO are re-examining the effectiveness of the current duration policy relative to its objectives, including managing interest-rate risk, limiting funded and capital volatility, and supporting regulatory requirements.

The analysis assesses hedge effectiveness and outcomes across a range of interest-rate environments and considers the trade-offs between risk reduction, return, and liquidity. This review is analytical in nature and does not presuppose a change to the duration policy.

Any conclusions regarding the appropriateness of the duration policy will be considered by MPI in the context of the full ALM Study. The OCIO's role is limited to analysis and advice; all policy decisions rest with MPI.

Fixed Income Risk Concentration

28. Does the OCIO agree with Mr. Viola's recommendation in the 2019 GRA (below)?

Submitted on behalf of CC and CMMG

"Re-examine the decision to concentrate risk in fixed income, rather than better diversify the sources of risk across the whole portfolio, and avoid "crowding out" risk-reducing RRBs."

Response: We do note RRB are no longer issued in the Canadian market, nevertheless it's interesting from a theoretical perspective. As part of the 2026 ALM Study, MPI and its OCIO are re-examining the asset allocations within the portfolio, assessing whether the degree of concentration remains appropriate given MPI's risk appetite, capital objectives, and governance constraints.

The analysis considers the benefits and risks of concentration relative to more diversified alternatives, including impacts on risk, return, liquidity, and capital outcomes across a range of scenarios. This review is analytical in nature and does not presuppose a change in strategy.

Any conclusions regarding concentration will be considered by MPI in the context of the full ALM Study. The OCIO's role is limited to analysis and advice; all decisions rest with MPI.

Accounting

29. To what extent, if any, will accounting (e.g., IFRS) implications be a factor or consideration in the ALM Study?

Background: "Mercer's ALM study covered issues including the implications of adopting IFRS 9 and IFRS 17 and the impact on investment strategy ..." (see PUB Order 156/25, page 115).

Response: Various financial metrics inform the analysis to the extent they affect volatility, transparency, and alignment with MPI's financial objectives. To the extent accounting measures are relevant they may be considered but they will not override MPI's focus on the key metrics they identify as top concerns which may include economic risk, capital adequacy, and long-term financial sustainability.

Shadow Portfolios

30. Please provide comment on the Shadow Portfolios' functionality, if any, in providing a comparator to the portfolios chosen by MPI (i.e., actual and/or policy).

Response: The existing four Shadow Portfolios were developed in 2019 (for the 2020 GRA) following implementation of the 2018 ALM strategy and have since that time been evaluated against the portfolios selected by the Corporation (to help inform the reasonableness of the strategy).

With the possibility of changes to MPI's risk appetite, there may be changes to the current asset mixes in the three portfolios that comprise the Basic line of business. MPI therefore sees little value in maintaining the existing Shadow Portfolios for evaluation reasons.

Submitted on behalf of CC and CMMG

The OCIO is aware that it may be asked to develop new Shadow Portfolios once the new ALM Study is finalized.

31. Please describe any proposed approach for establishing any updated Shadow Portfolios to illustrate the opportunity cost resulting from constraints imposed by MPI and/or the OCIO, including any changes compared to the current approach.

a) In particular, do MPI and the OCIO agree that there is a role for the PUB and interveners to have input into the composition of the Shadow Portfolios, in order to have input into the basis for assessing return/risk outcomes realized with respect to the asset mix decisions?

Response: Yes, 'Performance versus Shadow Portfolios' is contemplated in the Services Agreement between MPI and Towers Watson (for inclusion in the Investments Chapter of the GRA). Once the risk appetite has been approved by the MPI Board of Directors (June 24, 2026), MPI would welcome feedback from stakeholders into the composition of any updated Shadow Portfolios.

Submitted on behalf of CC and CMMG

2026 Road Safety Technical Conference

June 18-19, 2026

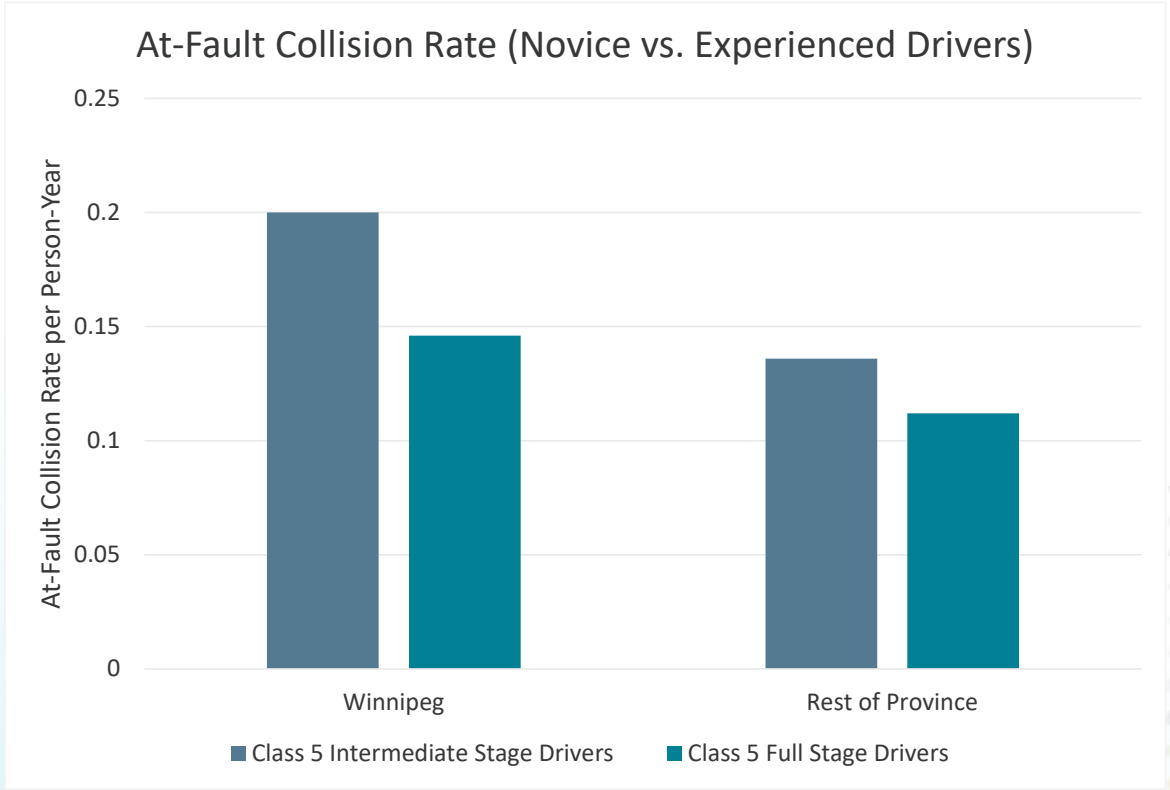
MANITOBA PUBLIC INSURANCE

Day 1
Thursday, June 18, 2026
MANITOBA
PUBLIC INSURANCE

June 18, 2026

Session 1: Review of 2024 Technical Conference Commitments

2026 Road Safety Technical Conference



MANITOBA PUBLIC INSURANCE

2024 Technical Conference Commitments

#	Subject	Description
9.1	New Driver Collision Analysis	With respect to the length of drivers licensed and crashes in Manitoba, MPI will conduct analysis to look at the issue of novice or new driver collisions.
9.2	Driver Testing & Training	MPI will analyze driver testing data to identify learning gaps contributing to test failures and, in collaboration with interested stakeholders, use these insights to review and enhance driver training curriculum and messaging related to vulnerable road users (VRUs) based on evidence and best practices.
9.3	Data Analysis & Access	MPI recognizes that there are still many issues to be resolved around data access and availability and is committed to working with stakeholders to ensure that data is usable, timely and accurate.
9.4	Motorcycle Collisions	CMMG spoke to MPI's plans to conduct analysis on motorcycle collisions in Manitoba. They are very interested in the causes of these crashes, specifically, single vehicle crashes, and hope to work with MPI on this analysis and will be reaching out to this end.
9.5	Road Safety Strategy Planning	Several stakeholders asked about the process and opportunities to provide input into the development of the next iteration of MPI's road safety strategy.
9.6	Provincial Road Safety Committee	In previous meetings, MPI has given an update on the activities of the Provincial Road Safety Committee.

Commitment 9.1

New Driver Collision Analysis

- MPI committed to analyzing novice driver collisions relative to licensing duration. The analysis provides a rate-based comparison, controlling for regional differences to isolate the effect of driver experience on collisions.
- Novice drivers in the 5I Stage have significantly higher at-fault collision rates than 5F drivers. This holds true regardless of region.

5

Commitment 9.1

New Driver Collision Analysis

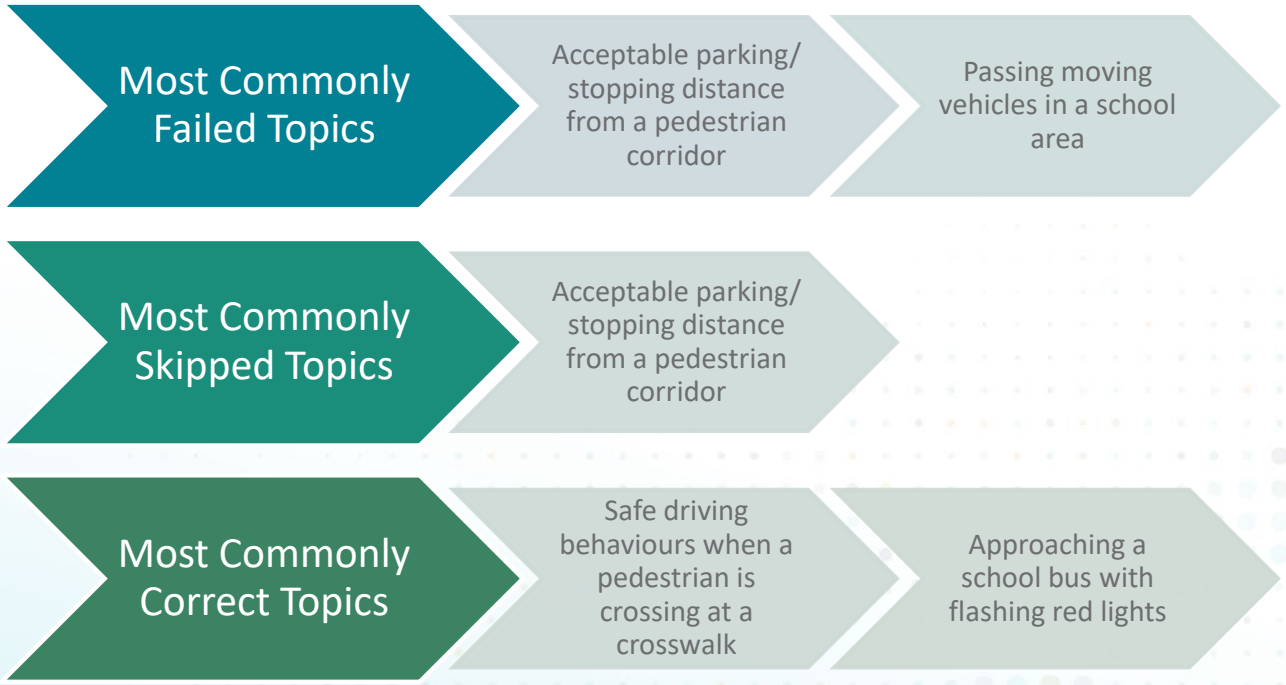
Findings from this analysis, together with stakeholder input, are informing actions under the Road Safety Strategy to improve novice driver safety.

- This work aligns with feedback received during Road Safety Strategy engagements, where stakeholders emphasized the need for a stronger focus on education and training.
- Key focus areas include:
  - Updating driver education curriculum and resources to reflect current risks and best practices, including MPI's Driver's Handbook and adult driver training curriculum.
  - Expanding youth-focused road safety education in early years, including pedestrian and cycling safety.
  - Delivering targeted campaigns to reduce high-risk behaviours, such as impaired driving, distraction, speeding, seatbelt use, and careless driving.
- The goal is to better prepare new drivers and reduce collisions among those with limited driving experience.

6

Commitment 9.2

Driver Testing & Training



- MPI has completed an analysis of customers' Knowledge Test results, including:
  - The most common errors
  - The most commonly 'skipped' questions
  - The most common correctly answered questions.
- While the content of the questions asked on the test cannot be published, the results of this analysis related to vulnerable road users have been summarized on the next slide

7

Commitment 9.2

Driver Testing & Training

Most commonly failed Knowledge Test content related to vulnerable road users, as requested by stakeholders

8

Commitment 9.2

Driver Testing & Training

How driver training addresses sharing the road with vulnerable road users: Cyclists

Skills & Knowledge Taught in Driver Training Curricula	
The Three R's that apply to Driver's and Cyclists: Same Roads, Same Rights, Same Rules	Safe driving actions to protect cyclists
Caring for other road users	Communicating with cyclists
Sharing the road with cyclists and responsibilities as a driver: traffic rules, safety, speed, following distance, yielding to cyclists	Explanation of Bike Lanes and who can use them, where cyclists can ride when no lane provided, and when vehicles can cross them
Risks faced by cyclists	Lane position of vehicle to create space for cyclists
Responsibilities between drivers and cyclists	What to do when passing a cyclist, when it is safe to pass a cyclist, and when it is not
Hazard awareness and cyclists	

9

Commitment 9.2

Driver Testing & Training

How driver training addresses sharing the road with vulnerable road users: Motorcyclists

Skills & Knowledge Taught in Driver Training Curricula	
Sharing the road with motorcycles	Safe driving actions to protect motorcyclists
Safely passing a motorcycle	What a motorcycle is and what is classified as a motorcycle, scooter, and moped
When to watch for motorcycles: changing lanes, when parking your car and opening a door	Increasing following distance when driving behind motorcycles, as they brake faster

Commitment 9.2

Driver Testing & Training

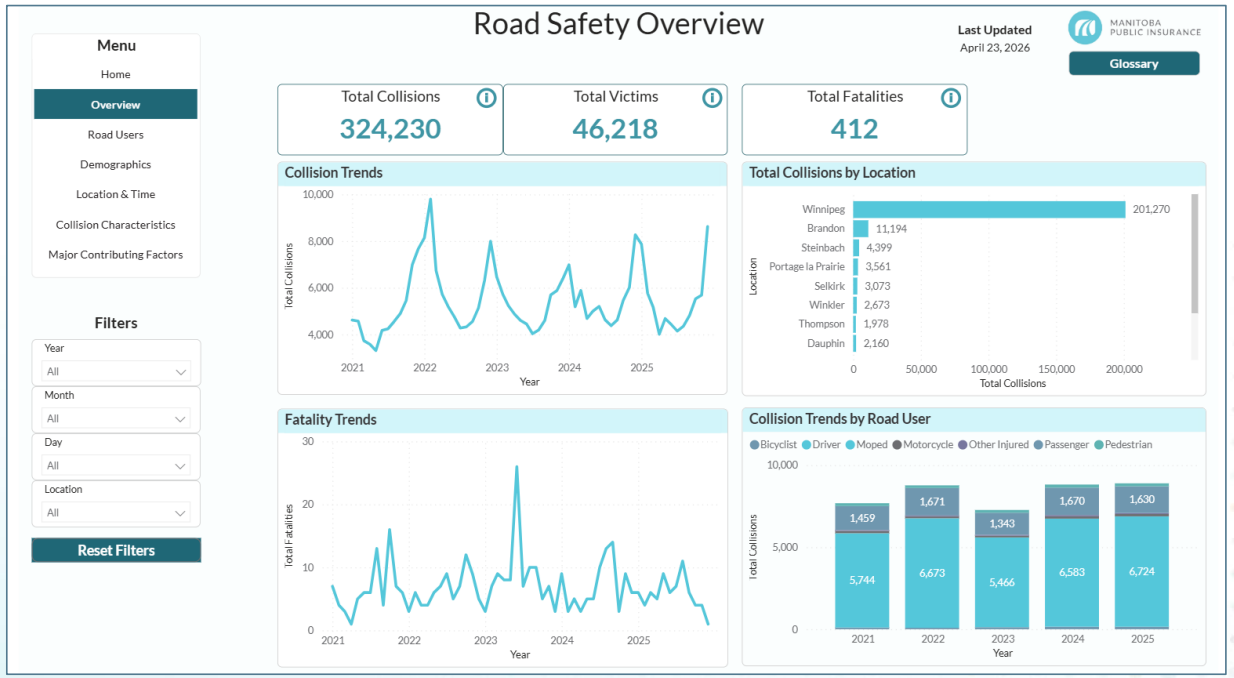
How driver training addresses sharing the road with vulnerable road users: Pedestrians

Skills & Knowledge Taught in Driver Training Curricula	
Sharing the road with pedestrians	Checking for pedestrians when turning
Safe driving actions to protect pedestrians	Risks faced by pedestrians
Marked and unmarked crosswalks, pedestrian corridors, and parking around them	Blind persons, school and playground areas, safety tips
Giving the right-of-way to pedestrians and how to keep pedestrians safe	Scan carefully technique to reduce collisions with pedestrians
Hazard awareness and pedestrians	Watch for pedestrians as hazards, connection between speed and a pedestrian surviving if in a collision
Pedestrians having right of way	Being cautious of pedestrians when parking

Commitment 9.3

Data Analysis & Access

MPI's new collision dashboard was developed through a collaborative effort.



In 2025, members of the Community Partners in Road Safety Committee (formerly the External Stakeholder Committee on Road Safety) provided input for improving the quality of collision data and identifying requirements for MPI's new public dashboard.

- Bike Winnipeg
- CAA Manitoba
- City of Winnipeg
- Manitoba Health
- Manitoba Public Insurance
- Manitoba Transportation & Infrastructure
- Manitoba Trucking Association
- Royal Canadian Mounted Police
- Safety Services Manitoba
- Transportation Options Network for Seniors
- Winnipeg Police Service

Commitment 9.3

Data Analysis & Access

MPI launched Manitoba's first province-wide collision dashboard in April 2026.

The new dashboard:

- Provides the public with access to collision data and trends.
- Can be used to support evidence-based decision making.
- Is updated monthly to improve timely access to data.

13

Commitment 9.4

Motorcycle Collisions

MPI and CMMG collaborated to develop a project charter and analysis scope, review analysis results as work progressed, and discussed the findings with CMMG members at the July 2025 CMMG General Meeting.

Key Findings:

- Young motorcyclists (15 – 29 years old) are involved in collisions approximately twice as much as those between 30 – 59 years old.
- Males are involved in approximately 91% of all collisions.
- Collisions typically occur within Winnipeg and other highly populated areas, but fatal collisions tend to occur in more rural areas.
- Collisions are more likely to occur on weekends, particularly on Saturdays, and during the afternoon.
- Careless driving is a factor for both motorcyclists and non-motorcyclists, associated with 28% of motorcycle collisions.
  - For motorcyclists, the most common careless behaviours are following too closely and unsafe lane changes.
  - For passenger vehicle drivers, the most common careless behaviours are turning improperly and unsafe lane changes.

14

Commitment 9.4

Motorcycle Collisions

MPI manually reviewed over 700 single-vehicle motorcycle collisions to analyze the frequency of collisions with avoiding action as a contributing factor.

- Approximately 3% of motorcycle collisions involve the rider taking avoiding action with respect to another vehicle. This includes a passenger vehicle "cutting off" a motorcycle or a vehicle ahead braking unexpectedly.
- Riders also take avoiding action for wildlife, most commonly deer.
- The analysis found that taking avoiding action is not a common contributing factor for motorcycle collisions.

Collisions where motorcyclist took avoiding action	Number of Collisions
Taking Avoiding Action	**50**
Cut-off by TP vehicle	12
TP vehicle ahead	10
TP vehicle (intersection)	6
Oncoming vehicle	5
TP vehicle (details unknown)	4
Bump/pothole/puddle	3
Pedestrian	3
Debris/stones	2
TP vehicle behind	2
Cyclist	1
TP vehicle (while passing)	1
Train	1
Taking Avoiding Action (Domestic Animal)	**4**
Taking Avoiding Action (Wildlife)	**26**
Grand Total	**80**

Commitment 9.5

Road Safety Strategy Planning

MPI committed to sharing how it intended to involve stakeholders in the process for developing the Road Safety Strategy.

- MPI filed the process for engaging stakeholders for developing its Road Safety Strategy in June 2025.
- The process was informed by international standards and best practices for conducting stakeholder engagements.

Planning & Preparation May - July 2025	Implement Engagement Plan August - December 2025	Action, Review & Improve January - March 2026
• Stakeholder mapping and profiling • Engagement methods and risk mitigation • Draft engagement plan and performance indicators.	• Execute engagement activities • Ongoing integration of stakeholder input • Regular communication of emerging themes.	• Final engagement outcomes • Input reflected in Road Safety Strategy • Strategy filed with PUB (March 2026)

16

Commitment 9.6

Road Safety Committee

CPRSC Members (as of May 2026)

Active Aging in Manitoba
Assembly of Manitoba Chiefs
Association of Manitoba Municipalities
Bike Winnipeg
Canadian Automobile Association (CAA) Manitoba
City of Brandon
City of Winnipeg
Coalition of Manitoba Motorcycle Groups
Green Action Centre
Manitoba Public Insurance
Manitoba Transportation & Infrastructure
Manitoba Trucking Association
Royal Canadian Mounted Police
Safety Services Manitoba
Manitoba Association of Senior Communities
Winnipeg Police Service

MPI's road safety coordination has shifted from the Provincial Road Safety Committee to two complementary channels:

The **Community Partners in Road Safety Committee (CPRSC)**, co-chaired by MPI and CAA, is MPI's primary forum for multi-stakeholder road safety collaboration. MPI and stakeholders worked together in 2025 to define new Terms of Reference for the committee with a mandate to:

- Enhance road safety initiatives to reduce fatalities and injuries on Manitoba roads.
- Share road safety information among stakeholders, including opportunities for collaboration, best practices, and ideas for new initiatives.

In addition to the CPRSC, MPI meets regularly with many partner organizations on a one-on-one basis to address specific road safety topics, share data, and coordinate on initiatives relevant to individual stakeholders.

Progress Report on 2024 Commitments

Road Safety Strategy Planning (9.5)

Provincial Road Safety Committee (9.6)

18

Questions

June 18, 2026

Session 2: Foundations of MPI's New Road Safety Strategy

2026 Road Safety Technical Conference

MANITOBA PUBLIC INSURANCE

Context Behind the Strategy

Our Mission:

*Exceptional coverage and service, affordable rates and **safer roads** through efficient public auto insurance.*

Our Vision:

*Manitoba's trusted auto insurer and driver services provider. **Dedicated to road safety for all.***

What shaped this Strategy?

- Vision Zero Principles
- Canada's Road Safety Strategy 2035+
- A commitment to Partnering for Safer Roads and Reconciliation
- MPI's Corporate Strategic Plan
- A commitment to Diversity, Equity, Inclusion, and Accessibility
- The diverse perspectives of key stakeholders and the public
- The expertise and insights of MPI team members

Engaging with Stakeholders

MANITOBA
PUBLIC INSURANCE

One of MPI's Largest Engagement Efforts Ever

MPI recognizes its responsibility to engage those who are impacted by, and contribute to, road safety outcomes.

- This meant connecting with and listening to Manitoba's key road safety stakeholders and the public.
- MPI followed a leading stakeholder engagement framework to ensure the strategy is informed by a wide range of perspectives.

MPI engaged in extensive collaboration to:

- Identify and map MPI's road safety stakeholders, and plan engagement activities tailored to each group.
- Develop public and stakeholder surveys.
- Prepare materials for stakeholder and employee workshops and facilitate discussion.
- Collect and analyze stakeholder input through surveys and workshops.
- Synthesize engagement findings to form the foundation of the new strategy.

Stakeholder Engagement Process

To ensure the engagement process was inclusive and reached a broad cross-section of Manitobans, MPI used a range of methods tailored to each stakeholder group.

Methods of engagement included:

- Internal planning workshops
- Key stakeholder surveys
- One-on-one meetings with key stakeholders
- Outreach letters to First Nations and the Manitoba Métis Federation
- General population survey
- Email communications and follow-ups
- Public advertising and social media outreach
- Internal MPI employee engagement sessions

Stakeholder Engagement Process

One of MPI's Largest Engagement Efforts

- Between July 2025 and January 2026, MPI engaged:
  - 275 external organizations and nearly 3,000 members of the public through surveys.
  - One-on-one discussions with 13 key stakeholders.
  - MPI employees through engagement sessions and strategy development workshops.
- This extensive process clarified Manitobans' priorities and helped us identify opportunities to improve road safety, shaping the strategy's direction.

25

Engaging with Indigenous Communities

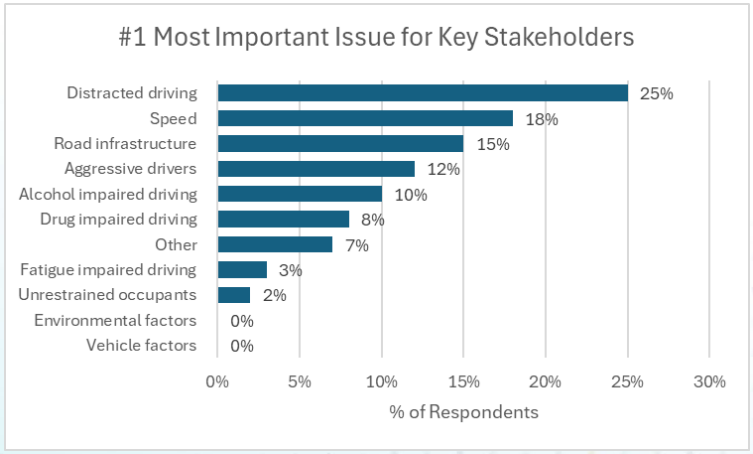
MPI recognizes that Indigenous communities hold unique knowledge, lived experience, and priorities related to road safety.

- Early engagement planning activities confirmed the need for culturally respectful, relationship-based approaches.
- Engagements with Indigenous communities are integrated with MPI's Indigenous Action Plan, allowing for the time needed to build foundational relationships and opening pathways for future dialogue.
- Letters introducing MPI's reconciliation efforts and inviting engagement were sent to the leadership of all First Nations in Manitoba and the Manitoba Métis Federation.
- MPI is prioritizing relationship-building as a first step, initiating introductions with community leadership and creating space for dialogue to understand expectations and preferred engagement methods.
- All future engagement efforts will be facilitated through MPI's Indigenous Action Plan, which emphasizes reconciliation and respectful engagement.

Engaging with Key Stakeholders – Survey

Survey invitations were sent to representatives from 275 organizations across Manitoba.

- Representation: government agencies, law enforcement, driver education instructors, community and industry interest groups, and commercial training schools.
- Questions were tailored to capture important road safety feedback for each group type. The survey was conducted between Oct. 15 and Nov. 7, 2025.
- A total of 67 individuals from 50 organizations completed the key stakeholder survey.



Stakeholder Type/Role	Frequency (n=67)
Education and Training	40%
Commercial Driving School	27%
Community Group / Non-Profit	16%
Law Enforcement	10%
Provincial / Municipal Governments	6%

27

Engaging with Key Stakeholders – Survey Results

Stakeholders want the new strategy to focus on:

- **High-risk behaviours**: Distracted driving, speeding, impaired driving (alcohol and drugs), and aggressive driving.
- **High-risk groups**: Young/novice drivers, commercial operators, cyclists, pedestrians, seniors, and newcomers.
- **Infrastructure safety**: Better design, lighting, signage, and maintenance.

Desired Outcomes by 2030:

- A measurable reduction in fatalities, serious injuries, and preventable collisions.
- Improved and accessible driver education, including refresher training.
- Stronger enforcement and penalties for high-risk behaviours.
- Inclusive programs with multilingual resources and cultural awareness.
- A comprehensive, data-driven strategy that combines education, enforcement, and cultural considerations.
- Success will depend on collaboration, clear and measurable targets, transparent reporting, and sustained engagement.

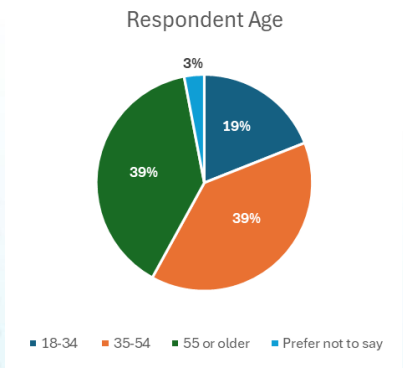
28

Engaging with Key Stakeholders: 1-1 Sessions

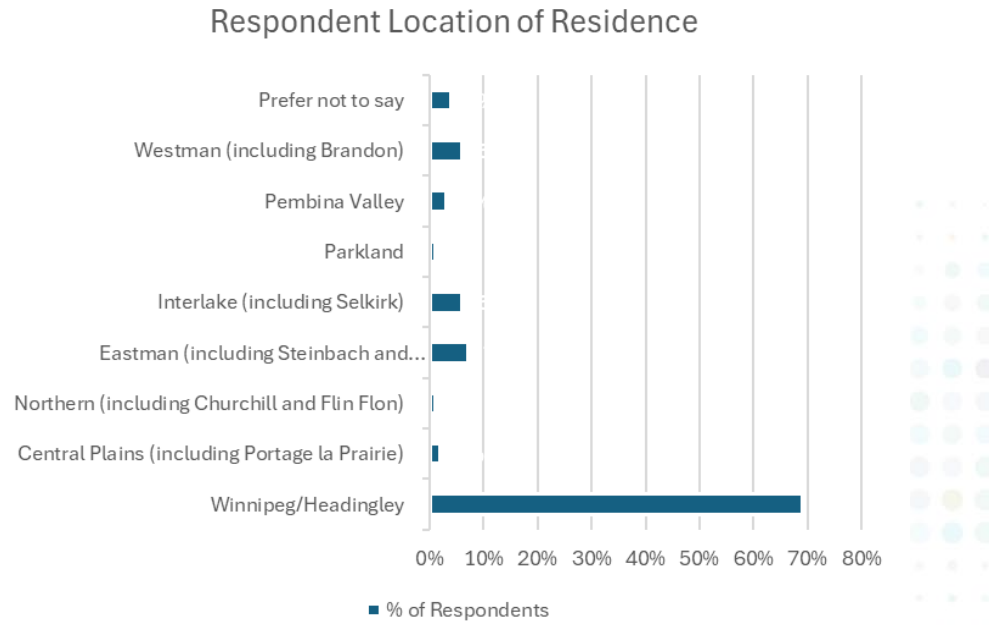
MPI met with 13 organizations, representing all levels of government, law enforcement, industry, and community safety groups.

Key Stakeholder	Meeting Date(s)
Canadian Automobile Association Manitoba	Nov. 12, 2025 & Dec. 1, 2025
Coalition of MB Motorcycle Groups	Nov. 12, 2025
Royal Mounted Canadian Police	Nov. 13, 2025
City of Brandon	Nov. 13, 2025
Keystone Agricultural Producers	Nov. 17, 2025
Safety Services Manitoba	Nov. 18, 2025
Brandon Police Service	Nov. 19, 2025
Bike Winnipeg	Nov. 19, 2025
Manitoba Trucking Association	Nov. 20, 2025
City of Winnipeg	Nov. 20, 2025
Winnipeg Police Service	Nov. 21, 2025
Manitoba First Nations Police	Nov. 24, 2025
Manitoba Transportation and Infrastructure	Nov. 28, 2025

- Stakeholders were selected for their direct roles in shaping road safety policy, enforcement, and community programming.
- Sessions focused on identifying opportunities to improve and strengthen safety on Manitoba roads.
- Key outcomes included:
  - Need for improved data quality and timeliness, reducing reliance on outdated information.
  - Broadening road safety education beyond traditional driver training to include cyclists, pedestrians, vulnerable road users, newcomers, and rural communities.
  - A need for clear, measurable performance metrics.



29

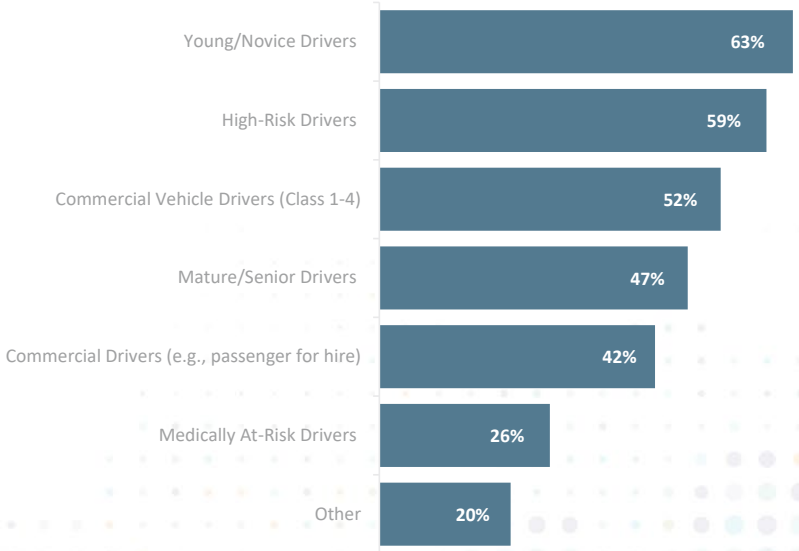


Engaging with the General Public: Survey Results

A general population survey was conducted between October 16-30, 2025, to gather public insights on road safety priorities, MPI's role, and preferred communication methods.

- Paid advertisements and social media posts were used to promote the opportunity for public input on the strategy.
- A total of 2,996 respondents completed the survey using links shared through social media and MPI's Voice of the Customer panel.

Equity Group	% of Respondents
First Nations	3%
Metis	8%
Inuit	0%
Newcomer to Canada	4%
Person with a disability	6%
Visible minority	10%
None of the above	58%
Prefer not to say	15%



30

Engaging with the General Public: Survey Results

- Respondents were asked to identify their top three road safety concerns that should be prioritized in Manitoba:
  - Distracted Driving (66%)
  - Alcohol-Impaired Driving (47%)
  - Drug-Impaired Driving (36%)
  - Speeding (33%)
  - Adult Driver Training (29%)
- Manitobans preferred to receive road safety messages through social media, roadway signage, and traditional advertising such as TV and radio commercials.
- There is also interest in educating drivers on specific topics like zipper merging and roundabout navigation.
- While most Manitobans agree that serious injuries and fatalities from collisions are preventable, fewer support “zero injuries and deaths” as a long-term goal. However, there is strong support for Manitoba having fewer injuries and fatalities than the national average.

- Respondents were asked which driver groups should be a priority focus of road safety in Manitoba.

31

The Result…

A strategy directly shaped by the people it will impact.

Structure of the Strategy

Four strategic pillars were developed to guide our work under the strategy. The pillars reflect what we heard from stakeholders and where our efforts can have the greatest impact on road safety.

33

Pillars of Our Next Road Safety Strategy

1. Building a Culture of Road Safety
2. Strengthening Partnerships Through Shared Responsibility
3. Shaping Safer Driving Behaviours
4. Advancing Road Safety and Reconciliation

Questions

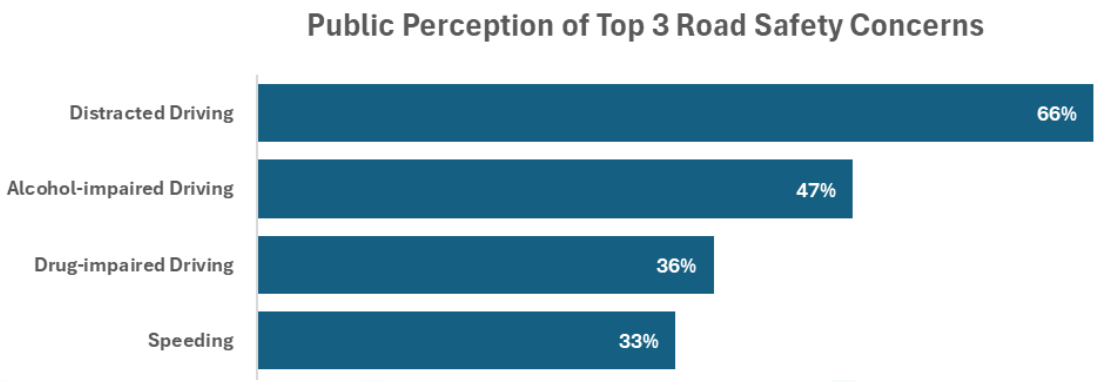
June 18, 2026

Session 3: Building a Culture of Road Safety

2026 Road Safety Technical Conference

MANITOBA PUBLIC INSURANCE

Pillars of Our Next Road Safety Strategy



1. **Building a Culture of Road Safety**
2. Strengthening Partnerships Through Shared Responsibility
3. Shaping Safer Driving Behaviours
4. Advancing Road Safety and Reconciliation

37

What We Heard

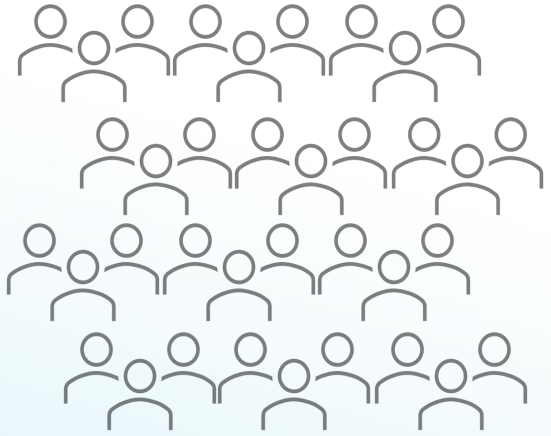
Stakeholders noted a growing normalization of some high-risk driving behaviours, pointing to the need for a broader cultural shift.

- Manitobans identify distracted driving, impaired driving (alcohol & drugs) and speeding as top road safety concerns.
- Seatbelt non-use remains a critical contributing factor in fatal collisions.
- Sustained change requires early intervention, education, and raising awareness of shared responsibility.

38

What We Heard

Manitobans are looking for education and awareness that drives change.



75% of Manitobans identified **driver education and training** as the most important road safety tool

- Education and awareness is a priority for Manitobans and stakeholders. We heard that it needs to be accessible, relevant, and sustained.
- Reaching people at different life stages is key to building lasting habits.
- This pillar lays out how we expand and modernize that approach.

39

Pillar 1: Building a Culture of Road Safety

Objective: Foster a province-wide culture where road safety is understood and valued by all Manitobans: drivers, passengers, pedestrians, cyclists, and motorcyclists alike.

Why This Matters:

- Sustainable improvements in road safety require a shift in attitudes.
- Stakeholders emphasized that risky behaviours have become “normalized” across the province and that changing this mindset is essential to progress. They also highlighted entrenched attitudes such as overconfidence, impatience, and a belief that collisions are inevitable.
- Creating a culture of safety means addressing these norms and making road safety a shared value of Manitobans.

40

Pillar 1: Building a Culture of Road Safety

Objective: *Foster a province-wide culture where road safety is understood and valued by all Manitobans: drivers, passengers, pedestrians, cyclists, and motorcyclists alike.*

Priorities

Enhance our **understanding of Manitobans' attitudes, beliefs, and experiences** related to road safety to inform program design, monitor cultural change, and track progress over time.

Expand road safety education for younger Manitobans to help build safe road-use habits before they begin driving, and for adult learners who face barriers to accessing driver training.

Design and deliver **public awareness and education campaigns** that counter the normalization of high-risk behaviours and educate Manitobans on how to share the road safely with other road users.

Increase public understanding of road safety by **positioning MPI as a trusted, visible, and authoritative source of guidance** that helps all Manitobans value and practice safe road behaviours.

Pillar 1: Building a Culture of Road Safety

Objective: *Foster a province-wide culture where road safety is understood and valued by all Manitobans: drivers, passengers, pedestrians, cyclists, and motorcyclists alike.*

Priority

Enhance our understanding of Manitobans' attitudes, beliefs, and experiences related to road safety to inform program design, monitor cultural change, and track progress over time.

Putting Strategy Into Action

- Conduct research and data analysis in partnership with the Community Partners in Road Safety Committee to assess road safety attitudes and analyze collision risk factors across Manitoba.
- Assess whether interventions are influencing how key populations perceive and experience road safety through ongoing evaluation.

Pillar 1: Building a Culture of Road Safety

Objective: *Foster a province-wide culture where road safety is understood and valued by all Manitobans: drivers, passengers, pedestrians, cyclists, and motorcyclists alike.*

Priority

Expand road safety education for younger Manitobans to help build safe road-use habits before they begin driving, and for adult learners who face barriers to accessing driver training.

Putting Strategy Into Action

- Expand early and youth-focused road safety education, including pedestrian and cycling safety.
- Strengthen and scale community-based programs that support safe behaviours like seatbelt and child-restraint use.
- Evaluate and improve adult driver training programs.

Pillar 1: Building a Culture of Road Safety

Objective: *Foster a province-wide culture where road safety is understood and valued by all Manitobans: drivers, passengers, pedestrians, cyclists, and motorcyclists alike.*

Priority

Design and deliver public awareness and education campaigns that counter the normalization of high-risk behaviours and educate Manitobans on how to share the road safely with other road users.

Putting Strategy Into Action

- Design and deliver targeted campaigns that change Manitobans' attitudes towards impaired driving, distraction and careless driving, speeding, and seatbelt use.
- Provide clear, practical guidance on how to safely share the road with other users, including new mobility modes and non-standard vehicles.

Pillar 1: Building a Culture of Road Safety

Objective: *Foster a province-wide culture where road safety is understood and valued by all Manitobans: drivers, passengers, pedestrians, cyclists, and motorcyclists alike.*

Priority

Increase public understanding of road safety by positioning MPI as a trusted, visible, and authoritative source of guidance that helps all Manitobans value and practice safe road behaviours.

Putting Strategy Into Action

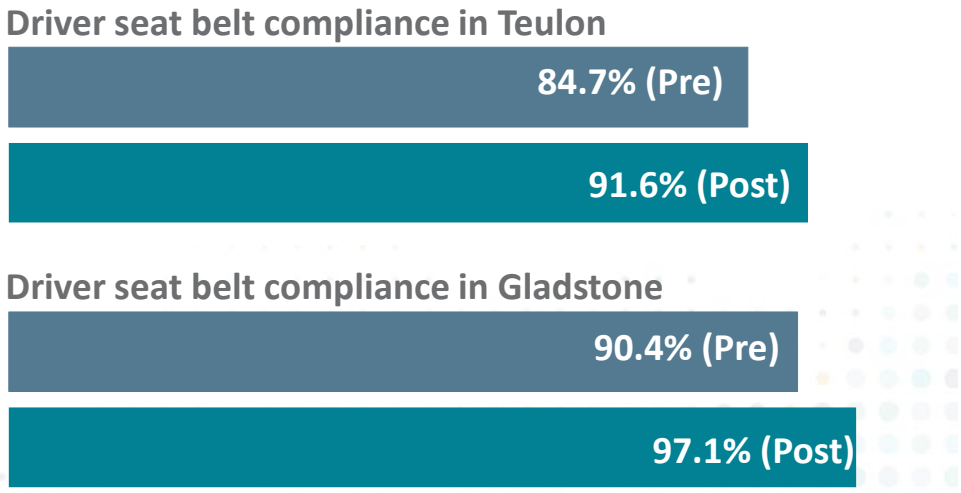
- Strengthen MPI's visibility as a credible source while using targeted channels to deliver consistent, practical road safety messaging.
- Improve how road safety information is presented so it is clear, accessible, and easy to apply in everyday situations.

45

Pillar 1 in Action: Car Seat Workshops

MPI's new car seat program provides caregivers with practical, hands-on education on the proper installation and use of child car seats.

- Car Seat Workshops were developed in collaboration with the Child Passenger Safety Association of Canada (CPSAC) and Safety Services Manitoba.
- Organizations serving first-time parents and caregivers, First Nations, and new Canadians can request a workshop from Safety Services Manitoba.
- The program intends to reach communities where car seat education has been identified as a need. It also leverages community organizations as delivery partners to reach target populations in trusted settings.
- In February 2026, 15 individuals obtained their Child Passenger Safety Technician certification and are now eligible to facilitate the workshop addressing a critical shortage of certified car seat technicians in Manitoba



Manitoba's newest CPSAC-certified Child Passenger Safety Technicians.

46

Pillar 1 in Action: Let's Buckle Up Program

Targeted seatbelt interventions in rural communities showed short-term behavioural change in this pilot.

- Three-week pilot program at four high schools in rural Manitoba.
- The pilot consisted of three main activities: observation, education and awareness, and enforcement.
- Key Findings:
  - Seatbelt use was much lower among passengers than drivers.
  - Passenger seatbelt use was notably lower when the driver was not wearing a seatbelt.
  - The pilot improved seatbelt use in the short term, but effects diminished over time, underscoring the need to refine the pilot for sustained change.

47

Questions

June 18, 2026

Session 3: Strengthening Partnerships Through Shared Responsibility

2026 Road Safety Technical Conference

MANITOBA PUBLIC INSURANCE

Pillars of Our Next Road Safety Strategy

1. Building a Culture of Road Safety
2. Strengthening Partnerships Through Shared Responsibility
3. Shaping Safer Driving Behaviours
4. Advancing Road Safety and Reconciliation

50

What We Heard

Partners expressed a strong need for consistent road safety data and aligned messaging.

Stakeholders requested a centralized public collision data hub.

Partners support quarterly forums to collaborate on safety planning.

51

2. Strengthening Partnerships Through Shared Responsibility

Objective: Work collaboratively with road safety stakeholders to influence areas of road safety that MPI does not directly control and strengthen efforts in areas of shared responsibility, ensuring a coordinated and effective approach to improving road safety.

Why This Matters:

- MPI operates within a broader road safety system that includes Indigenous organizations, industry, provincial and municipal governments, law enforcement, non-profits, and advocacy groups.
- Stakeholders emphasized that “no single organization can do it alone” and the need for a coordinated approach to reduce fatalities.
- MPI can support efforts in areas beyond its mandate with expertise and collaboration. At the same time, there are areas where other stakeholders are doing similar work. By coordinating more closely, we can amplify the effect of our efforts.

52

Pillar 2: Strengthening Partnerships Through Shared Responsibility

Objective: *Work collaboratively with road safety stakeholders to influence areas of road safety that MPI does not directly control and strengthen efforts in areas of shared responsibility, ensuring a coordinated and effective approach to improving road safety.*

Priorities

Improve **coordination and consistency of road safety messaging among stakeholders** through the existing Community Partners in Road Safety Committee.

Improve the **quality, consistency, and usefulness of shared road safety data** to better support infrastructure planning, policy development, and targeted safety initiatives.

Identify and support **strategic sponsorships and community-based initiatives** that align MPI and stakeholder priorities and amplify shared road safety objectives, particularly for underserved communities and populations with disproportionately high rates of fatalities and serious injuries.

53

Pillar 2: Strengthening Partnerships Through Shared Responsibility

Objective: *Work collaboratively with road safety stakeholders to influence areas of road safety that MPI does not directly control and strengthen efforts in areas of shared responsibility, ensuring a coordinated and effective approach to improving road safety.*

Priority

Improve coordination and consistency of road safety messaging among stakeholders through the existing Community Partners in Road Safety Committee.

Putting Strategy Into Action

- Implement new Terms of Reference for the Community Partners in Road Safety Committee to clarify roles, strengthen accountability, and support more consistent coordination across members.
- Establish a recurring process for MPI and stakeholders to share upcoming public-facing efforts, helping coordinate messaging around unified road-safety themes.

Pillar 2: Strengthening Partnerships Through Shared Responsibility

Objective: *Work collaboratively with road safety stakeholders to influence areas of road safety that MPI does not directly control and strengthen efforts in areas of shared responsibility, ensuring a coordinated and effective approach to improving road safety.*

Priority

Improve the quality, consistency, and usefulness of shared road safety data to better support infrastructure planning, policy development, and targeted safety initiatives.

Putting Strategy Into Action

- Continue enhancing the Road Safety Data Dashboard using input from key stakeholders to improve its relevance and usability.
- Review and strengthen road-safety data quality, collection methods, and standards, aligned with CCMTA national guidance and best practices.

Pillar 2: Strengthening Partnerships Through Shared Responsibility

Objective: *Work collaboratively with road safety stakeholders to influence areas of road safety that MPI does not directly control and strengthen efforts in areas of shared responsibility, ensuring a coordinated and effective approach to improving road safety.*

Priority

Identify and support strategic sponsorships and community-based initiatives that align MPI and stakeholder priorities and amplify shared road safety objectives, particularly for underserved communities and populations with disproportionately high rates of fatalities and serious injuries.

Putting Strategy Into Action

- Engage community groups and organizations to better understand the needs of underserved audiences and use those insights to inform updates to MPI programs and outreach.
- Explore opportunities to connect with partners beyond the traditional road-safety sector to promote shared responsibility for road safety.

Pillar 2 in Action: Community Partners in Road Safety Committee

Shared Planning and Communication Among the Manitoba Road Safety Community

- Chaired by MPI, with a rotating Co-Chair (currently CAA), the Committee brings together road safety organizations across Manitoba.
- Regular attendance of over 20 members at each meeting.
- Meets quarterly to share and coordinate initiatives, priorities, and data/research.
- Identifies opportunities to work together and align efforts.
- Establishes working groups for joint projects.
- Supports a collaborative, province-wide approach to road safety.

Pillar 2 in Action: Speed Display Sign Program

Speed display signs are used in partnership with communities to reduce speeding in high-risk areas.

- Speed signs encourage compliance with posted speed limits by providing drivers with real-time feedback on their speed. The signs are commonly used in school zones and speed transition areas.
- To date, MPI has loaned 107 speed display signs to 71 communities.
- Analysis of data collected by the signs indicates the signs create an **average reduction of 4% to 6%** in vehicles exceeding the speed limit.
- Program participants receive quarterly reports summarizing speeding behaviour captured by the signs. Insights are used by recipients to support additional speed mitigation and enforcement efforts.

Pillar 2 in Action: Investing in Class 5 Adult Driver Training

MPI partners with academic institutions and social agencies to address gaps in driver training for adults.

- Partnerships with **University College of the North**, **Assiniboine College**, and the North End Community Renewal Corp. (**Citizens' Bridge**) provide essential, accessible training for adults who face barriers to training.
- During MPI's road safety strategy engagement sessions, stakeholders frequently highlighted the need for more adult driver training. It was also ranked among the top five priorities by respondents in the public survey.
- These three programs have quickly become valued services in the communities they support, and the demand for adult driver training remains strong.
- Together, these partnerships make it easier for adults to gain the skills and confidence needed for licensing, improve mobility and employment opportunities, and contribute to safer roads across Manitoba.

"Getting this license is going to make parenting so much easier" ~ UCN Participant from Lynn Lake

59

Pillar 2 in Action: Investing in Class 5 Adult Driver Training

University College of the North

Northern Manitoba
Students served to date: **900+**

- The program continues to address longstanding licensing barriers in remote, northern, and Indigenous communities, with strong results.
- Encouraged by expanding economic activity, increased workforce mobility requirements across Northern Manitoba, and limited availability of alternative local training.
- Program participants have come from more than 30 communities, including several fly-in First Nations.

Citizens' Bridge
(North End Community Renewal Corp.)

Winnipeg
Students served to date: **500+**

- In just over 18 months of full-scale expansion of operations, Citizens' Bridge has improved its testing outcomes significantly.
- The program is in high demand, demonstrated by 739 inquiries and a waitlist of 235 applicants.
- The program serves a high proportion of equity-deserving groups, including Indigenous (69.0%), visible minorities (30.1%), refugees (2.3%), and with disability (22.8%).

Assiniboine College

Below 53rd parallel (outside Winnipeg)
Students served to date: **250+**

- Demand for training remains high, receiving nearly 200 inquiries, with an additional 47 interest-form submissions and 16 direct calls or emails in early 2026.
- Beginning in June 2026, Assiniboine College will further adjust its program structure to align with UCN's model.
- This change is expected to help address remaining barriers faced by customers.

60

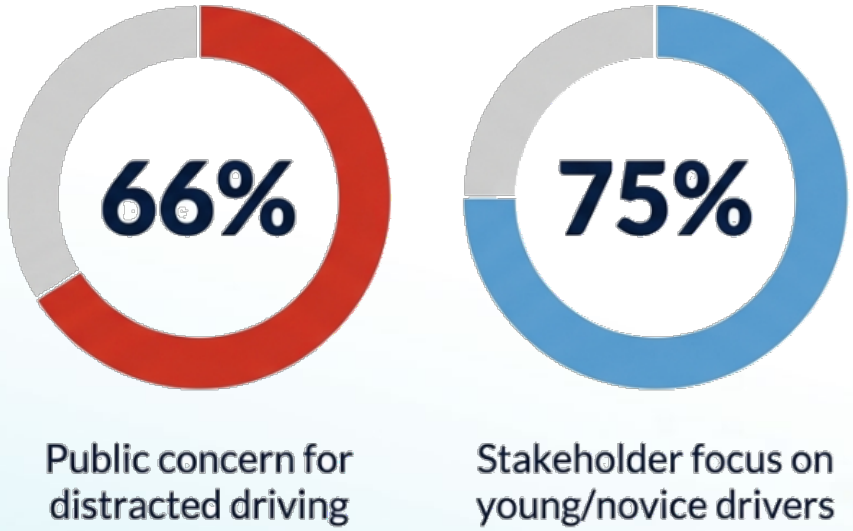
Questions

June 18, 2026

Session 3: Shaping Safer Driving Behaviours

2026 Road Safety Technical Conference

MANITOBA PUBLIC INSURANCE



Pillars of Our Next Road Safety Strategy

1. Building a Culture of Road Safety
2. Strengthening Partnerships Through Shared Responsibility
3. Shaping Safer Driving Behaviours
4. Advancing Road Safety and Reconciliation

63

What We Heard

Stakeholders and the public agree on top priorities for changing driver behaviour

- **Distracted driving** is the top concern, reported by 66% of the public.
- **Alcohol-impaired driving** is also a major concern, identified by 47% of Manitobans.
- 75% of key stakeholders say **young and novice drivers** should be the highest-priority group for safety efforts.
- Manitobans say the **best ways to improve safety** are **better driver education**, **improved road design**, and **strong enforcement.**

64

Pillar 3: Shaping Safer Driving Behaviours

Objective: Reduce high-risk behaviours such as speeding, distraction, impaired driving, and failure to use occupant restraints through targeted education, data-led interventions, and community-based programs.

Why This Matters:

- Changing driver behaviour is essential because actions such as distracted driving, speeding, impaired driving, and inconsistent seatbelt use continue to be leading contributors to fatalities in Manitoba.
- Stakeholders stressed the need for more targeted, practical, and data informed approaches to help drivers make safer choices.
- MPI can influence driver habits through education, road safety programs, and tailored interventions that address the specific risks faced by different groups of Manitobans.

65

Pillar 3: Shaping Safer Driving Behaviours

Objective: *Reduce high-risk behaviours such as speeding, distraction, impaired driving, and failure to use occupant restraints through targeted education, data-led interventions, and community-based programs.*

Priorities

Continuously improve the **relevance, effectiveness, and reach of driver education and training**, ensuring that training and resources reflect current risks, best practices, and the needs of today's road users.

Enhance evidence-based interventions that support safer driving habits and improve **public understanding of how unsafe driving behaviours lead to collisions and personal consequences**.

Advance **evidence-based technologies, analyses, and policies** that improve Manitoba's road safety system and support high-risk and underserved populations.

Strengthen enforcement effectiveness by providing law enforcement partners with better data, insights, and operational collaboration, helping maintain **enforcement as a key factor in promoting safe driving** behaviours.

Pillar 3: Shaping Safer Driving Behaviours

Objective: *Reduce high-risk behaviours such as speeding, distraction, impaired driving, and failure to use occupant restraints through targeted education, data-led interventions, and community-based programs.*

Priority

Continuously improve the relevance, effectiveness, and reach of driver education and training, ensuring that training and resources reflect current risks, best practices, and the needs of today's road users.

Putting Strategy Into Action

- Modernize training curriculum and key resources including the Driver's Handbook to better reflect current risks and best practices.
- Work to extend the reach of driver training programs to Manitobans facing barriers, including those in underserved communities.

Pillar 3: Shaping Safer Driving Behaviours

Objective: *Reduce high-risk behaviours such as speeding, distraction, impaired driving, and failure to use occupant restraints through targeted education, data-led interventions, and community-based programs.*

Priority

Enhance evidence-based interventions that support safer driving habits and improve public understanding of how unsafe driving behaviours lead to collisions and personal consequences.

Putting Strategy Into Action

- Help drivers better understand the real-world financial and personal consequences of unsafe driving through education and human-centred impact stories.
- Use evaluation findings of road safety initiatives to inform improvements to existing interventions.

Pillar 3: Shaping Safer Driving Behaviours

Objective: *Reduce high-risk behaviours such as speeding, distraction, impaired driving, and failure to use occupant restraints through targeted education, data-led interventions, and community-based programs.*

Priority

Advance evidence-based technologies, analyses, and policies that improve Manitoba's road safety system and support high-risk and underserved populations.

Putting Strategy Into Action

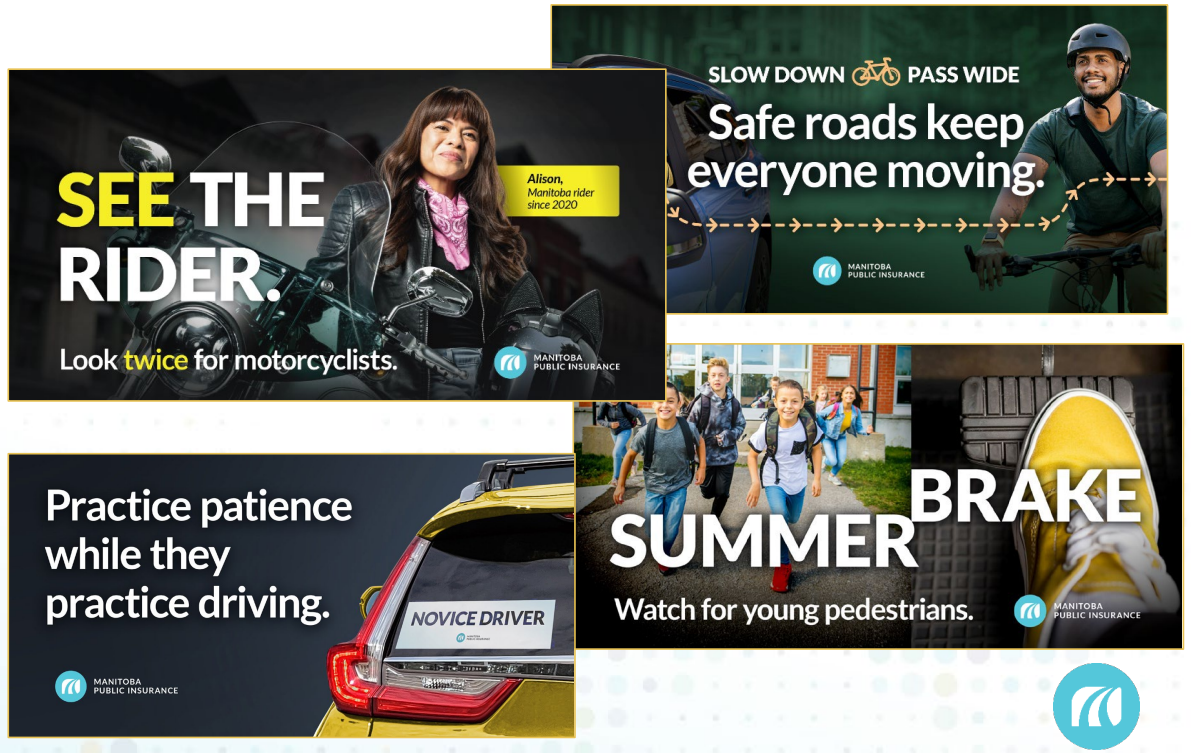
- Identify and assess emerging road safety issues to inform potential legislative, regulatory, and policy updates.
- Explore the use of new technologies and data analysis to better understand driving behaviours and support more targeted road-safety programs.

69

Pillar 3: Shaping Safer Driving Behaviours

Objective: *Reduce high-risk behaviours such as speeding, distraction, impaired driving, and failure to use occupant restraints through targeted education, data-led interventions, and community-based programs.*

Priority



Strengthen enforcement effectiveness by providing law enforcement partners with better data, insights, and operational collaboration, helping maintain enforcement as a key factor in promoting safe driving behaviours.

Putting Strategy Into Action

- Collaborate with law enforcement partners to strengthen school-zone safety through coordinated priorities and targeted enforcement approaches.
- Work with law enforcement partners to develop joint campaigns that pair education with enforcement to maximize reach and road safety impact.

Pillar 3 in Action: Road Safety Advertising

MPI's campaigns aim to build a province-wide culture where safe road use is a shared value and responsibility among all Manitobans

71

MPI is dedicated to bringing road safety programming and sponsorship support directly into communities across the province

- MPI's Community Relations team acts as the Corporation's brand ambassadors, strengthening MPI's presence and reputation by promoting road safety at the local level
- The team creates two-way engagement with Manitobans in their communities through events, programming and presentations
- Impact is extended through partnerships and corporate sponsorships that advance shared road safety goals and amplify messaging
- Education and programming is targeted to all ages, supporting all road users in an effort to reduce injuries and deaths on Manitoba's roadways

Pillar 3 in Action: Enhanced Enforcement Program

Studies show that enforcement is linked to fewer traffic collisions and high-risk driving behaviours.

- Under the Enhanced Enforcement Program (EEP), MPI provides funding to law enforcement agencies to support officer overtime for enforcement campaigns targeting high-risk driving behaviours.
- Police agencies used a mix of targeted enforcement strategies, focusing resources on higher-risk locations such as school zones, rural highways, rail crossings, intersections, and other high-traffic areas.

Our Goal

Reduce deaths and serious injuries by enforcing rules against unsafe driving behaviours such as distraction, impairment, speeding, and failure to use a seatbelt.

How It Works

MPI funds officer overtime to boost traffic enforcement and increase law enforcement visibility on Manitoba roads.

Why It Matters

This approach follows proven best practices: combining strong enforcement with education and awareness to improve compliance and make roads safer.

73

Pillar 3 in Action: Motorcycle Collision Analysis

Purpose: To identify opportunities for collision prevention for motorcyclists through analysis of collisions involving motorcycles.

A Collaborative Process

- MPI and CMMG worked together to develop a project charter and scope, agreeing that the analysis would focus on collision prevention rather than rates.
- Discussed preliminary results and key findings throughout analysis, as well as final findings/next steps.

A Comprehensive Analysis Looking At:

- Driver demographics
- Geographic and temporal patterns
- Weather and lighting conditions
- Careless driving
- Taking avoiding action
- Major contributing factors
- Rider history
- Collision configuration

74

Pillar 3 in Action: Motorcycle Collision Analysis

MPI is applying findings to develop rider and driver safety campaigns, support law enforcement in focusing their efforts, and contribute to improvements in driver training and education resources.

Key Findings:

- Young motorcyclists (15 – 29 years old) were involved in collisions at a higher rate than those between 30 – 59 years old.
- Males are involved in approximately 91% of all collisions.
- Collisions typically occur in Winnipeg and other highly populated areas, but fatal collisions tend to occur in more rural areas.
- Collisions are more likely to occur on weekends, particularly on Saturdays, and during the afternoon.
- Careless driving is a factor for both motorcyclists and non-motorcyclists, associated with 28% of motorcycle collisions.
  - For motorcyclists, the most common careless behaviours are following too closely and unsafe lane changes.
  - For passenger vehicle drivers, the most common careless behaviours are turning improperly and unsafe lane changes.

Questions

June 18, 2026

Session 3: Advancing Road Safety and Reconciliation

2026 Road Safety Technical Conference

MANITOBA PUBLIC INSURANCE

Pillars of Our Next Road Safety Strategy

1. Building a Culture of Road Safety
2. Strengthening Partnerships Through Shared Responsibility
3. Shaping Safer Driving Behaviours
4. Advancing Road Safety and Reconciliation

78

What We Heard

Early engagement efforts have laid the groundwork, with broader Indigenous community engagement planned through MPI's Indigenous Action Plan.

- Engagement planning confirmed that culturally respectful, relationship-based approaches are essential to meaningful progress.
- MPI has begun building foundational relationships with Indigenous leadership, creating space for dialogue on community expectations and preferred ways of working together.
- Deeper engagement with Indigenous communities is being coordinated through MPI’s Indigenous Action Plan, which provides the time and structure needed to build trust and meaningful partnerships.
- The Action Plan will guide future conversations and the co-development of road safety initiatives.
- Engagement efforts will centre reconciliation and respectful, community-led processes.

Pillar 4: Advancing Road Safety and Reconciliation

Objective: Advance reconciliation by embedding road safety into MPI's Indigenous Action Plan, building relationships with Indigenous communities and co-developing road safety initiatives that address unique challenges and improve outcomes.

Why This Matters:

- Indigenous communities experience unique road safety challenges shaped by systemic inequities. These realities contribute to disproportionate risk for Indigenous road users and require solutions that are co-created with Indigenous voices.
- Addressing these gaps means building trust, honouring reconciliation commitments, and ensuring fair access to safe mobility for all Manitobans.
- MPI's Indigenous Action Plan will provide the foundation for this work, ensuring reconciliation commitments guide meaningful action.

80

Pillar 4: Advancing Road Safety and Reconciliation

Objective: *Advance reconciliation by embedding road safety into MPI's Indigenous Action Plan, building relationships with Indigenous communities and co-developing road safety initiatives that address unique challenges and improve outcomes.*

Priorities

Embed road safety into MPI's Indigenous Action Plan by building strong relationships with Indigenous communities and organizations, and by ensuring their perspectives guide how MPI supports and serves Indigenous road users.

Expand MPI's engagement with Indigenous communities by **broadening the reach of road safety programs** and ensuring these programs reflect community-identified needs, priorities, and contexts.

81

Pillar 4: Advancing Road Safety and Reconciliation

Objective: *Advance reconciliation by embedding road safety into MPI's Indigenous Action Plan, building relationships with Indigenous communities and co-developing road safety initiatives that address unique challenges and improve outcomes.*

Priority

Embed road safety into MPI's Indigenous Action Plan by building strong relationships with Indigenous communities and organizations, and by ensuring their perspectives guide how MPI supports and serves Indigenous road users.

Putting Strategy Into Action

- Actions under the Indigenous Action Plan include a focus on removing barriers to service access and developing culturally and linguistically relevant safety resources.
- Publish an annual Indigenous Access Report, including key activities and metrics to hold ourselves accountable.

Pillar 4: Advancing Road Safety and Reconciliation

Objective: *Advance reconciliation by embedding road safety into MPI's Indigenous Action Plan, building relationships with Indigenous communities and co-developing road safety initiatives that address unique challenges and improve outcomes.*

Priority

Expand MPI's engagement with Indigenous communities by broadening the reach of road safety programs and ensuring these programs reflect community-identified needs, priorities, and contexts.

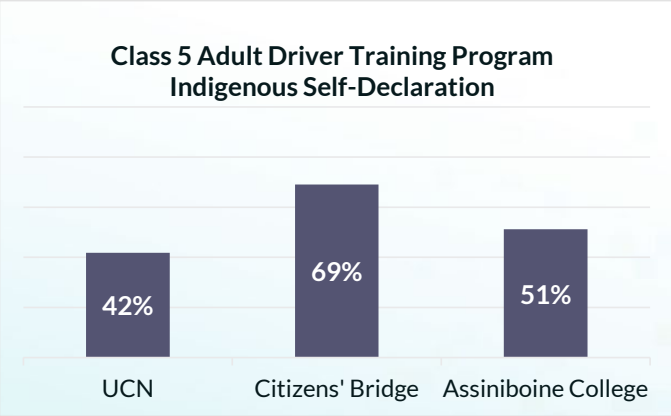
Putting Strategy Into Action

- Ensure Indigenous representation is part of road safety campaigns and expand delivery of off-road vehicle and adult driver training to more communities across Manitoba.
- Review and update road safety content and materials in partnership with Indigenous communities.

Pillar 4 in Action: Off-Road Vehicle Workshops

- MPI provides funding to deliver off-road vehicle (ORV) presentations at schools and community centres across the province, at no cost.
- Presentations, delivered by Safety Services Manitoba, provide education on the safe operation of ORVs and the proper use of safety gear.
- ORV helmets are also distributed as prizes to students attending presentations.
- The program received very positive feedback from students and their teachers regarding MPI's investment in community safety.
- In 2025, the program reached over 2,000 individuals.

Pillar 4 in Action: Car Seat Workshops



MPI is launching a new program that focuses on child passenger safety, with certified technicians teaching caregivers how to properly install and use their car seats.

- Child passenger safety has been identified by Indigenous communities as a priority.
- The program is delivered by Safety Services Manitoba and certified car seat technicians trained by the Child Passenger Safety Association of Canada.
- To support effective delivery, presentation materials and workshop delivery are adapted to reflect and respect the cultural needs of each community.
- Workshops will be delivered province-wide, including in remote and northern communities, facilitated through proactive outreach.
- Communities and organizations will be able to book workshops directly through Safety Services Manitoba, beginning summer 2026

Pillar 4 in Action: Adult Driver Training

MPI-funded programs are designed to reduce longstanding barriers to driver licensing faced by adult learners, including those residing in northern, rural, and remote communities.

- Where possible, training is delivered in-community, reducing the need for travel to urban centres for training and testing.
- University College of the North and Assiniboine College continue to expand services in First Nations, including remote and fly-in communities.

Indigenous and Métis communities served to date:

- Ebb and Flow First Nation
- Lynn Lake
- Manto Sipi Cree Nation (God's River)
- Marcel Colomb First Nation.
- Mathias Colomb Cree Nation (Pukatawagan)
- Misipawistik Cree Nation (Grand Rapids)
- Mosakahiken Cree Nation (Moose Lake)
- Nisichawayasihk Cree Nation (Nelson House)
- Norway House Cree Nation
- Opaskwayak Cree Nation
- O-Pipon-Na-Piwin Cree Nation
- Pimicikamak Cree Nation (Cross Lake)
- Sandy Bay First Nation
- Sioux Valley
- Swan River First Nation
- Tataskweyak Cree Nation (Split Lake)
- Wasagamack First Nation
- Waywayseecappo First Nation
- York Landing First Nation

86

Questions

Session 4: Bringing the Strategy Together for Action

2026 Road Safety Technical Conference

MANITOBA PUBLIC INSURANCE

Aligning MPI's Strategy with Best Practice: Vision Zero

- **A Foundational Principle:** Vision Zero begins with the belief that no loss of life on our roads is inevitable or acceptable.
- **Zero as the Target:** Traditional approaches aim to reduce collisions. Vision Zero refuses to treat any number of deaths as a tolerable cost and MPI's strategy is built around that vision.
- **From Blame to Responsibility:** Vision Zero recognizes that human error is inevitable, and places a shared responsibility on system designers and policy makers to build a transportation system that protects people even when mistakes happen.

> *"MPI is committed to Vision Zero and the principle that no loss of life on Manitoba's roads is acceptable. This commitment guides our approach to road safety. Our strategy reflects that commitment by recognizing that while people make mistakes on our roadways, those mistakes should not lead to fatal or life-altering outcomes."*
> — MPI Road Safety Strategy 2030

89

Aligning MPI's Strategy with Best Practice: Safe Systems Approach

"We must all recognize that road safety doesn't belong to one organization alone; it belongs to all of us. Each pillar represents an area where MPI can influence meaningful change alongside road safety partners across the province."

— MPI Road Safety Strategy 2030

- **Designing a Safe System:** The four pillars bring MPI together with stakeholders to address risk across the system and reduce fatal and serious injuries.
- **Recognizing Human Vulnerability**: Efforts across the system reflect the human body's limited tolerance to crash forces.
- **Shared Responsibility:** MPI, governments, law enforcement, communities, and partners all play a role in influencing safer outcomes, with shared responsibility for how the system is designed and operated
- **Layered Protection:** MPI's strategy is designed to align with partner efforts across education, enforcement, infrastructure, and policy, creating multiple layers of protection that reduce harm.

Aligning MPI's Strategy with Best Practice: Equity

- **Advancing Road Safety and Reconciliation:** Pillar 4 makes reconciliation a foundation of the strategy, addressing the distinct road safety challenges that Indigenous communities face.
- **Rural and northern populations:** Adult driver training, off-road vehicle safety, and car seat workshops reach communities facing barriers.
- **Underserved groups:** The strategy seeks to embed diversity, equity, inclusion, and accessibility into how programs are designed and delivered
- **Culturally responsive programming:** Materials and delivery adapted to reflect the needs and contexts of each community.

> *"Through RSS 2030, MPI will design and deliver programs that are inclusive, culturally respectful, and accessible. We will continue working with partners to identify gaps, remove barriers, and ensure every person has an opportunity to travel safely on Manitoba's roads, regardless of their ethnic background, identity, abilities, socioeconomic status, or where they live."*
>
> — MPI Road Safety Strategy 2030

91

Aligning MPI's Strategy with Best Practice: Data

"Fatalities remain disproportionately high on rural highways, with speed, impairment, distraction, and failure to wear a seatbelt as common contributing factors… Urban centres like Winnipeg face different challenges, including higher traffic volumes and more interactions between vehicles and vulnerable road users."

— MPI Road Safety Strategy 2030

- **Complexity Behind Top Risk Factors:** Data shows speed-related risk goes beyond exceeding posted limits and identifies careless driving as a major component of distraction-related collisions. These nuances shape how MPI addresses these behaviours.
- **A New Road Safety Dashboard:** MPI has built a public-facing dashboard shaped by input from 11 stakeholder organizations. We'll walk through the dashboard in detail during Day 2.
- **Rural and Urban Collisions:** Rural areas tend to see the most severe collisions, while urban areas present greater risks for pedestrians and cyclists. Understanding these differences is critical to ensuring the strategy's programs reach the right communities with the right interventions.
- **Continuous Improvement:** Ongoing monitoring and evaluation ensure the strategy adapts as new risks emerge and as programs demonstrate results.

Summary of Engagement and Findings

Engagement Process

- Followed the internationally recognized **AA1000 Stakeholder Engagement Standard**
- **2,996 respondents** through a general population survey
- **13 key stakeholder** 1:1 sessions and key stakeholder surveys
- Internal **employee feedback** gathered across MPI
- **Indigenous engagement** guided by MPI's Indigenous Action Plan to ensure culturally respectful participation

Stakeholder Findings

- **Top concerns:** Distracted driving (66%), alcohol-impaired driving (47%), drug-impaired driving (36%), and speeding (33%) identified as top concerns by public.
- **Normalization of risk:** Stakeholders felt risky behaviours have become culturally accepted and require a shift in social norms.
- **Training gaps:** Stakeholders highlighted need for modernized driver education, particularly for newcomers and rural residents
- **Partnership:** No single group can address road safety alone; centralized data and coordinated programs needed
- **Equity:** Calls for resources in non-official languages and culturally relevant programming for Indigenous communities

93

MPI's Road Safety Strategy is Organized by Four Pillars

Building a Culture of Road Safety

Foster a province-wide shift in attitudes so that safe road use becomes a shared value among all Manitobans

Shared Responsibility

Coordinate with Indigenous organizations, governments, law enforcement, and community groups to align messaging and amplify collective road safety efforts.

Shaping Safer Driving Behaviours

Reduce distracted driving, speeding, impairment, and seatbelt non-use through modernized driver education, evidence-based interventions, and partnerships with stakeholders.

Advancing Reconciliation & Road Safety

Partner with Indigenous communities to co-develop culturally responsive road safety programs and embed reconciliation commitments into MPI's approach to road safety.

Examples of Strategy in Action

Building a Culture of Road Safety

MPI's new car seat program provides caregivers with practical, hands-on education on the proper installation and use of child car seats.

Shared Responsibility

Revised Terms of Reference have been adopted for the Community Partners in Road Safety Committee, alongside active engagement in the development of the strategy

Shaping Safer Driving Behaviours

Applying motorcycle collision analysis findings to shape safety campaigns, support law enforcement, and improve driver training.

Advancing Reconciliation & Road Safety

MPI funds training programs that help adult learners overcome barriers to obtaining a driver's licence, focused on northern and rural First Nations.

Tracking Progress

Goal: Drive a downward trend in the number of motor vehicle collision fatalities throughout the duration of the strategy.

Culture Shift Objectives

1. Reduce social acceptance of impaired, distracted, speeding, and unbelted driving.
2. Increase perceived safety for all road users.
3. Increase belief that serious collisions are preventable.

Measurement Approach

- Multiple stakeholders are currently tracking similar information through different methods. In keeping with pillar 2 of the strategy, MPI aims to learn from and adopt the most effective approaches across partners.
- MPI will engage partners through the Community Partners in Road Safety Committee to co-design tools that assess and monitor road safety culture across Manitoba.
- Stakeholders have identified the E-Survey of Road Users' Attitudes (ESRA) as a model for this type of work.

Looking Ahead to Day 2

Tomorrow, we connect our strategy to Canada's Road Safety Strategy 2035 and Beyond, and to best practices in other jurisdictions.

We will connect MPI's strategy to the national framework and evidence-based practices from other jurisdictions.

We will review the building of the new public collision dashboard

We will discuss why this is the right budget to deliver on MPI's Road Safety Strategy 2030

97

There are several important questions to consider as we turn this strategy into action

How can our organizations think about approaches that take human error into account in our daily work?

Where and how can we align resources to make our road safety efforts more effective?

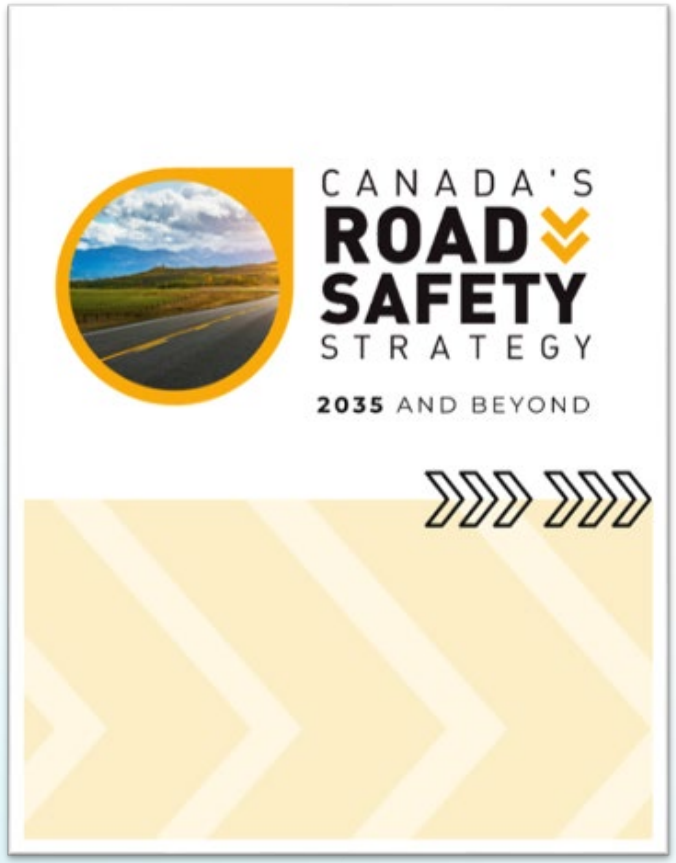
What insights and best practices can we share to better protect all the road users in our communities?

98

Questions

Day 2
Friday, June 19, 2026
MANITOBA
PUBLIC INSURANCE

June 19, 2026



Session 5: Connecting MPI's Strategy to the National Road Safety Strategy

2026 Road Safety Technical Conference

MANITOBA
PUBLIC INSURANCE

Canada Road Safety Strategy
2035 and Beyond
MANITOBA
PUBLIC INSURANCE

Road Safety Strategy 2035 and Beyond

- **Vision**: Towards Zero: A Safe Road System for All Canadians.
- **Guiding Principle**: Grounded in the internationally recognized Safe System Approach.
- RSS 2035+ reflects a transition from aspiring to have the "safest" road system in the world to an ethical commitment of ensuring equitable safety for all road users.

A National Commitment to Safer Roads

Canada's RSS 2035+ provides a national framework designed to guide and supports coordinated efforts to eliminate fatalities and serious injuries on Canadian roads.

- Rooted in the Safe Systems Approach (SSA) and the vision of "Towards Zero," the strategy **aims to align the actions of all road safety partners** – governments, industry, non-governmental organizations, and the public – toward a common goal of safer, more inclusive, and sustainable mobility.

Federal

Supports road safety through **legislation**, **regulation**, and **infrastructure investment**.

Provincial & Territorial

Responsible for **driver licencing**, **vehicle registration**, **traffic laws**, **highway and roadway infrastructure**, **administration** of justice including **enforcement and courts**.

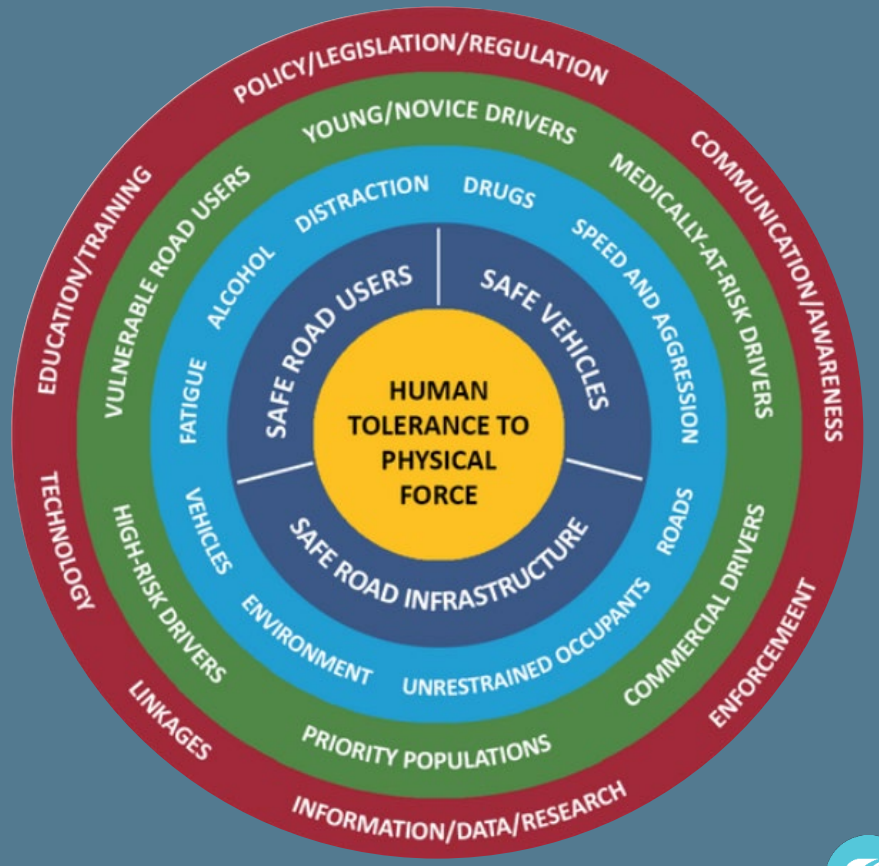
Municipal & Regional

Manage **local road design and operations**, **maintenance**, and **traffic control measures.**

105

Government Roles

- The strategy does not prescribe a uniform plan but rather a national framework that empowers each jurisdiction to develop a road safety plan tailored to its unique community needs and legal landscape.
- We achieve this by integrating the vital expertise of our non-governmental road safety partners.



Revised Tactics

- **A Living Strategy with Ongoing Monitoring:**
  - This is an evergreen plan that adapts to new trends, not a fixed 10-year report.
- **Modernized Data & Best Practices:**
  - A commitment to modernize how we collect, share, and use data and proven safety measures.
- **A Strategy for All Canadians:**
  - A new focus on unique community needs through the flexible "Priority Populations" group.
- **A Stronger Emphasis on Data & Technology:**
  - A core principle of using evidence-based action and leveraging new technology to drive progress.

Grounded in Safe Systems Approach (SSA)

The SSA is built on the following core principles:

- **Deaths and serious injuries are unacceptable**
- **People Make Mistakes**
- **Human Vulnerability**
- **Shared Responsibility**
- **Redundancy and Layered Protection**
- **Proactive and Equitable Design**

Strategic Framework for Action

RSS 2035+ is built on eight strategic objectives that will guide the actions of all road safety partners:

1. Leadership and Commitment
2. Good Governance
3. Data and Evidence
4. Modern Regulation and Policy
5. Awareness, Education, and Training
6. Safe Vehicles and Infrastructure
7. Enforcement and Compliance
8. Leveraging Technology

A Comprehensive Focus on Key Risks

The strategy will continue to focus our collective efforts on the people most at risk and the contributing factors – with a renewed emphasis on the most dangerous driving behaviors.

Key Risk Groups:

- Young/Novice Drivers
- Medically-at-Risk Drivers
- Vulnerable Road Users
- Commercial Vehicle Drivers
- High-Risk Drivers
- Priority Populations

Contributing Factors:

- Distracted Driving
- Impaired Driving
- Speed & Aggressive Driving
- Unrestrained Occupants
- Environmental Factors
- Road Infrastructure
- Vehicle Factors

A Living Document

The road safety environment in Canada has seen significant changes over the course of the previous plans.

To address the evolving nature of transportation safety, **RSS 2035+ will be an open-ended strategy** and a living document that **allows for ongoing updates** as appropriate:

- Track progress on strategic objectives
- Monitor fatality, injury, and collision trends
- Updates based on the latest research and evaluation
- Determine the most effective methods to share best practices and support jurisdictions

Evaluation and Reporting

- RSS 2035+ is designed to be a **flexible and adaptable document** subject to changes when appropriate - to reflect new evidence, emerging risks, and changes in the road safety environment.
- The RSRP Committee is developing a continuous monitoring evaluation framework that includes the **collection of data from jurisdictions** **on an annual basis**. The National Collision Data Road Map project is a key element of this objective.
- Data will support the **ongoing evaluation of the RSS 2035+** and inform evidence-based adjustments, as needed.

Working Together to Advance Road Safety

RSS 2035+ Engagement

Key Elements:

- Update roadsafetystrategy.ca to serve as central public information hub
- Develop and distribute a new RSS Tool Kit for jurisdictions and partners, containing templates for presentations, social media assets, and key messages to support their own local outreach efforts
- Execute a multi-channel public launch campaign
- Initiate a new social media presence on LinkedIn to broaden reach and engage with the road safety community.
- Create a stakeholder engagement plan that supports collaboration and keeps partners informed of progress throughout the life of the Road Safety Strategy 2035+

MPI and Road Safety Strategy 2035+
MANITOBA
PUBLIC INSURANCE

MPI & CCMTA

Through its participation at CCMTA, MPI works with jurisdictions across the country to shape road safety in Canada.

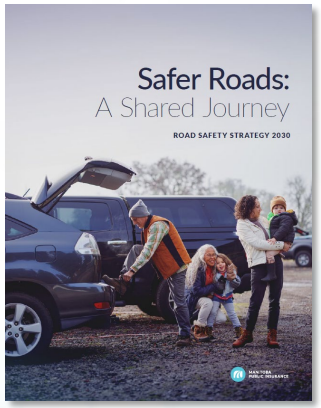
CCMTA Membership:

- MPI represents Manitoba on the CCMTA Board of Directors
- MPI represents Manitoba on CCMTA Program Committees:
  - Driver Programs & Standards
  - Road Safety Research & Policies
  - Data & Technology Services
  - Vehicle Strategy & Safety Initiatives

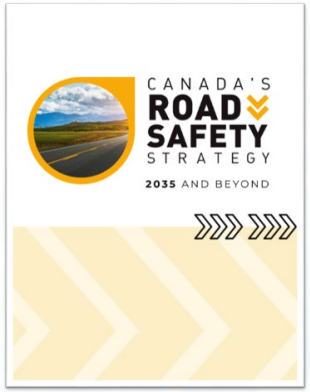
Active Participation:

- MPI actively contributes to the work of each committee, helping set the national direction for road safety policy, research, and standards.
- MPI chairs the Road Safety Research & Policies Committee and the RSS 2035+ working group, which is responsible for developing and supporting the goals of Canada's Road Safety Strategy.

A Shared Foundation



Both MPI's Road Safety Strategy 2026–2030 and Canada's RSS 2035+ are grounded in the principle of Vision Zero, that no loss of life on the road is acceptable.



- Both strategies adopt the same overarching goal: a sustained downward trend in fatalities. MPI's target of reducing Manitoba traffic fatalities from 2026 to 2030 directly aligns with the national commitment.
- RSS 2035+ was designed as a flexible national framework, encouraging each jurisdiction to tailor its approach to local context.
- MPI's road safety strategy applies this framework to Manitoba's unique risks, geography, and community perspectives.

A Strategy Tailored to Manitoba

MPI identified the local needs in Manitoba through extensive engagement with road safety partners and the public.

- MPI's Road Safety Strategy 2026–2030 is a practical, Manitoba-specific expression of the national framework. It is shaped by the same principles, targets the same outcomes, and is tailored through extensive provincial engagement with road safety partners across the province and with nearly 3,000 Manitobans.
- The pillars of MPI's Road Safety Strategy are deeply connected to RSS 2035+. Coordinated action across national and provincial levels is how RSS 2035+ is designed to operate.

116

Aligning with the RSS 2035+ National Framework

1

Safety Culture

RSS 2035+'s strategic objectives on public awareness and education align with MPI's commitment to shaping attitudes and behaviours toward road safety in Manitoba.

2

Strengthening Partnerships

MPI's work to strengthen partnerships delivers on the national principle of shared responsibility and coordinated action.

3

Safer Driving Behaviours

RSS 2035+ identifies key contributing factors including impaired and distracted driving, speed, and unrestrained occupants, reinforcing MPI's evidence-based approach to shaping safer behaviours.

4

Reconciliation & Road Safety

RSS 2035+'s Priority Populations concept and its principle of proactive and equitable design support MPI's reconciliation pillar and co-developing initiatives with Indigenous communities through MPI's Indigenous Action Plan.

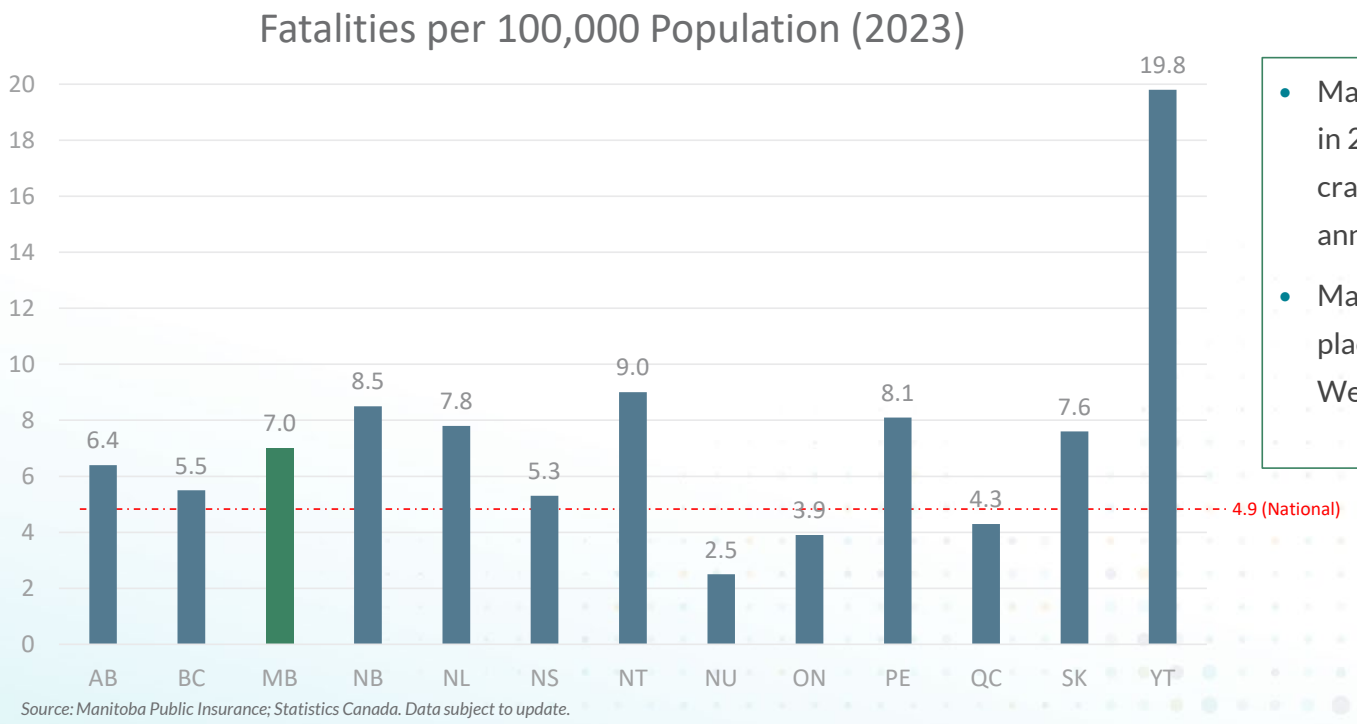
Looking Ahead

Through its participation at CCMTA, MPI will contribute to shaping the ongoing direction of road safety in Canada and the living national Road Safety Strategy 2035+.

- MPI's road safety priorities will continue to reflect local risks, community input, and provincial data, and be grounded in a shared national direction.
- Cross-jurisdictional collaboration through CCMTA gives MPI access to proven approaches and emerging practices that can be applied in Manitoba.
- Through CCMTA, MPI will continue to work with partners to support a coordinated national approach.

Questions

June 19, 2026



Session 6: Road Safety Across Canada

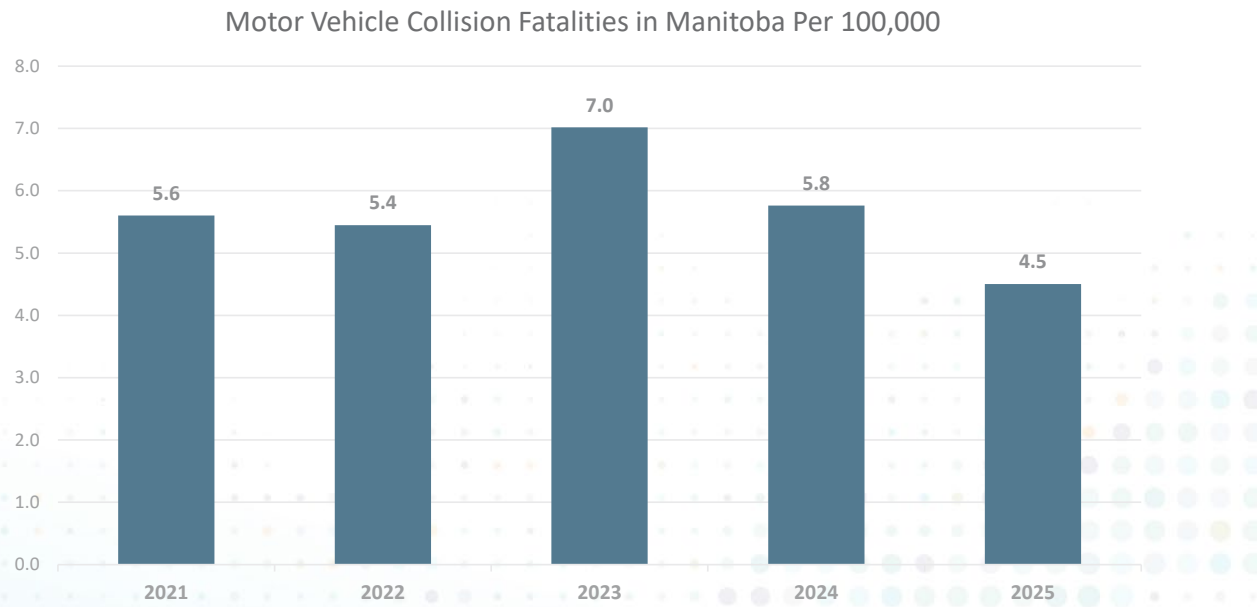
2026 Road Safety Technical Conference

MANITOBA PUBLIC INSURANCE

Manitoba in the National Context

How Manitoba compares to other Canadian jurisdictions:

Source: Manitoba Public Insurance; Statistics Canada. Data subject to update.

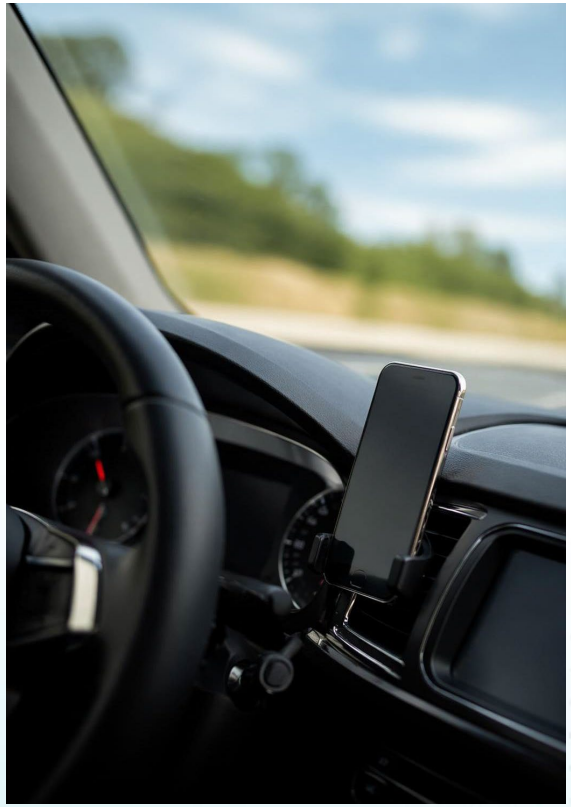


- Manitoba's higher motor vehicle fatality rate in 2023 was driven in part by the Carberry crash, which significantly increased the annual total.
- Manitoba's five-year fatality rate of 5.7 places it in line with peer provinces in Western Canada (SK, AB, BC)

121

Manitoba in the National Context

Motor vehicle collision fatality rates in Manitoba are relatively stable.



- Overall, Manitoba's fatality rate has been relatively stable, apart from the sharp increase in 2023.
- The 2023 increase should be interpreted with caution, as it was driven by the single mass-fatality event in Carberry.
- Rates in subsequent years returned to typical levels and show improvement.

Source: Manitoba Public Insurance; Statistics Canada. Data subject to update.

122

Distracted Driving: Manitoba in Context

MPI & Manitoba

- MPI partners with law enforcement for targeted enforcement campaigns through MPI's Enhanced Enforcement Program, supported by strong penalties (fine, demerits, and licence suspension).
- MPI runs coordinated distracted driving awareness campaigns and community educational presentations that reinforce focused, attentive driving and address phones and other common distractions.

What Other Jurisdictions are Doing

- Similar public awareness, enforcement and penalty frameworks across Canada, with some jurisdictions piloting new approaches (e.g., use of drones for enforcement in Ontario).

What We're Seeing

- A high level of consistency in legislation and penalties across jurisdictions.
- Continued reliance on enforcement and public awareness as primary tools.
- National organizations (e.g., CAA, RCMP, TIRF) support behaviour change campaigns.

What This Means for Manitoba

- Manitoba is well aligned with national approaches.
- Differences are limited to how enforcement is delivered and the use of emerging technologies.

123

Speed: Manitoba in Context

MPI & Manitoba

- MPI's speed display signs program has been shown to reduce speeding occurrences by 4–6%.
- MPI partners with law enforcement for targeted enforcement campaigns through MPI's Enhanced Enforcement Program.
- MPI runs coordinated speed awareness campaigns and community educational presentations that promote safer speeds, driving to conditions, and slowing down and moving over.

What Other Jurisdictions are Doing

- Greater use of automated speed enforcement, but with movement away from it in Alberta and Ontario.
- Investment in traffic-calming infrastructure (Saskatchewan, Ontario, Québec, British Columbia).
- Ongoing public awareness campaigns across the country.

What We're Seeing

- Increased reliance on infrastructure and automation to manage speed.
- Mixed policy direction in some jurisdictions (e.g., reconsideration of automated enforcement in Alberta and Ontario).

What This Means for Manitoba

- Manitoba is aligned overall with national approaches.
- Differences are primarily in the scale and emphasis of infrastructure and automated enforcement.

Impaired Driving: Manitoba in Context

MPI & Manitoba

- Manitoba's impaired driving laws are among the toughest in Canada, including zero tolerance for new drivers, immediate roadside prohibitions, tiered penalties, criminal sanctions, and mandatory intervention programs.
- MPI's Enhanced Enforcement Program supports impaired driving campaigns province-wide, including drug-impaired initiatives.
- MPI runs extensive awareness campaigns aimed at reducing impaired driving.
- MPI supports impaired driving prevention through partnerships delivering education (e.g., MADD school programs), safe ride initiatives (Operation Red Nose), and alternative transportation options like free transit on New Year's Eve.

What Other Jurisdictions are Doing

- Administrative suspensions for low-BAC drivers and ignition interlock programs are in place in all jurisdictions in Canada.
- B.C., Alberta, Saskatchewan, and Manitoba have introduced immediate roadside prohibitions.
- PEI has adopted post-suspension zero-alcohol restrictions for convicted impaired drivers. In June 2026, the MB Legislature passed Bill 31 to establish (and expand) similar measures .
- Jurisdictions across Canada engage in public impaired driving awareness campaigns and community outreach.

What We're Seeing

- Widespread use of administrative penalties and ignition interlock programs nationwide, with varying implementation of immediate roadside prohibitions.
- Impaired driving remains a national priority under Canada's Road Safety Strategy 2035+.

What This Means for Manitoba

- Manitoba is aligned with, and in several areas ahead of, national approaches.

Vulnerable Road Users: Manitoba in Context

MPI & Manitoba

- MPI works with stakeholders to deliver public campaigns to promote safe interaction with VRUs, including the See the Rider, Spot the Pedestrian, and Cyclists are Traffic Too campaigns.
- MPI distributes high-visibility gear for pedestrians in First Nations communities.
- MPI provides rebates for new motorcycle riders to take the more advanced Gearing Up Training course.
- MPI delivers a suite of community cycling initiatives spanning presentations, hands-on training, and practical skills programs (Bike Rodeo), with cycling content also integrated into broader road safety education and training.

What Other Jurisdictions are Doing

- Canada-wide public education emphasizes shared responsibility between drivers and vulnerable road users.
- Early-grade cycling and pedestrian safety education in many jurisdictions.
- SGI's Provincial Traffic Safety Fund and ICBC Road Improvement Program fund improvements including crosswalks, beacons, traffic calming, and school zones.

What We're Seeing

- BC and SK lead with dedicated provincial traffic safety funds that include support for VRU infrastructure.
- Municipal speed reductions (e.g., 30 km/h residential limits) are gaining traction.
- Passing-distance laws and protected infrastructure are becoming standard tools to protect vulnerable users.

What This Means for Manitoba

- Manitoba is aligned on legislation (1-metre passing) and rider training, with MPI leading awareness and community programming.
- BC and SK leverage provincial traffic safety funds for cycling infrastructure and education, while Manitoba relies on municipal projects.

Occupant Restraints: Manitoba in Context

MPI & Manitoba

- MPI runs ongoing seatbelt public awareness campaigns with a focus on rural youth.
- MPI's Rural Seat Belt Pilot Program (2025) combined education, awareness, and enforcement to address lower rural usage.
- MPI provides car seat presentations and funds car seat workshops with Child Passenger Safety Association of Canada Certified Technicians, working closely with Safety Services Manitoba to support parents, First Nations communities, and newcomers.

What Other Jurisdictions are Doing

- Canada-wide public awareness campaigns promoting seatbelt use and frequently pairing enforcement and awareness.
- B.C., Saskatchewan, Ontario, and Yukon offer child car seat education and fitting clinics.

What We're Seeing

- Seatbelt awareness is consistently delivered through enforcement-linked campaigns nationwide.
- Child restraint education is often delivered through clinics and community partnerships.
- Rural and youth populations are recognized as priority audiences for targeted seatbelt outreach.

What This Means for Manitoba

- Manitoba is aligned with national approaches, with MPI leading targeted rural youth campaigns and the Rural Seat Belt Pilot.
- MPI's car seat workshops for First Nations and newcomers fill a gap in Manitoba, which previously had no Child Passenger Safety Association of Canada Certified Technicians.

How Road Safety is Delivered Across Jurisdictions

MANITOBA PUBLIC INSURANCE

Road Safety Across Canada

Road safety committees and partnerships across Canada include:

- **Canadian Council of Motor Transport Administrators:** An incorporated body whose members are responsible for administering, regulating and controlling motor vehicle and highway safety in Canada.
- **Canadian Association of Road Safety Professionals:** A national, non-profit professional association that brings together researchers, practitioners, and policymakers working to reduce road fatalities and serious injuries in Canada.
- **Transportation Association of Canada Road Safety Committee:** National professional committee with technical leadership on roadway and roadside safety, and subcommittees on Vision Zero, Safe System, and Truth & Reconciliation.
- **BC Road Safety Steering Committee**: Multi-agency membership (Road Safety BC, ICBC, police, health, local government partners) that governs and oversees the BC Road Safety Strategy.
- **Saskatchewan Traffic Safety & Road Safety Advisory Committees:** Coordinated primarily through SGI and the Ministry of Highways, the committee includes inter-agency committees focused on enforcement, education, and data-driven safety priorities.

MPI Partnerships in Road Safety

Community Partners in Road Safety Committee

The Community Partners in Road Safety Committee brings together Manitoba stakeholders to support road safety efforts. It provides a forum to share information and collaborate through working groups on key issues. The committee is co-chaired by MPI and CAA.

"Stakeholders viewed road safety as a shared responsibility, with drivers, pedestrians, and authorities all playing a role in keeping roads safe."
(2025 Road Safety Strategy Survey)

Canadian Council of Motor Transport Administrators (CCMTA)

Manitoba holds several CCMTA leadership and committee roles, including serving as Second Vice-Chair of the Board of Directors and Chair of the Road Safety Research and Policies Program Committee, as well as contributing as a member on program committees.

MPI & Manitoba Association of Chiefs of Police

The MACP provides a provincial coordinating role on traffic safety enforcement, facilitating collaboration among law enforcement and government agencies, supporting consistent enforcement priorities across Manitoba.

American Association of Motor Vehicle Administrators

AAMVA is a nonprofit association that supports jurisdictions across Canada and the U.S. by developing standards, sharing best practices, and enabling secure information exchange, while recognizing each region's independence. MPI represents Manitoba within AAMVA.

Joint Steering Committee on the Truck Driver Training Industry

MPI is part of a joint steering committee co-chaired by Manitoba Business, Mining, Trade and Job Creation and the Manitoba Trucking Association. The committee guides research, stakeholder engagement, and policy options to support the long-term sustainability of the industry.

Questions

June 19, 2026

Session 7: A Public and Accessible Collision Data System

2026 Road Safety Technical Conference

MANITOBA PUBLIC INSURANCE

2024 Conference
Stakeholders shared feedback on data timeliness and accessibility

2025 PUB Order
Board directed creation of public collision database for 2027 GRA

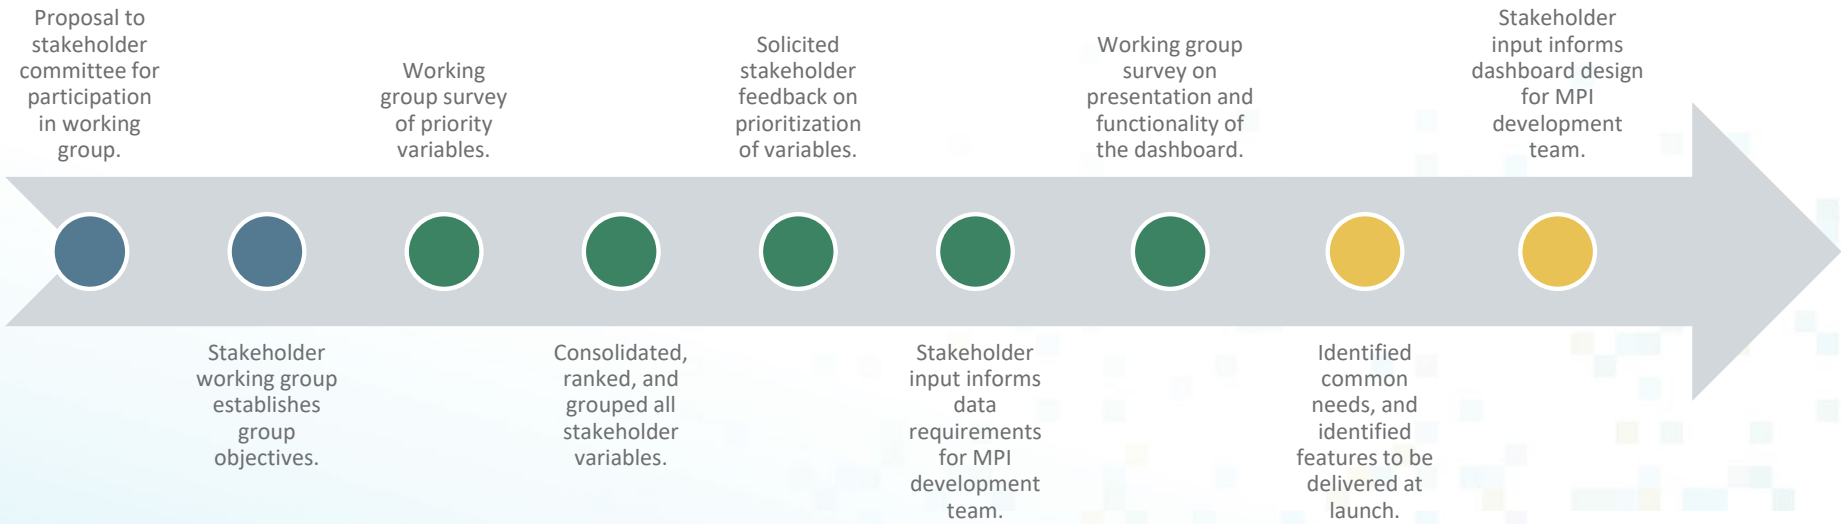
2025 Working Group
11 organizations collaborated on dashboard data and design requirements

April 2026 Go-Live
Manitoba Collision Dashboard launched

133

Public Data Project Highlights

- PUB Order mandated a publicly accessible database to improve transparency and collision information availability.
- MPI worked with partners to advance a publicly accessible data system that improves transparency and access to collision information.
- Feedback gathered from stakeholders at the 2024 conference helped shape the shift away from traditional annual reports toward more timely, usable information.
- MPI partnered with 11 external organizations through a Working Group to identify dashboard requirements and ensure it met user needs.
- This work resulted in a move from static annual reports to a monthly-updated, interactive platform accessible to all Manitobans.



How Engagement Shaped the Dashboard

11	10	2
Organizations	Engagement Sessions with Working Group Participants	Surveys to Solicit Stakeholder Input

- Engagement included partners from government, law enforcement, health, and community organizations.
- Engagement was designed to incorporate diverse perspectives.
- Working Group built on prior feedback from the PUB technical conference and ongoing data requests.

Developing the Dashboard Together

The dashboard was developed through structured stakeholder engagement, with input translated into clear development priorities.

135

What We Heard

The dashboard was designed around the data and analytical views stakeholders prioritized most.

- Road user categories, vehicle type breakdowns, and victim demographics were most frequently requested filters.
- High collision area identification, trend lines showing year-over-year comparisons, and historical views spanning multiple years topped visual presentation requests.
- Geographic filtering by community, road type classification including highway versus residential, and contributing factors rounded out essential variable filters.
- Timeframe filters supporting one-year, two-year, three-year, and five-year periods enable both short-term and medium-term trend analysis.
- Timely data access was a recurring theme, with stakeholders preferring monthly or quarterly updates.

Key Features of the Data & Dashboard

Self-Service Access

Interactive Platform

- Dashboard enables the public and stakeholders to explore collision data directly, supporting informed road safety discussions.
- Users examine patterns across location, timing, and demographics relevant to their specific interests.
- Replaces year-old reports with timely data refreshed monthly.
- Anonymized data and data export controls protect privacy and promote responsible use of data.

Filter

Select road user, vehicle, region, and contributing factor parameters

Visualize

View trends, year-over-year comparisons, and compare types of collisions

Identify

Find patterns and relationships across time, road users, and other factors

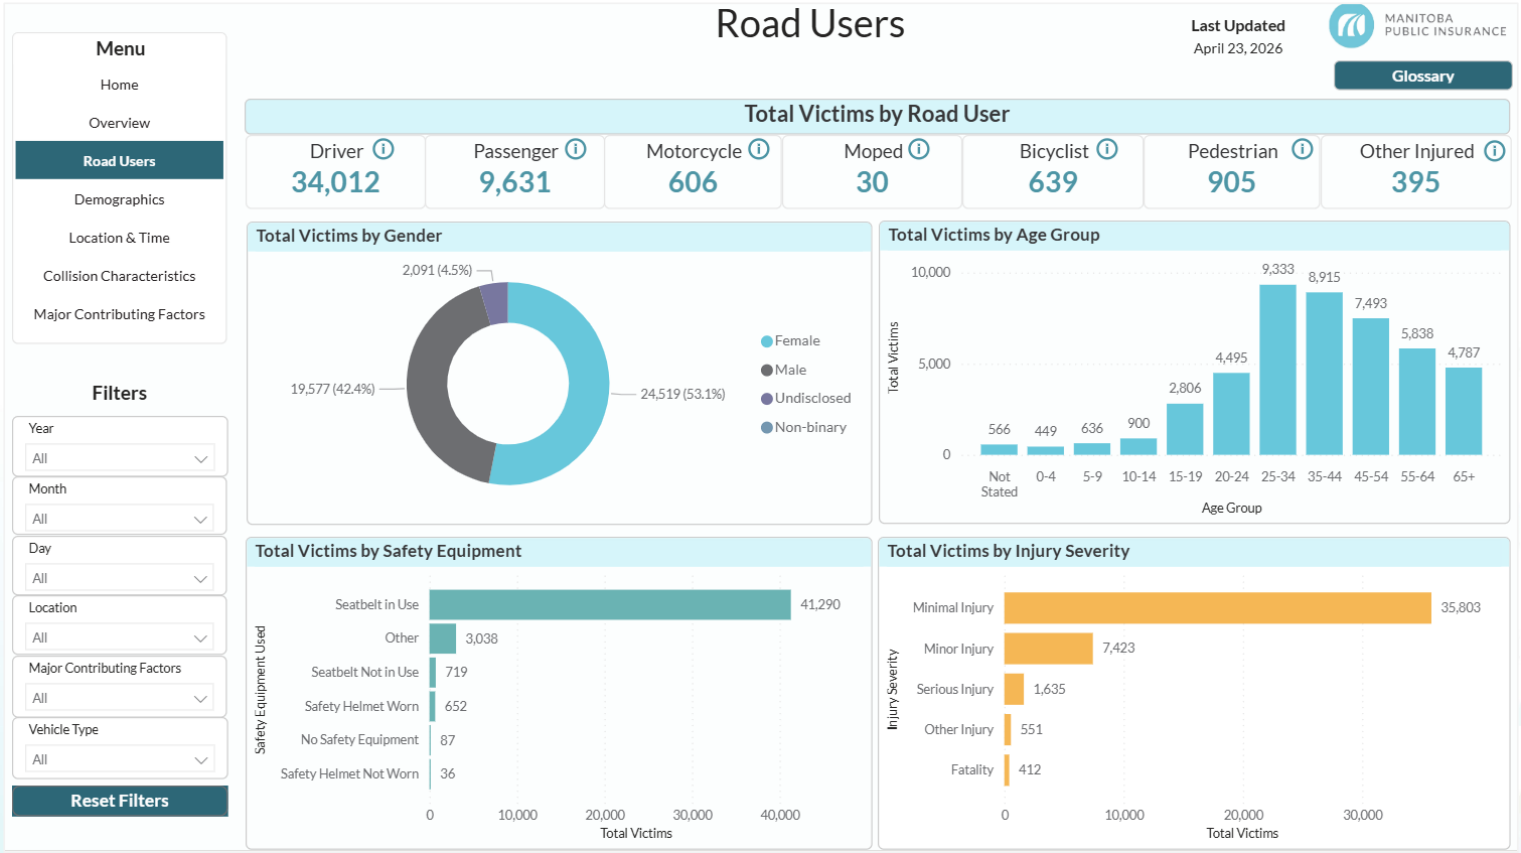
Understand

Strengthen understanding and inform evidence-based discussion

137

Data Sources and Preparation

From static, manual reporting to automated and up-to-date data



Legacy Process	Modernized System
Annual datasets built from scratch using customer-reported Traffic Accident Data (TAR), disconnected from source systems.	Automated pipelines clean and update TAR data in a dedicated road safety data mart.
Report rebuilt each year from the annual datasets.	Dashboard automatically pulls monthly updates from the data mart.
Labour-intensive process producing a static report that was often outdated at release.	Reduced ongoing effort with monthly updates and a 3-month reporting lag.

138

144

Moving from Development to Ongoing Use

Deliberate progression from stakeholder-informed development to sustained improvement guided by feedback and feasibility.

145

Traffic Collision Data Across Canada

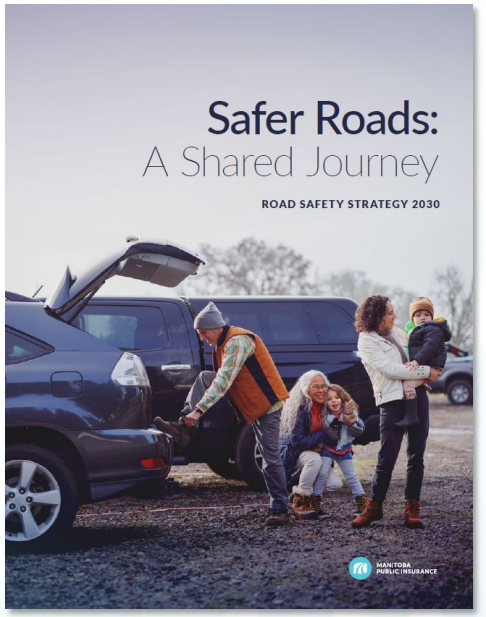
How other Canadian jurisdictions share collision data

Jurisdiction	Reporting Format
SGI Collision Statistics Tool (SK)	Publishes an annual report that compiles information on Saskatchewan traffic collisions gathered from reporting by Saskatchewan police agencies and SGI claims
Alberta Collision Dashboards (AB)	Publishes an annual report that provides an overview of current and five-year patterns and trends in traffic collisions in Alberta.
ICBC / RoadSafetyBC Dashboards (BC)	Multiple interactive dashboards and open data maps with a focus on fatal and serious injury crashes and vulnerable road users.
Ontario Road Safety Annual Report (ON)	The Ontario Road Safety Annual Report (ORSAR) provides road safety data and emerging trends including fatalities, injuries, and collisions.
SAAQ Collision Data Portals (Québec)	Publishes an interactive map of statistics related to road accidents and driver's licence holders, detailed by region and municipality.
Traffic Collision Facts Report (NWT)	Publishes an annual report on traffic collisions that happened across the NWT based on information from RCMP Motor Vehicle Collision reports. It includes detailed information on key factors including impaired driving, speeding, and seatbelt use
National Collision Database (Transport Canada)	Canada-wide query tool for fatal and injury collisions (non-visual).
Motor Vehicle Casualties Dashboard (Transport Canada)	An interactive tool that helps users explore trends of fatalities and injuries in motor vehicle collisions.

Questions

June 19, 2026

Session 8: MPI's Road Safety Budget



2026 Road Safety Technical Conference

MANITOBA PUBLIC INSURANCE

MPI's Road Safety Budget

MPI's road safety budget is aligned to support delivery of the new Road Safety Strategy

- The Road Safety Strategy sets out what MPI aims to achieve: fewer people killed or seriously injured on Manitoba roads.
- The budget funds the work that gets us there and is focused on the behaviours contributing most to harm on our roadways.
- MPI aims to extend the impact of its road safety budget through working in collaboration with our road safety partners, amplifying results through coordinated action with police, municipalities, Indigenous partners, and road safety organizations across the safety system.

149

MPI's Road Safety Budget

What Drives MPI's Road Safety Budget

MPI's road safety budget is built to deliver on the Road Safety Strategy. It's shaped by our engagement with road safety partners and Manitobans and the leading causes of collisions.

- The budget focuses on:
  - The most common contributing factors to serious collisions:
    - Impairment
    - Distraction and Careless Driving
    - Speed
    - Occupant Restraints
  - Communities and road users most exposed to harm including new drivers, vulnerable road users, and First Nations.

Delivering on the Road Safety Strategy

The budget reflects the strategy, the evidence behind it, and the partners who help deliver it.

Aligned to Strategy

-Directly supports the four strategic pillars.

-Targets the highest-risk behaviours and the groups most exposed to harm.

Targets Priority Areas

-Focused where programs most reduce serious collisions.

-Reflects ongoing research, evaluation, and emerging trends.

Amplified Through Partnerships

-Co-delivered with partners across the road safety system, reflecting shared responsibility for reducing fatalities.

Questions

MANITOBA
PUBLIC INSURANCE

SERVICES AGREEMENT

BETWEEN:

THE MANITOBA PUBLIC INSURANCE CORPORATION
("**MPI**")

- and -

TOWERS WATSON CANADA INC.
("**Vendor**")

WHEREAS:

A. MPI issued an invitational Request for Proposal on May 5, 2025 ("**RFP**") for the purpose of engaging a vendor to provide investment management functions, and the Vendor submitted a proposal to the RFP (the "**Proposal**").

B. The purpose of the RFP was to assist MPI in determining whether it should outsource its investment management functions. MPI has reviewed options for comprehensive outsourcing in the RFP and based on the proposals provided, MPI determined it was appropriate to outsource some of its investment management functions.

C. MPI has selected and wishes to engage the Vendor, and the Vendor wishes to be engaged by MPI to provide the Services in accordance with the terms and conditions of this Agreement.

NOW THEREFORE, in consideration of the respective obligations of the parties contained herein, the parties agree as follows:

1.00 DEFINITIONS AND INTERPRETATION

1.01 The definitions set out in Schedules A and B apply to this Agreement.

1.02 The parties hereby acknowledge and declare that the foregoing recitals are true and correct in substance and in fact.

1.03 This Agreement is made up of the following parts, each of which is incorporated into and forms part of this Agreement. In the event of any inconsistency interpreting between the parts of this Agreement the following order of precedence shall prevail:

Parts of Agreement	Order of Precedence
The main body of this Agreement	1
Schedule A – Terms and Conditions	2
Schedule B – Services	
Appendix B.1 – Investment Policy Manual	3
Appendix B.2 – Material Disclosures	4
Appendix B.3 – Scope of Work	5
Appendix B.4 – Service Level Standards	6
Appendix B.5 – Remote Work Security Standard	7
Schedule C – Costs	8
Schedule D – GST/HST Exemption Certificate	9

2.00 TERM OF AGREEMENT

2.01 Initial Term

This Agreement comes into effect as of October 1, 2025, and shall continue until and including September 30, 2030 (the "**Initial Term**"), unless otherwise terminated, suspended, or extended in accordance with the terms and conditions of this Agreement.

2.02 Renewals

MPI may, at its sole option renew the Agreement for up to one (1) additional five (5) year term (the "**Renewal Term**"), on the same terms and conditions as were in force during the Initial Term. The pricing for the Renewal Term is addressed in Schedule C - Costs.

3.00 RELATIONSHIP

3.01 The parties have agreed to structure their relationship as an advisory relationship where the Vendor creates reports and advises Committees and the Board on the ideas customized for MPI. Importantly, the Vendor does not have delegation of authority; and cannot execute any transactions on MPI's behalf such as hiring or firing of investment managers or rebalancing portfolios without the prior express consent of MPI its Board of Directors, Investment Committee or Executive as applicable.

3.02 The advisory relationship can also be classified as a non-discretionary Outsourced Chief Investment Officer ("**OCIO**") relationship where MPI outsources the investment reporting functions to the Vendor while maintaining responsibility for all strategic decisions. The Vendor has no discretionary ability for any operational activities including investing, rebalancing, or directing the investments; MPI retains complete control and responsibility over strategy, implementation and operations.

3.03 A non-discretionary OCIO model differs from a full OCIO where the Investment Committee is simply informed of investment and operational changes. The parties have agreed that the responsibility for approving changes to investment structure or managers must be approved by the Investment Committee and MPI always retains responsibility for strategic direction.

3.04 If in the future MPI wants to move from a non-discretionary to a full discretionary OCIO model this will require significant amendments to this agreement as the structure of advisory and OCIO contracts are quite different and the latter requires delegation of authority, and operational details and is typically priced as an asset-based fee versus a fixed fee.

4.00 SERVICES

4.01 MPI agrees to retain the Vendor to perform the Services, which are further detailed in the requirements attached as Schedules B and all related appendices. The Vendor agrees to perform such Services during the Term, on the terms and conditions set out in this Agreement and as directed by MPI.

5.00 VENDOR'S FEES

5.01 Subject to Schedule A, in consideration of Services performed for MPI during the Term, MPI agrees to pay the Vendor in accordance with the pricing set out in Schedule C – Costs.

5.02 The parties may agree to services beyond the scope of this Agreement as detailed in a statement of work ("SOW") or other document incorporating or made pursuant to this Agreement. Notwithstanding the foregoing, the Vendor is authorized to perform any such services prior to any finalization of any SOW or other document incorporating, or made pursuant to this Agreement, if prior written permission to perform such services is provided by MPI. In the event of any conflict or inconsistency between the terms of a SOW and the terms of this Agreement, the terms of that SOW shall prevail only with respect to such SOW.

6.00 NOTICES

6.01 Any notice or other communication under this Agreement shall be in writing and delivered:

To the Vendor:

SCHEDULE A

MPI
TERMS AND CONDITIONS

MANITOBA PUBLIC INSURANCE

SCHEDULE A
TERMS AND CONDITIONS

1.00 INTERPRETATION

1.01 Definitions

(a) "**Agreement**" means this agreement, any schedules, appendices, or documents attached hereto or incorporated by reference, and any other documents made pursuant to this Agreement.

(b) "**AMA**" means *The Accessibility for Manitobans Act* (CCSM c A1.7).

(c) "**Business Day**" means any day other than Saturday, Sunday, or a statutory or civic holiday observed in Manitoba.

(d) "**Business Records**" means all financial accounts and records (including payroll records, invoices, and receipts) relating to this Agreement.

(e) "**Confidential Information**" means all information, including Personal Information, and materials acquired by the receiving party or its Representatives, or to which the receiving party or its Representatives have been given access by disclosing party, in the course of the performance of this Agreement, excluding information that is in the public domain (for greater certainty, this does not include information in the public domain which was made public as a result of an unauthorized disclosure by a third party).

(f) "**Confidentiality Breach**" means an actual unauthorized use, disclosure, or destruction of, or any unauthorized access to, Confidential Information.

(g) "**Data Residency Jurisdiction**" means Canada or such other jurisdiction as MPI has approved in writing.

(h) "**Deliverable(s)**" means the work product Vendor produces in the course of providing the Services.

(i) "**FIPPA**" means *The Freedom of Information and Protection of Privacy Act* (CCSM c F175).

(j) "**Manitoba Public Insurance**" or "**MPI**" means The Manitoba Public Insurance Corporation as established by *The Manitoba Public Insurance Corporation Act* (CCSM c P215).

(k) "**Personal Information**" means "personal information" and "personal health information" collectively, as those terms are defined in FIPPA and PHIA respectively.

(l) "**PHIA**" means *The Personal Health Information Act* (CCSM c P33.5).

(m) "**PUB**" means the Manitoba Public Utilities Board, including all participants and intervenors.

(n) "**Refund**" means a payment or credit of any fees prepaid by MPI equal to the prorated value of Services MPI will not receive.

(o) "**Representatives**" means the directors, officers, shareholders, employees, contractors, subcontractors, partners, affiliates, agents, delegates, and other such representatives of a party.

(p) "**Reputation**" means the public perception, business reputation, community standing, or business operations of MPI or its Representatives.

(q) "**Services**" means the provision of services, and Deliverables as specified in this Agreement.

(r) "**Work Product**" means all goods, data, and materials that are submitted or required to be submitted by the Vendor or its Representatives to MPI in the performance of this Agreement.

(s) "**Term**" means the entire length of this Agreement, including the Initial Term and any applicable Renewal Terms.

1.02 References to any legislation, including any statute or regulation, shall mean any successor or amended legislation.

1.03 Wherever "including" is used, it shall mean "including, but not limited to," unless stated otherwise.

1.04 The singular includes the plural, and vice versa, unless stated otherwise.

1.05 This Agreement shall be interpreted, performed, governed, and enforced in accordance with the laws of Manitoba and the laws of Canada applicable therein.

1.06 This Agreement contains the entire agreement between the parties with respect to the subject matter hereof. There are no undertakings, representations, or promises, either express or implied, other than those contained in this Agreement, and none have been relied on.

1.07 Unless stated otherwise, all dollar amounts referred to in this Agreement are in Canadian currency.

1.08 The rule of construction that any uncertainty or ambiguity in an agreement shall be construed or

interpreted against the drafter shall not be applicable to this Agreement.

1.09 If any term of this Agreement is deemed invalid, unenforceable, void, or illegal, in whole or in part, the other terms of this Agreement shall remain in full force and effect. Further, any such term shall be modified only to the extent necessary to render it valid, enforceable, effective, or legal and shall then become binding. If the intent of either party cannot be preserved, this Agreement shall either be renegotiated or terminated.

2.00 SCOPE

2.01 The Vendor agrees to provide the Services to MPI in a professional manner with reasonable skill and care and in accordance with all laws and regulations applicable to Vendor. MPI and the Vendor agree that any work performed by the Vendor outside the scope of the Services without prior written approval of MPI shall be deemed to be gratuitous on the Vendor's part, and MPI has no liability with respect to such work. Notwithstanding the foregoing, the parties agree that they shall enter into mutually negotiated Statement of Work (SOW) if they determine that any additional work not covered in this Agreement is required.

2.02 The Vendor agrees to be bound solely by this Agreement. If the Vendor begins the Services with MPI's permission before the start of this Agreement's Term, all Services provided by the Vendor before the start of this Agreement's Term will be considered to have been provided under all the terms and conditions of this Agreement.

2.03 The parties agree that any change, modification, deletion, or addition to the Services, shall be mutually agreed by the parties.

2.04 Unless specifically stated to the contrary, nothing in this Agreement grants the Vendor exclusivity in providing the Services to MPI.

3.00 INSURANCE, PERMITS, LICENSES, AND CERTIFICATES

3.01 The Vendor will be responsible for the procurement and costs of all insurance, permits, licences, security clearances, criminal record checks, and certificates that are necessary for the performance of the Services or required by this Agreement.

3.02 If the Vendor is required to carry or maintain insurance under this Agreement:

(a) The Vendor shall provide certified copies of its certificates of insurance to MPI within ten (10) Business Days of award, prior to commencing the Services.
(b) When requested by MPI, the Vendor shall provide updated insurance certificates evidencing the renewal of the required insurance and bonding coverage.
(c) The Vendor shall ensure that each such bond, policy, or renewal is endorsed so that MPI will be advised if it is altered or cancelled prior to expiry.
(d) Intentionally omitted.
(e) The Vendor is responsible for determining if any additional insurance coverage is necessary to fulfill its obligations under this Agreement, and for procuring such insurance at its own expense.

3.03 Intentionally omitted

4.00 PARTIES OBLIGATIONS

4.01 When performing the Services, the Vendor and its Representatives shall comply with all applicable federal, provincial, and municipal laws, regulations, by-laws, ordinances, orders, notices, policies, and regulatory body decisions.

4.02 The Vendor represents that:

(a) it possesses the necessary skills, expertise, and experience to perform the Services in accordance with this Agreement;
(b) the Services shall be provided in a professional manner and as outlined in this Agreement unless MPI and the Vendor agree otherwise in writing;
(c) the Representatives designated to perform the Services shall devote the time, attention, abilities, and expertise necessary to properly perform the Vendor's obligations;
(d) it shall comply with all reasonable directions and requests of MPI within the scope of the Services as set out in this Agreement;
(e) all representations contained in this Agreement are true and correct and shall so remain throughout the Term of this Agreement;
(f) to the extent possible and commercially practicable, MPI shall have the right of prior approve any key personnel designated to provide the Services, and MPI may the removal of any key personnel so designated and the Vendor shall promptly comply with all such requests for removal;
(g) it shall conduct itself in a manner that does not negatively affect MPI's Reputation; and,

(h) it has full right and authority to enter into this Agreement.

4.03 The Vendor shall provide written progress reports at such intervals in form and content mutually agreed by the parties.

4.04 The Vendor agrees to reasonably co-operate with all MPI Representatives (including subcontractors providing services to MPI) throughout the Term.

4.05 If the Vendor intends to use subcontractors:

(a) intentionally omitted;
(b) intentionally omitted
(c) Performance by subcontractors shall meet, at a minimum, the same standards as required for performance by the Vendor, and the Vendor is responsible for such performance.

4.06 If applicable, and unless explicitly stated otherwise in this Agreement, delivery of Deliverables shall be as agreed between the parties. All Deliverables shall remain at the risk of the Vendor until they are delivered to the reasonable satisfaction of MPI. All Deliverables supplied shall be subject to inspection and acceptance by MPI for a period of sixty (60) days after delivery. Defective or deficient Deliverables or Deliverables not conforming to specifications may be returned at the Vendor's expense. At MPI's option, such deficient or non-conforming Deliverables shall be returned for either exchange or full refund. In addition to the foregoing, the Vendor shall pass through any other warranties that are applicable to such Deliverables, and MPI shall have the right to rely on same, and on any other warranties offered by the Vendor that are applicable to such Deliverables.

4.07 MPI will provide Vendor, in a timely manner, with all documentation, information, access to MPI's personnel, access to MPI's premises (if applicable) and cooperation reasonably required to provide the Services. Any delay or failure to provide such documentation, information, access to MPI's personnel or cooperation may result in: (a) a revision to any agreed timetable; and (b) if Vendor is required to perform any additional work as a result, additional fees being charged. Vendor will rely on the documentation and information provided by MPI or it's representatives and Vendor does not take responsibility for verifying the accuracy or completeness of it. MPI may rely only upon Vendor's final Deliverables and not on any drafts or oral statements made by Vendor in the course of performing the Services. MPI represents that MPI is in compliance, and will continue to comply, with all laws, rules, regulations or government authority guidance applicable to MPI. If Vendor determines that the services Vendor performs for MPI relates to operations or activities prohibited by or inconsistent with any applicable law, rule, regulation or government authority guidance, it reserves the right to immediately terminate this Agreement in its entirety and/or decline to provide certain Services.

5.00 INTENTIONALLY OMITTED

6.00 INDEPENDENT CONTRACTOR

6.01 The Vendor is an independent contractor, and this Agreement does not create the relationship of employer and employee, of principal and agent, of joint venture, or of partnership between MPI and the Vendor or between MPI and any Representatives of the Vendor. The Representatives of one party shall not be deemed or construed to be the Representatives of the other party for any purpose whatsoever.

6.02 The Vendor is responsible for any deductions or remittances which may be required by law.

6.03 Except as authorized in this Agreement, the Vendor shall not incur any expenses or debts on behalf of, nor make any commitments for MPI without first obtaining written permission from MPI.

7.00 VENDOR'S COSTS

7.01 The Vendor will bill the Client quarterly, in four equal instalments, for the annual fixed fee Services at the beginning of each quarter (in January, April, July and October).

7.02 MPI shall pay the invoice within thirty (30) days after the receipt and approval of an invoice and any supporting materials requested under Section 7.01. In the event any invoice is not satisfactory, MPI shall notify the Vendor of the problem within seven (7) days of receipt of invoice.

7.03 If MPI in good faith (i) disputes any invoice on the grounds that there is an objectively verifiable error in any invoice; or (ii) disputes the adequacy or correctness of any supporting documentation provided in connection with any invoice, or (iii) the Vendor has materially breached this Agreement or any of the service levels in

Appendix B.4, then MPI may withhold, in the case of (i) and (ii), the disputed portion of the invoice until the dispute is resolved, and in the case of (iii), all outstanding balances of the invoice until the dispute is resolved. The parties shall work promptly to resolve any such disputes. MPI will advise the Vendor of the amount of the invoice MPI considers to be in dispute and the basis for such dispute, and will pay any undisputed portion in accordance with this Article 7.00. Payment by MPI shall not preclude MPI from questioning any fees or charges MPI believes to be improper or incorrect.

7.04 Those undisputed invoiced amounts not paid by MPI within thirty (30) days of receipt and approval, shall bear interest from the thirty-first (31st) day at the prime rate in effect on that day at the Winnipeg main branch of the Bank of Montreal.

7.05 Where not tax-exempt, MPI shall also pay all applicable sales and use taxes. Where tax-exempt, MPI shall provide the Vendor with the applicable exemption number and/or certificate as required.

7.06 The Vendor agrees that it understands the nature of the Services and any risks, contingencies, local or existing conditions, and other circumstances, and accepts all risk and associated costs which could have been inferred from reasonable investigation into the above prior to entering into this Agreement.

7.07 Unless explicitly stated otherwise in this Agreement, MPI shall reimburse the Vendor for reasonable out-of-pocket expenses relating to the provision of the Services if:

(a) such expenses were reasonably required for the performance of the Services;
(b) prior written permission to incur such expenses was first obtained from MPI;
(c) the Vendor uses the most economical rates possible for the expenses;
(d) the Vendor provides receipts and/or supporting documents, unless it is agreed that submission of receipts for certain categories of expenses is not required (e.g. a per diem approach); and,
(e) reimbursement to the Vendor for out-of-pocket expenses shall be in accordance with the amounts and guidelines set out in the MPI's Corporate Directives.

MPI shall not be responsible for payment of any other expenses incurred by the Vendor in the performance of this Agreement.

7.08 The Vendor shall advise MPI if any non-resident of Canada will be or has performed any of the Services in Canada.

8.00 CONFIDENTIALITY AND INFORMATION SECURITY

8.01 The Vendor acknowledges that FIPPA and PHIA each impose obligations on MPI to collect, use, or disclose Personal Information, in the strictest of confidence, and in accordance with those Acts. In performing the Services under this Agreement, the Vendor acknowledges that they may collect, use, or have access to Personal Information.

8.02 While this Agreement is in effect, and at all times thereafter, the receiving party agrees to treat as confidential all Confidential Information. For the purposes of this Agreement, Personal Information shall be considered to be Confidential Information.

8.03 Receiving party agrees that during the Term of this Agreement and at all times thereafter:

(a) the Personal Information disclosed to receiving party by disclosing party may only be used by receiving party in a manner expressly permitted by FIPPA or PHIA (as the case may be);
(b) it shall not disclose or permit the disclosure of Confidential Information, or any copies of it, in any format, to any third party without the express prior written consent of the disclosing party;
(c) it shall comply with all directives given to it by disclosing party with respect to safeguarding, or otherwise ensuring the confidentiality, of any Confidential Information disclosed to it by disclosing party;
(d) it shall ensure that access to the Confidential Information by the Representatives of the receiving party is restricted to a "need-to-know" basis, and that access, when given, shall be to the minimum amount of Confidential Information necessary to accomplish the task;
(e) it shall use the Confidential Information only for those purposes that have been expressly permitted by disclosing party;
(f) it shall not reproduce Confidential Information, in any format, without the express prior written consent (which consent shall not be unreasonably withheld or delayed) by the disclosing party provided that it shall be able to reasonably reproduce

the Confidential Information for internal use only in the normal performance of the Services;

(g) it shall ensure that it, or its Representatives, do not access, transport, or store any Confidential Information outside of the Data Residency Jurisdiction without the express prior written consent of disclosing party, which consent shall not be unreasonably withheld or delayed. Without limiting the generality of the foregoing, the receiving party may be permitted to remotely access Confidential Information if required to provide the Services;

(h) it will not access disclosing party's Confidential Information, its systems, or perform Services from any country Canada currently imposes applicable sanctions against. The current list is found at: https://www.international.gc.ca/; and

(i) after the Confidential Information has been used for its authorized purpose, or upon termination or expiration of this Agreement for any reason, or where destruction of the Confidential Information is requested by disclosing party or is required by this Agreement, the receiving party shall securely destroy the Confidential Information (and all copies of the Confidential Information in any form) in a manner which adequately protects the confidentiality of the Confidential Information. The receiving party shall ensure that the Confidential Information that is destroyed cannot be reconstructed (whether physical or electronic, or any other form). Notwithstanding the foregoing, the receiving party may retain copies of the Confidential Information it has received to comply with any applicable law or may retain archival copies in accordance with its record retention policies and procedures (a) with respect to backup media for which selective deletion of files or data is not feasible and (b) to enable receiving party to comply with its professional standards requirements and substantiate its work in the event of a dispute or otherwise, provided the receiving party protects such retained Confidential Information in accordance with this Agreement.

8.04 The Vendor represents that it has established an information security management practice that follows accepted industry information security standards and industry practices. During the Term of this Agreement and at all times thereafter, the Vendor shall take reasonable technical, administrative, and physical measures and precautions to prevent any unauthorized disclosure of the Confidential Information.

8.05 The Vendor shall promptly notify MPI in writing upon becoming aware of any Confidentiality Breach. The written notification must include full details of the Confidentiality Breach. The Vendor shall promptly take all reasonable technical, physical, and administrative measures and precautions to prevent the recurrence of any such Confidentiality Breach and shall notify MPI in writing of the steps taken. In the event of a Confidentiality Breach, MPI may do any combination of the following: (i) impose increased standards on the Vendor related to its treatment of the Confidential Information and the Vendor shall comply with such increased standards, and/or (ii) if applicable, limit the Vendor's access to MPI's systems, and/or (iii) enforce or use any other applicable section of this Agreement.

8.06 The receiving party shall inform its applicable Representatives of the obligations imposed upon it in this Agreement with respect to Confidential Information, and shall take whatever steps are necessary to ensure that all its applicable Representatives comply with those obligations.

8.07 The receiving party acknowledges that monetary damages may not be a sufficient remedy for a Confidentiality Breach, and that disclosing party may, without waiving any other rights or remedies, seek appropriate injunctive or equitable relief from a court of competent jurisdiction.

8.08 If the receiving party receives a subpoena or other validly issued administrative or judicial order seeking Confidential Information, the receiving party shall, to the extent legally permissible, provide prompt notice to MPI and deliver to disclosing party a copy of its proposed response to the demand. Unless the demand has been time-limited, quashed, or extended, the receiving party shall thereafter be entitled to comply with the demand to the extent permitted or required by law. If requested by disclosing party, the receiving party shall reasonably cooperate with disclosing party in the defence of the demand, at disclosing party's expense.

8.09 The Vendor acknowledges and accepts that MPI may be required to provide Deliverables to the PUB, provided that MPI agrees to only provide Deliverables to the PUB through a confidential submission process, unless otherwise approved in writing by the Vendor. Through such confidential process, the PUB and all parties to a general rate application proceeding in receipt of

the Deliverables (e.g. the PUB panel, intervenors, and consultants) will be required to keep the Deliverables confidential, sign the PUB's approved form of non-disclosure agreement, and undertake to destroy all Confidential Information at the end of such proceeding.

8.10 The Vendor undertakes not to publish any public statement or advertisement with respect to this Agreement, and further undertakes not to seek publicity of this Agreement without the express prior written consent (which consent shall not be unreasonably withheld or delayed) of MPI, except as otherwise required by law or by this Agreement.

8.11 In the event that the Vendor or its Representatives use any of MPI's premises, the Vendor and such Representatives shall comply with all such premises' security requirements as may be in effect from time to time.

8.12 In the event no such Protocols apply, Vendor will process all such Personal Information in accordance with all applicable data protection laws. In the event of any conflict between the terms and conditions set out in this Agreement or applicable SOW and the Protocols, the parties agree that the terms and conditions set out in this Agreement shall prevail unless specifically modified by the applicable SOW .

8.13 MPI represents and warrants that it shall provide to Vendor only Personal Information, which is adequate, relevant and limited to the minimum what is necessary for the purposes of this Agreement and the provision of Services hereunder.

8.14 MPI agrees that Vendor may maintain, process and transfer MPI's Confidential Information in order to perform the Services, and for other reasonable ancillary purposes, unless MPI instructs otherwise, as well as for any additional purposes agreed in a SOW.

8.15 MPI hereby grants Vendor permission to use data Vendor receives from the MPI or MPI's Representatives in the course of the Services in industry benchmarking studies, trend analyses and research unless otherwise specified under the applicable SOW. Vendor may use the results of these studies, analyses and research for various purposes, including articles and studies for distribution to Vendor's other clients and prospects. Any such articles or studies will not disclose MPI's participation or mention the inclusion of the MPI's information to any other party. Any findings from these studies that may show individual participant results will be on an anonymized and aggregated basis, and will not attribute any finding to a specific participant.

8.16 The Vendor shall reasonably cooperate with MPI so that MPI can verify that the Vendor has complied, and is complying, with the provisions of this Article 8.00.

9.00 ACCESSIBILITY

9.01 The Vendor acknowledges that the AMA and the regulations made under the AMA impose obligations on MPI to prevent and remove barriers in its business and administrative practices in accordance with the following principles:

(a) Access: Persons should have barrier-free access to places, events and other functions that are generally available in the community;
(b) Equality: Persons should have barrier-free access to those things that will give them equality of opportunity and outcome;
(c) Universal design: access should be provided in a manner that does not establish or perpetuate differences based on a person's disability; and
(d) Systemic responsibility: the responsibility to prevent and remove barriers rests with the person or organization that is responsible for establishing or perpetuating the barrier.

9.02 Throughout the Term of this Agreement, the Vendor agrees to comply with the accessibility obligations under the AMA and regulations, and further agrees that when providing the Services or otherwise acting on MPI's behalf, the Vendor shall comply with all obligations under the AMA and regulations applicable to public sector bodies.

10.00 OWNERSHIP OF INFORMATION

10.01 MPI shall retain ownership of all original data and materials provided to Vendor by MPI or its representatives, and the intellectual property rights in that data and materials. The Vendor shall retain the intellectual property rights in the Work Product, and the skills, know-how, and methodologies used or acquired by the Vendor during the course of providing any of the Services. Unless otherwise explicitly stated in this Agreement, upon payment of all amounts due, MPI shall have a non-exclusive perpetual (unless otherwise set forth in the applicable SOW), non-cancelable (other than where the

Client has breached its obligations under the MSA or any SOW), non-transferrable, non-sublicensable and royalty-free license to use the Work Product, solely for MPI's internal purposes within MPI's organisation in accordance with the terms of this Agreement and at no further cost to MPI.

10.02 The Services, including the Work Product, are provided solely for the intended purpose, and may not be referenced or distributed to any other party without Vendor's prior written consent. MPI may distribute final Work Product to its Representatives, provided that MPI ensures that each such affiliate complies with the terms and conditions of this Agreement and any applicable SOW, as if it were a party to them, and MPI remains responsible for such compliance. Notwithstanding the foregoing, Vendor agrees that, where reasonably necessary, MPI may disclose final Work Product to the Government of Manitoba and PUB, which will post such Work Product to their website, unless such Work Product is subject to the Confidential Process described in 8.09 above.

10.03 MPI shall not refer to Vendor or include any of the Work Product in any shareholder communication or in any offering materials (or fairness opinion provided by MPI's professional advisers) prepared in connection with the public offering or private placement of any security, unless otherwise agreed in writing.

11.00 RECORD KEEPING, INSPECTION OF RECORDS, AND AUDITS

11.01 At all reasonable times throughout the Term, and as per Vendor's record retention policies for two (2) years thereafter, the Vendor shall maintain and make available for inspection and audit by MPI and its Representatives all information, relating to the Services or the Agreement, excluding accounts and records, including payroll records and shall produce said documents upon thirty (30) business day's written request. The Vendor agrees to co-operate reasonably in any such inspection or audit, and to promptly provide copies of, and extracts from the accounts and records requested by MPI and its Representatives, and any such other information as may be reasonably requested by MPI and its Representatives.

11.02 MPI agrees to compensate Vendor for time expended by Vendor's staff to facilitate the review and to reimburse Vendor for any expenses incurred in connection with the review. MPI shall compensate the Vendor at rates agreed upon in advance and detailed in an addendum to this Agreement; if no such rates are specified, compensation shall be made at the Vendor's standard hourly rates. than once per calendar year and shall be scheduled upon prior written request of MPI on a date and time to be mutually agreed upon by the parties and in a manner that does not disrupt Vendor's business operations. MPI agrees to treat any findings or other information disclosed as a result of the review as Vendor's Confidential Information.

11.03 Notwithstanding anything to the contrary in this Section, MPI acknowledges that the reviewer will not be given access to any logs, records and other materials that contain information related to other clients of Vendor. MPI also acknowledges that Vendor may require that certain of the logs, policies, records, or other materials be reviewed on-site due to their confidential nature and that the reviewer will not be permitted to copy them.

12.00 LIMITATION OF LIABILITY

12.01 If the Services do not conform to the requirements agreed between the parties, MPI shall notify Vendor promptly and to the extent possible, Vendor shall re-perform any non-conforming Services at no additional charge or, at its option, refund the portion of the fees paid with respect to such non-conforming Services.

(a) The re-performance of the Services or refund of the applicable fees is intended to provide an adequate remedy for any failure on Vendor's part to adhere to the requirements agreed between the parties for the performance of Services.

(b) Whether or not such re-performance or refund would provide an adequate remedy for any loss or damage suffered by MPI or any third party, the aggregate liability taken together of the Vendor, arising from or in any way connected with the Services under this Agreement an applicable SOW, whether in contract, tort (including, without limitation, negligence), or for breach of statutory duty or otherwise, shall not exceed in aggregate the greater of: (i) $250,000 or (ii) the total amount of fees Services payable during any 12-month period or (iii) with respect to a Confidentiality Breach by Vendor, $750,000

(c) Notwithstanding the above, the foregoing shall not limit the liability of Vendor in the case of: (i) death or personal injury resulting from Vendor negligence; (ii) willful misconduct; (iii) fraud; or (iv) other liability to the extent that the same may not be

excluded or limited as a matter of law.

12.02 In no event shall Vendor or any of its Representatives or affiliates be liable for any incidental, special, punitive, or consequential damages of any kind (including, without limitation, loss of income, loss of profits, or other pecuniary loss), except to the extent such liability may not be excluded as a matter of law.

12.03 Where Vendor or any of its Representatives are jointly liable to MPI with another party, Vendor shall to the extent permitted by law only be liable for those losses that correspond directly with Vendor's or its Representatives proportionate share of responsibility for the losses in question.

12.04 For the avoidance of doubt, paragraph 12 confers rights on Representatives which may be enforced by any of them. Otherwise, persons who are not a party to this Agreement shall have no rights to enforce any of these terms.

12.05 Vendor accepts no responsibility for any consequences arising from any third party relying on the Deliverables. MPI acknowledges that the Vendor is acting on MPI's behalf when presenting materials and sharing Work Product with the PUB.

12.06 MPI acknowledges and agrees that Vendor's role in any public rate-setting hearing or related proceedings are subject to Vendor's internal policy and procedures and is limited to communicating information provided by MPI, including its investment strategy and decisions, and Vendor does not assume responsibility for the substance or outcome of those decisions. MPI agrees to reimburse Vendor for all costs (including reasonable legal fees) that Vendor incurs in responding to any requests or demands from third parties in connection with a matter to which Vendor is not a party, pursuant to legal process or otherwise, for data or information related to the Services as well as any request by MPI that Vendor provides such information, including any request by MPI to provide such information.

13.00 SUSPENSION

13.01 MPI may, at its sole option, delay or suspend the Services being provided under this Agreement, in whole or in part, for such period of time as may, in the opinion of MPI, be necessary. Unless another notice period has been provided elsewhere in this Agreement, MPI shall provide thirty (30) days prior written notice to the Vendor of its intention to delay or suspend the Services. MPI shall not be obliged to make payments to the Vendor except with respect to those Services already performed prior to such delay or suspension.

13.02 Where there is a delay or suspension under Section 13.01, all terms and conditions of this Agreement shall continue in full force and effect against the Vendor.

14.00 TERMINATION

14.01 Except as may otherwise be agreed in an applicable SOW or other written agreement, and subject to the Transition Services, either party may terminate this Agreement or any SOW on 30 days' written notice to the other Party.

14.02 Neither party shall be responsible for any failure to comply with, or for any delay in performance of the terms of this Agreement where such failure or delay is directly or indirectly caused by, or results from events of force majeure beyond the control of either party. The time in which the Services are to be provided shall be extended by a period of time at least equal to the length of the force majeure event, provided that in the event the extended period of time exceeds, or is reasonably anticipated to exceed a period of fourteen (14) days, then either party may terminate this Agreement and MPI shall pay the Vendor for all Services performed to the date of the force majeure event.

14.03 In addition to its rights under Sections 13.01, 14.01, and 14.02 above, and without restricting any other remedies available, MPI may immediately terminate, or immediately suspend this Agreement in writing if:

(a) the Vendor makes an assignment for the benefit of creditors, takes any other action for the benefit of creditors, becomes bankrupt or insolvent, or takes the benefit of or becomes subject to any legislation in force relating to bankruptcy and insolvency;
(b) in the opinion of MPI, the Services provided by the Vendor or its Representatives are unsatisfactory, inadequate, or otherwise improperly performed;
(c) in the opinion of MPI, the Vendor or its Representatives have failed to comply with, or breached any term or condition of this Agreement; or
(d) in the opinion of MPI, continuing to engage the Vendor under this Agreement may adversely affect its Reputation.

14.04 Upon termination of this Agreement, the Vendor

shall cease to perform any further Services. MPI shall be under no obligation to the Vendor other than to pay, upon receipt of an invoice or statement and supporting documentation satisfactory to MPI acting reasonably, such compensation as the Vendor may be entitled to receive under this Agreement for Services satisfactorily completed up to the date of termination. Upon MPI's written request, the Vendor will work in good faith to facilitate the orderly transition of the Services, in whole or in part, to MPI or to a successor service provider.

14.05 If the Agreement is terminated by MPI pursuant to Sections 14.02 or 14.03, and MPI has prepaid for any of the Services, then MPI shall be entitled to a Refund. The Vendor shall, at MPI's sole discretion, either (i) credit such Refund against any fees MPI is obligated to pay the Vendor, or (ii) promptly return the Refund to MPI, or (iii) a combination of (i) and (ii).

15.00 GENERAL TERMS

15.01 The terms and conditions contained in sections 8, 10, 12 and 15 of this Agreement shall survive the completion and performance, suspension, or termination of this Agreement.

15.02 Each party shall not assign or transfer this Agreement or any of its rights or obligations under this Agreement without first obtaining written permission from other party. Notwithstanding the foregoing, either party may assign or delegate any of its rights and obligations to an affiliate. Vendor reserves the right to employ subcontractors to assist in providing Services and to pass to them any information and materials they need to perform their work. Where Vendor uses affiliates or subcontractors to provide the Services, Vendor will remain ultimately responsible for the provision of the Services. This Agreement shall be binding upon the executors, administrators, heirs, successors, and any permitted assigns of the parties.

15.03 No amendment or change to, or modification of, this Agreement shall be valid unless it is in writing and signed by both parties.

15.04 The parties hereby irrevocably and unconditionally submit to the exclusive jurisdiction of the courts of the Province of Manitoba and all courts competent to hear appeals therefrom.

15.05 Any failure or delay by either party to exercise or partially exercise any right hereunder shall not be deemed a waiver of any of the rights under this Agreement. The waiver by either party of a breach of any provision of this Agreement shall not operate as, or be construed as, a waiver of any subsequent breach thereof. The election of any one or more remedies by either party shall not constitute a waiver of that party's right to pursue other available remedies.

15.06 The Vendor agrees to perform any further acts and execute and deliver any documents that may be reasonably necessary to carry out the provisions of this Agreement.

15.07 Any notice or communication:

(a) sent by registered mail shall be deemed to have been received on the third Business Day following the date of mailing;
(b) sent by facsimile or other electronic transmission (including email) shall be deemed to have been received on the day of transmission; and,
(c) sent by courier or personal delivery shall be deemed to have been received on the day that it was delivered.

15.08 Sanctions and export control laws from Canada, the EU, United States, United Kingdom, and other government authorities prohibit companies, including Vendor, from conducting business in certain jurisdictions or with certain individuals. The restrictions may differ based on the MPI's business activity, ownership structure, and the location or nationality of the MPI's employees. MPI shall inform Vendor of any insurance or service requirements MPI has which touch upon goods, countries, entities or individuals subject to any sanctions or export controls. Vendor will comply with all applicable sanctions and export control laws, and Vendor is not responsible for actions taken by third parties based on their own sanctions or export control constraints.

15.09 Neither party shall have any liability in respect of any statement (except in the case of fraud where the liability of each party to the other shall be unlimited) made by such party or on its behalf to the other party which is not contained in this Agreement and each party acknowledges that it has not entered into this Agreement, and/or will not enter into a statement of work, in reliance on any representation by the other party which is not contained in this Agreement.

15.10 The parties do not tolerate unethical behavior either in its own activities or in those with whom

the parties seeks to do business. Vendor will comply with the laws, regulations, and rules that are applicable to the provision of Vendor's Services under this Agreement.

15.11 It is the express wish of the parties that this Agreement and any related documents be drawn up and executed in English. Les parties souhaitent expressément que cette entente et tous les documents s'y rapportant soient rédigés et signés en anglais.

SCHEDULE B

SERVICES TO BE PROVIDED BY THE VENDOR

SCHEDULE B
GOODS AND SERVICES

Schedule B consists of the following appendices:

B.1 Investment Policy Manual

The Investment Policy Manual has been provided to the Vendor and is incorporated into this Agreement by reference. The Investment Policy Manual is updated and approved annually by MPI's Board of Directors based on recommendations made by its Investment Committee of the Board of Directors. The Investment Policy Manual is divided into 5 main parts which include:

- Investment Policy Statement
- Operational Asset Liability Management Policy
- Rebalancing Policy
- Active Manager Monitoring Policy
- Trading Approval Policy

B.2 Material Disclosures

The material disclosures form the background and context of the Services and represent its basic assumptions.

B.3 Scope of Work

This describes a high-level overview of the Services and Deliverables the Vendor is required to provide to MPI.

B.4 Service Level Standards

Service level standards are expectations agreed to by the parties, are outlined in this appendix.

B.5 Remote Work Security Standard

If the Vendor or any of its Representatives are delivering all or a portion of the Services from a remote location (e.g. working form home), the Vendor shall have and follow remote work security standards that align with MPI's Remote Work Security Standard.

Schedule B

APPENDIX B.1
INVESTMENT POLICY MANUAL

The MPI investment policy manual is incorporated into this Agreement by reference and subject to change on an annual basis.

Schedule B

APPENDIX B.2
MATERIAL DISCLOSURES

1.01 Background Information

MPI maintains investments of approximately $3.8 Billion dollars and has significant regulatory and reporting responsibilities related to the management of these investments. The investment portfolio is divided into 5 different portfolios. Each portfolio has different objectives.

MPI has an established framework of policy documentation where the MPI Board of Directors and the Investment Committee of the Board of Directors set the direction and related risk tolerances for investments based on recommendations from the Investment Committee Working Group. Investment management must be carried out in accordance with these policies and reported on to the Public Utility Board (PUB) of Manitoba. The Investment Policy Manual is incorporated into this Agreement by reference as Appendix B.1).

MPI has five separate portfolios, including:

1. Basic Claims ("**Basic**");
2. Rate Stabilization Reserve ("**RSR**");
3. Extension ("**EXT**");
4. Special Risk Extension ("**SRE**"); and
5. Employee Future Benefits ("**EFB**").

The Basic line of business has $2.63 billion in investment assets managed by 11 investment managers under a multi-manager and multi-asset class structure. The portfolio is split into two components: a liability driven matching strategy containing short-term investments, non-marketable bonds, government & corporate bonds, commercial mortgages; and Canadian real estate. The RSR portfolio contains government bonds, Canadian equities, global equities, global low volatility equities, private debt, real estate, and infrastructure. On March 31, 2025, the Basic portfolio breakdown includes matching assets of $2.2 billion (84%) and RSR assets of $427 million (16%).

The remaining three portfolios backing the corporate insurance operations have over $1.1 billion in investment assets managed by the same 11 investment managers under a multi-manager and multi-asset class structure. The EXT line of business provides optional coverages and has a portfolio of $188 million. The SRE line of business has a portfolio of $288 million.

MPI also holds $640 million of assets backing a defined benefit pension plan and other post retirement benefits (collectively "**employee future benefits**") that are included under this Agreement. The pension plan has an external actuary in place and actuarial services are not part of this Agreement.

Schedule B

The asset allocation and structure of each portfolio is as follows:

Asset Class - Basic Claims Portfolio	Market Value	# of Managers	Active/ Passive	Type
Corporate Bond	627,182,966	1	active	Segregated
Nominal Government Bonds	745,374,889	2	active	Segregated

Total	188,083,761	287,149,621	427,310,045	639,185,130			

The Investment Committee meets in Winnipeg four times annually in February, June, August, and November with representatives of the Vendor expected to attend each meeting in person. These are joint meetings for all portfolios and investment managers are only invited to attend on an as needed basis. The Vendor is expected to regularly report and consult with the Manager, Investments and VP & Chief Actuary, who attend committee meetings and regularly interact with the Investment Committee. The Investment Committee is composed of independent directors who also form part of the MPI Board of Directors. Besides interaction with the Investment Committee at quarterly meetings, the Vendor will interact solely with the MPI Management positions listed above.

The following should also be considered in performing the Services:

- MPI currently retains the services of a leading, reputable Canadian-based custodian (RBC Investor Services);
- The first initial quarterly performance report should be prepared following the fourth quarter of calendar 2025 using information as at, and for the periods ending, December 31, 2025; and,
- Services will be performed according to MPI's standards, procedures, policies, and practices.

Website Link: https://www.mpi.mb.ca/

Schedule B

Annual Reports can be found at: https://www.mpi.mb.ca/financial-reports/

The investment management work is divided into five (5) main functions which at a high level are as follows:

Financial Forecasting:
- Annually provide the finance team with capital market assumptions for input into the financial forecasting model which is used to develop a multi-year forecast of MPI's investment income;

Governance:
- Prepare and present material for quarterly Investment Committee Working Group (ICWG) meetings to gather feedback from government and internal stakeholders;
- Prepare and present material for quarterly Investment Committee meetings; and
- Provide continuing education for the Investment Committee if requested;

Regulatory Work:
- Prepare investment material for General Rate Application (GRA) which is filed with the PUB annually in June including historical returns, capital market assumptions, and projected investment income;
- Respond to information requests from the PUB and intervenors in July & August;
- Testify at the annual PUB hearing in October. If the Vendor performs regulatory work the Vendor will need to attend the PUB and understand the procedures and confidentiality requirements related to this work;

Investment Management
- Quarterly monitoring of investments (performance, risk, attribution analysis, factor analysis) vs. benchmarks and peers;
- Monitoring interest rate risk and credit hedge ratios;
- Annual review of asset classes;
- Review of benchmarks when needed; and
- Monitoring investment managers (performance vs. benchmark & peer groups); and

Strategic Investment Work:
- Work with the Investment Committee to review and update the Committee's investment risk appetite every 3-4 years, working with MPI's actuarial team to understand impacts to liabilities, interest rate risk, and MPI's minimum capital test.
- Review of investment mix through efficient frontier/ALM studies on an annual basis, working with MPI's actuarial team to understand impacts to liabilities, interest rate risk, and MPI's minimum capital test;
- Annual review of investment policy statement including investment objectives;

- Conduct manager searches as needed including the recommendation of preferred managers;
- Advise on the implementation of the investment policy statement (ie: active vs. passive decisions, optimal geographic, sector, factor & style exposures, etc.);
- Based upon a review of investment manager performance in accordance with the manager monitoring policy propose terminations of managers as necessary; and
- Work with internal (ALM Lead) and external resources (fixed income manager) to monitor and report on the effectiveness of MPI's ALM strategy.

Schedule B

APPENDIX B.3
SCOPE OF WORK

Summary

The Services to be provided include supporting MPI's Management and the Investment Committee by providing advice and recommendations on investment policy, strategic matters, and manager research and selection. The Vendor will provide quarterly and annual monitoring and reporting on investment performance and conduct annual asset mix modeling and optimization exercises along with other ad hoc studies periodically.

The Services are required for the five portfolios mentioned in Appendix B.2 – Material Disclosures.

Much of the Services related to the five (5) investment portfolios overlaps based on the main functions set out below.

FIVE MAIN FUNCTIONS

The investment management work is divided into the main functions of:

1. Financial forecasting;
2. Governance;
3. Regulatory work;
4. Investment management and
5. Strategic investment management.

The following Functions have no expected change in roles:

		Advisory or OCIO Governance Structure		
	FUNCTION	MPI Board of Directors	Investment Committee	MPI Management
Financial Forecasting	Annual review of MUSH funding	Approves	Reviews	Drafts
	ERM Risk assessment updates	Approves	Reviews	Drafts
Governance	Annual Review of IC Terms Of Reference	Approves	Recommends	Drafts
	Annual Review of ALM Policy	Approves	Recommends	Drafts
Support of Investment Accounting & Financial Reporting Team	Annual Review of Investment section of MD&A for Annual Report	Approves	Recommends	Drafts
	Provide Corporate Performance Measures & Targets Quarterly			Drafts
	Provide IFRS security levels at each quarter end and update rational for classifications document			Drafts
	Provided monthly duration by line of business at each month end			Drafts
	Provide cash flow stream clarification and confirmation for newly purchased corporate bonds			Drafts
	Estimates Reporting			Drafts
Regulatory Work	Misc (NMY, pricing OFSI check, model validation, benchmarking, shadow portfolios)			Drafts
	Monthly Economic Report & mid month update		Reviews	Drafts
	Monthly MUSH Bond Analysis		Reviews	Drafts

The following scope of work lists many of the tasks that the Vendor would be required to perform all of the work in the five main functions.

Schedule B

FINANCIAL FORECASTING

The following capital market assumptions are provided to the MPI finance team for use in the financial forecasting model in order to develop a forecast of investment income for the next five fiscal years:

(a) Equity returns (dividend yield & capital gains for Canadian & global equities);
(b) Bond yields & spreads (Federal, Provincial & corporate);
(c) Turnover for equities & bonds;
(d) Inflation (Manitoba consumer price index ("**CPI**"));
(e) Non-marketable (Municipal, school and hospital) bond purchases;
(f) Real estate return;
(g) Infrastructure return;
(h) Commercial mortgage yield; and
(i) Private debt yield.

The forecast produced by the model is reviewed for reasonableness and accuracy.

The parties have agreed to the following allocation of work for the Financial Forecasting function:

Financial forecasting Function	**Frequency**	**MPI Board of Directors**	**Investment Committee**	**MPI Management**	**Towers Watson**
Financial forecasting for MPI's investment income.	Annually	Approves	Recommends	Drafts	Supports

Schedule B

GOVERNANCE

The Investment Committee Working Group ("**ICWG**") meets quarterly and is a joint committee of the Manitoba Treasury Department and MPI. The role of the ICWG is to function as a liaison between the Treasury Department and MPI. The ICWG reviews strategies and makes recommendations to the Investment Committee of MPI's Board of Directors.

The Investment Committee of MPI's Board of Directors meets quarterly and assists the Board of Directors by making recommendations regarding investment policies, oversight and monitoring of performance, and implementation of investment decisions. The Investment Committee considers recommendations from the ICWG.

The Services include preparing and presenting materials at both the ICWG and Investment Committee meetings.

Assist MPI in the development, creation and launching of an Environmental Social and Governance (ESG) policy or the insertion of ESG Guidelines into the Investment Policy Manual.

Quarterly presentations to the Investment Committee are to include but are not limited to:

- interpret and discuss the performance highlights of the period under review;
- comment on industry and investment manager developments pertinent to the performance monitoring function; and provide commentary on investment market outlook.

The parties have agreed to the following allocation of work for the Governance function:

Governance Function	Frequency	MPI Board of Directors	Investment Committee	ICWG	MPI Management	Towers Watson
Review of Trading Policy	Annual	Approves	Recommends	Reviews	Drafts	Supports
Review of Manager Monitoring Policy	Annual	Approves	Recommends	Reviews	Drafts	Supports
Prepare/present material for Investment Committee Working Group	Quarterly	N/A	N/A	Reviews	Supports	Drafts
Prepare/present material for Investment Committee meetings	Quarterly	N/A	Reviews	Reviews	Supports	Drafts
Provide continuing education for	As required	Receives	Receives	Receives	Supports	Drafts

Schedule B

Investment Committee						

Schedule B

REGULATORY WORK

MPI files an annual General Rate Application ("**GRA**") for the mandatory line of business (Basic Claims) in June, seeking approval for rates for the upcoming fiscal year (ended at March 31). The GRA includes an investment chapter (attached separately) which provides an overview of the investment income forecast for the rating year and the following four fiscal years and a discussion of the investment performance over the previous fiscal year. The Vendor will take on the role of preparing the investment chapter of the GRA, preparing responses to information requests, and testifying at the annual hearing at the PUB.

Assisting with the annual GRA process, includes the following major categories of work:

- preparation of the Investment section of the written application;
- responding to information requests and "pre-ask" questions; and
- acting as a witness at the annual in-person hearing and responding to all investment related questions;

The following items are included in the investment chapter of the GRA, current year themes include:

PUB directives	Surplus volatility of basic claims portfolio
Key details for each asset class	Rebalancing
Investment management fees	Comparison of forecast versus prior years' forecast
Pension expense	Changes to the financial forecast model
Amortization of bond premium/discount	Interest rate and CPI forecasts
Investment portfolio performance	Asset-liability management program
Performance versus other institutional investors	Changes to the investment policy statement
Performance versus shadow portfolios	Investment income summary by portfolio

The regulatory work includes two rounds of information requests (completed in July & August) and "pre-asks" (completed in September) related to the application, and mandatory attendance at the annual in-person hearing held in October (including responding in writing to questions raised at the hearing, referred to as "undertakings").

The Vendor will take on the role of coordinating the investment response to the PUB and testifying at their annual hearing.

The parties have agreed to the following allocation of work for the Regulatory function:

Regulatory Work Function	Frequency	MPI Board of Directors	Investment Committee	MPI Management	Towers Watson
Prepare investment material for PUB	Annually	N/A	N/A	Supports	Drafts
Respond to Information Requests from PUB/intervenors	Annually	N/A	N/A	Supports	Drafts
Testify at annual PUB hearing	Annually	N/A	N/A	Supports	Implements

Schedule B

Update Capital Market Assumptions	Seim-Annually	N/A	Reviews	Implements	Drafts

Schedule B

INVESTMENT MANAGEMENT

The following Services are to be performed within the scope of quarterly monitoring of investment performance:

1. **Core Performance and Attribution**
   - Calculation of the total fund return, return for each portfolio, as well as individual asset classes and asset managers, with comparisons to benchmarks;
   - Performance attribution analysis including key elements of sector returns, asset allocation and security selection;
   - Review of performance of individual investment managers against pre-established performance objectives and relevant peers, including percentile ranking of manager against peers; and
   - Provide other relevant statistics, including portfolio characteristics, top ten holdings, ranking by quartile, tracking error, information ratio, Sharpe ratio, up/down market capture, batting average and other mutually agreed measures relevant to effective monitoring;

2. **Review of Total Fund Structure**
   - Review actual asset allocation relative to policy target weights set out in the Investment Policy Statement section of the Investment Policy Manual. Vendor will show the actual asset allocation mix versus policy weighting in its reporting. In a non-OCIO relationship, Vendor will only show these deviations, but will not recommend rebalancing the portfolio under an advisory arrangement.
   - Provide the market value of each asset class and investment manager; and
   - Summarize the sources of change in the market value of the fund during the period (ie: capital gains, interest income, dividends, contributions, withdrawals, etc.);

3. **Portfolio Profile and Style Analysis**
   - Commentary on factors impacting market and manager performance, including key portfolio characteristics such as summary statistics at the product level on sector and company exposure, geographical exposure and interest rate risk;
   - Reporting on the impact of style on performance using returns-based style analysis, on an annual basis, or as mutually agreed;
   - Ongoing qualitative monitoring and evaluation of current investment managers to assess impact on the fund; and
   - Monitor compliance by the investment managers to the investment policies of their pooled funds as well as MPI's Investment Policy Statement. The

focus will be at the strategic asset mix level, assessing the portfolio relative to policy guidelines and constraints

The parties have agreed to the following allocation of work for the Investment Management function:

Investment Management Function	Frequency	MPI Board of Directors	Investment Committee	MPI Management	Towers Watson
Calculate returns of MPI's investments and benchmarks	Monthly	N/A	Reviews	Supports	Implements
Monitoring of investments	Quarterly	N/A	Reviews	Supports	Drafts
Monitor compliance with IPS targets	Quarterly	N/A	Approves	Implements	Drafts
Perform equity portfolio factor, style & Attribution analysis	Quarterly	N/A	Reviews	Supports	Drafts
Interest rate risk and credit hedge ratio monitoring	Quarterly	N/A	Reviews	Drafts	Supports
Review of Asset Classes	Annual	N/A	Reviews	Supports	Drafts
Review of Benchmarks	Annual	N/A	Reviews	Supports	Drafts
Monitoring Investment Managers	Monthly	N/A	Reviews	Supports	Monitors
Investment Manager Watchlist Dashboard	Quarterly	N/A	Reviews	Supports	Drafts
Conduct manager searches (terminations and appointments)	As required	Approves	Recommends	Supports	Drafts

Schedule B

STRATEGIC INVESTMENT MANAGEMENT

General Investment Consulting Services and Enhancing Committee Knowledge

The Vendor will support the Investment Committee in enhancing knowledge in investment management which may include ad hoc written reports, presentations or correspondence. Services in this area may include, but are not limited to:

- conduct ongoing research and advice on potential sources of additional return, or risk and volatility mitigation and new investment products;
- analyze and advise on new investment product opportunities;
- provide advice on other investment issues as they may emerge;
- provide the Investment Committee with plain-language, introductory-level, and/or refresher educational sessions on various investment concepts, as required;
- be readily accessible to management to respond to questions on various investment concepts and to discuss emerging investment issues; and

Review of Investment Policy Manual

The Vendor will support the Investment Committee & ICWG in conducting reviews, updates, and recommendations of the Investment Policy Manual annually or more frequently as determined by the Investment Committee and MPI management. The review will include:

- Long-term strategic direction including fund objectives, benchmarks, asset allocation targets, investment beliefs, risk management, investment constraints, fund governance and investment strategy

Manager Research and Selection

The Vendor will provide ongoing investment manager research, monitoring and evaluation of existing managers, provide recommendations on termination or retention of investment managers and conduct searches for investment managers as necessary. Manager research will include a comprehensive qualitative and quantitative evaluation. Manager searches will include defining specific investment mandate and search criteria, recommending and presenting a short list of managers who fit the mandate, and assisting with development of appropriate investment guidelines.

The Vendor will work with internal (ALM Lead) and external resources (fixed income manager) to monitor and report on the effectiveness of MPI's asset-liability management strategy.

If a transition manager is required to transition Assets from one Asset Manager to another the Vendor will provide advice and recommendations and MPI in their sole discretion will retain the transition manager.

Schedule B

The parties have agreed to the following allocation of work for the Strategic Investment Management function:

	Function	Frequency	MPI Board of Directors	Investment Committee	MPI Management	Towers Watson
Strategic Investment Management	Review/update Investment risk appetite and objectives	Annually	Approves	Recommends	Implements	Drafts
	Review investment mix via efficient frontier/ALM studies	Annually	Approves	Reviews	Supports	Drafts
	Capital Impacts of proposed changes to understand risk appetite	As required	Approves	Reviews	Drafts	Supports
	Review of investment policy statement	Annual	Approves	Recommends	Drafts	Supports
	ALM reporting and dashboards	Quarterly		Reviews	Drafts	Supports
Investment Operations	Payment of Invoices	Monthly			Implements	
	Onboarding, contracting and transition of investment managers	As required			Implements	Supports
	Developing implementation plans for new asset mixes	As required		Approves	Implements	Supports
	Developing & implementing funding plans for new investments	As required		Approves	Implements	Supports
	Cash management and transaction processing	As required			Implements	
	Audit support, compliance coordination, and fee reconciliation	As required			Implements	
Strategic Investment Management	Update interest rate sensitivity, assets and liabilities footnote in Annual Report	Annually			Drafts	Supports
	Provide credit ratings of fixed income investment at each quarter end	Quarterly			Drafts	Supports

	MCT inputs (assets, liabilities and durations)	Monthly			Drafts	Supports

Transition Services

The Vendor's first Deliverable will be meeting with MPI's current ALM and Investment team and developing an understanding of all existing functions and developing a transition plan in accordance with this Scope of Work and the allocation agreed to by the parties for each of the 5 functions.

1. Provision of Transition Services

The Vendor agrees to provide transition services ("Transition Services") to MPI in the event of termination, expiration, or assignment of Agreement. Transition Services are intended to facilitate a smooth and orderly transfer of related records, information, and functions to the Client.

2. Scope of Transition Services

The scope of Transition Services shall include, but is not limited to:

- Cooperation with MPI and Successor Vendor regarding the transfer of necessary information, data, files, reports, and documentation relevant to the activities performed under the Agreement.
- Support in the migration of electronic records and historical performance data.

All data regarding MPI's investments and any related calculations of performance or risk is the sole property of MPI. At the end of this agreement, or at any other time requested by MPI, the Vendor shall be expected to transfer all data in the possession of the Vendor regarding MPI's investments to MPI, including:

1. Relevant details of all securities, pooled funds, limited partnerships and any other investments held in each of MPI's investment portfolios at each month end for the duration of the engagement with MPI, including but not limited to: market value, number of units held, purchases, sales, contributions & withdrawals in a Microsoft Excel file or any other format as determined by MPI.
2. All relevant metrics calculated by the Vendor, including but not limited to: monthly and annual returns of MPI's investments and relevant benchmarks, tracking error, standard deviation, Sharpe ratio, information ratio, percentile rankings vs. relevant peer groups in a Microsoft Excel file or any other format as determined by MPI.
3. All relevant information regarding the construction (ie: selection criteria used) and composition of the peer groups used for percentile rankings for each asset class and investment manager.
4. Any other information related to MPI's investments that is in the possession of the Vendor that MPI determines is necessary.

3. Timeframe for Transition Services

The Vendor shall commence Transition Services promptly upon notice of termination, expiration, or assignment of the Agreement and shall use commercially reasonable efforts to complete all Transition Services within a mutually agreed timeframe, not to exceed one hundred eighty (180) days from the effective date of such notice, unless otherwise agreed in writing by both parties.

4. Costs and Expenses

MPI shall compensate the Vendor for Transition Services at the rates agreed upon in advance and set forth in an addendum to this Agreement, or, if not specified, at the Vendor's standard hourly rates. MPI shall also reimburse the Vendor for reasonable and pre-approved out-of-pocket expenses incurred in connection with providing the Transition Services. Any disputes regarding costs shall be resolved in accordance with the dispute resolution provisions of this Agreement.

Insurance

The Vendor shall carry the following insurance coverage during the Term in accordance with Article 3.00 of Schedule A:

(a) Commercial general liability insurance in the amount of not less than [redacted] per occurrence and aggregate annually; and

(b) Professional liability insurance in the amount of not less than [redacted]

Vendor Personnel

[redacted] will serve as the leader and will have responsibility for all Services and the overall success of this Agreement.

[redacted] will serve as the project manager and the day-to-day contact for all aspect of the Services provided by the Vendor related to this Agreement.

Other Vendor personnel may assist with the project and provide Services on behalf of the Vendor as needed.

Dispute Resolution

In the event of any dispute relating to this Agreement, the parties shall first attempt to settle any dispute arising out of or relating to the interpretation of this Agreement (the "Dispute") through good faith negotiations in the spirit of cooperation between representatives of each of the Parties. To the fullest extent permitted by applicable law, the parties hereby irrevocably waive any right they may have to demand a jury trial.

Initially each party's Representative with authority to resolve the Dispute, shall

negotiate to resolve such dispute and if the dispute remains unresolved for more than thirty (30) days, then escalate the dispute to a senior executive.

Any Dispute remaining unresolved for more than sixty (60) days following a party's first notification of the issue under the Dispute to the other party or such longer period as the parties may mutually agree upon shall, as promptly as is reasonably practicable, be resolved by arbitration.

The arbitration shall be conducted by an arbitrator mutually agreed to by both parties, and pursuant to the Arbitration Rules of the ADR Institute of Canada, Inc. (the "Arbitration Rules") that are in force at the time the Dispute is subject to arbitration.

The arbitrator's decision shall be final, conclusive, and binding upon the Parties, and the Parties shall have no right to appeal or seek judicial review of the arbitrator's decision. For certainty, the Parties hereby waive any right of appeal which may otherwise be available under applicable legislation or under the Arbitration Rules.

As a result of the COVID-19 global pandemic and travel restrictions the parties agree to make reasonable efforts to conduct the arbitration virtually on a mutually agreeable platform. If the parties and the arbitrator cannot agree to conduct the arbitration virtually on a mutually agreeable platform, the place of arbitration shall be in Winnipeg, Manitoba, Canada.

The Parties waive any right they may have to bring or participate in a class, collective or representative proceeding in connection with a Dispute, whether in court or before an arbitrator.

For certainty, the Parties hereby waive any right they may otherwise have to bring a court action in connection with a Dispute, except for injunctions or other equitable remedies required to address breaches of Confidentiality, or violations of Intellectual Property rights. The parties acknowledge that monetary damages may not be a sufficient remedy to address breaches of Confidentiality, or violations of Intellectual Property rights, and may, without waiving any other rights or remedies, seek appropriate injunctive or equitable relief from a court of competent jurisdiction.

Data Privacy

Where and to the extent that MPI acts as the "Business" or "Data Controller" and the Vendor acts as a "Service Provider" or "Data Processor", as those terms are defined by applicable privacy law, the Vendor shall process Personal Data; (a) only at the direction and in accordance with the instructions of MPI as Data Controller; (ii) only for the performance of this Agreement and as set forth herein; and (iii) then only in accordance with Vendor's applicable Data Processing Protocols ("Protocol") available at: https://www.willistowerswatson.com/en-gb/notices/global-data-processing-protocol

Schedule B

Appendix B.4
Service Level Standards

Service Level Standards

The Vendor shall meet the following standards in providing the Services during the Term:

1. The Vendor will provide quarterly Investment Committee reporting package at least 10 Business Days prior to the meeting, subject to all data being available from investment managers, MPI and the custodian 10 business days prior to the delivery date, including:
    a. Performance of MPI portfolios, asset classes, managers and benchmarks;
    b. Percentile rankings relative to peer universes;
    c. Factor analysis, style analysis and attribution analysis and any other relevant metrics;
    d. Compliance with target weights & min/max ranges specified in the investment policy statement; and
    e. Watchlist Dashboard;
2. Vendor will use best efforts to provide monthly returns within 10 Business Days of receiving the required data;
3. Provide draft responses to information requests from the PUB & intervenors by the deadlines set by MPI's Regulatory Affairs team and agreed to by the Vendor.;
4. Complete annual review of each asset class 1 month prior to relevant Investment Committee meeting date;
5. Work with MPI's investment team to complete the Annual review of Investment Policy Manual, investment objectives, benchmarks & peer universes for the Investment Committee meeting specified in the Investment Committee Work Plan and agreed to by the Vendor;
6. Work with MPI's investment team to provide updated capital markets assumptions by the deadlines set by MPI's Finance and AIU divisions (generally expected in mid-May of each year during the Term) and agreed to by the Vendor;
7. Complete annual review of investment mixes via Efficient Frontier Analysis by agreed upon deadlines during each year during the Term;
8. Draft presentation to PUB by the deadlines set by MPI's Regulatory Affairs team and agreed to by the Vendor (generally expected by September 30) of each year during the Term;
9. Acknowledge all e-mails by end-of-day and respond within 2 Business Days (or indicate if more time is required and provide an estimated response time); and
10. Attend monthly check-in meetings with the VP & Chief Actuary and Manager of ALM & Investments.

Schedule B

Quality of Work Product & Systems

The Vendor must have systems and processes in place to measure their performance and the quality of the Services provided.

Schedule B

APPENDIX B.5
REMOTE WORK SECURITY STANDARD

1.00 Purpose

1.01 This standard describes the requirements for cyber and information security practices and mechanisms which must be implemented by the Vendor and adhered to by its Representatives working from locations other than the Vendor's facilities.

1.02 The intent of this standard is to reduce the likelihood of cybersecurity and privacy incidents from occurring as a result of remote work arrangements.

2.00 Standard

2.01 The Vendor shall implement the following security controls whenever they or their Representatives access Confidential Information or when provisioning the Service.

3.00 Endpoint Security

3.01 Wherever supported by the endpoint device, all workstations (desktops, laptops, tablets, and mobile devices) must have:

(a) Encrypted hard drives / storage media;
(b) Up to date patches to ensure that the workstations are kept current with all required operating system and application security patches;
(c) The ability to prevent unapproved software from being installed;
(d) Up to date antivirus software including the associated signature files, with real-time scanning enabled and a minimum of a weekly full scan;
(e) Firewalls installed and configured to protect the workstations from unauthorized access;
(f) Data loss prevention capabilities;
(g) Web traffic directed through a web filtering technology to help prevent accidental access to malicious sites; and
(h) A process to securely dispose of any hard drive or removable media storage device.

4.00 Access Control

4.01 Access control mechanisms will be in place as follows:

(a) Enforcement of principle of least privilege, allowing only the minimum level of access to Confidential Information necessary to accomplish assigned tasks in accordance with the Agreement;
(b) Multifactor authentication must be enabled for all types of remote access;

(c) User authentication credentials will be promptly deactivated where such credentials have not been used for a maximum period of 3 months, or within 2 days if the user has changed roles and no longer requires such access;
(d) User authentication credentials will be immediately revoked for all remote access capabilities (e.g.: VPN accounts, remote access tokens) and physical access to the Vendor premises in the event of a Representative's termination or end of the Vendor's engagement; and
(e) Authentication credentials must not be shared with other individuals.

5.00 Connectivity

5.01 Network security control mechanisms will be in place as follows:

(a) Representatives will connect only to secure Wi-Fi networks using strong encryption such as WPA2 or higher. If secure Wi-Fi is not available, a wired connection will be used instead;
(b) Vendor provisioned and managed workstations shall be used, leveraging secure connectivity mechanisms (e.g. Virtual Private Network), when accessing Confidential Information or when provisioning the Service; and
(c) Unmanaged workstations shall only be used when leveraging secure connectivity mechanisms to connect to Vendor managed endpoint services or devices (e.g. Desktop-as-a-Service or Remote Desktop Protocol).

6.00 Physical Controls

6.01 Vendor's Representatives shall:

(a) Ensure that physical working space is appropriately cordoned off to limit the exposure of Confidential Information to other individuals. This includes precautions related to preventing verbal communications from being overheard by other individuals;
(b) Protect the workstations and software against unauthorized use and access; and
(c) Be authorized to print Confidential Information to local printers at remote locations, provided that printed materials are kept secured at all times and are securely destroyed prior to disposal or recycling.

7.00 Collaboration Requirements

7.01 Vendor's Representatives shall use secure collaboration, storage, and application platforms for conducting virtual meetings and sharing of documents.

SCHEDULE C
COSTS

Annual Pricing	Year 1	Year 2	Year 3	Year 4	Year 5
Service	[redacted]				
Financial					
Forecasting					
Governance					
Regulatory					
Work					
Investment					
Management					
Strategic					
Investment					
Management					
Total					
Total for all Services including discount*	$452,200	$463,600	$475,000	$487,350	$499,700

1.01 **Fee Notes**:

1. Should MPI decide to hire the Vendor across all five services, [redacted] discount will be applied to the total annual fee. For example, the Year 1 fee would be $452,200 instead of [redacted]
2. MPI reserves the right to reduce the functions of the Services during the Term. If, MPI decides to reduce the functions of the Services [redacted] discount will no longer apply to the remaining Services.
3. The prices listed above include the following:
   (a) [redacted] asset allocation studies for each of the five investment pools ([redacted] studies in total) are included through the Initial Term. Analysis includes efficient frontier modeling.
   (b) [redacted] is included per year, for a total [redacted] throughout the Initial Term.
   (c) Performance reporting included under "Investment Management", while preparation of meeting materials and meeting time is included under "Governance".
   (d) In-person travel costs included [redacted] trips per year included under "Governance".

1.02 The prices entered into the table above includes all costs, fees, and charges the Vendor intends to bill MPI for the Services.

1.03 The prices in this Schedule C – Costs are listed in Canadian Dollars.

1.04 **Renewal Term Pricing – Negotiated**

(a) The Vendor shall have fifteen (15) Business Days from receipt of notice of renewal to provide MPI with its proposed pricing for the Renewal Term. Where the proposed price represents an increase over the pricing

for the Initial Term the Vendor must provide evidence to support the proposed increase.

(b) If MPI is satisfied with the new pricing, the Agreement shall be renewed on the same terms and conditions as were in force during the Initial Term except for the Vendor's new pricing. If MPI is not satisfied with the new pricing, MPI and the Vendor may further negotiate.

(c) Where the Vendor fails to respond within fifteen (15) Business Days, or if the parties are unable to agree on new pricing, no Renewal Term shall be entered into.

SCHEDULE D
GST/HST TAX-EXEMPT CERTIFICATE

Manitoba Public Insurance *Société d'assurance publique du Manitoba*

TO: ALL MANITOBA PUBLIC INSURANCE SUPPLIERS

The following Tax-Exempt Certificate will appear on all our purchase orders, work orders, agreements and contracts:

PLEASE NOTE:
GOVERNMENT OF MANITOBA
GST/HST Registration Number:
R122001191

It is hereby certified that the goods and/or services described herein are being purchased with Crown funds on behalf of the Government of Manitoba and are exempt from the Goods and Services Tax and Harmonized Sales Tax.

Suppliers are not to include GST/HST in quoted prices or invoices

As indicated on the Certificate, suppliers are not to include GST/HST for goods and services provided to the Corporation. This will facilitate processing of your invoices and prompt payment.

Please note that the GST/HST Registration number on the certificate is Manitoba Public Insurance's registration number.

The use of the Tax-Exempt Certificate does not affect your right to claim input tax credits on your purchases relating directly to your sales to Manitoba Public Insurance.

PO Box 6300 Winnipeg MB R3C 4A4 Telephone (204) 985-7030 Facsimile (204) 934-9853 www.mpi.mb.ca

AMENDMENT

This Amendment is effective as of April 1, 2026.

BETWEEN:

THE MANITOBA PUBLIC INSURANCE CORPORATION

("**MPI**")

-and-

TOWERS WATSON CANADA INC.

("**Vendor**")

WHEREAS:

A. MPI and the Vendor entered into an Agreement effective October 1, 2025 for Investment Management services (the "**Agreement**").

B. MPI and the Vendor wish to amend the Agreement to address issues related to Confidentiality with the Public Utilities Board ("**PUB**").

NOW THEREFORE: in consideration of the mutual obligations contained in this Agreement, the receipt and sufficiency of which is hereby acknowledged, the parties agree to amend the Agreement as follows:

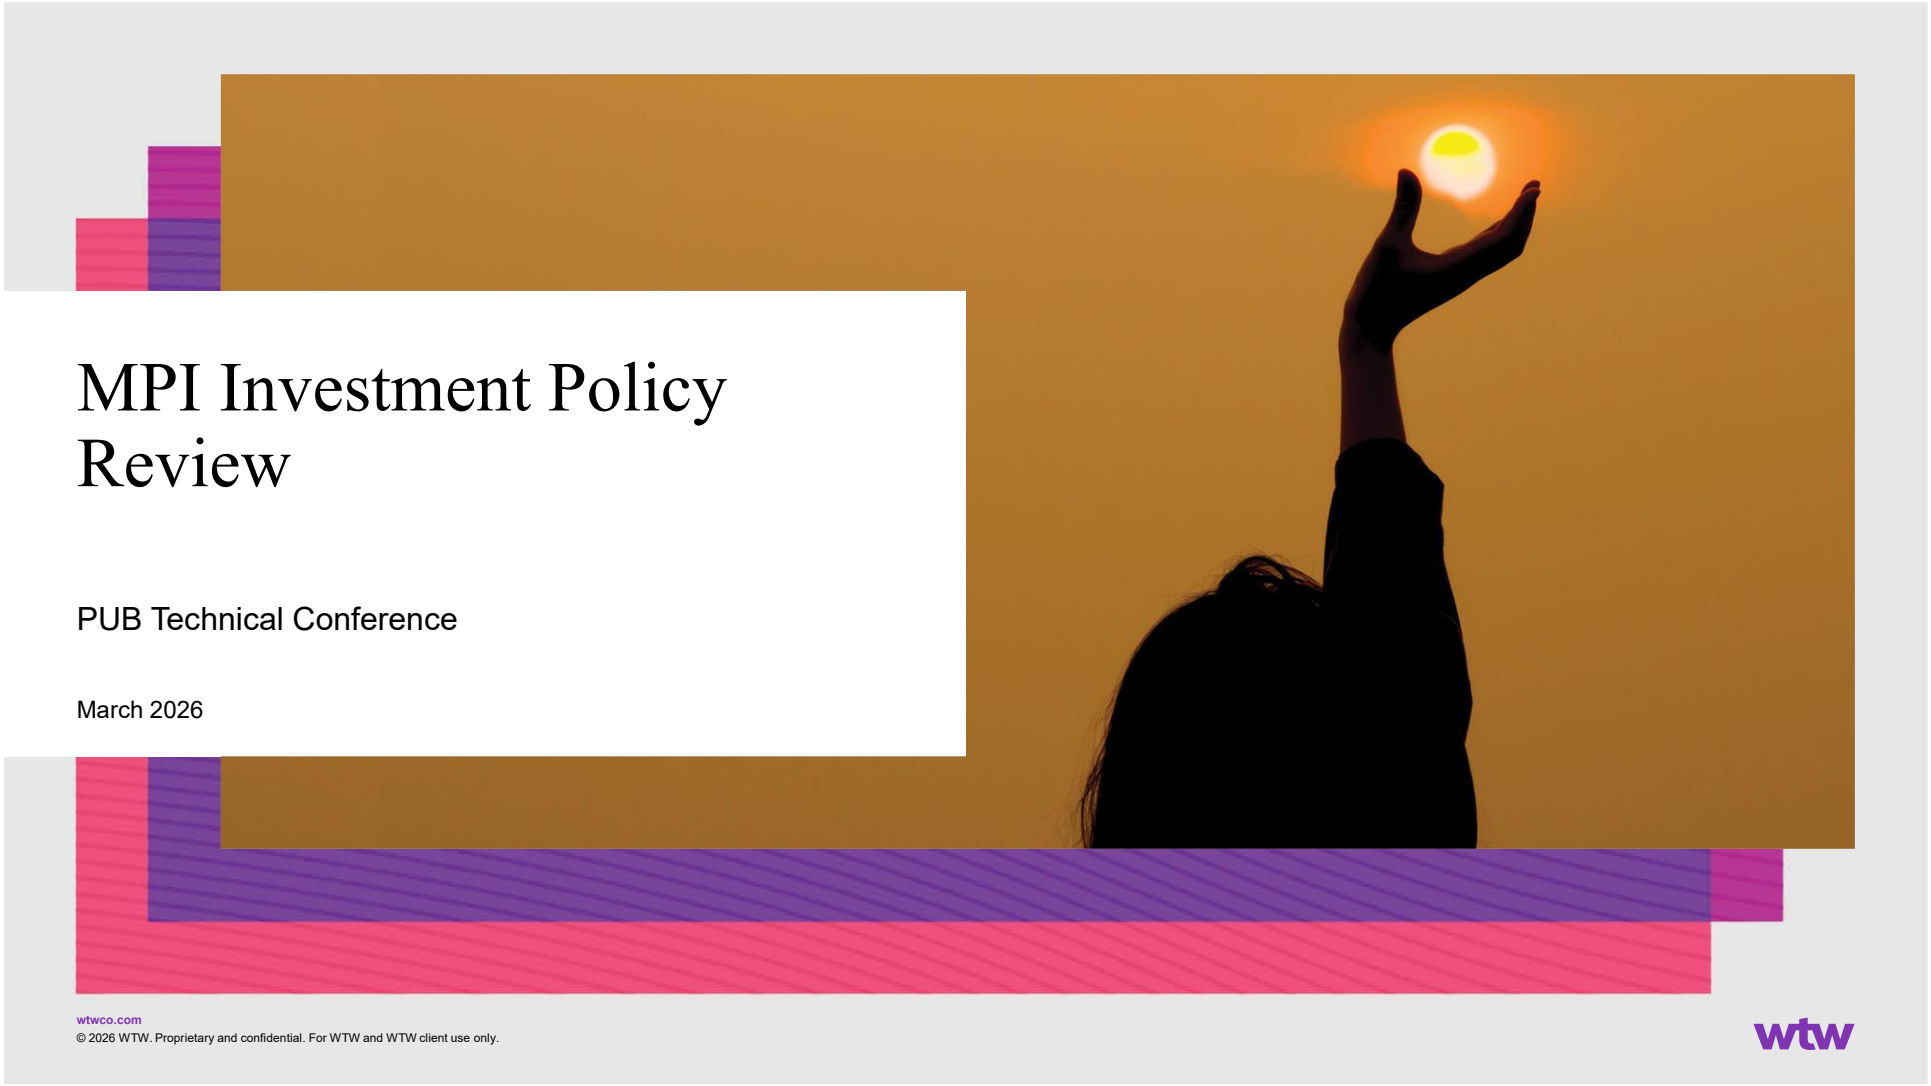
1. Schedule A – Section 1.01 of the Agreement the definition of Deliverable(s) is deleted and replaced with the following:

   "Deliverable(s)" means the Vendor's final written work product produced for MPI in the course of providing the Services and expressly identified as deliverables under the Agreement, excluding drafts, working papers, internal analyses, interim materials, emails, correspondence, notes, oral communications, or preliminary versions of any materials.

2. Schedule A – Section 8.09 of the Agreement is deleted and replaced with the following:

8.09 Vendor agrees that the following Deliverables will be filed on the public record as part of MPI's regulatory filings with the PUB:

All Deliverables listed in Appendix B.3 of the Agreement under the "Regulatory Work" section; the final versions of strategic investment recommendations, including any efficient frontier analyses, Asset Liability Management (ALM) studies; and final written reports prepared for MPI in connection with periodic or ad hoc reviews of asset classes and benchmarks, where such reports are expressly prepared for regulatory, strategic, or Investment Committee purposes. For all other Deliverables required to be filed with the PUB, where the Vendor believes the Deliverable contains proprietary or confidential information, the Vendor must so advise MPI and MPI will seek confidential treatment of same on behalf of the Vendor through the PUB's confidential submission process, which may include MPI requiring of the Vendor affidavit evidence to support the claim for confidentiality. Through such confidential process, PUB counsel and advisors and all parties to a general rate application proceeding in receipt of the Deliverables including intervenor counsel and advisors will be required to keep the Deliverables confidential, sign the PUB's approved form of confidentiality agreement, and undertake to destroy all Confidential Information at the end of such proceeding.



3. The parties agree that there are no other changes to the Agreement and all other terms and conditions remain in effect.

4. This Amendment may be signed in one or more counterparts, each of which shall be deemed to be an original and all of which taken together shall constitute one and the same document. The signature of party received by electronic or digital means shall be binding upon the signatory with the same force and effect as an original signature.

IN WITNESS WHEREOF the duly authorized representatives of the parties have signed this Amendment to be effective as of the date signed by the second of the two parties below.

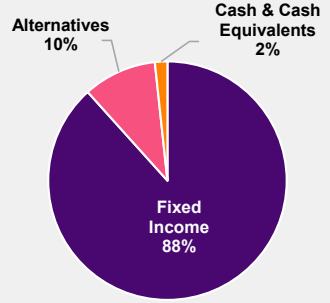
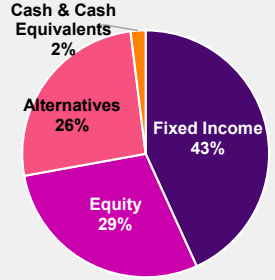
MPI Investment Policy Review

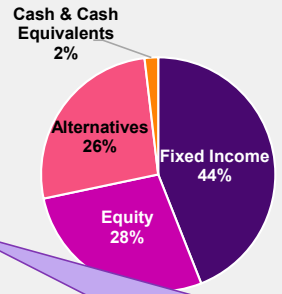
PUB Technical Conference

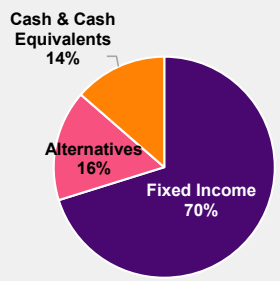
March 2026

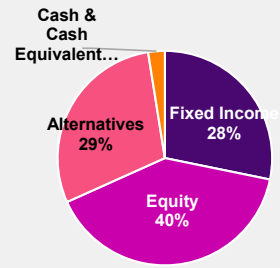
wtwco.com











© 2026 WTW. Proprietary and confidential. For WTW and WTW client use only.

Executive summary

- MPI's current investment portfolio is highly resilient and deliberately conservative, consistent with its mandate to support rate stability and capital strength.
- This review assesses how incremental changes in return-seeking assets affect downside severity, capital adequacy (MCT), recovery dynamics, and volatility across a wide range of economic scenarios.
- The analysis highlights a clear and intuitive trade-off:
  - Modest increases in return-seeking assets (on the order of ~5%) improve long-term expected outcomes while keeping downside risk, capital strain, and recovery dynamics broadly manageable within current governance expectations.
  - Larger increases materially worsen downside outcomes, deepen and prolong capital stress, and increase reliance on favourable market conditions for recovery — making these outcomes harder to explain and defend under scrutiny.
- Importantly, this discussion is about risk appetite and guardrails, not portfolio design or implementation decisions.

Overview of MPI's funds and mandates

	Basic	RSR	EXT	SRE	EFB
	$2,167.1 million	$530.6 million	$114.5 million	$294.8 million	$670.1 million
					
	Backing compulsory auto-insurance liabilities (long-term PIPP + short-term physical damage)	Surplus assets supporting Basic rate stability and adverse event protection	Backing liabilities … coverages; mostly short…	Backing trucking-industry insurance; short-term physical damage + some long-tail TPL	Backing long-term pension, post-retirement & severance obligations
	Support 100% MCT and minimal surplus volatility	Real return to maintain long-term rate stability	Support 2…		
	Match duration to reduce interest-rate & credit-spread risk; maintain liquidity for claims	Preserve capital; provide buffer for adverse Basic results; no duration matching needed	Genera… maint…		
	Long-term with ongoing short-term payments	Long-term	…		
	Moderate liquidity — ongoing claim payments	Moderate liquidity — may be accessed in adverse years	Low liqui…		

Although Basic and RSR have distinct purposes, the Working Group asked that:

- They be assessed as a **single economic pool** for this stage of analysis.
- Structural separation can be revisited at implementation.

3

MPI's investment and risk priorities

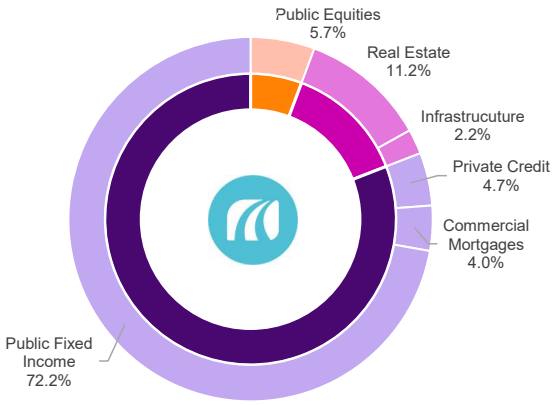
What we heard from the Working Group

Notes

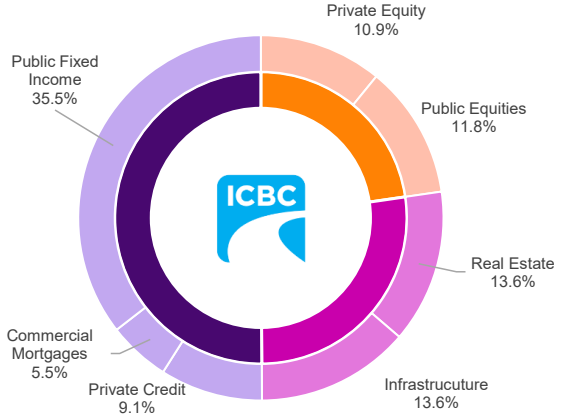
- We are seeking to identify how much additional return potential MPI can pursue before risk becomes inconsistent with its mandate.
- The analysis considers key PUB perspectives, such as short-term downside outcomes, capital adequacy under stress, and tolerance for temporary deterioration.

MPI's investment objectives prioritize persistent, reliable returns over one-time upside or opportunistic gains.

- MPI's primary investment objective is financial and rate stability for members.
- The portfolio is designed first and foremost to support stable, predictable premiums.
- MPI is open to improving portfolio yield only where this can be done thoughtfully and within clear risk constraints.
- Investment outcomes should support:
  - Consistent performance across market environments;
  - Avoidance of sharp capital strain that could pressure rates or governance processes.



MPI's risk focus considers downside severity, capital strain, and recoverability, not just long-term efficiency.



- MPI's approach to risk is shaped by regulatory, governance, and stakeholder realities.
- A well hedged portfolio is essential to protect members and preserve confidence.
- Interest rate risk is actively managed and considered nonnegotiable.
- Inflation risk is recognized, but:
  - Some inflation (e.g., CRC) can be passed through via premiums;
  - The primary concern is avoiding destabilizing outcomes rather than fully eliminating inflation exposure.

Risk and capital metrics

How we measure risk, losses, and capital adequacy

VaR — Value at Risk

How much could we lose?

- **What is it**
  - Maximum expected loss over a given time horizon at a specified confidence level
- **Plain English**
  - *"How bad things can get in a typical worst-case scenario"*
- **What it tells you**
  - Loss level that should not be exceeded most of the time (e.g., 99% of outcomes)
- **What it misses**
  - Does ***not*** describe how severe losses are once the threshold is breached

CVaR — Conditional Value at Risk

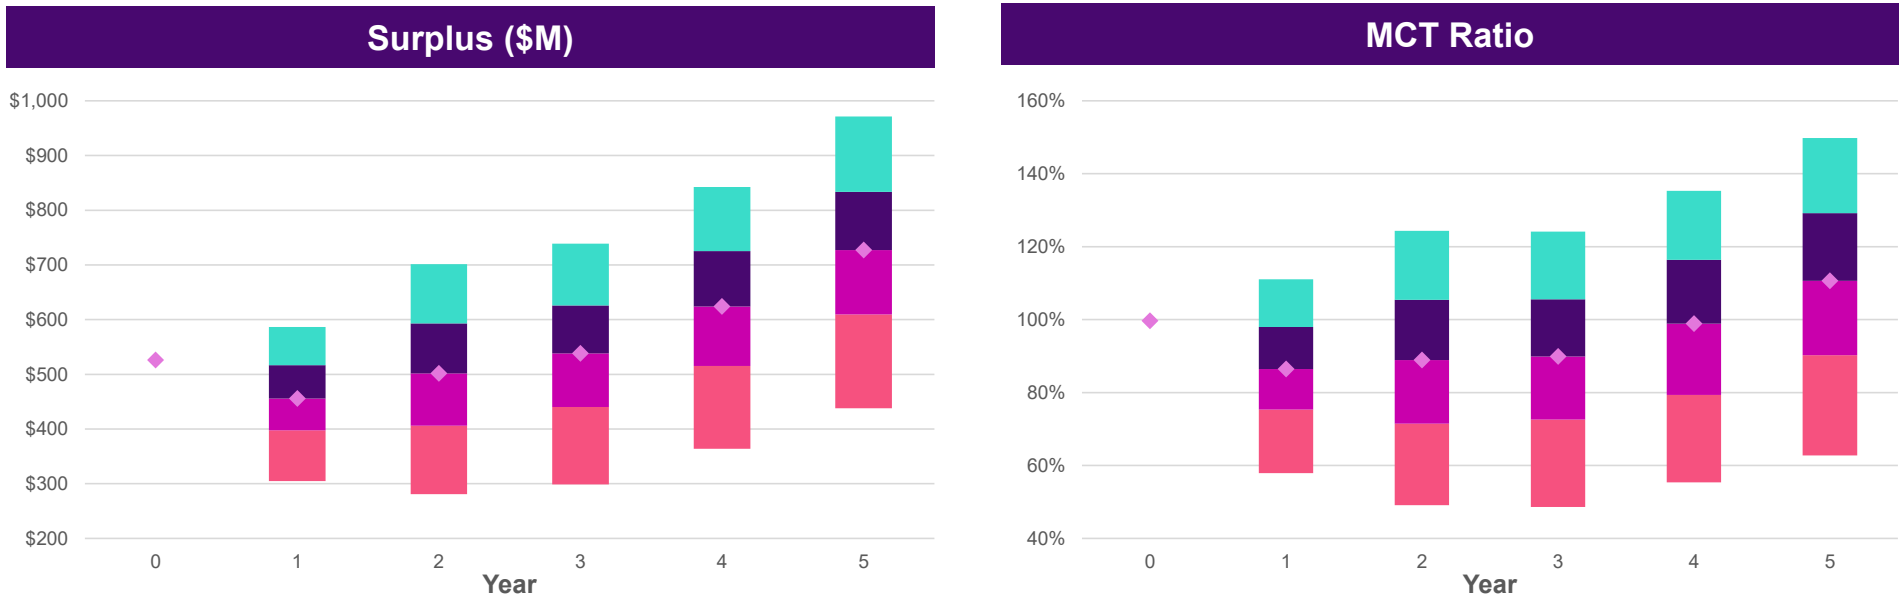
How much do we lose when things go really wrong?

- **What is it**
  - Average loss given that losses exceed the VaR threshold
- **Plain English**
  - *"How severe losses are in the worst scenario"*
- **What it tells you**
  - Severity of losses in the extreme downside (tail events)
- **What it captures**
  - Magnitude of losses beyond VaR, not just the cutoff point

MCT — Minimum Capital Test

Do we have enough capital to withstand losses?

- **What is it**
  - Risk-based capital adequacy ratio for Canadian P&C insurers
- **Plain English**
  - *"Ability to absorb losses from insurance, market, credit, and operational risks"*
- **What it tells you**
  - Whether the insurer holds sufficient capital relative to regulatory requirements
- **How it's calculated**
  - MCT Ratio = Available Capital ÷ Required Capital



Key metrics focus on downside capital strain and the ability to recover from adverse events, providing insight into portfolio resilience under stress.

wtw

Current portfolio baseline; downside and recovery profile

Illustrative range of outcomes

Recovery occurs without intervention in most scenarios and shows its limited recovery speed. To facilitate discussion, we considered key metrics across multiple economic scenarios with different levels of risk.

Translating analytics into risk appetite

Metric	Current	Modest increase	Larger increase
Expected Long-Term Outcome	Stable, modest return	Moderately improved return	Meaningfully higher return
1-Year Downside Severity (Worst Case)	Limited capital strain	Noticeable but manageable strain	Material capital deterioration
Short-Term Capital Impact (MCT)	Current target maintained	Visible capital strain that persists in downside scenarios	Further increase capital strain that persists in downside scenarios
Persistence of Stress	Short-lived in most scenarios	Temporary in median outcomes; tail risk persists	Stress persists in adverse scenarios
Recovery Profile	Recovery expected without intervention	Recovery expected in median cases; dependent on market conditions in downside cases	Recovery increasingly reliant on favourable markets
Governance / Optics Consideration	Fully aligned with current posture	Requires clear articulation and guardrails	Potentially challenging to socialize with stakeholders
Overall Risk Appetite Fit	Within current tolerance	Potentially acceptable with clear limits	Likely exceeds stated tolerance

Indicative findings

Recommended risk increase

- MPI's current portfolio is highly resilient, but its conservatism limits long-term return potential and surplus growth.
- Modest increases in return-seeking assets improve expected outcomes while keeping downside and capital strain broadly manageable.
- Larger increases in risk materially increase downside severity, persistence of stress, and governance challenges under PUB and Board scrutiny.

Decision context

- Focus further work on a modest increase in RSA (e.g., on the order of ~5%, assessed within the RSR).
- Avoid materially higher RSA levels until there is explicit comfort with:
  - Short-term MCT falling below target in adverse scenarios;
  - More persistent capital stress;
  - Greater reliance on favourable markets for recovery.

Based on the analysis, modest increases in RSA appear broadly consistent with MPI's mandate while larger increases introduce downside and capital outcomes that may be difficult to defend

Summary and next steps

How we measure risk, losses, and capital adequacy

Emerging direction

- MPI's portfolio is highly conservative and resilient, consistent with its mandate for rate stability and capital strength
- Increasing return-seeking assets improves long-term outcomes, but short-term capital strain, downside persistence, and volatility are the binding constraints.

Risk appetite implications

- Modest increases in RSA appear broadly manageable within clear guardrails
- Larger increases materially worsen downside severity, extend stress periods, and increase reliance on favourable markets
- The key trade-off is not return versus risk, but return versus the comfort and defensibility of the downside experience

Potential next steps

- Confirm comfort with the current posture versus a modest increase in RSA
- Clarify acceptable guardrails around:
  - Short-term MCT deterioration
  - Volatility and downside persistence
- Use that guidance to:
  - Refine strategy options within agreed limits
  - Explore capital-efficient implementation and structural refinements
- Return with targeted recommendations for Working Group review

MFR	Topic	Requested Information	Location in 2027 GRA
Claims Costs *(cont'd)*			
E.3	PIPP Costs	Please provide a table indicating the number of claims opened, resolved and outstanding by accident year and by coverage.	*Part II MFR Appendix 4*
E.4	PIPP Claims	Please provide a table of frequencies and severities by type of claim, of the last ten years to the forecast for the current fiscal year.	*Part VIII EAR Appendix 2*
E.5	Claims Forecasting	Please file a table for the last five GRAs showing projected frequencies/ severities/ claims incurred, by accident year broken down by coverage and for all coverages combined.	*Part VI Claims Forecasting CF Appendix 7*
E.6	Claims Expense Forecasting	Please provide a detailed reconciliation between the claims expense ratio used in the determination of the rate indication with the claims expense forecast in the financial statement.	*Part VII Rate Indication Chapter (section RI2.2)* *Part VII RI Appendix 1 Table 4*
E.7	Claims Expenses	Please provide the number of collision losses for the previous three years broken down into registered owner and non-registered owner including the DSR level of the driver and registered owner.	*Part VII RC Appendix 6 (section 4.1, Figure RC App 6-5)*

MFR	Topic	Requested Information	Location in 2027 GRA
E.8	Claims Forecasting	Please provide a Breakdown of Comparison between the 2027 GRA and 2026 GRA for the 2027/28 Rating Year for each coverage, consistent with the approach in PUB (MPI) 1-50 of the 2026/27 GRA.	*Part II MFR Appendix 5*
E.9	Claims Forecasting	Please provide projected claim counts, frequency and severity by accident year for each coverage in which claims frequency is used for the claims trending.	*Part II MFR Appendix 6*
E.10	Collision Claims	Please provide the collision losses, claim counts, average frequency and severity by month for each of the last 10 accident years as of 31 March 2026.	*Part VI CF Appendix 9*
Operating & Administrative Expenses			
F.1	Operating Expenses	Please include the detail of the MPI operating expenses by category for the last five fiscal years through the outlook period, showing compound annual growth rates separately for the historical period and for the outlook period.	*Part VIII Expenses Chapter* *Part VIII EXP Appendix 2 & 3*

MFR	Topic	Requested Information	Location in 2027 GRA
F.2	Operating Expenses	Please provide schedule(s) by expense category for the last five fiscal years through the outlook period for Basic total operations, and Basic normal operations, showing compound annual growth rates for the historical period and for the outlook period.	*Part VIII Expenses Chapter* *Part VIII EXP Appendix 3* *Part VIII EXP Appendix 5*
F.3	Operating Expenses	Please provide a summary of Basic expenses by category for the last two fiscal years and through the outlook period, broken down between Claims Expenses, Operating Expenses, Road Safety Expenses, Regulatory/Appeal Expenses and in total, and shown separately for Normal Operations, Improvement Initiatives and in total.	*Part VIII EXP Appendix 1*
F.4	Expense Details	Relative to the prior GRA, please provide a summary, with supporting rationale, for any significant changes to the integrated cost allocation methodology or any changes to accounting policies and management estimates that have a material impact financial reporting for Basic and Extension. Please summarize the allocation of any proposed or actual IT write-offs by line of business.	*Part VIII EXP Appendices 12 and 13* *Part VIII EXP Appendix 23* *Part VIII EXP Appendix 18*
F.5	Expense Details	Please provide a detailed comparison of Total Corporate Staffing actual for the past fiscal year with the actual staff for the preceding year and explain the changes (similar to Appendix 21	*Part VIII EXP Appendix 20*

MFR	Topic	Requested Information	Location in 2027 GRA
		from the 2025/26 GRA). Please provide a detailed comparison of Total Corporate Staffing forecast for the current year with the past actual year and explain the changes (similar to Appendix 21 from the 2025/26 GRA).	
F.6	Expense Details	Please provide a detailed breakdown by cost category of actual Basic Claims, Operating and Road Safety expenses for the last five fiscal years.	*Part VIII EXP Appendix 2*
F.7	Expense Details	Please provide a detailed breakdown of broker commissions paid by category (Basic, Extension, etc.), for the last five fiscal years and forecast through the outlook period.	*Part VIII EXP Appendix 21*
F.8	Expense Details	Provide a comparison of broker commissions written by year with that forecast last year and indicate the total change for the six years by product/transaction (EXP Appendix 22 2026/27 GRA).	*Part VIII EXP Appendix 21*
F.9	Capital Expenditures	Please provide a comparison between actual capital expenditures in the last fiscal year and that forecast at the last GRA and explain all material differences, including a breakdown of deferred development costs by project.	*Part VIII EXP Appendices 15 and 16*

MFR	Topic	Requested Information	Location in 2027 GRA
F.10	Deferred Development Costs	Please provide a continuity schedule of deferred development costs and amortization costs by project for the last ten fiscal years through the outlook period.	*Part X EXP Appendix 17*
F.11	Deferred Development Costs	Provide a schedule that reconciles the financial forecast included in the application with a financial forecast reflecting the deferral of development costs as directed by the Board in Order 4/23 for rate setting purposes.	*Part VIII EXP Appendix 23*
F.12	IT Strategy	File the most recent iteration available of its Five-Year IT Strategy along with its Rolling IT Roadmap	*Part V IT Appendix 2*
F.13	IT Expenses	Please provide a schedule detailing IT costs by major capital project for the last seven fiscal years through the outlook period, and identify internal v. external costs for the historical period and for the outlook period.	*Part VIII EXP Appendix 18 and EXP Appendix 25* *Part V IT Appendix 4*
F.14	IT Expenses	Please provide Information Technology Costs broken down between Normal Operations, Initiative Implementation and Initiative Ongoing expenses, for the last five fiscal years and through the outlook period.	*Part VIII EXP Appendix 18*
F.15	IT Expenses	Please provide number of consultants supporting operating activities, general operating	*Part VIII EXP Appendix 18*

MFR	Topic	Requested Information	Location in 2027 GRA
		activities, compared to the number of consultants that are supporting improvement initiatives and their related annual costs for the last five fiscal years and forecast through each year in the outlook period.	
F.16	IT Expenses	Please provide IT expenses for the last seven fiscal years and through the outlook period, and include two columns providing the compound annual growth rate separately for the historical period and for the outlook period.	*Part VIII EXP Appendix 18*
F.17	Project Costs	Please provide a budget comparison of capital master projects in excess of $500 thousand by major component this year with the budget provided in the last application.	*Part V IT Appendix 9*
F.18	Project Costs	Please provide listing, amount, categorization, and description of all requested funding envelopes reviewed by Board inclusive of resulting Board approval status.	*Part V IT Appendix 9*
F.19	Value Management	Provide the current Value Management methodology, inclusive of the governance, framework and monitoring processes, with a specific details of any substantive changes or refinements implemented since the last GRA.	*Part V IT Appendix 8*

MFR	Topic	Requested Information	Location in 2027 GRA
F.20	Value Management	Please provide list, descriptions, assessment/reviews, financial cost/benefit metrics and respective business cases, funding envelopes for all IT initiatives.	*Part V IT Appendix 9*
F.21	IT Expenses	Please provide IT expenses for each of the IT projects for the current GRA, as well as three prior years where applicable. Please indicate if the project is a result remediation related to issues spawned from the early closure of Project Nova as well as a detailed description of the linkage to Project Nova.	*Part VIII EXP Appendix 19*
F.22	Consultant Recommendations	Please provide an update detailing the status of all recommendations made by the Gartner Group or any subsequent consultant, including any new recommendations, and highlight any changes in the recommendations or MPI's actions flowing from the recommendations from that provided last year.	*Part V IT Appendix 2 (pages 3 to 7)* *Part V IT Attachment A*
F.23	IT Modernization	Please provide a modernization report that tracks progress, plans and spending across all IT modernization initiatives including commenced in previous FY, started in current FY, or planned in future	*Part V IT Appendix 9*

MFR	Topic	Requested Information	Location in 2027 GRA
		FYs. The report includes but is not limited to: a) Modernization Project Registry - A master list of all active, planned, and recently completed modernization initiatives; b) IT Strategy Alignment - For each initiative, identify the specific business objective or technical debt being addressed; c) Milestone Tracking - A roadmap showing original vs. actual timelines, including key milestones reached and those remaining for the current and upcoming fiscal years; d) Financial Summary - A reporting of total project budgets that captures year-to-date actual spend versus budgeted amounts and mapping to the Corporate Project Funding Summary (CPFS) (Formerly Capital Master Summary (CMS); e) Vendor Assignments - Identification of the external contracting vendors and/or service providers allocated to each modernization initiative; and f) Benefit Realization - A summary of qualitative and quantitative

		category for the last five fiscal years through the outlook period.	
F.30	Compensation	Please file an updated schedule of average salary levels by classification for the last five fiscal years through the outlook period, showing compound annual growth rates separately for the historical period and the outlook period.	*Part VIII EXP Appendix 7*
F.31	Salary Expenses	Please file a table reflecting each of: a) Corporate Compensation Analysis - Normal Operations; b) Corporate Compensation/Payroll Costs - Normal Operations; c) Corporate Annual Compensation Changes - Normal Operations; d) Corporate Compensation Analysis - Corporate Total; e) Corporate Compensation/Payroll Costs - Corporate Total; f) Corporate Annual Compensation Changes - Corporate Total; and g) Corporate vacation liability and vacation carryover policy. Please also file a similar analysis for Basic.	*Part VIII EXP Appendix 11*
F.32	Operating Expenses	Please file a copy of the latest public compensation report	

MFR	Topic	Requested Information	Location in 2027 GRA
		prepared in accordance with the Public Sector Compensation Disclosure Act, together with the Auditor's report.	*Part VIII EXP Attachment E*
F.33	Financial Forecast	Please file a copy of the most recent actuarial valuation reports pertaining to the pension and other benefit plans prepared by the external benefit consultant.	*Part VIII EXP Attachments B, C, and D*
F.34	Budgeting Process	Please provide a detailed explanation of the corporation's budgeting processes. This should include: a) Identification of changes to budgeting processes from prior budgeting cycles; and b) Explanation of the effect of any budget alignment or adjustment conducted by corporate leadership following each division's bottom-up budgeting exercise.	*Part VIII EXP Appendices 22 and 22a*

Road Safety and Loss Prevention

G.1	Actual v. Budgeted Expenditures	Please provide a five year comparative history of actual v. budgeted expenditures by Road Safety and Loss Prevention program category.	*Part VIII EXP Appendix 14*
G.2	Expense Forecast	Please provide a detailed forecast of Road Safety and Loss	*Part VIII EXP Appendix 14*

MFR	Topic	Requested Information	Location in 2027 GRA
		Prevention expenses by program through the outlook period.	
G.3	Loss Prevention	Please provide a detailed Road Safety and Loss Prevention budget for the current year by specific program and compare that to actual spending for the last fiscal year.	*Part VIII EXP Appendix 14*
G.4	Hot Maps	Please file updated Accident Maps.	*Part II MFR Appendix 8*
Ratemaking			
H.1	Indicated and Proposed Rate Level Changes	Please provide a table reflecting the indicated rate change by Major Class together with the applied for rate changes. Please prepare an exhibit, with accompanying explanatory narrative, illustrating the transition from rate requirement indicators to requested revenue adjustments by Major Class.	*Part VII Ratemaking Chapter Figure RMO-1 and sections RMO.3 to RMO.6*
H.2	Claims Forecasting	For all selected regressions included in the ratemaking analysis, please provide a graphical representation, including display of actual data and fitted and selected trend lines, accompanied by the customary regression diagnostics.	*Part VI CF Appendix 3*
H.3	Significant Changes to Methodology or Basis of	Relative to the prior GRA, please provide a summary, with supporting rationale, for any significant changes to	*Part VII RI Chapter, Section RI.1*

MFR	Topic	Requested Information	Location in 2027 GRA
	Selection of Assumptions	methodology or significant changes to the basis of selection of assumptions used in the derivation of the indicated changes in rate level in accordance with accepted actuarial practice in Canada, both overall and at the classification level.	
H.4	Composition of Overall Required Rate	Please provide a comparative table for the current GRA and most recent prior GRA of the estimated dollar composition of the Income Sources and Expenditures, with accompanying narrative on any significant deviations.	*Part VII Rate Indication Chapter (section RI.7)*
H.5	Interest Rate Impact on Financial Forecast	Please provide details of the assumed Government of Canada bond yield, with the duration equal to the expected claims duration as well as yields/spreads for all asset classes supporting the claims portfolio. Please include detailed calculations, including assumed weightings.	*Part IX Investments Chapter (section H.5)*
H.6	Interest Rate Impact on Financial Forecast	Please provide a narrative explanation of the net impact of changes in interest rates impact to net income. Please provide the yield curve and implied average discount rate used for the calculation of the interest rate impact on claims incurred, and include the calculations used in the	*Part IX Investments Chapter (section H.6)* *Part VIII NIC, Appendix 1*

		determination of the utilized yield curve.	
H.7	Interest Rate Sensitivity	Please provide the indicated rate change by Major Class assuming interest rates are 50 basis points lower than the New Money Yield. Please provide the indicated rate change by Major Class assuming interest rates are 50 basis points higher than the New Money Yield.	*Part VII RI Chapter, Section RI.6*
Driver Safety Rating			
I.1	Prospective Modeling Assumptions	Please provide documentation of the DSR prospective modeling assumptions for each of the forecast years. Please display the forecasted number of Earned Drivers by DSR level for each of the forecast years.	*Part VIII Revenues Chapter (section REV.3)* *Part VIII REV Appendix 1*
I.2	Significant Changes to Methodology or Basis of Selection of Assumptions	Relative to the prior GRA, please provide a summary, with supporting rationale, for any significant changes to methodology or significant changes to the basis of selection of assumptions used in the derivation of the DSR indications.	*Part VII Application Rate Tables Chapter (figure ART- 3)*

MFR	Topic	Requested Information	Location in 2027 GRA
I.3	Driver Safety Rating	For each of the last five (5) policy years, 2021 to 2025, please provide a chart comparing the DSR level with the actuarial discounts in each year, as well as the dollar difference and the number of clients within each separate DSR level.	*Part II MFR Appendix 9*
Valuation of Policy Liabilities			
J.1	Runoff	In a single table, please provide the breakdown by insurance year and valuation line of business of the latest complete fiscal year Basic – Total (Net) – PIPP (undiscounted) runoff.	*Part VIII External Actuary Review Chapter (section EAR.2)*
J.2	Sources of Runoff	With respect to the latest complete fiscal year Basic – Total (Net) – PIPP (undiscounted) runoff, please provide a separation of the total amount of runoff into the portion attributable to changes in experience vs. the portion attributable to changes in valuation methodology vs. the portion attributable to changes in valuation assumptions, including commentary on the basis for this separation and the nature of and rationale for the changes.	*Part VIII External Actuary Review Chapter (section EAR.2)*
J.3	Regressions	For all selected regressions included in the valuation, please provide a graphical representation, including display of actual data and fitted and selected trend lines,	*Part VIII External Actuary Review Chapter (section EAR.3)*

MFR	Topic	Requested Information	Location in 2027 GRA
		accompanied by the customary regression diagnostics.	
Financial Condition Test (FCT)			
K.1	GRA Forecast vs. Financial Condition Test (FCT) Base Scenario	Please identify and justify all significant differences in modeling assumptions between the GRA Basic forecast and the FCT Base Scenario, and indicate which forecast represents the Corporation's best estimate projection of Basic operations.	*Part VIII Financial Condition Test Chapter*
K.2	Basic Financial Condition Testing (FCT) Report	Please provide the most recent Basic FCT report. The FCT report should include a description of the development of the Base scenario, adverse scenarios, a description of the corrective management actions to mitigate risks and also include a signed opinion on the financial condition by the external Appointed Actuary.	*Part VIII Financial Condition Test Chapter*
K.3	Basic FCT External Peer Review	Please provide the FCT External Peer Review report for Basic in the year in which it is completed as part of the triennial peer review cycle.	*n/a*
K.4	Changes to OSFI MCT Guideline	Given the change in the OSFI MCT Guideline being used relative to the prior GRA, please include supporting details for the impact of the resulting change in the MCT ratio calculation for capital target determination.	*n/a*

MFR	Topic	Requested Information	Location in 2027 GRA
Extension			
L.1	Extension - Actual vs. Budgeted Statement of Operations	Please provide a Pro Forma Statement of Operations for the Extension line of business including a comparative five year budget vs. actual history and including a five year forecast.	*Part VIII Pro Formas Chapter EPF.1, EPF.3*
L.2	Extension – Statement of Changes in Equity	Please provide a Pro Forma Statement of Changes in Equity including a five year history and five year forecast for the Extension line of business.	*Part VIII Pro Formas Chapter*
L.3	Financial Forecast	With respect to the key assumption areas underlying the Extension Revenue Forecasts (e.g. volume, upgrade factors, product shifts, rate level change), please provide a ten-year history of actual values shown beside the assumed values underlying the Extension forecast in EPF-1.	*Part VIII REV Appendix 2*
L.4	Financial Forecast	With respect to the key assumption areas underlying the Extension Claims Incurred Forecasts (e.g., by line annual rate of change for exposures, frequencies and severities), please provide a ten-year history of actual values shown beside the assumed values underlying the Extension forecast in EPF-1.	*Part VI CF Appendix 6*

MFR	Topic	Requested Information	Location in 2027 GRA
L.5	Cost Allocation Methodology	Please provide a schedule that details line by line items shown in EPF-1 that are directly assigned versus those subject to allocation for each of the last five historical fiscal years and for each year of the forecast period.	*Part VIII EXP Appendix 13*
L.6	Cost Allocation Methodology	Please provide a comparative schedule of Basic v. Extension expenses, including the relative % of expenses allocated or forecast to be allocated to Extension for each of the last five historical fiscal years and for each year of the forecast period.	*Part VIII EXP Appendix 5b*
L.7	Financial Forecast	Please provide a ten- year history of Extension overall average rate level change indication, and the actual implemented overall rate level change as well as actual and anticipated profit margins for 2026/27 through 2030/31, and comment on any changes. Please provide a comparison for each year with that provided in the 2026 GRA and comment on any changes.	*Part VIII REV Appendix 2*
L.8	Financial Forecast	Please provide the detail of Extension Normal and Initiative Operating expenses for each of the last five historical fiscal years and each fiscal year of the forecast period, including the compound annual growth rates for each of the historical period and the forecast period.	*Part VIII EXP Appendix 5a*

MFR	Topic	Requested Information	Location in 2027 GRA
L.9	Transfers from Extension	Please provide a schedule with details of transfers from Extension to other lines of business in excess retained earnings from 2004 to present.	*Part II MFR Appendix 10*

Appendix 1: Benefits flowing to Manitobans

1. Enhanced Value and Benefits to Manitobans

Since Board approval in October 2024, MPI has used the Strategic Plan to narrow its portfolio, prioritize customer-facing improvements, and improve delivery performance. Early results include stable affordability at 2.05% (income used for vehicle insurance), improved customer satisfaction with claims journeys, and an increase in on-time delivery of project and initiatives.

The benefits of the strategy are reflected in two ways:

- Measured improvements in performance in 2025/26, and
- Targeted strategies that address known gaps in customer experience, service delivery, and public responsibility.

2. Measurable Improvements in Year 1

As outlined in *Part II COM Appendix 4*, early results demonstrate that the strategy is contributing to improved outcomes across all corporate focus areas.

- Affordability remained stable, with average premiums representing 2.05% of average income, below the 10-year baseline.
- Customer satisfaction improved across key journeys, particularly in physical damage and bodily injury claims.
- Delivery performance improved, with a higher percentage of planned work completed within schedule.
- Employee engagement increased, supporting more consistent service delivery.

- Customer confidence remained stable, reflecting continued trust in MPI's ability to deliver its mandate.

These results reflect decisions made under the Strategic Plan to reduce the volume of work, prioritize customer-facing improvements, and better align work with available capacity.

For Manitobans, this means:

- Insurance costs have remained stable relative to income.
- Claims and service experiences are improving in areas where issues were most visible.
- Projects are being delivered more reliably.

3. Strategic Deliverables Driving Benefits

In addition to measurable improvements, MPI has advanced several key strategies under the Multi-Year Strategic Plan that will continue to deliver value to Manitobans in the coming years.

These strategies reflect a deliberate focus on addressing foundational gaps in customer experience, public trust, and service delivery. They act as case studies to demonstrate benefits to Manitobans.

3.1. End-to-End Adjusting Strategy

The End-to-End Adjusting Strategy addresses long-standing issues in the physical damage claims process, including delays, complexity, and inconsistent outcomes.

What has been delivered:

- A new claims model has been defined that moves to a more centralized, end-to-end approach.
- Areas of rework, duplication, and delay have been identified and targeted for improvement.
- A dedicated pilot team has been established to test process improvements before rolling out to general operations.

What this changes for customers:

- Fewer hand-offs during a claim.
- Clearer communication and faster decisions.
- More consistent service regardless of where the claim is processed.

This work is directly connected to the improvement already seen in physical damage claims satisfaction, which has increased year-over-year. It is expected to continue improving customer outcomes as the model is implemented.

3.2 Road Safety Strategy

MPI launched a new Road Safety Strategy, which sets a coordinated, evidence-based direction to reduce serious injuries and fatalities on Manitoba roads and advance the long-term goal of zero road deaths. **What has been delivered:**

- A defined strategy that identifies key drivers of collisions and injuries.
- A more structured approach to education, enforcement support, and partnership with stakeholders.
- Improved focus on data and reporting to guide interventions.

What this changes for Manitobans:

- Building a Culture of Road Safety – addressing attitudes and social norms to counter the normalization of high-risk behaviours.
- Strengthening Partnerships Through Shared Responsibility – improving coordination, data sharing, and alignment among provincial and community partners.
- Shaping Safer Driving Behaviours – targeting key risk factors through education, data-led interventions, and enforcement collaboration.
- Advancing Road Safety and Reconciliation – embedding road safety within MPI's Indigenous Action Plan and working with Indigenous communities to address disproportionate risk.

The strategy reflects what Manitobans have said matters most when it comes to making roads safer. Overall, more than 65 external organizations and nearly 3,000 Manitobans shared their time, experience, and perspectives to help shape this work, making this one of MPI's largest engagement efforts in its 55-year history.

This work supports MPI's public mandate and reflects its role beyond providing auto insurance.

3.3 Indigenous Action Plan

MPI released its first Indigenous Action Plan on May 21, 2026, outlining a clear, multi-year roadmap to advance Truth and Reconciliation in a meaningful, measurable, and accountable way.

The plan was developed through early and ongoing engagement with Indigenous communities, Rights Holders, employees, customers, and partners, and reflects what was heard through that engagement.

It moves MPI beyond statements of intent and embeds reconciliation into leadership, governance, operations, and service delivery across the organization.

What has been delivered:

- An action plan that moves beyond commitments to reconciliation and focuses on concrete, measurable actions that improve services, accountability, and outcomes for Indigenous Peoples.
- Prioritization related to reducing systemic and geographic barriers to insurance, licensing, and identification services.
- Early steps to integrate reconciliation into programs and operations.

What this changes for Manitobans:

- Improved access to services and road safety programs for Indigenous communities.
- Stronger relationships based on ongoing engagement.
- A clearer commitment to truth and reconciliation in how services are designed and delivered.

This work reflects MPI's responsibility as a public organization to ensure services are accessible and responsive to all Manitobans.

3.4 Strengthening the Public Insurance Model

The Strategic Plan is focused on improving how the public insurance model performs in practice. Since approval, MPI has taken steps to:

- Maintain stable and predictable insurance costs.
- Improve consistency and reliability of claims experience in key areas.
- Improve delivery discipline and accountability of planned work.

The outcomes related to the steps taken are the result of coordinated efforts across multiple areas of the business, aligned to the Strategic Plan. As these strategies are

implemented and matured, Manitobans will continue to see improvements in how MPI delivers on its mandate. The benefits flowing to Manitobans from the Strategic Plan are already visible in improved performance across the Strategic KPIs and are expected to increase as key strategies are implemented.

MPI's focus remains on strengthening the foundations of the public insurance model, ensuring it continues to deliver value today while remaining sustainable and relevant into the future. Initial results show early progress in improving affordability, service consistency, and delivery discipline. Continued execution of the Strategic Plan is expected to build on this foundation.

30 *NOTE: Rounding may affect totals*
31 * - Based on audited statements for 2022/23
32 ** - Based on restatement under IFRS 17
33 ^ - Capital, and stabilization of rates is now backed by Total Equity, as such the specific RSR component of retained earnings was transferred back into retained earnings in 2018/19
34 *** - Based on IFRS 17 and IFRS 9
35 ^^ - 100% MCT - includes assets that require 100% capital
36 **** - Forecasted
37 ***** - RSR levels established via (reserves regulation) (76/2019) 2019/20 and onward

Overview

OV.1 Introduction

From stability to execution. It was a challenging time for MPI three years ago, beginning with a government directed external organizational review in April 2023 and a 10-week strike later that year. The strike ended in the fall of 2023, a new Board of Directors was appointed, and the Ernst & Young reorganization recommendations were implemented in 2024. Since that time, MPI has been focused on its customers and bringing stability to the organization, with its multi-year strategic plan – introduced to the Public Utilities Board (PUB) in October 2024 – and the decision to close out Project Nova in March 2025.

Having achieved stability, MPI has now transitioned to execution. Implementation of the strategy is well underway, while also ensuring that stability is maintained.

The customer improvements described in this chapter reflect a broader shift in focus. Early gains were driven by access and efficiency, with the focus having now moved toward the quality of the experience itself, ensuring customers feel informed, supported, and treated with respect. This evolution directly aligns with what Manitobans have identified as most important.

In the three years since MPI was directed by government to apply for no overall rate change (2024 GRA), MPI has applied for rate changes of 3.00% (2025 GRA), 2.07% (2026 GRA) and 2.38% (2027 GRA), all during periods of moderate inflation. While the PUB saw fit to order 5.70% (2025 GRA) and 1.77% (2026 GRA), MPI points to the consistency of the rate requested as evidence of trending stability.

Since it last appeared before the PUB, MPI has welcomed two new members of its Executive Team, Rennie Stonyk (VP, Chief Legal & Risk Officer) and Tracy Riley (VP & Chief Information & Technology Officer).

A major focus for Tracy Riley and her team will be the development of a long-term Information Technology (IT) roadmap. The roadmap will address MPI's IT debt while developing and enhancing the tools and technology to improve customer and employee experience. Maintaining the robust IT security that MPI has established over the past number of years will be a predominant objective. The progress on these matters was presented to PUB advisors at the IT Summit on May 13, 2026.

OV.2 Corporate Priorities, Trends and Values

Whether it be rates, methods of cost control, products and product delivery, MPI is situated to advance execution in all areas of the organization. While there will always be new initiatives to explore and implement, MPI's core deliverable – providing accessible and affordable services and products to Manitobans – remains the most critical work within the organization. Running the business forms the foundation of MPI's success.

The 2027 General Rate Application (GRA) is grounded in a clear and consistent understanding of what Manitobans expect from their public insurer.

MPI's efforts over recent years to establish trust and credibility in the GRA process have proven beneficial, and MPI aims to continue that positive engagement. MPI remains committed to carrying out its obligations to the PUB in a cooperative and transparent manner. Over the past few months, MPI has participated in technical conferences concerning Asset Liability Management (ALM) and Road Safety, and an IT Summit, all facilitating the early exchange of information and providing insight to the PUB and Intervenors into the development of important business models and initiatives.

Claims costs continue to increase, driven by upward pressure in both physical damage and PIPP experience. In particular, higher physical damage claim severity, reflecting ongoing increases in vehicle parts prices, continues to put pressure on MPI rates.

On the financial side, MPI realized a corporate net income of $55.6 million, outperforming the budget by $46.3 million and the actual from last fiscal year by $75.3 million. Within that, the Basic line of business showed a loss of $4.6 million for 2025/26 but an improvement from the budgeted loss of $24.5 million and the year prior ($39.6 million loss).

MPI has applied a net trend for 2028/29 forward in this GRA (an estimation of the required rate change), based on the expected loss cost trend compared to the expected trend in average premiums, and assuming no impacts from expenses. The net trend for 2028/29 is 2.28%, for 2029/30 is 2.40% and for 2030/31 is 2.53%.

The capital position for Basic shows the Rate Stabilization Reserve (RSR) at 108% as at March 31, 2026 following a transfer of $72. million from the Extension line of business. The Basic RSR will remain above its statutory target of 100% Minimum Capital Target throughout the five-year forecast period, again made possible by forecasting the continued transfer of excess capital from Extension.

In terms of resourcing, MPI continues to manage its Full-Time Equivalents (FTE) well within budget.

MPI was pleased to see improvement in the ongoing voice-of-the customer research, including the 2025 CX Vision & Image Study, a one-time annual survey. Similarly, scores from MPI's ongoing customer satisfaction surveys, the Customer Experience (CX) Index, show improvement from a low point of 69 in 2023/24 to 73.2 in 2024/25 and most recently, 74.4 in 2025/26. While trends can fluctuate, progress is being made, with positive trends attributable to the efforts of MPI's divisional teams.

At its core, the message from Manitobans is well understood. Customers expect insurance that is affordable, delivered with integrity, and supported by high-quality service.

Quality of service was a critical takeaway for MPI. Customers expect interactions that are efficient, easy to navigate, and supported by professional and knowledgeable staff. While MPI's performance in these areas is improving, customer feedback highlights that clarity, responsiveness, and confidence in the process remain key drivers of satisfaction and trust.

The Vision & Image Study highlights opportunities to improve customer experience. The greatest potential return lies in strengthening affordability, transparency, efficiency, and the speed of issue resolution, reinforcing where MPI must continue to focus its efforts.

The study confirmed that the strongest drivers of an "ideal insurer" are value, integrity, and quality service (particularly in keeping insurance affordable), being honest and transparent, and operating as an organization that Manitobans can trust.

MPI has also seen improved employee engagement from internal surveys. The results have led to action plans being put in place for continued improvement within MPI. For example, MPI recently announced that it would have all members of its leadership team (Directors, Managers and Assistant Managers) returning to the office on a full-time basis.

This decision creates an opportunity for MPI to enhance collaboration and strengthen focus and execution on corporate priorities.

Recently MPI refreshed its corporate values for how its employees engage with customers, partners and stakeholders. MPI's new refreshed corporate values and their descriptions are:

Accountability - Taking ownership of actions and decisions.

We are accountable when we follow through on our commitments and hold ourselves, and each other, responsible for actions that build trust.

Collaboration - Working together, respecting differences and perspectives.

We are collaborative when we work together as one team, leveraging diverse strengths and perspectives to deliver strong outcomes and strengthen the relationships that support our shared success.

Transparency - Communicating openly and honestly.

We are transparent when we share information openly and proactively, creating clarity and shared understanding by communicating what is relevant, responsible, and meaningful.

These are not aspirational statements – it is the standard by which employees are held in MPI's day-to-day work. The refreshed values are also how MPI approaches the 2027 GRA and are central to its vision of conducting all facets of its operations in step with these tenets.

OV.3 Responding to Customer Feedback

MPI has increasingly embedded customer insight into enterprise decision-making. The organization is making deliberate choices about where to invest its finite resources, prioritizing initiatives that deliver the greatest value to Manitobans, and aligning those priorities with its corporate vision.

Several recent decisions demonstrate how customer insight is shaping both service design and operational strategy.

One of the most significant examples is the End-to-End Adjusting Strategy and redesign of the adjusting operating model. Customer feedback and CX measurement consistently identified that complexity, handoffs, and delays in the physical damage claims journey were key drivers of dissatisfaction. In response, MPI is prioritizing simplification of the

claims process by reducing touchpoints, improving workflow consistency, and aligning capacity across the system.

This work is directly tied to the corporate strategic KPI for Customer Value, with a specific focus on improving satisfaction in the physical damage journey. It reflects a conscious choice to invest in areas that matter most to customers, even where those changes might require significant operational transformation.

Similarly, MPI has made targeted decisions to improve access to services, recognizing that access and timeliness are foundational to a positive customer experience. Two further examples:

- The introduction of the Training Support Requirement in 2025. By reducing repeat road test attempts and improving system capacity, MPI lowered barriers to access and reduced wait times for Class 5 road tests. This has resulted in measurable improvements in customer satisfaction and reflects how policy and operational changes can directly address customer friction.
- Adjustments to Driver Z education registration, including segmentation that prioritizes Manitobans who have been waiting the longest, ensure more equitable access to the program. This decision reflects both customer expectations for fairness and MPI's broader commitment to road safety.

The voice of Manitobans is directly shaping how MPI makes decisions, designs services, and allocates resources with customer insight as the primary driver of strategy and execution.

OV.4 GRA Highlights

OV.4.1 The Basic Insurance Model

In compliance with past PUB orders, MPI has continued in this GRA to increase the vehicle premium discounts to customers on the merit side of the DSR scale, bringing them closer to their actuarially indicated rates.

Concerning the transition to a new driver model, *The Manitoba Public Insurance Corporation Act* was recently amended to clarify that any discount from a premium payable to insure a vehicle must be based on the driver safety rating of the registered owner of the vehicle. While MPI has previously acknowledged before the PUB that risk is better reflected with a model that captures who is primarily driving a vehicle (as opposed to the current registered owner model), there are nuanced trade-offs that occur based on the needs of Manitobans. The results of a survey conducted by Leger Marketing (2024 BIM Public Consultation) were filed as part of the 2025 GRA. The survey revealed that customers were generally familiar with the current rating model and viewed it as both fair and affordable. Maintaining the registered owner model was also consistent with the Vision & Image Study which reinforced affordability as the single most important expectation of Manitobans. Movement away from the current model may have caused vehicle premiums to increase, including the possibility of surcharges for customers failing to properly declare the correct primary driver.

Product decisions therefore continue to focus on striking the right balance by ensuring coverage remains meaningful and protective, while managing costs to keep insurance affordable. This was evident with the recent adjustment to the Basic deductible. In response to inflationary pressures and rising claims costs (driven by higher vehicle prices, labour rates, and increasing repair complexity), MPI increased the Basic deductible to mitigate escalating costs while maintaining rates at comparable levels.

Importantly, this change reflected a deliberate customer-informed trade-off: higher deductibles reduce overall claims costs and premium pressure, supporting rate stability

over time, while preserving customer choice through Extension deductible options for those seeking lower out-of-pocket exposure.

This balance is obviously central to the GRA process whereby rate action, which requires the support of MPI's regulator, reflects alignment between customer expectations and affordability, and strengthens MPI's commitment to long-term financial sustainability.

OV.4.2 Outsourced Chief Investment Officer (Non-Discretionary)

The 2027 GRA will be the first application with MPI having outsourced part of its investment function, which includes the new ALM Study now underway (to be filed in the August 2026). It is important to note that Towers Watson has taken on a non-discretionary role, meaning MPI will retain decision-making authority and governance over its investments. Towers Watson will be the author of the Investment Management Chapter and responding to Information Requests related thereto. In addition, as indicated last year, representatives from Towers Watson will be the author of the Asset Liability Management Chapter and attend the oral hearing to present on Investments and update the PUB with respect to the ALM Study. While their attendance at the ALM Technical Conference went very well, and the information was well received, MPI asks the PUB and Intervenors to understand there may be some temporary challenges for MPI to overcome during this transition phase. Where appropriate, MPI will incorporate the feedback from stakeholders into the various phases of the ALM Study.

OV.4.3 Enterprise Project Management Office

MPI has established a new Enterprise Project Management Office (EPMO). The EPMO will now oversee all projects and programs across MPI, both Major Programs (large technology programs budgeted over $3 million) and non-major programs, to ensure they are aligned with the corporate strategy and delivering measurable value. This represents the continued implementation of the multi-year strategy as presented in detail during the 2026 GRA.

The new EPMO will strengthen how MPI can plan, prioritize and deliver strategic and operational initiatives across the organization through a single, coordinated team. It is another step that MPI has taken to incorporate the entire project management function into the same division as its Corporate Strategy Team.

MPI has seen positive reinforcement when it moved the Project Management Office out of the IT division and into the Customer & Product Value division. MPI aims to ensure that alignment continues and matures with the EPMO.

MPI is further strengthening the Customer & Product Value team with the talent, skills, and capacity to execute MPI's operational projects effectively, ensuring initiatives are delivered on schedule and within scope. It will do so by implementing the following enterprise-level capabilities:

- **Consistency in Approach**
  Project management functions and resources are applied consistently across all initiatives under a unified structure to improve efficiency and value.
- **Centralized Governance**
  The EPMO will provide centralized governance and standards to ensure all projects are aligned with organizational goals.
- **Strategic Alignment**
  Projects will be directly aligned to MPI's multi-year strategy, ensuring they deliver measurable value.
- **Standardization and Visibility**
  Standardized delivery model and performance dashboards will provide transparency and support data-informed decision-making.
- **Risk Mitigation and Resource Optimization**
  Ongoing monitoring of project performance will reduce risk, optimize resource utilization, and improve delivery outcomes.

- **A Bridge Between Leadership and Teams**
  The EPMO will act as a liaison between executive leadership and project teams, improving stability for employees and enabling informed prioritization and decision-making.

Changes in how projects are managed arise from the post-Nova learnings as detailed in the 2026 GRA. As part of its evolution, Major Programs recently moved from the IT Division into Customer & Product Value. This too aligns with the multi-year strategy, an internal decision-making touchstone at MPI that has wide reaching impacts (although the strategy is not expected to be extensively discussed again in this GRA).

OV.5 Noteworthy Initiatives

Customer expectations extend beyond individual transactions. Manitobans expect MPI to contribute to broader community outcomes such as safety, fairness, and inclusion. This is reflected in initiatives such as the Road Safety Strategy, which aligns with customer expectations that MPI contribute to improving road safety across the province, and the Indigenous Action Plan, which supports accessibility, inclusion, and equitable service delivery. These initiatives are important components of MPI's overall value proposition and contribute to long-term trust and confidence.

OV.5.1 Indigenous Action Plan – MPI's Commitment to Truth & Reconciliation

MPI has developed its first Indigenous Action Plan.

The plan was developed through early and ongoing engagement with Indigenous communities, Rights Holders, employees, customers, and partners, and reflects what was heard through that engagement. It moves MPI beyond statements of intent and embeds reconciliation into leadership, governance, operations, and service delivery across the organization. The plan aligns with the Truth and Reconciliation Commission's Calls to

Action and the United Nations Declaration on the Rights of Indigenous Peoples, reinforcing MPI's role as a public institution in advancing reconciliation.

The Corporation views the Indigenous Action Plan as a living document that will continue to evolve over time through sustained engagement and partnership with Indigenous Peoples. Its implementation will support improved service experiences, stronger relationships, and long-term, systemic change that reflects MPI's commitment to reconciliation across Manitoba.

The Indigenous Action Plan will help MPI translate commitments into clear and accountable steps that strengthen relationships, remove systemic barriers and support meaningful, lasting progress toward reconciliation across its operations. It is built around three pillars: Internal Structure, Community Impact and Cultural Empowerment.

In the first year of the Indigenous Action Plan, MPI plans a stronger focus on road safety issues in Indigenous communities and building relationships through community engagement, reviewing Indigenous employment and representation within the corporation, and improving licensing and identification services by introducing mobile clinics that can visit remote communities.

In support of the Plan, MPI has developed a Statement of Commitment to Truth and Reconciliation:

> *Manitoba Public Insurance commits to continue building and strengthening partnerships with Indigenous Peoples in Manitoba, fostering an inclusive organization that promotes economic reconciliation, raising awareness, and increasing representation among employees, while ensuring culturally safer spaces and barrier-free access to the products and services offered.*

OV.5.2 Road Safety Strategy 2030 (RSS 2030)

MPI has long maintained the importance of creating and supporting awareness, education and training of road safety issues in Manitoba and MPI's Road Safety Strategy 2030 ("Safer Roads: A Shared Journey") or RSS 2030 will help ensure its strategies continue to be aligned with that commitment. RSS 2030 sets a coordinated, evidence-based direction to reduce serious injuries and fatalities on Manitoba's roads and advance the long-term goal of zero road deaths. More than 65 external organizations and nearly 3,000 Manitobans shared their time, experience and perspectives in the development of RSS 2030; it reflects Manitobans' vision for safer roads.

In compliance with PUB direction, MPI has introduced the 'Manitoba Collision Dashboard' to make road safety data more timely and accessible to the public. Available online, this interactive component is a self-serve experience that allows users to explore trends, filter data and have a better understanding of collision data on Manitoba roadways. It will support municipalities, law enforcement, road safety organizations, media and others in making informed decisions that contribute to safer communities. MPI remains committed to working with its partners and stakeholders towards continued improvement of road safety for all Manitobans.

OV.6 Conclusion

While MPI has stabilized yesterday's unrest, it recognizes that its work is ongoing and far from complete.

Manitobans are directly shaping how MPI makes decisions, designs services, and allocates resources, with customer insight as the primary driver of strategy and execution. This customer-centric approach underpins the 2027 GRA. It ensures that decisions are grounded in what matters most to Manitobans and that limited resources are directed toward the areas that deliver the greatest impact – affordability, integrity, and service quality.

Working together, the teams have taken great steps and moved MPI forward under the leadership of its President & CEO and members of the Executive Team. MPI sees this GRA as an opportunity to showcase the work of its teams in moving beyond stabilization towards long-term efficient execution of the multi-year strategy.

OV.7 Supplementary Filings

MPI will file the following documents as supplemental filings:

- **Annual Business Plan (SFR Appendix 3)** – August 2026
- **Asset Liability Management Chapter** – August 2026
- **Gartner IT BMK report (IT Attachment A)** – August 2026
- **FCT Report** - September 2026
- **Compensation Report (EXP Attachment E) -** July 2026
- **Annual Report (SFR Appendix 1)** - first week of Oct 2026
- **Quarterly Financial Statement (SFR Appendix 2)** - first week of Oct 2026
- **Claims Forecasting Coverage Breakdown (MFR Appendix 5)** – August 2026
- **Claims Forecasting Projected Claim Counts (MFR Appendix 6)** – August 2026
- **Risk Appetite Statement Summary of Changes as of June 24, 2026 (RMF Appendix 4)** – July 2026
- **Risk Appetite Statement as of June 24, 2026 (RMF Appendix 5)** – July 2026
- **Risk Appetite Statement Blacklined as of June 24, 2026 (RMF Appendix 6)** – July 2026
- **Supporting Evidence for Recovery of Initiative-Related Expenses** (EXP Appendix 23a) – August 2026

A

Accepted Actuarial Practice (AAP) – An industry wide consensus on how actuarial work should be done. It is the manner of performing work in accordance with the Canadian Actuarial Standards of Practice.

Assets and Liability Management (ALM) – A risk management strategy that seeks to mitigate financial risks associated with the liabilites by designing an investment portfolio that hedges those risks. Also known as a Liability Driven Investment (LDI) strategy. One of the key risks is the impact of changes in interest rates.

Automated Speed Enforcement (ASE) – Commonly known as photo radar, ASE relies on stationary camera equipment to capture images of vehicles and their license plates which are travelling above the posted speed limits in a specific area. These images are then used as evidence to support a penalty or fine by law enforcement.

Automobile Injury Compensation Appeal Commission (AICAC) – An independent body, established by the Manitoba Government and operates under the *Manitoba Public Insurance Corporation Act*, that is available to individuals for personal injury claims appeal.

Automobile Injury Mediation (AIM) Office – An independent office that arranges mediation between claimants and MPI on personal injury claims as an alternative to the formal appeals process.

Autopac – The product name for MPI's basic compulsory automobile insurance product.

Autopac On-Line (AOL) – An online system which allows brokers to manage their clients Autopac policy.

B

Basic Premium – The portion of the premium that is based on criteria established under *The Manitoba Public Insurance Corporation Act* regulations. A Basic Premium does not include additional premium or surcharge.

Benefit Profile Owner - MPI staff who take responsibility for owning the benefits when they are delivered. They are the people who receive the outputs and turns those outputs into tangible business value.

Benefits – Value that is created for the project sponsor or beneficiary as a result of the successful completion of a project. A benefit is a measuring improvement resulting from a change that is perceived to be an advantage by a stakeholder. Benefits are improvements over the status quo. Benefits are realized as a result of activities undertaken to enable or effect the change. Benefits do not arise automatically as a result of a change, they arise as a result of people doing things differently.

Benefits Realization – A means to ensure that benefits are derived from outputs.

Benefits Realization Management (BRM) process– is a framework for ensuring that projects deliver tangible value by aligning project outcomes with business expectations through the management of benefits.

Benefits Realization Plan – A document outlining the activities necessary for achieving the planned benefits. It identifies a timeline and the tools and resources necessary to ensure the benefits are fully realized over time.

Benefits Realization Roadmap – Visual illustration that shows when and how benefits are expected to be enabled for the business owner to then utilize for benefits realization.

Benefits Register - Collection and list of the planned benefits used to measure and communicate the delivery of benefits throughout the duration of the project or program.

Benefits Sustainment Plan - A tool to identify risks, processes, measures, metrics, and tools necessary to ensure the continued realization of the benefits.

Bicycle Education and Skills Training (BEST) - An educational cycling program to teach students in Grades 4 to 8 about bicycle safety and skills for transportation and recreation. BEST students will receive approximately four hours of bicycle training. BEST was developed in partnership between Bike Winnipeg, Seven Oaks School Division, Manitoba Public Insurance, Green Action Centre and the Winnipeg Repair Education and Cycling Hub (WRENCH).

Body Integrity Inspection Certificate (BIIC) – When a vehicle has been written off and given the status of 'Salvageable', a customer when registering/insuring the vehicle will require a valid Body Integrity Inspection Certificate (BIIC) and a valid Certificate of Inspection (COI) before the vehicle can be driven. The BIIC provides assurance that the damaged vehicle has been repaired in accordance with the

original equipment manufacturer (OEM) specifications, is roadworthy, and the frame and body are structurally sound.

Body Integrity Inspection Program – Administered by MPI, as a part of the Canada-wide Stolen and Wrecked Vehicle Monitoring Program, the vehicle inspection program assesses the condition of a vehicle after a collision.

Business Case - Documented economic feasibility study used to establish validity of the benefits to be delivered.

Business Transformation Office (BTO) – An internal department at MPI responsible for the implementation of information technology (IT) initiatives that aim to improve efficiencies and reduce operational costs.

C

Consumers' Association of Canada (CAC) – CAC Manitoba is a volunteer, non-profit, independent organization working toinform and empower consumers and to represent the consumer interest in Manitoba. Formed in 1947, the organization is governed by a volunteer Board of Directors elected annually at a general meeting of its membership. It is a branch of the national Consumers' Association of Canada but is financially separate and separately incorporated.

Consumers Coalition (Consumers' Association of Canada (Manitoba) – Coalition comprised of the Consumers' Association of Canada (Manitoba Branch), and the Manitoba Seniors Equity Action Coalition (MSEAC).

Canadian Loss Experience Automobile Rating (CLEAR) - The CLEAR system, produced by the Insurance Bureau of Canada (IBC), uses actual loss experience data from across Canada to determine relative loss cost indices for specific vehicle descriptions (make, model and model year).

Caregiver Weekly Indemnity (CGWI) - The Personal Injury Protection Plan (PIPP) covers people injured in motor vehicle accidents who, at the time of the accident, were caring for children under the age of 16 or adults who can't work. There are two different types of coverage; Full-time Caregiver and Part-time Caregiver. If the claimant dies as a result of the accident, but would have been eligible for the benefit if they survived, the benefit is paid to the surviving spouse, common-law partner, legal guardian or new primary caregiver.

Cashable – Where there is a direct favourable impact on revenue or expenditure budget.

Catastrophic Injury – One or more of the following, but not limited to; permanent and complete spinal cord injury (paralysis), brain injury resulting in a permanent need for supervision, multiple amputations, complete loss of sight, debilitating psychological injury, and other similar injuries. Further details can be found under Schedule 4, Section 70(1) of *The Manitoba Public Insurance Corporation Act*.

Certificate - A certificate of universal compulsory vehicle insurance issued under Part 1 or regulations.

Certificate of Inspection (COI) – A valid safety Certificate of Inspection (COI) is required to register a newly acquired (used or new) vehicle in Manitoba, including those from out of province. A COI confirms that, at the time of inspection, a vehicle

met basic standards for operation in Manitoba, which are set out in the *Vehicle Equipment, Safety and Inspection Regulation*.

Claimant – A person who makes a claim against an insurance policy.

Claimant Adviser Office (CAO) – Is an advocacy office set up to advise and assist claimants with their appeal through AICAC. The CAO is staffed by advocacy experts with experience in administrative tribunals and arbitration hearings, and operates independently of both MPI and AICAC. There is no cost for the service. They can also provide assistance with mediation.

Claims Expense - Represents claims costs that cannot be allocated to individual claims and are forecasted as a fixed amount. Examples of these costs are towing contracts and payments to Manitoba Health.

Claims Dispute Tribunal (CDT) - Is an independent tribunal that will be established to offer customers an expedited appeal process for physical damage claims issues and liability disputes. The CDT will consist of independent, government appointed adjudicators, who will be able to make final and binding decisions on physical damage claims disputes.

Coalition of Manitoba Motorcycle Groups (CMMG) - A non-profit organization promoting motorcycle safety through education, lobbying, and disseminating information to aid in the continued safe enjoyment of two-wheeled motorized transportation.

Compulsory and Extension Revision Project (CERP) - Enhancements to coverage levels giving customers greater Basic protection for third-party liability and

maximum insured value, while creating greater customer choice through modernized deductible levels.

Compulsory (mandatory) - insurance is the minimum level of automobile coverage that is legally required to operate a motor vehicle in a province. Compulsory insurance coverage typically includes liability coverage, personal injury protection/first-party accident benefits, and underinsured motorist coverage.

Consumer Price Index (CPI) – An index established by Statistics Canada that measures price inflation by examining the weighted average of prices of a basket of consumer goods and services, such as transportation, food and medical care.

Corporate Project Funding (CPF) - A financial summary of corporate project funding.

Crown Corporations Governance and Accountability Act (CCGAA) – The provincial legislation that establishes how crown corporations should be governed and held accountable in Manitoba.

Customer Experience (CX) - Is the range of scenarios and interactions customer have with an organization. An integral component of customer experience is measuring the quality of these scenarios and interactions across customer journeys to ensure organizations are responsive to the outcomes that matter to customers.

Customer Experience Program (CEP) – An improved and modernized version of the MPI Customer Service Standard. The overall objectives of the Customer Experience Program (CEP) is to provide MPI with awareness of evolving customer needs and expectations, increased understanding of MPI performance in meeting these

customer expectations, and pragmatic, cost-effective solutions to address gaps between customer expectations and experiences. A primary component of the CEP is the collection of metrics that allow for MPI's performance to be compared to the insurance industry in Canada and specifically to other public automobile insurers in Canada.

D

Deferred Policy Acquisition Costs (DPAC) - The premium taxes and commissions that are deferred to reflect the unearned portion of existing policies.

Deliverable – Any unique and verifiable product, result, or capability to perform a service that is produced to complete a process, phase, or project.

Direct Repair Program - In this optional program repair shops (not MPI) write the first estimate on eligible claims.

Disbenefit – A side-effect or consequence of a change that has a negative impact on stakeholders and will detract from achieving our strategic objectives.

Driver Safety Rating (DSR) – A system used by MPI to determine a driver's safe driving record and the applicable discounts which reward safe driving behavior. The DSR scale, which has 36 levels, assigns a rating based on the driving record of an individual. Safe driving behavior moves drivers up the scale. High-risk driving, including traffic convictions, at-fault claims or alcohol- or drug-related administrative suspensions, moves drivers down the scale.

Driver Safety Rating (DSR) Program – Applies to individual customers, defined as a person, who operates an unincorporated business, or member of a partnership, all of whom must be associated with an identifiable driver's licence.

Driver & Vehicle Administration (DVA) – The service provided to customers that involves vehicle registration, licensing and insurance requirements. Under The Drivers and Vehicles Act, MPI conducts this service on behalf of government.

Driver Z – A new high school educational program focusing on improving new teen driver skills, attitudes, and hazard perception, with the goal of reducing a teen's risk of collision.

E

Earned Year Earned units (EY-EU) – Earned year earned units is a measure of the exposure during a year, irrespective of the issuance date of the policy

Emergent Benefit - An unanticipated benefits that emerge during the deployment/implementation of the change initiative, rather than being identified at the start of the initiative.

Emergent Disbenefit - An unanticipated disbenefit that emerges during the deployment/implementation of the change initiative, rather than being identified at the start of the initiative.

Employee Experience (EX) - Encapsulates what people encounter, observe and feel throughout their tenure at an organization. EX includes all the interactions an employee has with our organization before, during and after their tenure. These

interactions shape employees' perceptions of our organization and directly affect employee performance and our brand as an employer.

Enterprise Architecture (EA) - The discipline of proactively and holistically managing business and IT capabilities by identifying and analyzing the execution of change toward the desired business vision and outcomes.

Enterprise Content Management (ECM) - The process of managing the entire life cycle of content based on write-ups within GRA submission.

Enterprise Feedback Management (EFM) - Is a software solution used to gather and analyze customer feedback from various sources, such as through surveys, social media, and other channels.

Enterprise Value Assurance (EVA) - An MPI management approach that attempts to balance the wants and needs of stakeholders while simultaneously optimizing resources to provide the best value for money.

The Epic Hypothesis (EHS) template – Provides a concise description of the project idea.

Equity in Unearned Premiums (EUP) - Equals the unearned premiums minus the expected claim costs and expenses associated with these unearned premiums.

F

Financial Condition Test (FCT) - The purpose of the FCT is to identify plausible threats to satisfactory financial condition, actions that would lessen the likelihood of those threats, and actions that would mitigate a threat if it materialized.

First Notice of Loss (FNOL) – The initial notice provided by the insured to the insurer to notify the insurer that a claim is being filed against the insured's policy.

Fixed Income Securities - An investment that provides a return in the form of fixed periodic payments and the return of the principal at maturity. Unlike a variable-income security, the payment amounts and dates of a fixed-income security are known in advance.

Fleet Program – Applies to individual or corporate customers insuring 10 or more eligible vehicles.

Fulfilment cash flows (FCF) – The explicit, unbiased, and probability-weighted estimate of future cash flows expected to arise as the insurer fulfils insurance contracts, including an adjustment for the timing and risk of those amounts (i.e., the present value of net future cash flows, plus an adjustment for non-financial risk).

Full-time Equivalent (FTE) – Full-time equivalent (FTE) is the number of working hours that represents one full-time employee during a fixed time period such as one month or year. The concept is used to convert the hours worked by several part-time employees into the hours worked by full-time employees.

G

Generalized Linear Models (GLM) - Is a flexible generalization of ordinary linear regression. The GLM generalizes linear regression by allowing the linear model to be related to the response variable via a link function and by allowing the magnitude of the variance of each measurement to be a function of its predicted value.

Gross Premium Written (GPW) – The total amount of premiums collected by an insurance company before deductions are made to account for reinsurance costs.

Gross Vehicle Weight (GVW) – The Gross Vehicle Weight is the combined weight of the vehicle plus its load. It does not include the weight of a vehicle being towed. There is one exception to this: the GVW of a truck-tractor must include the weight of the semi-trailer.

Global Positioning System (GPS) - An accurate worldwide navigational and surveying facility based on the reception of signals from an array of orbiting satellites.

H

High School Drivers Education (HSDE) – The High School Driver Education (HSDE) program has existed since 1966 and has been administered by Manitoba Public Insurance since 1987 with the support of partner organizations and Manitoba high schools. The program is designed to raise awareness in young drivers of road safety issues and teach them the appropriate skills for driving on Manitoba roads.

Highway Traffic Act (HTA) – *The Highway Traffic Act* (HTA) is the provincial statute that governs the use of public roadways in Manitoba. It includes provisions for registration and plating of vehicles, driver licensing, traffic laws and rules of the road, vehicle safety standards and equipment, requirements for commercial vehicles, and enforcement powers for various offences outlined in the Act. The Police/RCMP are the enforcers of the HTA in the Province of Manitoba. MPI uses the HTA as one of the many tools to assess fault in motor vehicle accidents - Division III Rules of the Road, Section 108 (1) to Section 135 (1) is one such section.

I

Incurred But Not Reported (IBNR) – IBNR is an actuarial provision on the balance sheet for claims that have been incurred but not yet reported or development on known claims.

Indemnity – The act of returning/replacing/repairing something or someone to the original position or condition, to the extent of which is possible, after a loss has occurred.

Income Replacement Indemnity (IRI) - Part of the Personal Injury Protection Plan (PIPP), the IRI replaces income lost to those who cannot work as the result of an accident. Higher limits for high income earners are available for an additional premium. Also known as Weekly Indemnity.

Initial Cost Estimate - Upfront investment or outlay required to build an initiative to a meaningful state.

Initiative Owner - MPI Staff from the business doing the business case or the project manager.

Information Security Office (ISO) – MPI department which manages three key governance functions: Information Security, IT Risk Management and Information Security Architecture.

Insurance Corporation of British Columbia (ICBC) – The crown corporation responsible for providing compulsory auto insurance and optional extension insurance in British Columbia.

Insurance finance result -The portion of the overall profit or loss reported in the statement of operations, that arises from the insurance finance income or expenses (i.e., investment income or financing costs reflecting the time value of money or the effects of financial risk).

Insurance service expenses - The expenses incurred by the entity in fulfilling insurance contracts, including expenses arising from incurred claims but excluding the repayment of investment components, if any, under those contracts. Insurance service expenses include the following: incurred claims (excluding investment components) and other incurred insurance service expenses; changes that relate to past service, i.e., changes in fulfilment cash flows relating to the liability for incurred claims; and changes that relate to future service, i.e., losses on onerous groups of contracts, if any, and reversals of such losses.

Insurance service result - The insurance revenue and insurance service expense; and insurance finance income or expenses, reported in the Statement of Operations.

Insurance revenue – The provision of services arising from the group of insurance contracts at an amount that reflects the consideration to which the entity expects to be entitled in exchange for those services.

Internal Rate of Return (IRR) - The expected compound annual rate of return that will be earned by the initiative.

Internal Review Office (IRO) – An independent office within MPI that reviews issue related to the compensation of claims, including disputes and appeals.

International Financial Reporting Standards (IFRS) – Internationally accepted standards which act as a common language for financial reporting. These standards act as the guiding principles, or rules, for accounting practices.

International registration program (IRP) - A cooperative agreement for registering vehicles that travel into two or more jurisdictions. The IRP provides for payment of licensing fees based on fleet distances operated. The unique feature of the IRP is that although licence fees are paid to the various jurisdictions in which fleet vehicles are operated, only one set of license plates, one registration card and one cab card is issued for each fleet vehicle.

Investment Committee Working Group (ICWG) – A joint committee of the provincial Treasury Board and MPI. The role of the working group is to develop investment strategies, evaluate and recommend investment managers, monitor performance of the investment managers, develop investment policies, and provide reports as required.

Investment Policy Statement (IPS) – Typically used by an investment advisor or portfolio manager, an IPS outlines the investment strategy in order to meet the desired goals and objectives of the client.

K

Key Performance Indicators (KPI) – Data based indicators which are used to measure specific operational components related to a business. For example, MPI uses KPIs when assessing the performance of auto body shops to determine how well they are performing and if they are meeting customer needs.

L

Lean Business Case for ECM Program Oversight (LBC) – Describes in greater detail the anticipated project outcomes and project costs, including short-term outcomes that prove the viability of the overall project. These short-term outcomes are defined as MVP. In this way the business owners no longer wait until the completion of the entire project to evaluate success.

Lean Portfolio Management (LPM) - Is a structure which includes defined processes, governance, leadership engagement, and cadence of decision making.

Legacy Systems Modernization (LSM) – An MPI initiative aimed at modernized existing information technology application infrastructure to be successful in meeting the current, new and known future business requirements.

Liability for incurred claims (LIC) - The obligation to investigate and pay valid claims for insured events that have already occurred, including events that have occurred but for which claims have not been reported, and other incurred insurance expenses.

Liability for remaining coverage (LRC) – The obligation to provide insurance contract services (ie. the obligation that relates to the unexpired portion of the coverage period).

Light Vehicle Accreditation Agreement (LVAA) – An agreement between MPI and approved auto body shops to repair claimant's vehicles.

Line of Business (LOB) – Categories of product lines offered by MPI, such as the Basic Autopac policy, Extension or the Special Risk Extension products.

Loss Prevention (LP) – Business practices to the prevent collisions and claims, and reduce the cost of those collisions and claims if they do occur. MPI's overall loss prevention efforts include a special investigation unit, road safety initiatives and fraud reduction measures.

Loss Ratio - Calculated as Net Claims Incurred (see definition) divided by Net Premiums Earned, this ratio shows the company how much of the premium is dedicated to paying claims within a fiscal year.

M

Manitoba Seniors Equity Action Coalition (MSEAC) – MSEAC traces its roots to an intensive engagement process in 2022 and 2023 funded by the Manitoba Law Foundation, which invited interaction with seniors from across Manitoba, including

southern, northern, rural and urban residents from diverse cultural and socio-economic backgrounds.

Mandatory Entry-Level Training (MELT) - Mandatory training requirements for drivers who want to obtain their Class 1 driver's license. The MELT course consists of 121.5 hours of standardized training that covers the essential knowledge and skills to safely operate a semi-trailer truck.

Margin for Adverse Deviations (MfADs) - Which are percentages that are applied to the discounted unpaid claims to account for the uncertainty in the best estimate.

Master Data Management (MDM) - Master Data Management is a set of data governance practices which look to control/improve data processes, quality and single source of truth for business units.

Maximum Insured Value (MIV) – The maximum limit payable under the Basic Autopac, for loss or damage to the vehicle.

Minimum Capital Test (MCT) – The MCT is a standardized financial test that is used by the Property and Casualty insurance industry and its regulators. The MCT was developed to assess the key risks faced by the industry and to harmonize capital requirements across jurisdictions in Canada. It is a risk-based approach that reflects the riskiness of individual Property and Casualty insurers and is consistent with approaches in other financial sectors. It assesses the riskiness of assets, policy liabilities, and off-balance sheet exposures, by applying various factors.

Minimum Filing Requirements (MFR) – Information that is required to be filed with the Public Utilities Board in MPI's annual general rate application.

Minimum Viable Product – The simplest core feature and functionality of an initiative that meets end user needs prior to any enhancements.

Motor Vehicle Transaction Fees (MVTF) – Part of MPI basic service fees to help cover the cost associated with the transaction, typically in the range of $9 to $15. Some examples include ownership document fees and short term policy fees.

MyMPI – The name of the customer portal Manitobans will use to access their personal or corporate MPI account.

N

Naïve Interest Rate – A forecast based on the current known value of interest rates

Net Incurred Claims (NIC) - Net Incurred Claims is the sum of paid losses, change in case reserves and change in incurred-but-not-reported (IBNR) less the change in expected reinsurance recoveries within the fiscal year. CI is a financial reporting line and is not used for rate setting purposes.

Net Present Value (NPV) – The expected net monetary gain or loss for an initiative bringing all expected future cash inflows and outflows to present time using a specified discount rate. Discount rates are based on annual GRA discount rate papers, corresponding to either the low, medium or high-risk nature of the investment.

No-Fault Insurance – An insurance scheme where policyholders are indemnified by their own insurance company regardless of who was at fault for the accident.

Non-cashable – Where benefits may have an attributed financial value, but there is no direct budgetary impact.

Non-Financial Quantitative (Tangible) – A benefit that is measurable, butn not definitively converted into monetary terms. An example woud be an increase in view counts for a website with loss prevention tips.

Non-Financial Qualitative (Intangible) – A benefit that can be assumed, noticed, measured but not directly tied to dollar amounts. An example might be increased customer satisfaction, staff morale, company reputation, etc.

Non-Marketable Bonds (MUSH) - MUSH bonds are Manitoba rural municipality, school division and health-care facility bonds which are not tradable in the fixed income market and are managed by the Department of Finance at the Province of Manitoba.

Normal Operating Expenses - The day-to-day expenses MPI incurs to manage its operations.

O

Objectives – Results to be achieved after a project concludes, such as a successful IT conversion, development of a new product or manufacturing process, or construction and staffing of a new facility.

Office of the Superintendent of Financial Institutions (OSFI) – The federal regulatory office for deposit taking financial institutions including insurance companies, registered to operate in Canada.

Off-Road Vehicle (ORV) –Any wheeled or tracked motorized vehicle designed or adapted to travel cross-country on land, water, ice, snow, marsh, swamp land or other natural terrain. Snowmobiles, all-terrain vehicle, dune buggies and dirt bikes are some examples of ORVs. Examples of vehicles not considered to be ORVs are a golf cart, a garden or lawn tractor, infrastructure equipment and agricultural equipment. Injuries resulting from ORV accidents are subject to tort principles (not covered by PIPP).

Onerous Contracts - An insurance contract is onerous at the date of initial recognition if the fulfilment cash flows allocated to the contract, any previously recognized acquisition cash flows and any cash flows arising from the contract at the date of initial recognition in total are a net outflow (IFRS standard par 47).

Ongoing Cost of Ownership – Costs to operate and maintain the solution after the initial cost to build it.

Original Equipment Manufacturer (OEM) – The original producer of a component used in the manufacturing of a product such as car or truck.

Outcomes - Outcomes refer to the effects or changes brought about by the completion of the project, often seen in the behavior, activities, or conditions of the project's stakeholders. They are the intermediate states between the project's outputs and the ultimate benefits. Outcomes can be intended (expected results) or unintended (unexpected results), and positive (beneficial results) or negative (harmful results).

P

Payback Period – The length of time to recoup the initial cost of estimate.

Personal Care Assistance Expenses (PCA) – Part of PIPP, the PCA covers the expense of hiring someone to care for you when injuries sustained in the accident prevent you from caring for yourself. The level of coverage depends on the extent of your disability.

Permanent Impairment Benefits (PI) - PIPP provides a one-time payment when the motor vehicle accident caused impairment that will last throughout your lifetime. "Impairment" means you've lost a normal physical or mental function or that you're scarred or disfigured from the injuries sustained in the accident, such as disfigurements, loss of hearing or permanent scarring from burns.

Personal Injury Protection Plan (PIPP) – Injury coverage provided under Basic Auto that provides benefits for injury or death caused by a motor vehicle to a Manitoba resident, if the accident occurs anywhere in Canada or the United States, and for non-Manitoba residents if the accident occurs within Manitoba.

Physical Damage – Damage that occurs to a vehicle or trailer, typically resulting from a collision, theft or weather.

Planned Benefit – A positive outcome of actions, change, products or services that contribute to a negative impact on stakeholders and will detract from achieving our strategic objectives.

Policy Year Earned units (PY-EU) - policy year earned units measure the exposure of the policies issued during a particular year

Portfolio of Insurance Contracts - Insurance contracts subject to similar risks and managed together.

Premium Allocation Approach (PAA) - A simplification of the General Measurement Model that is permitted if the coverage period of contracts in a group is one year or less, or if the result of applying the PAA is comparable to that under the General Measurement Model.

Proforma - A type of financial statement or leger which may include tables, that provides an overview on the performance and valuation of a company

Provincial Road Safety Committee (PRSC) – Established in 2014 by government, the committee was brought in to ensure that principles of road safety are integrated in all aspects of transportation policy. The objective is to enhance road safety and reduce the number and severity of collisions as well as the number of collision injuries and fatalities in Manitoba. The committee is co-chaired by Manitoba Infrastructure and Transportation (MIT) and Manitoba Public Insurance (MPI), both which have joint and complementary legislative mandates to pursue road safety improvements.

Public Service Vehicle (PSV) – A motor vehicle or trailer operated by or on behalf of any person, for the transportation for gain or compensation of persons or property upon the highway, and includes a semi-trailer truck; but does not include limited-use public service vehicles, the passenger-carrying motor vehicles of an electric or steam railway or motor bus company operating on the streets of a city, or school buses,

ambulances, or hearses or motor vehicles operated for gain or compensation under a municipal by-law, including a vehicle-for-hire by-law as defined in *The Local Vehicles for Hire Act*.

R

Rate Stabilization Reserve (RSR) – Relates to the retained earnings of the Basic Universal Compulsory Automobile Insurance and is intended to protect motorists from capital builds that would otherwise have been necessary due to unexpected variances from forecasted results and due to events and losses arising from non-recurring events or factors.

Ratemaking – The process of establishing insurance premiums through acceptable actuarial practice.

Rating Territories - Manitoba is divided into four geographical rating territories which are used to determine premiums based on which territory the driver resides.

Retirement Income Benefit (RIB) - A PIPP benefit meant to provide a retirement income, for life, for people who have an ongoing disability because of injuries sustained in an accident and are unable to adequately save for their retirement years.

Risk adjustment for non-financial risk - The compensation an entity requires for bearing the uncertainty about the amount and timing of the cash flows that arises from non-financial risk as the entity fulfils insurance contracts.

Risk Appetite Statement (RAS) - Considers the key categories of risks that MPI is exposed to and provides outline of the approach to managing these risks.

Risk Management Framework (RMF) – A framework used internally at MPI to fully develop, document, and embed a centralized risk management operation and oversight of MPI operations.

Road Safety Strategy (RSS) – An MPI-led strategy to increase safety on public roads with an aim to reduce automobile collisions, using a multifaceted approach.

Runoff - Change in the ultimate loss estimate for the prior accident years between this year's and last year's valuation.

S

Safety Incentive Program – Is a program MPI will be proposing in a future GRA for corporate customers with under 10 eligible vehicles.
Saskatchewan Government Insurance (SGI) – The crown corporation responsible for providing compulsory auto insurance and optional extension insurance in Saskatchewan.

Salvage Management System (SMS) – An information management system used to keep track of vehicles which have been deemed for salvage only (not road-worthy).

Scaled Agile Framework (SAFe) – Promotes alignment, collaboration and delivery across large numbers of agile teams. It was developed by and for practitioners, by leveraging three primary bodies of knowledge: Agile software development, lean product development and systems thinking.

Scope – The outcomes and deliverables in a project. New outcomes or deliverables added after a project has been planned are commonly referred to as "out of scope."

Service Delivery Model (SDM) – The method which a service is provided to users of MPI's auto insurance system.

Skills Framework for the Infprmation Age (SFIA) – is a global standard that provides a structured way to describe and manage skills and competencies in the IT, digital, and technology-related fields.

Special Risk Extension (SRE) – Provides optional coverage for specialized risks, for which Basic Autopac does not provide coverage, and includes coverage for large commercial trucking fleets and garage policies.

Standard Interest Rate Forecast (SIRF) – A forecasting method of interest rates based upon the Bank of Canada's interest rate as the baseline.

Stolen and Wrecked Vehicle Monitoring Program (SWVMP) – A Canada-wide vehicle inspection and monitoring program designed to prevent registration of stolen/irreparable vehicles, certify salvageable vehicles (after they have been properly rebuilt) and provide consumers with the information they need about a vehicle to make an informed buying decision.

T

Technology Risk Management (TRM) – An internal operational program at MPI that provides regular investment in technology systems and processes. This ensures that existing technologies stay on supported versions and technology risks are addressed

through process and technology improvements. Investments are identified and prioritized annually.

The Corporation – A reference to MPI.

Third Party Liability (TPL) – The liability that is owed to others when you, as a driver, are involved in an accident that causes property damage and/or personal injury.

Tort Law – An area of law focused on providing compensation through legal action to compensate those who have been injured and/or had their property damaged.

Total Cost of Ownership - Upfront project costs, along with ongoing operational costs. This does not include reductions to costs as part of removal or decommissioning existing infrastructure. Total Cost of Ownership = Initial Cost Estimate + Ongoing Cost of Ownership

Traffic Accident Report (TAR) – Information on accidents that occur in Manitoba that is gathered as a part of the claims process. There are two sources for Traffic Accident Reports (TARs): TARs completed by law enforcement agencies and TARs completed when a collision claim is registered with Manitoba Public Insurance.

Traffic Collision Statistics Report (TCSR) – The Traffic Collision Statistics Report is the official statistical record of collisions on public roadways in Manitoba. This comprehensive report is an important road safety tool used by policy makers, traffic safety experts, public safety programmers, infrastructure planners and legislators to help create policies and programs to reduce collisions and increase road safety. This report is produced annually by MPI with data from law enforcement.

Transitional Expense Coverage (TEC) –Benefits available to those who have been catastrophically injured in order to help them with their unique circumstances.

Transportation Network Company (TNC) – A technology based company that connects approved drivers to customers using an on-demand mobile application.

Triage Adjusters - Work to resolve claims with customers over the phone instead of in person.

U

Unallocated Loss Adjustment Expenses (ULAE) - Represents claims costs that cannot be allocated to individual claims. It is mainly the cost of running a claims department – salaries and overhead. A ULAE reserve is held on the balance sheet as a percentage of the unpaid claims provision to reflect the amount required to adjust claims until all claims are closed. A ULAE percentage is also applied in ratemaking to the forecasted claims to account for the future costs of adjusting claims.

V

Value Assurancee Team (VAT) – the team that focuses on the operationalization of the Benefit Realization Management Process.

Vehicle Classification System (VCS) – Vehicle premium is set based on the following classifications; rating territories, insurance uses, vehicle rating factors and driving records.

Vehicles for Hire (VFH) – Vehicles such as taxis and limousines. May also include vehicles working for transportation network companies.

Vehicle Premium Discount (VPD) – A discount applied to the vehicle premium that is available when a registered owner is on the positive side of the Driver Safety Rating system.

Vehicle Rate Group (VRG) – Grouping of vehicles by specific characteristics such as body styles, weight classes and usage. Used by MPI and based off of the Canadian Loss Experience Automobile Rating (CLEAR) criteria.

Vulnerability and Penetration Testing (VAPT) - Is an active security test that assesses technology for vulnerabilities that could be exploited by a malicious actor, leading to negative impacts to an organization's availability of critical systems, integrity of data, or loss or theft of private information. A professional service conducting a VAPT assessment is likely to provide a report of discovered vulnerabilities with recommendations to address them.

Vulnerable Road User (VRU) – Users of public roadways who are at heightened risks, such as pedestrians, cyclists, motorcyclists and those using mobility aids.

W

Weighted Customer Contact Centre Call Ratio (WCCCCR) – An expense allocator associated with the basic insurance product which is used to help forecast future costs. Based on the log of calls received at the MPI Contact Centre, all calls related to the DVA line of business are identified and utilized for the purpose of allocating

expenses to DVA. The WCCCCR is also based on a four year rolling average. Once this percentage is established it remains static throughout the forecast years.

Weighted Shortest Job First (WSJF) - Template helps define the priority of the work in comparison to all other potential projects by:

- Rating how the project outcomes provide business value
- defining the time criticality of implementation
- Assessing how the project reduces business risk or provides new business opportunities
- providing a high-level estimate of the project cost (with the assistance of our IT team)

Basic Autopac Coverage

BAC.1 Introduction

The Manitoba Public Insurance Corporation (MPI) was established as a Crown corporation in 1971, to provide and administer Basic compulsory, universally available automobile insurance coverage (referred to as Autopac) to Manitoba motorists. Basic compulsory insurance is the minimum level of coverage that is legally required to operate a vehicle on the roadway in Manitoba. Extended coverage is also provided on an optional basis, through MPI's Autopac Extension and Special Risk Extension (SRE) lines of business, in competition with private insurance companies.

Compulsory automobile insurance was introduced in Manitoba in response to shortcomings in the former private automobile insurance system which failed to provide Manitobans with adequate and affordable insurance.

Compulsory public insurance provides universally accessible fair and affordable automobile insurance, directly addressing the issues that existed under the old private insurance system.

BAC.2 Exceptional Coverage through Public Auto Insurance

Manitobans continue to benefit from a public automobile insurance system. The value that MPI strives to provide to all Manitobans is reflected in the Corporate Mission Statement:

Exceptional coverage and service, affordable rates and safer roads through efficient public auto insurance.

As a public automobile insurer, MPI is accountable to all Manitobans to deliver Basic compulsory insurance that provides value through:

- Guaranteed access by making Autopac services available throughout Manitoba, including an extensive broker network
- Guaranteed reasonable basic level of protection (see *Appendix 1 - Summary of Basic Autopac Coverage and Benefits*)
- Guaranteed availability, no one can be denied the ability to insure their vehicle, so long as they are eligible to register the vehicle for use on the roadway
- Guaranteed/non-discriminatory rating, not based on age, gender, or other personal factors but based solely on the vehicle risk (type of vehicle, use, territory) and the registered owner's driver record (Driver Safety Rating)
- Guaranteed access to injury benefits, all Manitoba residents are entitled to Personal Injury Protection Plan (PIPP) benefits under Part 2 of *The Manitoba Public Insurance Corporation Act*, regardless of fault and whether they drive or register an automobile

- Exceptional, comprehensive, coverage
  - Among the most comprehensive insurance coverage in Canada (see *Part III Comparison of Basic Policies to Other Jurisdictions Chapter*)
  - Appropriate compensation, Basic Autopac includes all-perils physical damage coverage, third party liability coverage, and no-fault automobile accident injury coverage with compensation for most economic losses

In addition to exceptional coverage with guaranteed access, public insurance offers other fundamental advantages, including:

- Affordable and stable rates (premiums)
- Motorists are required to purchase Basic compulsory insurance; therefore, premiums must be affordable
    - MPI provides exceptional benefits and coverage at affordable rates
- Fiscal responsibility and accountability
    - Providing cost-effective coverage and service
    - Operating within strict guidelines and legislation to protect public interests

Oversight by its regulator, the Public Utilities Board of Manitoba

- Investing in Manitoba where prudent, and using investment income to support maintenance of adequate capital
- Adhering to best practices in insurance
- As a non-profit provider, MPI aims to have the Basic compulsory program operating on a self-sustaining basis and policy premiums reflect the forecast cost of insurance, with no expectation of profit
- Funds are held to pay claims and maintain Basic's Rate Stabilization Reserve, used to protect motorists from rate volatility and sharp increases resulting from unexpected adverse events
- Evolving products and services to meet the diverse needs of Manitobans

A single public administrator of the public auto insurance plan delivers certain efficiencies that further contribute to realizing the mission of comprehensive coverage with affordable rates, namely:

- Consistent interpretation and application of the insurance plan and the coverage provided thereunder
- Avoidance of extraneous administrative costs
- The ability to improve the plan and make it more responsive to the needs of the public with greater ease
- A better control of costs through close working relationships with repair shops, medical practitioners and other stakeholders and business partners

BAC.3 Coverage Amendments and Corporate Initiatives

Recent coverage changes have been implemented, and ongoing corporate initiatives are being conducted, in support of MPI's mission to deliver value to Manitobans.

Recent Basic coverage changes and future initiatives include the following:

- Basic Deductible changes
    - Effective April 1, 2026, all Basic deductibles increased to:
        - $1,000 (from $750)
        - $300 (from $225)
        - $1,500 (from $1,200)
    - Communication of the changes is contained in the Annual Statement of Account/Renewal/Reassessment notice that is mailed to all MPI customers. Brokers are also well versed of the changes and are positioned to advise customers through their daily interactions. Notice of the changes have also been included on all public facing mediums (website, brochures, etc.).

        - Recent surveys indicate that the majority of customers (over 80%) read their annual notice of assessment, which supported this as an effective mode of communicating the changes

    - During their annual assessment customers are being migrated to the level of coverage most similar to what they previously had in place

        - Customers with the previous $750 Basic deductible are being migrated to the new $750 Extension deductible

        - Customers who prefer a different coverage option may discuss available alternatives with their broker and make changes without incurring a fee, before their policy renewal/reassessment date

    - Data related to the number of customers who chose the $1,000 Basic Deductible after being migrated to the $750 deductible will be reported in 2028 General Rate Application (GRA).

- Claims Dispute Tribunal (CDT)

    - *The Manitoba Public Insurance Corporation Amendment Act (Claims Dispute Tribunal)* received royal assent in May 2021 and is awaiting proclamation.

    - This legislation would introduce a new appeal body for physical damage claims issues (including coverage) and liability disputes.

    - New regulations are required before the Bill is proclaimed into force.

    - MPI continues to discuss the CDT implementation with officials from the Government of Manitoba but cannot share further details as these

discussions pertain to matters that are proposed to be brought before Cabinet and are therefore subject to cabinet confidentiality.

- MPI has deferred the implementation planning of this initiative until regulations are drafted.

- Basic Insurance Model (BIM)
  - In November 2025, the Government of Manitoba introduced Bill 3, *The Manitoba Public Insurance Corporation Amendment Act*, to clarify that any discount from a premium payable to insure a vehicle must be based on the driver safety rating of the registered owner of the vehicle.
  - Bill 3 received Royal Assent on June 1, 2026.
  - In the circumstances, MPI is not planning to undertake any further work on the Basic Insurance Model.

- The Basic Fleet Program and The Safety Incentive Program
  - Recommended changes to the Basic Fleet Program were outlined in the 2026 General Rate Application *(Please see 2026 GRA, Part IX Fleet Chapter)*, including a solution to better reflect cost causation identified in the 2025 GRA *(Please see 2025 GRA Part VII RC Appendix 7 - Fleet Rebate 145/23 Dir. 10 4)*. The proposed solutions and product changes are intended to improve experience and benefits for fleet customers and to ensure that both customer safety programs (i.e., the Driver Safety Rating for individual customers, and the Fleet Program for corporate customers with more than 10 vehicles insured under Basic), are self-funded with respect to discounts and rebates.

    As part of this work, MPI is also developing a Safety Incentive Program under which corporate customers insuring fewer than ten eligible

vehicles would also be eligible to receive safety-based discounts based on their claims history. Additional details are provided in the Safety Incentive Program (*see BAC, Section 5*).

Implementation of the changes to the Fleet Program, that will also address cost causation *(see 2025 GRA Part VII RC Appendix 7 – Fleet Rebate 145/23 Dir. 10.4)*, will be advanced with the Safety Incentive Program in a future GRA. As program development progresses, IT prioritization for both initiatives will be assessed to determine and report future implementation timelines for the Fleet and Safety Incentive programs.

Please refer to section *BAC.5* for further information.

- Traumatic Brain Injuries
    - A public presentation on the issue of traumatic brain injuries (TBI) in the 2025 GRA led the PUB to insert a recommendation to Government in PUB Order 2/25. In response to the recommendation, the Government directed MPI to retain an expert on TBI as outlined by the PUB. An MPI working group was established and made a direct request of the Ontario Brain Institute (as suggested in the recommendation), but when no expression of interest was forthcoming from that agency, a Request for Proposal (RFP) was prepared for the external review of MPI's TBI claims. The RFP process was underway when MPI appeared before the PUB in October 2025 and the following directive was then issued in PUB Order 156/25:

      "14.33 *MPI shall, in the 2027 GRA provide an update on the progress of the report to be prepared by the TBI experts setting out current scientific knowledge and proven medical best practices and best*

practicable technology to diagnose, assess and manage brain injuries and compare them to the current practices and procedures of MPI in the 2027 GRA."

The RFP was issued in early 2026 but that too was not met with a response, meaning MPI was positioned to direct source the engagement and reached out to potential consultants. MPI has recently received confirmation from a reputable professional services firm that a report will be prepared that compares the TBI practices and procedures at MPI against industry best practices. As the services agreement has not yet been executed, MPI cannot at this time share the name of the firm or the specifics of their proposal. While the firm cannot commit to having a final report ready for October, MPI expects to provide an update on the progress of the report at the oral hearing.

BAC.4 Evolving PIPP Coverage Meets the Needs of Manitobans

Throughout its history, MPI has revised its Basic compulsory insurance plan to improve service and value, and to respond to the needs of Manitobans in the face of changing technologies, customer preferences, demographics, and other factors.

The most notable change was the introduction of the Personal Injury Protection Plan (PIPP), a pure no-fault injury compensation plan introduced on March 1, 1994, and a key component of the Basic compulsory insurance plan. Modeled after Québec's no-fault plan, it replaced the tort system that existed in Manitoba previously, which included the right to sue an at-fault party while providing limited no-fault accident benefits.

Under PIPP, a claimant's right to sue for compensation is replaced with guaranteed, scheduled, comprehensive, consistently applied, and timely injury benefits, for real economic loss and permanent physical and psychological impairments caused by the motor vehicle accident, regardless of fault. In addition, benefits are indexed annually to ensure that they meet changing economic conditions. PIPP helps ensure that Autopac claims costs are stabilized, and that premiums remain stable, predictable, affordable and among the lowest in Canada.

A dispute resolution process is available to claimants who feel that they have not been adequately compensated under PIPP. This dispute resolution process consists of:

- A review of decision(s) by MPI's Internal Review Office
- A right of appeal to an independent tribunal, the Automobile Injury Compensation Appeal Commission (AICAC)
- An option for independent mediation by the Automobile Injury Mediation office (after filing an appeal, but prior to scheduling a hearing with AICAC)
- Claimants considering an appeal of PIPP claim decisions can also engage claimant advisers via the Claimant Adviser Office (CAO)
- A further limited right of appeal of an AICAC decision to the Manitoba Court of Appeal (with leave from the court)
- Both AICAC and the CAO fall under the jurisdiction of the Public Service Delivery Department of the Manitoba Government, and are independent of MPI

Most PIPP benefits provide unlimited coverage, based strictly on medical need and proven disability. MPI has policies and guidelines in place to ensure that claims are managed, while still providing claimants with the care they require.

There are eight overarching coverage categories that are central to PIPP:

- Medical and Personal Expenses

- Personal Care Assistance Expenses
- Rehabilitation Expenses
- Income Replacement Indemnity
- Retirement Income Benefit
- Caregiver Expenses
- Permanent Impairment Benefits
- Death Benefits

PIPP's products and services have been continuously monitored and reviewed since its inception in 1994 to ensure that it continues to adhere to the core principles and objectives upon which it was based. This also reinforces achieving PIPP's vision:

"We will support Manitobans in their recovery from automobile accidents by being leaders in providing a personal injury rehabilitation plan..." [1]

The active monitoring of PIPP includes strategic reviews of coverage, as well as cyclical coverage reviews of its many components. These reviews include jurisdictional comparisons with other Canadian plans, to ensure that PIPP provides among the most comprehensive bodily injury coverage in Canada.

As a result of these reviews, numerous enhancements to PIPP have been implemented since its introduction in 1994, to ensure continued high levels of support in the face of challenging and evolving claimant needs, particularly for those most seriously injured.

[1] *2012 GRA Volume III AI.12 Attachment, Post Implementation Review, page 13*

Proposed Coverage Enhancements

Bill 42 (*The Motor Vehicle Statutes Amendment Act*) will allow for the introduction of three enhancements to the existing counselling benefits under the PIPP. Bill 42 passed June 1, 2026, MPI will now work collaboratively with the Government to develop the regulations required to implement the following new benefits:

- **Recognition of Indigenous and other forms of culturally relevant care:** Currently, only a psychiatrist, clinical psychologist, registered social worker or an ordained member of the clergy can provide counselling under PIPP. This change would allow cultural or spiritual leaders such as Indigenous Elders and Traditional Healers, with experience in grief counselling to provide services paid for by PIPP, ensuring there is no restriction to care based on religion. This change recognizes that grief is a very individual experience, and culturally relevant interventions have a more positive impact upon survivors.

- **Increasing access to counselling:** This change will remove the requirement for a family member to have a prescription to access counselling. Counselling services were expanded to include family members of a person who is catastrophically injured, in addition to family members of those who are killed in an accident today. This change ensures that timely professional counselling services are more readily accessible, particularly in rural and northern communities, where obtaining a prescription for counselling may present a barrier to receiving services.

- **Introduction of psychological-only coverage:** This change will create a new counselling benefit for those who are not directly involved in an accident. The change recognized that witnesses to unusual, highly traumatic events, such as mass-casualty automobile accidents, have specific care needs that may require psychological support even if they are not related to the victims.

- **Removal of the requirement for a prescription:** This change would remove the requirement for a prescription to access counselling. This would ensure that services are more readily accessible, particularly in rural and northern communities where obtaining a prescription may present a barrier.

These amendments maintain the integrity and fiscal sustainability of PIPP while providing comprehensive access to culturally relevant and result-oriented grief therapy for all Manitobans, regardless of religious affiliation, cultural heritage, or ability to pay. The suite of changes also reflects MPI's commitment to reconciliation by answering the Truth and Reconciliation Commission's Call to Action #22:

> "We call upon those who can effect change within the Canadian health-care system to recognize the value of Aboriginal healing practices and use them in the treatment of Aboriginal patients in collaboration with Aboriginal healers and Elders where requested by Aboriginal patients."

See *Appendix 2 - Table of PIPP Legislated Enhancements and Amendments* for a complete chronological listing of all legislated PIPP coverage enhancements that have come into force since 1994.

BAC.5 The Safety Incentive Program

BAC.5.1 Background

In the 2026 GRA, MPI committed to reporting on implementation timelines for proposed fleet program changes, including the fleet cost causation solution (*2026 GRA, Part IX FLT Fleet Chapter*). Through the fleet program review, MPI identified a gap in its current safety incentive frameworks, as corporate customers insuring fewer than 10 vehicles do not currently have access to a safety incentive program.

In response, and informed by customer feedback, MPI is advancing the development of a safety incentive program for these customers in parallel with planned fleet enhancements. Addressing this gap is a necessary component of addressing cost causation (see *2025 GRA, Part VII RC Appendix 7 – Fleet Rebate Allocation* for more detail), ensuring all customer segments are incorporated into a consistent, safety incentive framework. Without this program, the transition to a more self-funded discount and surcharge structure would remain incomplete and result in continued inequities and misalignment between premiums and claims experience for this segment. Accordingly, implementation of this program will be planned in parallel with the fleet changes.

While detailed program design and implementation timelines remain under development, this update is intended to inform the Public Utilities Board (PUB) of the rationale to address the gap in the current safety incentive framework, guiding principles for program development, the work underway, and the next steps towards establishing target implementation timelines for both the fleet enhancements and the safety incentive program.

BAC.5.2 Rationale for Program Development

Safety incentive programs align premiums with risk by rewarding safe driving and favourable claims histories, while penalizing high-risk behaviour. Under the Basic line of insurance, MPI currently applies two frameworks based on customer classification (individual or corporate) and the number of vehicles insured:

- **Driver Safety Rating (DSR) Program** – applies to individual customers and customers who operate unincorporated businesses or partnerships, all of whom must be associated with an identifiable driver's licence.
- **Fleet Program** – applies to individual or corporate customers insuring 10 or more eligible vehicles.

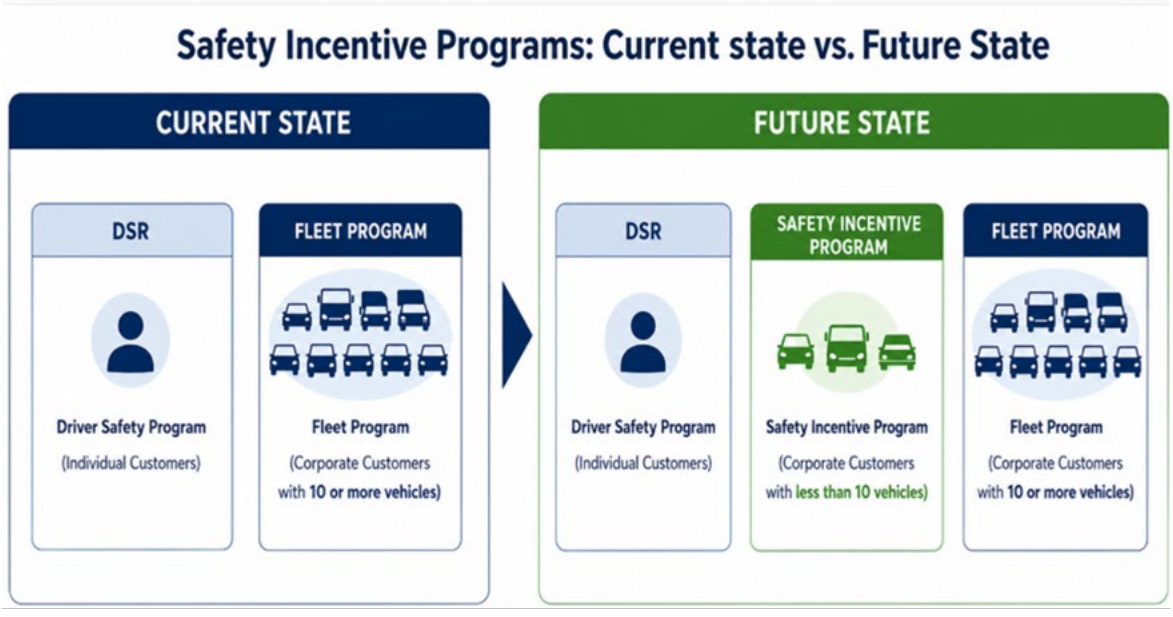
MPI currently defines corporate customers as legal entities, including but not limited to corporations, government bodies, Indian Bands, First Nations, charities, churches, school divisions, trade unions, co-operatives, and non-profit organizations. Collectively, these entities represent a large and diverse customer base.

Corporate customers with fewer than 10 vehicles fall outside both frameworks, meaning their premiums are not directly influenced by the claims experience of their corporate vehicles, creating misalignment with risk. This also creates a gap in fairness as these customers are ineligible for DSR discounts and do not meet the fleet program vehicle threshold to be eligible for fleet rebates. While lowering the fleet vehicle count threshold could address the issue, smaller fleets are more vulnerable to loss ratio volatility, which the fleet program uses to determine rebates and surcharges. As stated in the 2026 GRA (*2026 GRA, Part IX FLT Fleet Chapter*), MPI does not recommend reducing the current 10-vehicle threshold, which is established under the *Automobile Insurance Plan Regulation*, due to stability concerns for smaller fleets.

MPI estimates that smaller organizations with fewer than 10 vehicles represented approximately $56M in premiums in 2024. Historically, MPI's ratemaking approach has not differentiated experience or rates at the customer program level, as discounts and rebates have been funded across a broad customer base regardless of eligibility.

MPI is currently enhancing its analytical capabilities to accurately track and report premiums, claims, and exposures across all customer segments. This work is foundational to program design for this segment, enabling accurate measurement of experience across customer groups.

BAC.5.3 Program Development Guiding Principles



The Safety Incentive Program is being developed to address a structural gap while supporting broader organizational objectives related to the fleet program and cost causation. Key guiding principles include:

- **Fairness and Equity:** Access to incentives comparable to DSR and fleet customers.
- **Limited Cross-Subsidization:** Incentives are self-funded within the corporate customer segment, for those with less than 10 vehicles.
- **Actuarial Soundness:** product design and incentive structures based on demonstrated relationships between risk and claims costs.
- **Road Safety Promotion:** Incentives that encourage safe driving behaviour.
- **Transparency:** Clear and understandable program design for customers.

BAC.5.4 Future Program Design Overview

The Safety Incentive Program is designed to complement MPI's existing DSR and fleet programs. While the DSR assesses individual driver risk and the fleet program evaluates larger vehicle groups, this program will address the collective risk of smaller organizations (please see Figure 1 below).

Figure BAC-1 Safety Incentive Programs Current State vs. Future State

At a high level, the program is expected to:

- Apply to corporate (non-individual) customers with fewer than 10 vehicles.
- Assess claims experience at the customer level and aggregate experience across all eligible vehicles.
- Introduce corporate vehicle premium discounts and surcharges based on claims experience.
- Apply consistently across eligible customers.

Detailed program parameters, including vehicle type exclusions, experience periods, thresholds, and incentives scales are currently under development.

BAC.5.5 Alignment with Public and Private Insurance Industry Practices

Other Canadian auto insurers apply safety incentives to commercial companies who insure a small number of vehicles:

- **Insurance Corporation of British Columbia (ICBC)** offers a Commercial Non-fleet Program for customers with 5-19 vehicles, using driver history and rating factors to determine premiums, discounts, and surcharges.
- **Saskatchewan Government Insurance (SGI)** provides a Business Recognition Program for eligible businesses of any fleet size, with discounts and surcharges based on five-year loss ratios.

Private insurers commonly use risk-based underwriting for commercial customers with a small number of vehicles. Insurance premiums are determined using rating factors including but not limited to vehicle type, business use, territory, mileage, driver history, and claims experience. Application of discounts can differ considerably depending on the insurer's risk appetite, competitive strategy, and regulatory environment.

BAC.5.6 Customer Consultation

MPI conducted a survey of corporate customers insuring fewer than 10 vehicles to gather insights on vehicles use, industry representation, customer satisfaction, perceptions of fairness, and interest in a potential discount model based on claims experience. In February 2026, the survey was distributed to 6,822 customers, yielding 328 responses (4.8% response rate). As a result, findings should be interpreted with caution. Please see *Appendix 3 – Corporate Customer Survey* for the full survey and its results.

Customer Characteristics and Use

- **Number of Corporate Vehicles:** Most respondents have one to two vehicles (45%), followed by three to four (23%) and five to six (13%), with fewer reporting seven to nine vehicles (9%) and 10 or more (11%).
- **Vehicle Use:** Primarily contractor, construction, or gravel activities (31%), followed by other uses (17%), transportation or trucking (13%), farm use (11%), and retail (9%).
- **Drivers:** Most vehicles are shared among two to three drivers (38%), followed by single drivers (25%), four to five drivers (14%), and six to ten drivers (11%), while 5% report varying drivers.

Customer Satisfaction and Perceptions

- **Customer Satisfaction:** 53% of respondents indicated satisfaction, with 31% reporting dissatisfaction with their current experience.
- **Perceived Fairness:** 35% of customers do not believe the current approach MPI uses to determine premiums is fair, while 34% believe premiums are determined fairly, and 16% reported neutral views.

- **Meeting Customer Needs:** Responses were mixed on whether MPI's insurance offerings meet business needs. 48% indicated that their needs are being met, suggesting room for improvement.
- **Understanding of the Program:** A majority of respondents (63%) reported a good understanding of how corporate vehicle insurance works. However, 19% disagreed, 14% were neutral, and 4% indicated they were unsure, highlighting some gaps in understanding.

Program Interest and Safety Incentives

There is strong interest in a discount and surcharge model based on claims history, with 79% of respondents expressing interest (61% very interested, 18% somewhat interested). In addition, 76% indicated that such a model would either definitely (30%) or possibly (46%) motivate increased investment in driver and vehicle safety.

BAC.6 Conclusions and Program Development Next Steps

The development of the Safety Incentive Program addresses a key gap identified through MPI's fleet program review. Addressing this gap is necessary to address cost causation and ensure all customer segments are incorporated into a consistent safety incentive framework.

MPI would require legislative authority to enable the application of discounts and surcharges for corporate customers who do not meet Fleet or DSR eligibility. Discussions are currently underway to determine support and timing for the introduction of these changes. In parallel, MPI is enhancing its analytical capabilities to support consistent and credible measurement of claims experience across all customer segments, which is foundational to completing program design.

As development progresses, both the fleet program changes and the Safety Incentive Program will advance through IT scoping and prioritization. Current systems do not currently have the functionality required to support implementation. Consistent with the coordinated approach outlined in this update, MPI will update the PUB and report target implementation timelines for both the fleet enhancements and the Safety Incentive Program following completion of IT prioritization.

Appendix 1:
Summary of Basic Autopac Coverage and Benefits

COVERAGE NAME	2026 COVERAGE LIMIT
1. PERSONAL INJURY PROTECTION PLAN	All benefits are indexed based on the Consumer Price Index each April 1st.
Medical Expenses	**Unlimited** – all eligible expenses
Rehabilitation Expenses	**Unlimited** – all eligible expenses • Enhanced coverage for catastrophically injured claimants includes: o Extraordinary expenses related to travel and accommodation o Attendant care to engage in employment o Adaptation of primary and secondary residences o Adaptation of more than one motor vehicle o Purchase of adapted motor vehicle for catastrophically injured claimant (no more than once every 5 years, up to $56,955 per acquisition) • Enhanced coverage for extraordinary expenses to participate in leisure and recreation activities; subject to biennial limits of $570- 4,556 every two years) based on permanent impairment rating
Funeral Expense Reimbursement	To a maximum of $10,586 per deceased person

COVERAGE NAME	2026 COVERAGE LIMIT
Death Payments	Spouse: $77,665 to $615,000 based on victim's age and income
	Dependent: $36,889 to $67,957 based on dependent's age
	Non-Dependent Parent or Child: $17,295 each
	Disabled Dependent: Additional sum of $33,978
Impairment Benefits	Scheduled Lump Sum Payment ranging from a minimum of $969 to a maximum of $194,159
	Permanent Impairment Payment for catastrophically injured: Maximum $306,580 Lump Sum Payment

Note: Permanent Impairment and Death Benefits are **both** payable in the event the claimant sustains a permanent impairment as a result of the motor vehicle accident, and subsequently succumbs to their motor vehicle accident injuries. The claimant must survive a minimum of 90 days after the motor vehicle accident for the Permanent Impairment to be payable.

Income Replacement Indemnity (IRI)

a) Earners	90% of net income to a gross maximum of $123,000 for as long as claimant is unable to hold employment
b) Non-Earners	Claimants who are unemployed but able to work prior to the accident receive any Employment Insurance or National Training Act benefit lost, or IRI after 180 days. (IRI during first 180 days if promised or seasonal employment is proven)
	Claimants who are unemployable due to physical or mental infirmity do not receive IRI benefits; all other benefits apply.

COVERAGE NAME	2026 COVERAGE LIMIT

Note: Temporary and part-time workers, and non-earners (capable of working full-time prior to the accident) receive IRI based on full-time employment after 180 days.

For claimants who meet the catastrophic injury definition, the minimum IRI is the Industrial Average Wage ($60,595 per year).

c) Student Indemnity	Paid for delayed entry into the workforce due to missed school related to the MVA. Paid in addition to any IRI benefits For each school year lost, students entitled to: Kindergarten to Grade 8: $6,601 Grade 9 to Grade 12: $12,232 Post-Secondary: $12,232 per term to a maximum of $24,467 per year Students remaining disabled at scheduled end of studies: IRI payable; no less than Industrial Average Wage ($60,595 per year)
Personal Care Assistance	Up to $5,824 per month, with no lifetime limit (non-catastrophic) The monthly limit increases by up to $1,140 per month for catastrophic injuries.
Dependent Care Expense	Depending on the number of children or infirm persons cared for, a minimum of $147 up to maximum of $291 weekly reimbursement for additional care expenses incurred (part-time caregiver)

COVERAGE NAME	2026 COVERAGE LIMIT
Caregiver's Weekly Indemnity	Depending on the number of persons cared for, a minimum of $562 to a maximum of $738 per week for part-time earner or non-earner who cares for other person (full-time caregiver) Caregivers have the option of receiving IRI based on full-time employment 180 days after the accident. If the caregiver dies due to the motor vehicle accident, the amount of the weekly indemnity that would have been payable had they survived, is payable to the deceased's spouse or common-law partner or the legal guardian of the child(ren). If care was provided to an infirm adult, the payment is made to that adult.
Substitute Labour Costs for Unpaid Family Owned Business	Up to $969 weekly reimbursement for the cost of hiring someone else to replace the labour of an unpaid family member for the first 180 days following the motor vehicle accident
Special Expenses Reimbursement	Specific expense amounts as governed by Regulations (e.g., telephone, travel, clothing, etc.) Interest on any indemnity not paid within 30 days
Grief Counselling Reimbursement	To a maximum of $4,426 per eligible claimant Travel/accommodation/meals (to obtain grief counselling) to a maximum of $4,426 per eligible claimant
Critical Care Attendance Reimbursement	To a maximum of $5,767 per claim, for up to two persons
Reimbursement Rate for Claimant Travel	$0.45 per kilometer

COVERAGE NAME	2026 COVERAGE LIMIT
Meal Allowance	To a daily maximum of $60.30
Clothing Allowance-wear and tear	$1,340 maximum per calendar year, for excess wear or alteration of clothing as follows: Where due to the use of a prosthesis/orthosis for a period of six months or more: $449 for clothing worn on the upper body $891 for clothing worn on the lower body Where due to permanent confinement to a wheelchair: $1,340 Where due to the use of an orthosis for a period of less than six months: $150
Retirement Income Benefit	Payable to claimants who remain disabled from working, paid the later of the claimant reaching age 65 or the claimant collecting IRI for 5 years; 70% of net income to a maximum insurable gross annual income of $123,000, less any other pension income (i.e., CPP, OAS, private pension, RRIF)
Transitional Expense Coverage	Payment of certain expenses for catastrophically injured claimants to a lifetime limit of $1,425,960 in order to: • bridge funding while benefits are being coordinated between PIPP and other Government programs; • pay expenses which are in excess or outside of existing coverage which, if paid, will result in an equal or greater reduction in amounts payable under PIPP
Medical Report (review or appeal)	$481 per report; maximum 3 reports for review; maximum three (3) reports for appeal

COVERAGE NAME	2026 COVERAGE LIMIT
2. THIRD PARTY LIABILITY	$500,000
3. UNDERINSURED MOTORIST COVERAGE	$500,000 (ORV only)
4. UNINSURED MOTORIST COVERAGE	$500,000 (Property Damage only)
5. ALL-PERILS	
Maximum Insured Value:	
• Passenger Cars and Vans	$70,000
• Trucks	$70,000
Declared Value Range:	
• Motorhomes	Variable up to $70,000
• Motorcycles	Variable up to $70,000
• Buses	Variable up to $70,000
• Mopeds	Variable up to $70,000
• Trailers	Variable up to $70,000

COVERAGE NAME	2026 COVERAGE LIMIT
• Loss of Use for Theft of Entire Vehicle	$50 per day (plus tax) to a maximum of $1,500 (plus tax)
• Originally Installed Sound and Electronic Communication Equipment (OEM)	No limit
• Aftermarket Sound and Electronic Communication Equipment	$1,000
Deductibles:	
• Private Passenger Vehicles, Station Wagons, Vans, and Sport Utility Vehicles	$1000 (effective April 1, 2026)
• School Buses, Charter Bus, and Disabled persons/ Private/ Business Bus	$1000 (effective April 1, 2026)
• Motorcycles	$1000 Collision and Upset only (effective April 1, 2026)
• Mopeds	$300 Collision and Upset only (effective April 1, 2026)
• Trailers (declared value of more than $2,500	$1000 (effective April 1, 2026)
• Trailers (declared value of $2,500 or less)	$300

COVERAGE NAME	2026 COVERAGE LIMIT
• Vehicles for Hire (passenger vehicles up to 10 occupants; light trucks Gross Vehicle Weight (GVW) under 4,500 kilograms (kg))	$1000 (effective April 1, 2026)
• Funeral Passenger Vehicle	$1000 (effective April 1, 2026)
• Truck Tractors, Transit Buses, U-Drive Buses, Common carrier trucks/buses, and Petroleum/Chemical Trucks with Tankers, Sand/Gravel Trucks and Logging Trucks	$1500
• Farm Trucks (including Truck Tractor body style)	$1000 (effective April 1, 2026)
• Other Trucks	$1000 (effective April 1, 2026)
• All other insured vehicles not otherwise mentioned above	$1000 (effective April 1, 2026)

COVERAGE NAME	2026 COVERAGE LIMIT

Exclusions:

- There is no All Perils Coverage provided on any truck or truck tractor over 16,330 kg GVW, except farm trucks, fishing trucks, commercial truck drive-away units, dealer-plated vehicles, and repairer-plated vehicles.
- If Truck Tractor body style, the deductible is $1500 regardless of insurance use.
- City of Winnipeg Transit buses and buses that are Public Service Vehicles do not carry All-Perils coverage under the Basic program.
- Repairer-plated vehicles carry Collision & Upset only.
- Commercially Registered Trucks (CT Plated) in excess of 11,794 kg. GVW and Commercial Trucks which are operated for compensation, operating beyond 161 kilometers outside the borders of the province of Manitoba do not carry TPL or All Perils coverage under the Basic program, unless the vehicle is operating by the means of a valid singe permit or certificate issued by another jurisdiction.
- Semi-trailers have no coverage through Basic Autopac.

Appendix 2:
Table of PIPP Legislated Enhancements and Amendments

Date	Amendment/Enhancement
June 1995	Reimbursement of expenses Regulation 40/94 amended to remove limit for hair pieces and provide reimbursement of tuition fees
June 1998	IRI senior step down provisions eliminated and RIB provisions introduced
June 1998	Student lump sum indemnities amended to allow proration based on semesters within a school year for partial school years missed
April 2000	Schedule A of Regulation 41/94, specifying permanent impairments replaced in its entirety
February 2003	Regulation 34/2003 introduced specifying methods for calculating RIB
February 2003	Income determination Regulation 39/94 amended to specify self-employed earners and shareholders of Canadian controlled Private Corporations
February 2003	Reimbursement of expenses Regulation 40/94 amended to provide grief counseling coverage for survivor family members
February 2003	Schedule A of Regulation 41/94, specifying permanent impairments updated
June 2004	PIPP dispute resolution, CAO introduced
June 2004	Law and order provision expanded to include reduction of IRI, permanent impairment payments and death payments for specified criminal code convictions • Flight from police officer • Theft where the property stolen is a motor vehicle • Taking motor vehicle without consent

Date	Amendment/Enhancement
October 2004	Schedules C & D of Regulation 40/94 revised comprehensive personal care assistance assessment determination tool introduced
October 2004	Reimbursement of expenses Regulation 40/94 critical care attendance coverage introduced
June 2004	PIPP dispute resolution, allows appeals to AICAC to be heard by one commissioner or a panel of three
February 2006	Income determination Regulation 39/94 Schedule C providing a proxy of occupations and incomes updated for current statistics and reference to the National Occupation Classification for Statistics
February 2006	Reimbursement of expenses Regulation 40/94 clothing allowance introduced for repair or replacement of clothing due to excess wear and tear or alteration as result of use of a wheelchair, prosthesis or orthotic device
February 2007	Schedule B of Regulation 41/94 stating calculation of successive remainders amended
June 2009	Law and order provision expanded that reduced specified PIPP payments when claimant is convicted of specified criminal code infractions • Criminal negligence causing death while street racing • Criminal negligence causing bodily harm while street racing • Dangerous operation while street racing • Dangerous operation causing bodily harm while street racing • Dangerous operation causing death while street racing • Operating a motor vehicle while impaired. • Impaired driving causing bodily harm • Blood alcohol over .08 - causing bodily harm • Refuse to supply sample - causing bodily harm • Impaired driving causing death • Blood alcohol over .08 - causing death • Refuse to supply sample – causing death

Date	Amendment/Enhancement
October 2009	Catastrophic injury coverage introduced including defining catastrophic injures Minimum IRI payable based on industrial average wage versus minimum wage Increased permanent impairment payment Increase personal care assistance monthly maximum Introduction of a legislated coordinating authority and transitional expense coverage to bridge coordination between government programs and for special circumstances Amendment applied to Permanent Impairment Regulation 41/94 in support of determining catastrophic injuries
August 2010	Reimbursement of expenses Regulation 40/94 addition of physician assistants, clinical assistants, nurse practitioners as recognized practitioners permitting reimbursement of expenditures associated with those practitioners
June 2011	Law and order provision to eliminate access to PIPP for the following Criminal Code convictions and allow recovery of any PIPP benefits paid prior to the conviction: • Flight from police officer • Criminal negligence causing death while street racing • Criminal negligence causing bodily harm while street racing • Dangerous operation while street racing • Dangerous operation causing bodily harm while street racing • Dangerous operation causing death while street racing • Motor vehicle theft • Theft where the property stolen is a motor vehicle • Take motor vehicle without consent Applies if the claimant is convicted in a state or territory of the United States or the District of Columbia in the United States of an offence that is the same or similar

Date	Amendment/Enhancement
August 2011	Reimbursement of expenses Regulation 40/94 amended to better support continued per-accident activities and new life requirements of catastrophically injured
	Home modifications to secondary home/cottage use
	Extraordinary travel expenses
	Attendance expenses
	More than one motor vehicle adaptable and purchase of a vehicle (catastrophically injured – purchase once every 5 years)
	Biannual extraordinary cost reimbursement for recreation and leisure activities based on rating of permanent impairment ranging from $500 to $4,000 (20% to catastrophically injured)
August 2011	Reimbursement of expenses Regulation 40/94 meal allowances increased and indexing provisions added
June 2013	Reimbursement of expenses Regulation 40/94 grief counseling amount increased, grief counseling travel added and indexing provisions added
June 2013	RIB Regulation 34/2003 definition of other pension amended regarding pension splitting, and lump sum RRSP withdrawals
June 2014	Amendments specifying bodily injury caused by golf carts and other vehicles that don't meet provincial and federal safety standards for motor vehicles and cannot be registered under the Drivers and Vehicles Act cannot have access to PIPP unless a moving motor vehicle is involved in the accident
June 2014	Amendments specifying PIPP does not apply to bodily injury caused while the accident takes place on a track or other location closed to automobile traffic whether or not it is an automobile contest, race or show
June 2014	Amendment specifying recovery (subrogation) from other insurers is intended to be based on PIPP and not tort compensation

Date	Amendment/Enhancement
June 2014	Student lump sum indemnities extended to age 18 to align with Manitoba Stay in School Act (previously students could leave school at age 16).
June 2014	Catastrophically injured claimants are exempt from having residual capacity determinations applied to offset long term IRI. Also, catastrophically injured claimants who receive a reduced IRI due to post accident work will have their full IRI reinstated in event they lose their employment for any reason whether or not directly related to the accident. MPI recognized that catastrophically injured claimants face considerable barriers to obtain and sustain employment.
June 2014	Nondependent death payment increased and indexing added
June 2014	Amendment to specify care giver weekly indemnity may apply to persons regularly incapable of employment or over age 65 without employment but whose main occupation at the time of the accident was the care of dependents without remuneration. For clarity, no entitlement to an IRI or RIB is created because of this amendment.
March 2015	Reimbursement of expenses Regulation 40/94 amounts increased and indexing provisions applied for the coverages: • Critical care attendance • Clothing allowance • Reimbursement for medical reports in support of review and appeals
May 2015	Regulation 41/94, specifying permanent impairments medical terminology updated to provide more specific permanent impairment determinations
June 2015	Death payments amended to extend care giver weekly indemnities to survivor caregiver where the deceased's main occupation was the care of dependents without remuneration

Date	Amendment/Enhancement
November 2015	Clarified that an automobile injury compensation appeals commissioner, other than the chief commissioner, is appointed for not more than three years and continues to hold office until reappointed or replaced.
September 2018	Law and order provisions (S. 161(1)) that reduce entitlement to compensation under PIPP amended to include several new Criminal Code offences related to driving while impaired by drugs, including cannabis. Also modernized the provisions that deal with drug and alcohol impaired driving.
December 2018	Law and order provisions (see June 2011) to eliminate access to PIPP are amended as follows (street racing offences removed from the Criminal Code*): Flight from police officer Motor vehicle theft Theft where the property stolen is a motor vehicle Take motor vehicle without consent *Street racing remains an offence under The Highway Traffic Act
April 2021	The PIPP indexation year was changed to align with the change to MPI's fiscal year. The 2020-2021 indexation year will begin March 1, 2020 and end March 31, 2021. Future indexation years will begin April 1 and will end on March 31.
April 2023	Beginning April 1, 2023, there are two PIPP benefits which are now indexed based on the CPI factor, which were not previously indexed: • Maximum reimbursement for a permanently impaired claimant who engages in Leisure or Recreational Activities is $4,240 (previously: $4,000, non-indexed) • Maximum indemnity for acquisition of a motor vehicle by a catastrophically injured claimant is $53,000 (previously: $50,000 non-indexed)

April 2024

The MPIC Act has been updated, effective April 1, 2024, to reflect the following:

- The corporation is not required to pay benefits to a resident of a jurisdiction other than Manitoba if there is an interjurisdictional agreement that exempts the corporation from providing benefits to residents of that jurisdiction
- Currently, a person 65 years or older is entitled to an income replacement indemnity only if they are employed at the time of the accident. The entitlement is broadened to also apply if the person has a reasonable expectation of employment (i.e. a job offer or a history of seasonal, casual or temporary employment)
- The corporation is authorized to pay funds in trust to a person to manage on behalf of a person with impaired cognitive functioning, even if no formal committee or substitute decision maker has been appointed for the person
- The corporation's ability to recover overpayments is strengthened. The corporation has the authority to recover payments made on behalf of a person (e.g. paid to a third-party service provider), to which the person was not entitled

June 2026

The MPIC Act has been updated, effective June 1, 2026, to reflect the following:

- Amendments are made to expand coverage for counselling services. A person who witnesses a serious accident or is a family member of a person seriously injured in an accident is now entitled to reimbursement of expenses incurred for counselling. Regulations are required prior to coverage being provided.

Subject: We Want to Better Support You: Survey Opportunity for Corporate Customers

Hello,

Manitoba Public Insurance (MPI) is providing this survey to gather your feedback about your experiences with MPI as a corporate customer. Your feedback will help us review potential changes to the program and evaluate your overall experience with us. This survey is voluntary and should take less than 10 minutes to complete.

All feedback that you provide will remain confidential and will only be combined and reported with that of others. To further ensure your confidentiality, please do not provide any self-identifying information in your responses, such as your name. None of the survey feedback you provide today will be placed on your customer file.

We ask that the person to complete this survey be the person responsible for your business or organization's corporate vehicles.

Please click on the following link to complete the survey. If you click on the following URL and it appears to be broken, please copy and paste it into a new browser window. $$url$$

Thank you for your continued partnership,

Customer Experience & Insights

How to Verify this Email

We understand that as a customer you may have questions about the authenticity of this email. If you have any questions or concerns, we encourage you to use the following resources to verify that this email is from Manitoba Public Insurance:

MPI Website:

Visit the Customer Surveys page on the MPI website to verify this survey and for an FAQ about our surveys: https://www.mpi.mb.ca/customer-surveys/

MPI Customer Insights Email Inbox:

You may contact MPI's Customer Insights team directly at MPIResearch@mpi.mb.ca.

MPI Contact Centre:

If you are unable to verify this email online, you may call the MPI Contact Centre at the following numbers to address any questions or concerns. These numbers can be verified online at the MPI website or by checking the Yellow Pages: in Winnipeg: 204-985-7000; Toll Free: 1-800-665-2410; Deaf Access TTY/TTD: 204-985-8832.

[Email Reminder]

Subject: Reminder - We Want to Better Support You: Survey Opportunity for Corporate Customers

Hello,

Recently you received an email invitation to participate in a survey about your experiences with Manitoba Public Insurance as a corporate customer. In case you missed the original message, we are following up to make sure everyone interested has the opportunity to participate. Your feedback will help us review potential changes to the program and evaluate your overall experience with us.

If you do not want to participate, no action is needed; we won't be reminding you about this again. This survey is voluntary and should take less than 10 minutes to complete. All feedback that you provide will remain confidential and will only be combined and reported with that of others.

We ask that the person to complete this survey be the person responsible for your business or organization's corporate vehicles.

Please click on the following link to complete the survey. If you click on the following URL and it appears to be broken, please copy and paste it into a new browser window. $$url$$

Thank you for your continued partnership,

[Intro screen]

Manitoba Public Insurance (MPI) is providing this survey to gather your feedback about your experiences with MPI. Your feedback will help us to better serve all Manitobans. The survey is voluntary and should take less than 10 minutes to complete.

All feedback that you provide will remain confidential and will only be combined and reported with that of others. To further ensure your confidentiality, please do not provide any self-identifying information in your responses, such as your name. None of the survey feedback you provide today will be placed on your customer file.

We ask that the person to complete this survey be the person responsible for your business or organization's corporate vehicles.

When you are ready to begin the survey, click the "Start" button below.

[Start]

Customer Type

SurveyPreamble. In this section, MPI would like to collect your feedback on your experiences as a corporate customer. This starts with some initial questions that are optional and help us to better understand everyone's responses. If you do not want to provide this information, please select "Don't know/not sure". Any responses you provide are confidential.

OrganizationPosition. [Grouped to survey preamble] Please indicate the following options that best describe your position within your business/organization.

Please select all options that apply:

- Business owner
- Business manager
- Chief Financial Officer or business executive
- Administrator of fleet vehicles
- Other (specify)
- Don't know/not sure

FleetSize. [Grouped to survey preamble] How many vehicles does your business insure with MPI for most of the year?

- One or two
- Three or four
- Five or six
- Seven to nine
- Sometimes 10 or more
- Don't know/not sure

VehiclePurposeBusiness. [**Grouped to survey preamble]** Please select the following options that best describe the business/organization you operate:

Please select all that apply.

- Contractor/construction/gravel
- Farm
- Dealer (car/truck sales)
- Government/social services
- Automotive repair
- Transportation/trucking
- Manufacturing
- Distribution
- Car/truck rental
- Delivery courier
- Arts, entertainment

- Retail
- Daycare/childcare
- Non-Profit Organization (please specify)
- Other (specify)
- Don't know/not sure

FleetUse. [Grouped to SurveyPreamble] Please indicate which of the following options best describes how your corporate vehicles are used.

Please select all that apply.

- Customer visits/sales calls
- Transporting goods/equipment
- On-site work
- Employee commuting
- Transporting persons for compensation
- Seasonal or part-time use
- Other (please specify)
- Don't know/not sure

DriversInFleet. [Grouped to SurveyPreamble] How many drivers do you have for your corporate vehicles?

- Sole operator (one)
- Two to three
- Four to Five
- Six to 10
- 11 to 20
- 21 to 30
- More than 30
- Drivers vary continuously due to business
- Don't know / not sure

DriversAssigned. [Grouped to SurveyPreamble] Which of the following options best describes how your corporate vehicles are used by drivers?

- One driver per vehicle
- A few drivers share the same vehicles
- Many drivers share the same vehicles
- The drivers using each vehicle(s) vary day-to-day due to business need (i.e., car rental, car co-op, etc.)
- Don't know / not sure

FleetSafetyPractices. [Grouped to SurveyPreamble] MPI encourages corporate customers to share in the focus on safety. In the question below, we are interested to know whether your business/organization uses any of the following vehicle safety practices. **[Multiple select]**

Please select *all* that apply:

- Obtain driver abstracts before hiring drivers
- Review Driver Safety Rating (DSR) Score for prospective and current drivers
- Follow a specific vehicle safety program
- Follow a routine maintenance schedule for corporate vehicles
- Indoor or covered storage of vehicles at place(s) of business
- Security for the storage lot / compound
- Vehicle tracking / GPS vehicle tracking / telematics
- Other (specify)
- None of the above **[N / A]**
- Don't know / not sure **[N / A]**

SafetyReviewAbstracts. [Grouped to SurveyPreamble] After hiring, how often are driver abstracts reviewed for drivers using your corporate vehicles?

- Only when a driver is initially hired
- Monthly
- Every 3 months
- Every 6 months
- Once a year
- Other (specify)
- Never
- Don't know/not sure

SafetyMinimizeClaims. [Grouped to SurveyPreamble] Has your business/organization taken steps to minimize claims or losses across your corporate vehicles?

- Yes
- No
- Don't know / not sure

SafetyMinimizeClaimsSpecify. [If SafetyMinimizeClaims = Yes; Grouped to SurveyPreamble] Please specify the steps your business/organization have taken to minimize claims or losses across your corporate vehicles.

[Open-end text]

ClaimsExperienced. [Grouped to SurveyPreamble] In the past two years, how many MPI claims have you experienced with your corporate vehicles?

Please note, this information is for *research purposes only* and will not be associated with your customer file

- No MPI claims in the past year
- One to two MPI claims
- Three to four MPI claims

- Five or more MPI claims
- Don't know/not sure

ClaimsExperiencedPastFive. [If ClaimsExperienced = No MPI claims in the past year/Don't recall/Not sure] In the past five years how many MPI claims have you experienced with your corporate vehicles?

- No MPI claims in the past year
- One to two MPI claims
- Three to four MPI claims
- Five or more MPI claims
- Don't know/not sure

InsuranceModelDescription. In this section, we would like to collect your feedback on your experiences with MPI as a corporate customer, including the current insurance MPI offers for your business or organization's vehicles.

ModelUnderstanding. [Grouped to InsuranceModelDescription] As a corporate customer, I have a strong understanding of how the insurance for my corporate vehicles works.

- 1: Strongly Disagree
- 7: Strongly Agree
- Don't know/not sure

ModelFairness. [Grouped to InsuranceModelDescription] The way that MPI determines insurance premiums for my corporate vehicles is fair.

- 1: Not at all fair
- 7: Completely fair
- Don't know/not sure

ProgramMeetsNeeds. [Grouped to InsuranceModelDescription] Overall, MPI's current approach to insure my corporate vehicles effectively meets all my needs.

- 1: Doesn't meet my needs
- 7: Meets all my needs
- Don't know/not sure

Item30SatisfactionAdmin. [Grouped to InsuranceModelDescription] Overall, as a corporate customer, how satisfied are you with your experience with MPI?

- 1: Very dissatisfied
- 7: Very satisfied
- Don't know/not sure

Advocacy. [Grouped to InsuranceModelDescription] How likely are you to say good things about your experience as an MPI corporate customer if you were discussing your experience with friends, family or colleagues?

- 1: Not at all likely
- 7: Very likely
- Don't know/not sure

DiscountModelPreferences. MPI is looking at the possibility of applying a discount/surcharge program for corporate customers with less than 10 eligible vehicles and is seeking your feedback to understand whether this type of program would be valuable to your organization.

Currently, your corporate vehicles do not receive discounts on your annual premium (the amount you pay) and are not subject to surcharges (additional amounts owed) based on your corporate vehicle claim history.

A new program would change that. Each year, your premium may increase or decrease depending on your corporate vehicle(s) claims history:

- If your business/organization has a good claims history for the year, your business/organization could receive a discount at renewal, lowering your annual premiums.
- If your business/organization has a poor claims history for the year, no discount would be given and a surcharge could be applied, which would increase your annual premium.

The following series of questions is intended to gather your feedback on a possible discount/surcharge program:

ModelPreference. [Grouped to DiscountModelPreferences] How interested would your organization be in a discount/surcharge program based on your annual claims history?

- Not at all interested (stay with current model)
- Somewhat disinterested
- Neutral
- Somewhat interested
- Very interested
- Don’t know/not sure

DiscountProgram. [Grouped to DiscountModelPreferences] Would the potential for a premium discount or surcharge under a new model motivate your organization to invest more in driver and/or vehicle safety?

- No
- Possibly
- Yes
- Don’t know / not sure

BusinessChallenges. [Grouped to DiscountModelPreferences] As a corporate customer, what challenges does your business or organization face with the current insurance coverage on your Corporate vehicles?

- I have something to share
- I do not have something to share
- Don’t know / not sure

BusinessChallengesSpecify. [If BusinessChallenges = Yes – I have something to share; Grouped to DiscountModelPreferences] Please specify:

[Open-end text]

ModelChanges. [Grouped to DiscountModelPreferences] What changes could be made to the insurance coverage for your corporate vehicles to better support your business/organization's needs?

- I have something to share
- I do not have something to share
- No changes necessary (don't change anything)
- Don't know / not sure

ModelChangesSpecify. [If ModelChanges = Yes – I have something to share; Grouped to DiscountModelPreferences] Please specify:

[Open-end text]

[Conclusion]

Those are all the questions, thank you for your time! Your feedback is important for making improvements to our products, services, and policies.

When you are ready, please click "Submit" below to conclude this survey.

Comparison of Basic Policies to other Jurisdictions

2027 General Rate application

June 24 2026

Table of Contents

Comparison of Basic Policies to Other Jurisdictions **3**
CBP.1 Automobile Insurance in Canada **3**
CBP.1.1 Ontario Automobile Insurance Reform 5
CBP.1.2 Alberta Automobile Insurance Reform 6
CBP.2 Public Insurance in Manitoba **7**
CBP.3 PIPP Benefits Often Exceed Other No-Fault Plans **8**
CBP.4 Biennial Filing of CBP Chapter **10**
CBP.5 The Comparison of MPI Basic Insurance Coverage to other Provinces **10**

Comparison of Basic Policies to Other Jurisdictions

CBP.1 Automobile Insurance in Canada

In Canada, the frameworks of automobile insurance differ from province to province. Automobile insurance systems are comprised of a combination of the following design considerations, depending on the objectives of the system:

- Compulsory (mandatory)[1] vs. Optional insurance
- Public (government) Insurance vs. Private Insurance
- Tort vs. No-Fault bodily injury compensation

All provinces in Canada mandate a minimum level of compulsory automobile insurance:

- In provinces with a public insurance provider, compulsory insurance is provided by the public insurer (optional insurance, to supplement the compulsory insurance, may be offered by the public insurer, in competition with private insurance companies)
- In most provinces, $200,000 Third Party Liability is compulsory.
    - Exceptions: Québec $50,000; Manitoba and Nova Scotia $500,000
- In most provinces first-party accident injury benefits is compulsory
    - Exception: Newfoundland and Labrador

[1] Compulsory (mandatory) insurance is the minimum level of automobile coverage that is legally required to operate a motor vehicle in a province. Compulsory insurance coverage typically includes liability coverage, personal injury protection/first-party accident benefits, and uninsured/underinsured motorist coverage.

- First-party property damage coverage is compulsory in Saskatchewan and Manitoba
- All provinces mandate uninsured motorist coverage (to protect against injury caused by uninsured at-fault motorists)

In Manitoba, Saskatchewan and British Columbia, compulsory insurance is provided through provincial government insurers; Manitoba Public Insurance (MPI), Saskatchewan Government Insurance (SGI), and The Insurance Corporation of British Columbia (ICBC). Optional coverage can be purchased through the provincial government insurer, or through private insurance providers. In British Columbia, coverage for first party physical damage is optional.

- Manitoba operates a no-fault compensation system for bodily injury, which removes the right to sue an at-fault motorist in exchange for a comprehensive package of bodily injury benefits administered by the public insurer.
- Saskatchewan provides a no-fault system for bodily injury, which removes the right to sue for non-economic loss (pain and suffering). However, it does afford the right to sue for economic loss in excess of first party benefits (Saskatchewan consumers have a choice between no-fault and tort; however, the vast majority retain the default no-fault insurance).
- British Columbia moved to a no-fault model, under a new Enhanced Care Accident Benefits plan, effective May 1, 2021. The plan is comparable to those in other no-fault provinces, including Manitoba, and similarly removes the ability to sue for injury compensation, in most cases.
- Québec has a hybrid automobile insurance system. The provincial government insurer provides no-fault public compulsory injury coverage, while private insurers provide compulsory Third-Party Liability, and optional first party physical damage coverage.

All other provinces and territories (Alberta,[2] Ontario, New Brunswick, Nova Scotia, Prince Edward Island, Newfoundland and Labrador, Northwest Territories, Nunavut, and Yukon) operate under private insurance regimes with tort compensation access.

Most tort jurisdictions require private insurers to provide a level of no-fault accident benefits ranging from $10,000 to $50,000 (except for Newfoundland and Labrador where accident benefits are optional). Where injuries are deemed minor, tort awards are usually capped at a maximum amount, and a deductible may apply.

In Ontario, the right to sue for non-economic losses (pain and suffering) is subject to a variable severity threshold (regarding the severity of the injuries) and a deductible; but the option to sue is available for economic losses in excess of first party benefits.

The Comparison of MPI's Basic Insurance Coverage with other Provinces (see *CBP.4*) provides a detailed assessment of MPI's plan in relation to provinces with public, compulsory, automobile insurance, as well as in provinces with no-fault or an enhanced degree of no-fault accident benefits (injury coverage). The five Canadian jurisdictions compared are Manitoba, Saskatchewan, British Columbia, Québec and Ontario.

CBP.1.1 Ontario Automobile Insurance Reform

The Ontario government has amended the Statutory Accident Benefits Schedule (SABS), effective July 1, 2026.[3] Under the amendments, medical, rehabilitation, and attendant care benefits will remain mandatory under the no-fault accident benefits system, while all other accident benefits will become optional. The Regulation will

[2] The Alberta government is planning to replace its current auto insurance system with a new "Care-First" model, starting January 1, 2027. The new model will provide enhanced benefits without the need to sue. The benefits provided will be more comparable to those provided in the public insurance regimes. However, the benefits will continue to be delivered via private insurance. See Section *CBP 1.2 Alberta Automobile Insurance Reform* for details.

[3] https://www.ontario.ca/laws/regulation/100034

also be amended to make automobile insurance policies the first payor for medical and rehabilitation benefits (excluding medications), reversing their prior role as a secondary payor.

No-fault benefits that will become optional include the Income Replacement Benefit, Lost Educational Expenses, Death Benefits, Funeral Expenses, Housekeeping and Home Maintenance Services, the Caregiver Benefit, replacement of prostheses and orthoses that are lost or damaged in an accident, clothing allowance for clothing damaged in the accident, and visitor expenses incurred during treatment or recovery.

Tort actions will remain available for economic losses that exceed accident benefits, as well as for non-economic losses, subject to the applicable threshold and deductible.

These changes further differentiate Manitoba from Ontario and make it less of a comparable market for MPI's automobile insurance.

CBP.1.2 Alberta Automobile Insurance Reform

The Alberta government is replacing its current automobile insurance system with a new, privately delivered, care-focused ("Care-First") model, which is expected to be implemented by January 2027.[4]

Legislation to implement these changes was introduced on March 24, 2025, and passed on May 15, 2025. Bill 47, the *Automobile Insurance Act*,[5] establishes the framework to support the implementation of the Care-First automobile insurance

[4] https://www.alberta.ca/enabling-better-auto-insurance
[5] Bill 47 Automobile Insurance Act:https://www.assembly.ab.ca/assembly-business/bills/bill?billinfoid=12072&from=bills

system.[6] Alberta's government will consult with health care and insurance representatives on key operational elements of the Care-First model. Regulations to implement the changes are being released in stages throughout 2026.

The goal of the new Care-First system is to provide better and faster access to care for Albertans involved in automobile collisions. It also intends to make automobile insurance more affordable, by minimizing the litigation costs that have contributed to the increase in accident benefit costs (and thus, an increase in insurance premiums) over the past decade.[7]

The Care-First system will focus on providing improved medical, rehabilitation, and income support benefits for all Albertans injured in a collision, without the requirement to sue for compensation.

The right to sue for pain and suffering will be limited to cases where an at-fault driver is convicted of a serious offence. Injured parties can still sue for out-of-pocket expenses exceeding policy coverage.

CBP.2 Public Insurance in Manitoba

Public insurance in Manitoba was created to provide a more equitable and accessible automobile insurance environment for Manitobans. Basic compulsory public insurance provides Manitobans with, among other things:

[6] Proposed changes would establish the benefits Alberta drivers may be entitled to if they are injured, under what conditions they could sue the at-fault driver and how Albertans can appeal care and treatment decisions made by their insurance company.

[7] The Insurance Bureau of Canada has launched 'BetterAutoAlberta.ca,' a new website aimed at helping Alberta drivers understand the province's incoming 'care-first' auto insurance system.

- Unlimited comprehensive medical and rehabilitation coverage based on proven needs (see *CBP.3* for details);
- First-Party physical damage coverage with a Maximum Insured Value of $70,000; and
- Affordable rates (premiums) that are stable and predictable. In a public insurance regime with no-fault injury benefits (and no right to sue), claims costs are stabilized, predictable and controlled, resulting in more comprehensive benefits and affordable premiums.

Overall, Manitoba's public insurance system, combined with a no-fault injury scheme, provides the best value for Manitobans in terms of comprehensive coverage with comparatively affordable rates.

Please see *Part III BAC Appendix 1 - Basic Autopac Coverage and Benefits* for a summary of Manitoba's comprehensive automobile insurance coverage and benefits.

CBP.3 PIPP Benefits Often Exceed Other No-Fault Plans

MPI's Personal Injury Protection Plan (PIPP) offers some of the most comprehensive, universally accessible automobile injury coverage in Canada, while maintaining compulsory insurance rates among the lowest in the country for comparable coverage and service. Most benefits provide unlimited coverage with no expiry, based on medical need and proven disability.

PIPP Medical and Rehabilitation coverage in Manitoba is unlimited, in comparison:

- SGI has a maximum limit of $8,524,604.

- Ontario has a $3,500 limit for minor injuries, a $65,000 limit for non-minor/non-catastrophic injuries and a $1,000,000 limit for catastrophic injuries.

In addition, PIPP provides enhanced benefits for catastrophically injured claimants that is among the best coverage within the four no-fault provinces (Manitoba, Saskatchewan, Québec, and British Columbia). Enhanced coverage for catastrophically injured claimants includes:

- Enhanced Income Replacement Indemnity
- Enhanced Personal Care Assistance
- Enhanced Permanent Impairment
- Transitional Expense Coverage for special circumstances based on demonstrated need.
- Modifications to the main or secondary home, due to health or family circumstances.
- Extraordinary travel and accommodation costs, including attendant costs.
- Attendant care to engage in employment.
- Motor vehicle acquisition and adaptation.
- Support for participation in leisure and recreational activities.

PIPP is monitored and reviewed regularly to ensure that it remains among the most supportive plans in Canada for victims of automobile accidents. Please refer to section *CBP .5* of this chapter for a comparison of MPI coverages to other jurisdictions.

CBP.4 Biennial Filing of CBP Chapter

Going forward, MPI intends to prepare and include in its General Rate Application the Comparison Basic Policies (CBP) chapter every second year, rather than annually. This chapter is largely comparative and descriptive in nature, and the legislative, product, and market developments in other jurisdictions do not typically change materially from one year to the next. This adjusted frequency seems a proportionate cadence considering the nature and pace of change in the information being reported. Moreover, the proposed biennial approach aligns with the filing expectations of the Public Utilities Board (PUB) on this issue, supports regulatory efficiency, and reduces labour and preparation effort associated with reproducing similar content in each application. This approach will allow MPI to provide the PUB with relevant and sufficiently current information, while also allowing MPI to focus resources on chapters where annual updates are required. MPI will continue to identify and report any material inter-year developments, where necessary, through other filings or updates.

CBP.5 The Comparison of MPI Basic Insurance Coverage to other Provinces

The following table provides a detailed comparison of the basic compulsory insurance benefits of five Canadian jurisdictions.

MANITOBA PUBLIC INSURANCE
COMPARISON OF BASIC POLICIES: 2026-2027 INSURANCE YEAR
